THE MORNING OREGONIAN, FRIDAY, JUNE 12, 1903.

Except for Westbound traffic, railroad passengers are not beginning their jour-neys from the Union Station during the food, but are starting from various points on the Illinois side of the Mississippi. Western passengers from St. Louis are gradually resuming normal condition. There are still delays and irregular run

2

There are still delays and irregular run-ning, but all Western-bound trains of the various lines are moving. The Missouri Factife, which is the only line running through Kanmas City and other points on its own track, is practic-ally making schedule time. The Mis-souri, Kansas & Texas is running on the Missouri Facific to Sedalla, where it con-nects with its own tracks. The Wabash is running on its own track to Moherly, and then uses the Missouri Facific tracks. For the first time in a number of days the Wabash last night started out a through sleeper to New York. The sleep-er was routed to Moherly, and then on to the Eart. Exclosure file housens to through sheeper to New York. The sleep-er what routed to Moberly, and then on to the East. Eastbound traffic, however, is facing a different situation. Passengers for the Chicago & Alton, Burlington, Big Four and Wabash will find their trains at Alton after arriving at Alton by beat. The Baltimore & Ohio Southwestern starts its trains from Cone Station, which is reached by street-car from East St. Louis. The Vandalla passengers take the street-car from East St. Louis to Collinsville, where an accommodation train will carry them to Effingham, where they will connect with

Mandain. Passengens for points South on the Illinois Central go to Belleville, Ill., by street-car and catch their trains. No ter-minus for the Mobile & Ohio road has been arranged yet, and no traffic is going out over that road from here.

dering police dury." East St. Louis is rapidly regaining por-mal conditions in the business districts not under water, although it will be weeks before the effect of the flood is offset. Only accredited citizens are al-howed to pass into or from the city with-out a special neural. It is immossible to ut a special permit. It is impossible to set water today except on an official order signed by the City Clerk. This measure was taken by the Mayor this morning in order to prevent order to prevent waste of the scant sup-ply of usable water. Water is still seep-ing through Brondway, but that ther-oughfare, which is made ground, still holds, and it is believed will not break.

STATE WANTS TO EXCHANGE LAND. Colorado Destres Government to Control the Water Supply,

100

OREGONIAN NEWS BUREAU, Washington, June 11 .- The Interior Department has been confronted with a proposition from the State of Colorado which it would like to accept, but it is believed the Secretary has no authority to act. Colorado owns 509,000 acres of timber land, which it offers to convey to the Government in exchange for an equal area of vacant public

agricultural lands, Colorado wants the Government to take the timber lands for the purpose of converting them into a forest reserve, not because the timber is valuable, but because water is becoming scarcer and more valuable in Colorado each year, and it is agreed that the Government can better protect the water supdum of a decision granting the plaintiffs the right to inspect the agreement of set-tioment executed in August last, and by which Mrs. Hannah Nelson, mother of Mrs. Charles L. "Now, I have worked in fully half the states in the Union, in town and in country. The head of the kind of farmer I'm thinking of may be well sup-plied with hayweed and barn dust, but the half is generally very allky and well the hair is generally very sliky and well nourished.

"No, I don't believe that dust or seeds are good for the hair. Don't make any mistake there. But I am sure that the continual washing of the scalp is about the worst thing possible for the roots of the hair. Now, gentlemen think nothing of taking a bath every day. Some use a little ammonia in the water to soften it. Most of them make sure of a clean It, anose of them make sure of a crean scalp by using soap. The effect upon the head is the same in both cases. The natural oil, which ought to exist about every healthy scalp, is completely re-moved. And that just starves out the roots of the hair as really as though you wash a hilp bulb clear of its soil and set it to grow on that slab

wash a lily bulb clear of its soil and set it to grow on that elab. "Pomatum! Say, I can sell you cheap as you can buy anywhere pretty nearly every kind used in the profession! Maybe they are pretty good: most of them, any-way. But no maker has yet claimed to have discovered a hair preserver quite as good as the natural cli which you find short the heads of healthy roung chilas good as the natural cit which you has about the heads of healthy young chil-dren, for instance. If I could discover just how to make that and how to apply it I could strike a fortune in no time. It I could strike a fortune in no time Now, the back-country farmer I am talk ing about washes his head maybe twice

ing about washes his head maybe twice or ihree times a year; that is, in thrash-ing time or when he takes a dip in the creek. And you see the result. "Then there's another thing to remem-ber. The farmer lives pretty much by physical labor. That means he does not, as a rule, overheat his head by planning and thinking. Ike the city man, or the rest who get their living by their brains. Such men dry up all the natural oil springs nature stuck about the head by their inside heat. We find when we cut it that their hair is quite crisp and hard, what there is of it."

"Then your advice would be, 'keep cool and let your hair grow,' as the boys used to say ?"

Sure, and, more important still, never wash your head with anything which will make a lather unless you are obliged to. wash your need these you are obliged to. make a lather unless you are obliged to. If you have to, be sure you wash all the lye and ammonia and such like well out of the scalp with water to give the oll a chance to do its best.

ROSEBERY WILL NOT LEAD

He Refuses the Call of the Liberal Party to Duty.

LONDON, June 11 .- Speaking in London tonight, the Earl of Rosebery said he had been invited in terms of almost tender elequence to reassume the leadership of the Liberal party. To that he could only say he had been a leader in the Liberal party before, and had a very vivid recollection of that experience.

RUSSIA WANTS TO BE LET ALONE. It Will Book No Interference for

Jews, nor Accept American Aid.

WASHINGTON, June 11 .- Numerous offors have reached the Russian government from American sources to ald families of sufferers in the recent Kishinet incident. All such offers have been declined for the reason that Russia is entirely capable of extending rollef and under the circum-stances cannot accept outside aid. The Russian position in the matter as stated to the Associated Press is in brief as circum-

follows: Russia has not been unappreciative of the generous offices which have come to her from America since the attack on Kishinef nor the humane motive which may have prompted these offers. In view of the fact that His Majesty, the Emperor, has the means at hand to relieve suffering

wherever it appears in his empire, out-side help is not necessary, and all such offers must be declined. Nor will it be possible for Russia to receive any repre-sentations regarding the Kishinef inci-

dent from a foreign power. "The Russian government takes the eame position as that long held by the American Government that it refrains from interference in the internal affairs of another power and must insist on sim-liar treatment for itself. Should any for-eign power take steps to restrict immigration of Russian Jews on the ground that they are undesirable, Russis will not protest. She admits the right of every na-tion to say who shall come through its gates and who shall not. Should any actes and who shall not. Should any country, as a result of the Kishine's affair, adopt rules restricting immigration of Russian Jews, Russia will regard such as a step only as a defeasive measure on the part of the power taking it and not in the light of a reflection on the Russian gov-

TURKS TO RELEASE CAPTIVES.

Bulgaria is Meeting With Success in Macedonian Negotiations.

Macedonian Negotiations. LONDON, June II.-According to the Times correspondent at Softa, the Sultan of Turkey has decided on the speedy re-lease of 1600 Bulgarians, who are still de-tained in various prisons in the Uskub-villas and monastir. This decision and the partial militation of the Turkish severities in Macedonia is believed to be directly at-tributable to the mission of M. Natche-vica, ex-Bulgarian Minister of Finance, who went to Constantinciple at the end of May with the sanction of Bulgarian government to endeavor to pave enough. Dr. De Soto says that his ambition is to found a free medical college, with its attendant conveniences, and to estab-lish a charity home for working girls where foom and hoard may be had at the

least possible cost. Several years ago Dr. De Soto met Ha-tecker in Seattle for the first time. Habecker was preaching on street corners. From that time they besame fast friends and have been associated since in both business and charity. De Soto came here a poor man, and his ministrations to the sick and fallen were looked upon some-what suspiciously. Success that has finally crowned his work has brought to him the confidence of the entire public. Up to the first of the present year 3000 persons have been cared for in the Wayside Mission Hospital in addition to many thousands of others who found free lodging and free food in the Wayside Mission lodgings.
