BOARD OF WOMEN

Will Be Appointed to Manage Women's Exhibit.

ALL MUST BE STOCKHOLDERS

Lewis and Clark Fair Directors De cide Question, but Acting President Scott Will Know No Cliques-Stock May Be Sold,

A board of lady managers will probably be appointed for the Lewis and Clark Fair at a special meeting of the board of di-rectors to be held next Friday after-noon. Neither the personnel of the board ner the number of members has been de-cided upon, but when the matter was brought up at yesterday's meeting of the directors. Acting President H. W. Scott stated he would be ready to make the

appointment next week.

Under the by-laws of the Lewis and Clark Corporation, the members of the board of lady managers must be stockholders. Already a large number of noisers. Aireasy a large number of prominent Portland women own stock, but it is believed some of those who might serve with distinction on the board are at present ineligible on account of the fact that they have no stock holdings. It may be that such will qualify themselves price to Saturday for the believes selves prior to Saturday, for the by-laws permit of small stock holdings, and the outlay of money would not necessarily be

heavy.

The sentiment expressed at the directors' meeting yesterday afternoon, and con-curred in by President Scott, was that no recognition could be given to cliques or factions. The appointments to the board must be made, it was insisted, solely on the ground of fitness. Executive ability and a thorough familiarity with the subjects that will be referred to the

board are of prime importance.

As a matter of fact, not even the directors themselves know who are eligible to be named on this board, and so the matter is entirely "in the air." Secre-iary Reed was instructed last night to prepare a list of those women who own stock in the corporation and refer the list to President Scott, who must make the appointments. At the same time President Scott called upon the directors to make recommendations to him, and assured the members that he would not

Authority Is Ambiguous.

The authority for the appointment of the board of lady managers is given the president by section is of article 7 of the by-laws. This section recites the author-ity of the president to appoint select com-mittees for special purposes, by and with the approval of the board of directors. such committees to serve until their duties are discharged. Continuing, this section

This includes authority to appoint a board of women managers from among women who are stockholders at such time as, within the judgment of the president, a reason exists for the ap-pointment of such board. The management of all matters pertaining to wom-en's work and women's participation in the Exposition shall be vested entirely in a select committee of three, to be appointed by the president."

The beard informally discussed the seaning of the section relative to the oppointment of the committee of three, and decided this had reference to the committee on women's work already chosen. It was not questioned, however, that the president has the authority to name another committee for that purpose should he choose to do so.

The question of an appointment of a and of lady managers was brought up the request of F. Dresser, a member board of lady managers and member of the request of F. Dresser, a member of the committee op women's work. Mr. Dresser called attention to the fact that an unpaid bill of Sio for hall rent was left from the meetings of the Lewis and Clark Women's Clubs, called by Chairman Cooper, of his committee. This was ordered paid from the Fair funds. Then Mr. Dresser wanted to know who would have charge of the women's work, and have charge of the women's work, and whether he could assure any of the women's work, and whether he could assure any of the women's work, and the could assure any of the women's work, and the could assure any of the women's work and the could assure any of the women's work and the could assure any of the women's work and the could assure any of the women's work and the could assure any of the women's work and the could assure any of the women's work and the could assure any of the committee. This was ordered paid from the Fair funds. Then the could assure the could assure the could be committee. The was constant the could be committeed to the c asked whether he could assure any of the organizations that they would be favored. A reading of the by-laws showed that a special board should be ected from among the stockholders o the corporation.

Neither Faction Will Prevail.

The appointment of this board will set at rest all the contests that have been made for control of the women's department of the Fair work. This contest has been on ever since the first Lewis and Clark women's club was organized, and has led to friction between the regar organizations of federated clubs and the special Lewis and Clark associations. During the fight for control, the fed-erated clubs have appealed to the Fair ors to name a committee from their

number to take entire charge of won on's work, and the state Lewis an imber to take charge coarge of wom-its work, and the state Lewis and lark clubs have made a similar ap-eal, the latter holding that, by reason f their special organization, they were

entitled to the preference.

The by-laws clearly show that the Fair officials cannot make any appointments for this purpose on the ground of association with any club or organization. The appointments must be made from the list of stockholders, and the determination to make fitness the test will prevail. No intimation has been given of the size of the board, and this is evidently discretionary with the president.

A suggestion was made vertexion that A suggestion was made yesterday that

a board to consist of 50 members be named. Objection was raised on the ground that this would be an unwisidy body, and the proposal was not insisted about, and the proposal was not insisted upon. Another suggestion that was re-ceived without comment was to the effect that the directors request women fitted to take charge of the work to take stock in

fear has been expressed that the board of managers, necessarily small in numbers, may not be able to include all the women deserving of appointment. So far as possible, this difficulty will be over-

The meeting next week, at which the appointments are to be announced, is to be held for the purpose of enabling a special committee, hended by Dr. Talbert, to present plans for making a proper display of the result of educational and historical researches.

Must Corporation Tax Be Paid?

The directors spent considerable time to the effect that the corporation tax of \$100 per annum would have to be paid by the Fair association. The mat-ter was finally referred to the committee legislation, with authority to act,

During the discussion, both Judge Rufus Mallory and W. D. Fenton held that, while the law might technically bind the Lewis and Clark corporation to pay the fees, yet the exemption under the act could be secured by showing the educational and scientific purposes of the corporation. It was proposed to pass a resolution declaring that it was not the intent of the corporation to make a profit-and another suggestion was made that the articles of incorporation be so amend-ed as to indicate better the purposes of

None of the attorneys on the board was prepared to render an off-hand opinion relative to the standing of the corpora-tion, and that is the principal reason why

the committee on legislation will wrestle with the problem.

There was a strong sentiment in favor of paying the first year's tax. Under the law a corporation that does not comply with the act loses its standing in court,

and can enforce no contracts. Yet, should the first year's fax be paid, the corpora-tion might be embarrassed when the time for a second payment arrived and the Lewis and Clark Centennial had taken a

position that exempted it from the provisions of the new law.

The fax will not, in any event, become delinquent until July, or, as some hold, until August, so there is plenty of time for the committee to look into the matter and determine upon a definite course of action.

Expects to Piace More Stock. Expects to Piace More Stock.

A proposal from C. H. McIsaac to increase the subscriptions to the Fair was referred to the committee on ways and means. Mr. McIsaac has recently completed a list of business men and taxpayers holding property in Multnomah County valued at more than \$200. who have not taken any of the stock of the corporation. He insisted in a report to the ways and means committee that there were more than \$00 of these persons in Multnomah County, some of whom had never been approached by, the solidting committees. Mr. McIsaac held that many of these would take stock, and that even these would take stock, and that even outside Portland other subscriptions could be obtained. The entire matter will be settled by the ways and means commit-

Secretary Reed showed in a special report that over \$51,000 of the first and second installments of stock subscriptions were delinquent. Of this sum, however, \$25,000 is due from the railroads and was not made available until late last month As a result, this amount is not considered delinquent. Of the first assessment stock holders other than the railroads owe \$4. 32.55 and on the second installment, \$2,-558.50. It was decided to allow the ways and means committee to determine upon a method of collecting these delinquent subscriptione. It is optional with the board whether or not a suit is brought against delinquents.

The Secretary of State has acceded to the request of the Fair board that United States Consul H. B. Miller, of Niu Chwang, China, be allowed leaves of ab-sence to advance the interests of the Fair sence to advance the interests of the Fair in Chias. At present, the State Department, showed in a letter received yesterday, the post held by Mr. Miller has assumed an importance that makes his close attention to duty necessary. Niu Chwang being in Manchuria, it is not likely the Consul could leave now, but later on the State Department will permit Mr. Miller to take up the Lawis and Clark work, something he himself volunteered to do.

teered to do.

President Scott was requested to ask Mr.

Miller for an outline of his plans and to
thank the State Department for the
courtesy extended to the Pair. The diectors are not inclined to believe that a mission into the interior of China would grove profitable, but it might be that a visit to treaty ports would result in great benefit to the Fair.

FOR SCHOOL ELECTION. List of Polling Places, Judges and

Clerks for Monday. District No. 1 will be held Monday, June 15, 1800, from 2 to 6 P. M. Following is a list of the judges, clerks and polling

GRAND LODGE ADJOURNS. Newly Appointed Masonic Officers Are Installed.

The Grand Lodge of Oregon, A. F. & A. M., adjourned at 4 o'clock resterday afternoon, after one of the most successful sessions in its history and with the largest attendance in the past 10 years.

During the morning session the routine work was disposed of and the question of investing the educational fund was dis-cussed. Of the total fund of \$120,000, \$31.-000 is not invested and the grand lodge favors investing the balance. The funit is for the education of orphans of Ma-

At 2 o'clock yesterday afternoon the im-At 2 o Cock yesterday alternoon the impressive coremony of the installation of the appointed officers was solemnized. Following are the appointed officers installed: Rev. J. R. N. Bell., of Baker City, grand chapsin; Lot L. Pierce, Salem, grand senior deacon; B. S. Pague, A. Derbard service deacon; B. S. Pague, of Portland, grand junior deacon; Ed S. Kiddle, of La Grande, grand deacon; W. A. Cieland, Portland, grand orator; E. V. Carter, Ashland, grand senior steward; A. G. Backroot, of Portland, grand junior steward: Oscar Hellborn, of Astoria steward: Oscar Hellborn, of Astoria, grand standard bearer; O. P. Coshow, of Roseburg, grand sword bearer; W. J. Fullam, of Portland, grand tyler.

At the afternoon session a charter was ssued to a new lodge at Lostine. The number of the charter was 122, the total umber of Masonic lodges in Oregon. Dispensations were asked for and prob ably will be granted for two new lodges, one at Cloverdale and one at Sumpter. The fraternity under the administra-tion of Grand Master W. F. Butcher, of tion of Grand Master W. F. Butcher, of Baker City, has enjoyed one of the most prosperous years in the history of the jurisdiction. The net gain in membership has been 270, a testimonial of the stead-ily increasing growth of the lodge. All the lodges are in a highly prosper-ous financial condition. Several new Ma-sonic halls have been completed during

the past year, and others are in contem-plation and will probably be erected dur-ing the coming year. The attendance at this session has been the largest of any in the past ten years, 229 delegates as well

PRESIDENT OF PAINTERS' BROTH-

J. C. Bahlhorn Makes Light of Reported Invasion of Amalgamated Society.

ERHOOD IN PORTLAND.

WOULD ARBITRATE STRIKE

"I do not believe that the Amalgamated lociety of Painters can ever establish a bothold upon this Coast. It is not strong

enough in the East to make much of a showing anywhere. ' J. C. Bahlhorn, president of the Broth-erhood of Painters, Decorators and Paperhangers of America, arrived in Portland last evening and addressed a special meet-ing of the local union in the A. O. U. W. building soon after. He made light of the invasion of the Amalgamated Society. Invasion of the Amalgamated Society. The painter president is on his way East from an extensive visit to San Francisco. He will attempt to arbitrate the strike here, if both sides appear ready for arbitration. If nothing can be done but to let the opposing parties fight it out in their own way, he will leave in a day or two for the headquarters of the brotherhood, Le Fayette, Ind.

A peculiar rumor was current yesterday to the effect that John Tait, manager of It is hard to associate Mr. Bahihorn with a paintbrush. If he ever was a painter.

the solicitors were meeting with good success. The contribution of \$1000 from the laundry workers of San Francisco is not for the co-operative laundry, but for the sid of the workers who have been out of employment for several weeks. It is probable that the money will be used to further the co-operative scheme, however. As a first step toward placing the plan upon a business basis, temporary officials have been elected and will take charge of the preliminary arrangements. F. P. Welch, of the Carpenters' Union, is the president; Harry Embe, of the Longshoremen's Union, is the secretary; J. A. Madsen, also a longshoreman, is the treasurer, and J. R. Balley, president of the Shirt, Walst & Laundry Workers' Union, will act as manager. Mr. Balley is an experienced hand in steam laundries, and those who have bought stock express the greatest confidence in his ability to run the laundry on a paying basis.

Where the co-operative laundry is to be instailed none of the officials will tell. It is said that a small laundry in Portland, which has not been paying large dividends lately, will be purchased outright and put to the use of the unions. Some time ago it was rumored that a steam laundry in one of the Valley towns would be bought and the machinery brought to Portland. The officers say most positively, however, that the matter will be rushed, and that the new plant will soon

Stout, urbane and well-dressed, he looks like a bank president or a trust magnate. A diamond glitters in his shirt front. His paint-bespattered overalls are far in the

"I'm not much of a talker: I'm just a

"I'm not much of a talker; I'm just a business man," he said. If Mr. Bahlhorn is able to do business with the nine weeks painters' strike he will be long remembered in Portland, both by men of affairs and by men of the paintbrush. Both are sick of it. He candidly said that before attempting to bring the employers and employer targether a thorough accountrance.

ployes together a thorough acquaintance with local conditions was necessary. But he poid little attention to the report of the invasion of the Coast field by the Amaigamated Society of Painters.

"Why, I hardly think they can be in Portland," he declared. "They are not strong enough anywhere to make much showing here."

Then you do not think they are making

a determined attempt to get a foothold on the Pacific Coast?"
"No. not at all," replied the painter president.

Mr. Bahihorn will find that representa-

tive members of the local union are just as sure that a regular invasion of the field is being made by the agents who

ave been working Portland for the past

two weeks. Their identity is hard to estab-lish, but union painters declare most firm-ly that they have met and talked with

opened.

The Woman's Club has ad-journed for the Summer, after holding its annual election of officers. At the business meeting it was voted to set apart the sum of \$200 as a start for a fund to build a clubbouse. Resolutions of sorrow were passed for the death of Mrs. C. L. Parker, one of the most valued members of the Woman's Club. Mrs. Abigail Scott Duniway,

women of the club in affectionate manner, and an sflectionate manner, and thanked them and her vice-president, Mrs. Sarah A. Evans, for their kindness and good work during het term of office. The newly elected officers are as follows: President, Mrs. Sarah A. Evans; vice-president, Mrs. P. J. Mann; recording secretary, Mrs. N. T. Collette; corresponding secretary, Mrs. N. T. Collette; corresponding secretary, Mrs. Arthur C. Newill; treasurer, Mrs. C. N. Rankin; financial secretary, Mrs. P. I. Packard; auditor, Mrs. W. H. Fear; directors, Mrs. Millie Trumbull and Mrs. Grace Watt Ross.

Laundrymen's Association, had bought stock to the amount of \$1000 in the enter prise. His purpose was, the report said to get the co-operative scheme started with the belief that such a bitter feeling would be aroused in the effort for each laundry worker in the city to be the head of the concern that there would be no more laundry workers' union in Portland. C. H. Gram, who has been instrumental in bringing the scheme to its present standing, laughed when he was told the "There's nothing in it," he said. "Well, I haven't bought any stock yet,

HELD UP ON A BRIDGE. Corliss Merritt Has a Strange Mid-

Montavilla Saloon War in Court. The petition for a writ of review from he action of the County Court declaring rold the license granted to Herman Schneider to sell liquor at Montavilla was argued before Judge George yesterday by Attorney Ed Mendenhall, for Schneider, The proposed co-operative laundry has been capitalized at \$10,000, and will soon be incorporated. The Federated Trades and Charles H. Carey as opposing counsel. The arguments took up the entire day. Schneider paid \$400 in November, 1902 for a license for one year. Some of the residents of the place say they don't ing, indorsed the project and urged every union in the city to buy stock. A large part of the session was taken up in arwant any saloons there, and started ranging the preliminary details of the scheme.

C. H. Gram, president of the Federated Trades Council, said last evening that stock to the amount of \$4000 has now been purchased by the unions of the city, and things as usual.

CADETS MACARTHUR AND GRANT, HONOR MEN AT WEST POINT

U. S. Grant, the Third.

U. S. Grant "the 3d," grandson of the famous Civil War General, and son of seral Frederick D. Grant, took third place in the class of nearly one hundred cadets that took final examination at West Point last week, thus graduating far ahead of the record of his illustrious grandfather and his father. General U. S. Grant, the records show, graduated near the foot of his class, and Cadet Grant's father stood 86th when he graduated at West Point.

Not long ago the latter wrote from the Philippines to his old friend and class

mate. Professor Long, now professor of mathematics at West Point. He wanted to know if his son was upholding the honor of the Grant family, and asked how the yoy was doing in his classes. The answer was brief and to the point: "Tour son stands considerably bet-

ter in all his classes than you did."

U. S. Grant III became a cadet at West Point through the express wish and request of his grandfather. In 1857 the latter addressed a letter to "the Precident of the United States," requesting his grandson's appointment to the United States Military Academy when he had resched the proper age. It was one of his

letter was delivered to President McKinley in 1809, and he immediately made the appointment. Cadet Grant is now 20 years old. He is "U. 8. Grant III." because he has an uncle whose initials are also "U. 8."

The honor of taking first place in the class fell to Douglas MacArthur, son

of General Arthur MacArthur, who was recently commander of the Department of the East. The first five in the class, which includes Grant and MacArthur, receive the coveted appointments to the Engineering Corps and become Lieutenants, with pay of \$1500 a year.

WILL GIVE EACH A BRIDGE

COUNCIL DECIDES - SULLIVAN'S GULCH CONTROVERSY.

Steel Structure at Both Union and Grand Avenues-Subcommittee to Define Assessment Districts,

If the residents of East Portland want two steel bridges across Sullivan's Guich, they can have them. The Councilmen do not desire to enter into any war between the property-owners on Union and Grand avenues, and they are of the opinion that the only way out of the present spparent difficulty is to go ahead with the construction of two bridges.

Chairman Rumelin, of the Council street committee, yesterday appointed Messrs. Sharkey, Flegel and Albee as a committee to lay out two assessment districts. This committee will have two districts laid out by the time the City Engineer gets his plans drawn up for the structures.

Councilman Sharkey was the most interested person at the meeting yesterday. He spoke strongly in favor of a bridge at Grand avenue, and said that nearly every person whom he had approached was for the Grand-avenue bridge. He also said, that two bridges would be good, and the rest of the committee took the same riew.

would be good, and the rest of the com-mittee took the same view. Several property-owners were on hand, and they also spoke for bridges at Union

and Grand avenues both.

This point seemed to be settled, and the most important matter left was the laying out of the assessment districts.

The street committee did not care to undertake the job, and then Chairman Rumelin appointed the above-named com-mittee to do the work. At the present time it seems probable that the dividing line between the districts will be midway between the two avenues. The people living to the west will pay for Union ave-nue, and those residents to the east for Grand avenue. The committee will get

together as soon as possible, probably Monday, and get to work.

The City Engineer sent to the committee a report on the widening and laying

tee a report on the widening and laying of Crown avenue, which was adopted.

A protest against the improving of Failing street, sent in by Andrew Peterson, was pinced on file.

A petition was received from propertyowners near East Thirty-sixth, between East Stark and Belmont streets, asking for the widening of East Thirty-sixth street. The committee will visit the street next week.

The petition for the improvement of Larrabee street was held up until an ar-rangement could be made about the vacation of a small triangle of land at Mc

SELLWOOD FERRY COMMITTEE.

Mayor Appoints Men to Build Boat-Morrison Bridge Affairs. Mayor Williams yesterday named Ed-ward D. Curtis, Joseph Webber and J. M.

Nickum as the Sellwood ferry committee. The first two named are members of the Executive Board, and the last is a promnent citizen greatly interested in the welfare of the suburb.

It was generally expected that the ex-ecutive would name the committee he did, The two gentlemen from the Executive Board will be familiar with the working of the Albina ferry, which the board will have charge of, and Mr. Nickum will look out for the interests of Sellwood. It is understood that the committee will

meet carry next week to start the work of providing Southeastern Portland with another means of transportation with the main part of the city and with South Portland, on the West Side. It has \$15,000 to expend in securing a boat and land-ings, and desires to get the work under way as soon as possible.

The members of the street and purchas

ling committees of the Executive Board will also meet with the City & Suburban Railway Company officials as soon as possible, so that some amicable arrangement can be reached with regard to the Morrison-street bridge franchise. Two of the committeemen are out of town, and as soon as they get back a meeting will be held.

PLUMBING BOARD NAMED.

Will Examine and License All Jour

which would soon be placed against its bead. He decided to brazen the thing out, but, for fear of the outstretched ing, where nearly every member of Local Union No. 10 was waiting for his appearance. A short special session was held, at which the distinguished painter adult which the distinguished painter adult. Which the distinguished painter adult. iam Finnegan, master plumbers, and William Hay, journeyman plumber. Within ten days this board has to meet and organize. A chairman and a secre-tary have to be selected, and then the business of examining plumbers will be

taken up. Every plumber in the city who wishe to work will be examined in the practices of plumbing, house drainage and venti-lating plumbing. The journeyman plumb-ers will have to pay the Auditor II for their licenses after they have passed the examination, and the proprietors of plumbing shops \$5 a year.

The master plumbers must be licensed within 30 days after the law goes into ef

fect, or by June 24, 1966, as the law be came effective May 24.

A Possible Explanation. PORTLAND, June 12 .- (To the Editor. -in The Oregonian of Wednesday of this week Forecast Official Beals calls atten-tion to the fact that a rise in the Columbia at Umatilla is not followed by a like rise in the river here 24 hours latter, as in a former year, when conditions were similar, the rise this year being about a foot and a half less at Portland. I will suggest that this difference is, in all probability, caused by the deepening and widening of the channel of the Columbia between Portland and the sea by the Port of Portland Commission and Government work. The removal of bars, which have much the same effect as dams in a stream, and the straightening of the channel, must cause a more rapid outbia at Umatilla is not followed by a like channel, must cause a more rapid out-flow of the water and a lower water level at Portland in times of high water. There will be many years when 18 inches differ. ence in the water level means a saving of thousands of dollars to the merchants of Portland and the farmers on the Co-lumbia. Thanks to the enterprising cit-izens who have been instrumental in securing a deeper channel between Portland

Want Firm Declared Bankrupt. SAN JUAN, Porto Rico, June 12.-The epresentatives of three New York firms have petitioned the Federal Court to de-clare the dry goods firm known as the "successore of Jose de Hernalse," of San Juan, owner of three of the leading re-tall stores of the Island bankrupt. The liabilities are said to be \$57,000, and the assets \$100,000.

GEO. P. LENT.

Earthquakes Continue in Mexico. CITY OF MEXICO, June 12.—Dispatches from Acapulco continue to report earth-quakes of a terifying nature. There were violent chocks reported at sea. These shocks took place on the night of the 10th, when simultaneously shocks were experienced at Tulancingo and Mescala. The people ran into the streets and falling on their knees prayed for mercy.

Palma Pardons American. HAVANA, June 12.—President Palma has pardoned Seaman M. Reddick, of the United States cruiser San Francisco, who recently was confined in juli and fined 50 by a court at Santiago after having been convicted of intoxication and disorderly conduct.

MEN'S DISEASES

Dr. W. Norton Davis

Quick and Thorough Lures

Rightly treat a curable atliment and you cure it quickly. Treat with partial accuracy and you help but temporarily or fall entirely. Many of our patients are men who have for years tried to rid themselves of some clinging disorder. Under our treatment a radical improvement is quickly noted. A cure begins at once. As time passes the more marked is the progress and the cure is always complete in the briefest possible time.

The treatment that cures quickly also cures thoroughly. No one doubts this. The fact is in direct accord with scientific reasoning. Our cures are accomplished quickly. They are not partial or temporary cures, but time proves them absolutely thorough and permanent. Our methods are original, scientific and adequate, and this is why our cures are permanent and quickly accomplished.

Contracted Disorders

To but partially cure a contracted disease is almost as dangerous as to allow it to go on untreated. Unless every particle of infection is removed the probability exists that the disease will gradually work its way into the general system. Still greater is the danger of the prostate gland becoming chronically inflamed, which always brings partial or complete loss of power. Perhaps 5 per cent of the cases of so-called "weakness" are a direct result of some improperly treated contracted disease. In hundreds of cases we have treated recently we have effected an absolutely thorough and safe cure in every instance. There have been no relapses or undesirable developments whatever, and our patients have been cared in less time than other and less thorough forms of treatment require in producing even doubtful results.

Varicocele

Many who are slightly afflicted with varicoccle believe that the trouble is of little consequence. The opposite is true. Varicoccle is a disease of a progressive nature. As it advances nervous complications come, power diminishes and the general health is impaired. We cure varicoccle without the use of knife, ligature or caustle, without pain and without detention from business.

Stricture

Our treatment for stricture removes the necessity for surgical operations, even in severe cases of long standing. We do no cutting nor dilating. No other physician employs our methods of overcoming this disorder, so the service we offer you is original and distinctive. Do not give up hope because others have falled. We will cure you and the cure will be a prompt and painthe cure will be a prompt and pain-less one. Our treatment dissolves the stricture and permanently re-moves every obstruction from the urinary passage, subdues all inflam-mation, relieves all irritation or congestion that may exist in the kidneys or biadder, reduces enlarge-ment of the prostate gland and re-stores health and tone to all organs affected by the disease.

Weakness

If other physicians have treated you for so-called "weakness" you were probably helped only temporarily, if at all, and the reason is very apparent when the cause of loss of power in man is understood. "Weakness" isn't a weakness at all, but is merely a symptom of chronic inflammation in the prostate gland.

Our system of combined local treatment removes this inflammation, and is the only treatment that ever has or ever can permanently restore strength and vigor.

PILES

Oulck Cures Certain Cures

We cure the worst cases of piles permanently without the use of ointments, without pain, cutting or detention from business in from two to three treatments. Our treatment is entirely new and peculiar to ourselves. Remember, no matter who has falled before in your case, we will cure you with mild methods, and without danger, or else make no charge whatever for our services.

Should you live at a distance, we can treat you successfully at home.

WE ARE ALWAYS WILL-ING TO WAIT FOR OUR FEE UNTIL A CURE IS EFFECTED.

Office Hours—9 to 12; 1:30 to 5 and 7 to 8. Sundays and bolldays, 10 to 12.
