The chief need now is moosy to pay workers and there will be much work to do. The town is in bad shape physically, and it will take a long time to restore it. For our commissary, consign to Davis two sacks of white beans, 12 sacks of red two macks of white beans, 12 sucks of red beans, Consign clothing for 50 children, both series, 30 women and 20 men. Send also 190 cheap mattresses with pillows, pillow slips and sheets to go with them. Send also 50 more blankets. About 20 bodies were found today. It is important to have money on hand to pay workers as volunteers are getting worn out. R. L. RABIN.

Early in the afternoon Mayor Williams Early in the afternoon Mayor Williams received a telegram from Frank Gilliam, mayor of Heppner, to the effect that additional financial assistance was immediately needed. Mayor Williams telephoned the message to the headquarters of the relief committee. In reply Chairman I. N. Fleischner told the mayor to wire Mr. Gilliam to see J. N. Teal, the representative of the committee now at Heppner. Mr. Teal was given authority to disburse such money as was required to disburse such money as was required to carry on the work of caring for the un-fortunate. Apparently Mr. Gilliam's mes-sage had been sent before he met Mr. Teal.

The printed accounts of the disaster which have been circulated throughout the country have brought in many subscriptions from those outside the city. J. Couch Flanders wired from New York his subscription of \$100 to the fund. J. E. Ranson, a travelling man, telegraphed the Hotel Portland his subscription of \$10. The manager of the local branch of Armour & Co. wired the head office in Chicago for a suitable subscription, but thus far no answer has been received.

Though many of the towns of Oregon have sent their subscriptions directly to Heppner for distribution, considerable money has come into the hands of the re-

GOVERNOR READY TO SEND TROOPS.

Governor Chamberlain arrived in Portland last evening. While on the way from Corvalits he received a tele-gram from his secretary, William Gatena, that a request had been received for a body of 50 militiamen to act as guards at Heppner. Governor Chamberian immediately gave authority to Adjutant-General Gantenbein to send the man if they were needed at Heppmer. Today he will confer with General Gantenbein concerning assistance that can be rendered by the Naor in performing guard duty to prevent lawlessness. They know that if they do not burn the dead bodies disease will be bred among them, yet the city is in such shape that they are frightened at each fire. They are aware that if a slight breeze should spring up the remainder of the city might be devastated by fire.

"Do you think that there is a probabbility of disease springing up among the people of Heppner on account of the conditions existing there?" he was

GEORGE W. OUTCAL

How He Extricated Himself From a Serious Difficulty.

How George W. Outcalt, a well known merchant of Wellston, Oklahoma, recently succeeded in extricating himself from a serious difficulty is one of the interesting stories now going the rounds of the papers.

"I had been working very hard," he says in telling the story. "For a long time I had given almost every moment of my attention to my business, and I did not notice what effect this was having on me. But finally I saw that my health was giving way-I was getting thin, was always tired and easily out of breath; my blood was poor, my stomach bad. Every now and then I would :be dizzy and any little exertion would exhaust me completely. In short, I was all run down.

"Then one day I saw an advertisement which led me to try Dr. Williams Pink Pills for Pale People. They acted like magic. I felt better in a few days. My flesh came back till I regained my normal weight, my appetite returned and my general health is now better than it had been for many years. I have recommended Dr. Williams' Pink LEADVILLE, Colo., June 17.—The Pills to many of my friends and am glad of this opportunity to tell what the remedy has done for me." the remedy has done for me."
