

When the reading of the bill of com-plaint was completed, Mr. Wootman be-gran reading the exhibits on the case, one of which was a statement issued by the Republic Trust Company, containing a very flattering statement of the com-pany's condition. Mr. Corbin objected to pany's condition. Mr. Coron objected to time exhibit as not properly before the court. Judge Kirkpatrick remarked that the statement seemed to favor the defend-ant, but that at any rate it was limitate-fal, as what the court wanted to get at was the company's present condition, and not what somebody else thought or said was its condition some months ago. When Mr. Wootman had concluded read-

When Mr. Wootman has concluded read-ing the bill of complaint and the ac-companying affidavits, Attorney-General McCarty rose to read the answer and also the affidavits of Lewis Nixon, the presi-dent, and A. C. Gary, secretary, of the

General Denial of Complaint.

The answer, in the main, is a general denial of the salient points of the bill of complaint. It denies absolutely that there was any insolvency, and states that tions. It was stated that no arrangement the company was able to meet its obligahad been made whereby bonds were to be issued on account of the Bethlehem plant; that the plant was not separately acquired; that it was included in the gen eral purchase, and that the promoter was neither Nixon nor Schwab, but John W. Young; that the value paid was a matter of judgment, and that good judgment had been exercised in the purchase. It was denied that any excessive prices had been paid and the company denied that it had made any exaggerated statement as to

the company's condition. The company denied absolutely any re-sponsibility for the statement put by the Republic Trust Company. The statement given the New York Stock Exchange, it was amserted, was given in good faith. While it contained some errors, as after-ward discovered, they were immaterial. It was denied also that the company was under control of Schwab, or that there had been any understanding between Nixon and Schwab along the lines introuced in the bill of complaint

Nixon Not the Father of Trust.

The affidavit of Mr. Nixon was a sweep-ig denial of the charges in the bill of omplaint. He said he had absolutely nothing to do with the conception or carry. ing out of the formation of the United States Shipbuilding Company. The pro-moter, he said, was John W. Young and what he (Nixon) did was to give Young an option on his own plant. Naturally, he said, he had been applied to for ad-vice as to the advantages of the con-solidation, and whenever asked he stated he believed the combination would be a good thing, and that it would increase

He also gave as his opinion, based on his experience of 15 years in the abip-building business, that the plants ab-sorbed, not including the Bethlehem Works, were worth 520,000,000. Mr. Nixon said that he had absolutely nothing to do with the selection of those mpanies outside of the Crescent Com-ny that were to form the United States ipbuilding Company. He denied that with other directors of the company or anybody else employed by the Trust Company of the Republic, through, or by their means or agency, caused the circu-lation and publication of the statement put out by the Republic Company. He said he never saw the circular until after it had been published. He denied also that there had been any arrangement between Schwab and him. and whereby Schwab should acquire the plant of the Bethlehem Company, and thereafter sell the same to the United States Shipbuilding Company at an enormous profit. On the contrary, he said the facts were that Schwab had acquired the facthelenem plant long before the formation of the shipbuilding. He also denied that he had recommended or approved the supposed reorganization plan with a view to having a supposed investigation and exposure of his conduct as an officer or director of the shipbuild-ing company, and he also denied that there had been any misconduct on his part in the management of the company. The affidavit of Mr. Gary was to the effect that the, United States Shipbuild-ing Company was entirely solvent. This closed the taking of testimony and adjournment was taken until tomorrow.

TO EVERT THINKING MAN. IT IS NOT experience of the ordinary sort. It is unusual both in quantity and quality. It covers 20 years of the most studious, thought-ful and conscientious practice pos-sible. It is experience out of which has come the only true, scientific methods of treating men's discases, and that enables us to offer service such as no other physician or spe-cialist can render. It is experience that makes it possible for us to thoroughly comprehend the necessities of every case that comes to us for treatment, and to treat without error or failure. **Contracted Disorders** Be sure your cure is thorough, Not one of our patients has ever had a relapse after being discharged as cured, and we cure in less time than the ordinary forms of treatment require. Stricture Our treatment is absolutely painless, and perfect results can be depended upon in every instance. We do no cutting or dilating whatever. Positive Cure for "Weakness" Our success in curing those derangements commonly termed "weaknoss" has done more to extend our reputation as specialists in men's diseases than in any one other thing. We were the first to discover the fact that "weakness" is merely a symptom resulting from inflamed prostrate a chronically gland, and that to remove this infiammation is the only method of permanently restoring lost vigor. To day our system of combined local treatment is the only success-ful one in use. In years we have not falled to effect a complete cure, which is a statement that cannot

truthfully apply to any other treat-ment being employed in these cases. Of course there are occasional cases that have passed into the incurable stage, and these we do not treat at all. Our long experience enables us to recognize them and to select only such cases as we can cure permanently.

Enjoined From Asking for Receiver.

CHICAGO, June 22 -- An injunction was issued today in the Superior Court re-straining Homer Peters and Herman E. Raycroft from taking action for the apatment of a receiver for the brokerage firm of Bartlett, Frasier & Co. Accord-ing to the application upon which the in-junction was issued, the defendants have demanded unreasonable compensation for "an alleged good will" in the firm. The complainants, William H. Bartlett, Frank P. Frasler and Charles B. Pierce, assert that they fear a receiver will be asked for and the basis for and the business of the firm thus interfered with.

Court Upholds Lease of Railway.

NEW YORK. June 22-Justice Scott in the Supreme Court today dismissed the sufficiency of the Metropolitan Street Rail-way Company to the Interurban Street Railway Company. The Judge said he was unable to find any fraud or internal manual wrongdoug or their Weiter of moral wrongdoing, or that Willam C. Whitney or Mr. Ryan gained any ad-vantage over the other stockholders, ex-cept such as they were entitled to by user larger holdings of stock.
