Now it is reported that the President intends to stand by Henry C. Payne, Postmaster-General. No pronunciamento that effect is issued from the White House, but those who are very close to the President declare that Payne is not to be removed, and the attacks made upon him will not cause the President to accept his resignation if Payne offers it. Among the matters which Fourth Assistant Postmaster-General Bristow is investigating is the purchase from a Call-fornia company, the Postal Development and Improvement Company, of 12,000 lec-ter devices for indicating the hours of collecting mail. It is also said 7000 of these devices were ordered at a cost of \$10 or more each, at a profit of 100 per cent on cost, and the allegation is made that a further order for 10,000 was placed, notwithstanding the original 7000 devices were not used, but were reposing in a storehouse. The company of Mile, who has held the office for 10,000 was placed, notwithstanding the original 7000 devices were not used, but were reposing in a storehouse. OFFICERS AGAIN UNDER FIRE,

Old Charges of Looting in Manila by Americans Are Renewed.

Americans are Renewed.

MANILA, June 22.—The charges that american officers looted public buildings in Manila after the surrender of the city in 1888 have been revived, and may possibly lead to a formal investigation. Recently the authorities endeavored to locate certain pictures and art objects belonging to the museum, and the inquiry showed that they had been given to a Filipino to take care of after the surrender. The Filipino officers received the pictures, and it is alleged that a former staff officer abstracted a silver service from the Malacanan Palace. The Governor Taft has returned here from Benguet. others had but a glimpse of them as they fied. The only theory that seems plausible to the officers is that the deed was committed by two inexperienced boys. From every story that is told, they seemed to be yery much excited, and did the work in a blundering way. There really seemed to be no occasion for the shots fired at the old man, and the detectives argue that experienced highwaymen would not have taken this unnecessary chance of committing a murder.

It is also believed that the deed must have been committed by men who were well acquainted with Calof. and knew his habits. Their every action seemed to others had but a glimpse of them as they

The barn is tal removed from the street, and a narrow alleyway leads back to it. Highwaymen out looking for some one to hold up would never have thought of entering the barn to look for a man with money. They must have known his customary time for feeding the horses, and, after they had shot at him, they would not be convinced that he did not have a good sum of money in his pockets, as is his usual custom.

Calof Can Suspect No One.

"I did not recognize the voice one that I know," said young Calof last night, "but from their actions I am conright, but from their actions I am con-vinced that they were boys who know me. There is no one that I can suspect and I could not even tell how they were dressed."

News of the robbery spread rapidly, and before midnight everal supposed clews were telephoned to the police station. None of them seemed to lead any closer to the detection of the highwaymen, however, and until a late hour no arrests had been made. Detectives Snow, Kerrigan and Simmons were on the scene comparing the record came in any obtained. soon after the report came in and obtained as good a description of the men as the different witnesses were able to give. RULERLIKELY TO REVOKE ORDER

Position of Ministry Is Becoming More Unenviable Daily-King Leaves Geneva to Assume Reins of Government.

BELGRADE, June 22.—King Peter's pro-motion of officers of the Geneva military delegation, who were connected with the assassination of the late King and Queen has given serious offense here, and it is probable that they will be canceled. It is semi-officially stated that Colonel Mischich, who was gazetted Saturday as Commandant of the military district of Beigrade, is not the chief conspirator, but the latter's prother.

Beigrade, is not the chief conspirator, but the latter's brother.

The position of the Ministry is becoming more unenviable daily in consequence of the Russian and Austrian demands for the punishment of the assassins. The terms of the Russian note almost caused a panic among the Cabinet Ministers, who are anxiously awaiting the arrival of King Peter to extricate them from the dilemma. The War Minister is the paramount power in the Ministry, as he is backed by the enthe army, and he threatens severe punishment in the case of any hint by a member of the Cabinet of the punishment of the conspirators. The promotions of officers sent from Geneva are variously explained as either intended as an open definance or as being the result of alarm caused by the attitude of the army.

The foreign representatives which have not been instructed are asking their re-

spective governments what attitude they shall assume at the reception of King Peter. The Hussian Minister is in a quandary. He has resumed relations with the provisional government, when the Czar teiegraphed his recognition of King Peter, but the Minister takes the subsequent publication of Russia's demand for punishment as an indication that Russia will possibly order the suspension of relations with the government until the murderers are punished.

Meanwhile the preparations for the reception of King Peter continue. A public holiday has been proclaimed, provincial delegations are coming to Belgrade, free wine and beer are to be provided by the government, and the town is to be given up to rejoicing.

KING LEAVES FOR BELGRADE,-Geneva Makes Quite a Hollday of His Departure.

GENEVA. June 22.—King Peter I. of Servia, left Geneva on his way to Belgrade at 7:43 P. M. tonight. The Geneva people made quite a holiday of the King's departure. All the afternoon the King's house in the Rue Bolot was surrounded by a good-natured crowd, which increased in numbers along the route to the railroad station, where several thousands of persons were congregated. The King dined with members of his house-King dired with members of his house-hold before his departure. He drove to the station, accompanied by General Bo-vics, the head of the Servian military deputation, and followed in carriages by the president of the Servian Senate and the other members of the Parliamentary delegation, who were greatly ovated by the spectators.

The station was strongly guarded by sendaryes and detectives, in order to

The station was strongly guarded by gendarmes and detectives, in order to prevent any untoward incident. On the platform was gathered a deputation of Geneva women, who presented to the King magnificent bouquets of flowers, and many other flowers were thrown in the carriage. The Russian Consul was among the last to shake the King's hand as the train pulled out of the station amid loud cheering, in response to which King Feter cried: "Viva la Suisse."

When the late king perceived his peril he promised to release the crown, but the officers ignored this and proceeded to murder him.
