# JURY FAILS TO AGREE

Huntington, Baker's ex-Sheriff, Gets Another Trial.

AMOUNT EMBEZZLED PUZZLES

Defendants in Herald Libel Suits Want Change of Venue-West Fined \$200 for Stabbing a Fellow Telegrapher,

BAKER CITY, Or., June 30 .- (Special.) -The trial of ex-Sheriff Huntington came to an end with a hung jury this after-noon. The jury remained out all night and came into court early this morning and asked the Judge to read his instruc-tions again. They retired and deliberated until noon, when they again came in and asked to be discharged, because the foreman said they could not agree. They were practically agreed on the general verdict, but could not agree on the amount of the sum embezzled by Huntington. The Ludge sent them out again. The Judge sent them out again, were discharged.

The law requires that in case the jury finds the defendant guilty, then they must specify the amount he has embenzied. One of the jurymen said that if they could have agreed on this sum they could have agreed on a verdict. The first balle, was 8 for conviction and 4 for coquittal, and later it is said there were 11 for conviction and one for acquittal. This was on the general verdict. On the amount to be named in the verdict they were very much divided. The case will now go over to the November

Carries a Blackspake Whip for the Man She Eloped With.

WESTMINSTER, B. C., June 39. (Special.)—A curious elopement case has just come to light by the arrival of the husband, who has tracked his erring spouse and her paramour to Chilliwack, a village a few miles up the Fraser, where some interesting things are going on in licu of her returning to her former hus-band. The case is remarkable on account of the age of the woman, who is now in her 64th your, and the man for whom she has laft her second husband, who is 70 years of age, is just if years her junior. The man who is now seeking what natisfaction he can get with a blacksnake

whip is George Hamilton, and, besides being Postmaster at Harmattan, Alberta, is
chiefly engaged in obtaining locations for
settlers, timber and cruising. Mr. Hamilton says he first met John Wall, the
man whom he is new tracking, last Fall,
and secured a location for him about 6 and secured a location for him about 60 miles north of Olds, Alberta, near his own place at Harmattan, where his wife kept

In the Walla Walla Valley proper, east and north of the city, the yield will run from 18 to 28 bushels to the acre, only a few ranches running either above or below this figure. TELEPHONE GIRLS QUIT WORK.

Spokane Central Operatives Object to Stringent Rules.

SPOKANE, Wash., June 30.—About 120 telephone operators employed in this city by the Pacific States Telephone Company struck at 3 o'clock this morning. Too stringent rules and a desire for better wages appear to be the causes. The girls ask for recognition of their union; an advance of about \$2.50 per month in wages of students; minimum wages of \$40 per month for competent operators and \$45 after three years' experience; an eighthour day and the privilege of dressing to suit themselves.

The telephone company, while somewhat

known as "central," long-distance oper-ators not being affiliated in the move. The principal grievance of the girls, it is said, arises from the stringent rules the company has been enforcing against them of late, while the advance of salary asked for is but a secondary matter. The strike would never have occurred, it is asserted, but for the objectionable rules the company has enforced.

As it is now the local union has affili-ated itself with the Western conference, and the strike will consequently have to be settled through San Francisco. The Western conference is the body that re-cently called the linemen all over the West, including Spokane, out on a strike.

# WAS IT AN ERROR?

Two Hundred and Fifty Dollars for Fourth of July, to Find Out.

As has been announced by us on numerous occasions, we value the good reputation of the general muste trade too highly in engage in vulgar newspaper controversies, and no amount of underhand and open attack by little, envious dealers, who must be sorely pinched by our low prices, by our high-class instruments and by our methods, and cannot therefore openly compete with us, will prompt us to stoop to wallowing in the mire with individuals who seek that kind of notoriety.

But as Portland is rapidly growing, and there are today many readers who are not conversant with the conditions that existed in the Western music trade some few years ago, and for the further reason that on more than one occasion our silence has been almost miscenstrued, we beg leave to call the attention of the public to the advertisement of the Allen-Gilbert-Ramaker Company in yesterday's Oregonian, wherein they boldy state, under the heading "Plano Selling": "When we advertised a car of 18 standard, high-grade planos the other day, who would have thought that every one would be taken the first day, and that before 3 o'clock P. M., and not a single one went out of the city?"

Then follows a list of some 18 names, thus adroity leading the reader to assume that cach one of these 18 people mentioned had been "induced" to purchase one of these instruments on that day.

WE DOUBT IT AND WE HAVE

Now we doubt this. We don't believe that statement, like a great many others that have been brought to our attention, is founded on fact. There must be an

that have been brought to our attention, is founded on fact. There must be an error somewhere.

And if it is true, if Allen-Gilbert-Rama-ker Company will furnish to us, in the columns of this paper (and we'll pay for the space in that event), positive and conclusive proof that their statement conveyed in the above advertisement is correct—that they disposed of 18 of those or any other pianos to buyers living in Portland in one single day, we will pay for a Fourth of July celebration, or for any other worthy purpose the editor of The Oregonian may designate, the sum of 250 cash. And if they will prove that even as much as one-half of the statement conveyed in their advertisement is true, we will pay the same amount.

Yes, even if they are in error to the extent of two-thirds—that is, if they will prove conclusively in this paper that they really did sell six out of the advertised if alleged residents of Portland, we'll allow our after to still hold good.

We shall expect a definite reply in the next issue of this paper, and for the present we draw the vell. But there's more to follow. Just watch us. Ellers Piano House.
