## AT THE TOP NOTCH

Potato Market Takes a Sudden Jump.

STRONG CALIFORNIA DEMAND

Oregon Burbanks Wanted in the South for Seed-Sugar Beet Industry-Local Produce Quo-

and is now up at top notch. Fancy Burbanks are guoted at \$1 and many dealers find it

tricts in Kansas, and this fancy figure has states to go into the business again. Plantis heavy in Petaluma and other districts consumption for a long time past.

The result is not going to be very good for overabundant supply in California will other effect of the present advance will cause fermers to hold their potatoes next Fall in the

California, some car-lot shipments are being made to Arizona and Texas. New potatoes districts in this state. They are quoted at 1%c a pound.

#### BEET-SUGAR INDUSTRY.

Increase in Number of Factories in

acreage of sowings of the new Am beet crop and the corresponding possible yield tion just at present. Last season-there wer 44 factories in operation in the various states. mate has been made showing the sowings in of 2260 nounds each. It should, of course the growing season may be such as to alter the prospects materially. The statistical table fol-

crate temperature and beneficial showers some sections. In Utsh, clear, warm and dry, favorable for irrigated crops; sugar beets promising. In Colorado, beneficial showers; di in fine condition; irrigation water plentiful: late beets growing well, cultivation and ng in progress. In Nebraska and Iowa, cool and showery. In Minnesota and Wisconsin, rather cool, with light to moderate showrains; augar beets promising. In Illinois and Indiana, cool; some beneficial showers last of week. In Ohio, cool but favorable week. New York, cloudy, rainy and cold; ground too

#### CAUSE OF MISSING HILLS. Manager Winstanley Says It Is Not Due to Worms.

Balem, Or., July 2.—(Special.)—After investigating the subject thoroughly, Manager Winstaniey, of the Oregon Hopgrowers' Association, has abandoned the theory that the missing hills in Willamette Valley hopyards are caused by the ravages of a worm which attacks the roots. He is rather of the opinion that the roots were injured chiefly by adverse weather conditions, and were afterward attacked by the worms. He says that an investisation of the conditions in various yards ex-Nodes the theory that the worms caused the many in the first instance. Speaking on this

injury in the first instance. Speaking on this subject today, he said:

"The cause of weakness and death in hop roots is the alternate warm and cold weather through the Winter and early Spring. The hop vine in Oregon is a rank grower. The first warm day or two that occurs after the leaves have fallen and the vines are dead-will cause the sap to flow, and small shoots appear. Even as early as Christmas evidences of life are sometimes seen; then comes a cold spell or rain or frost, which chills the sap, which recedes to the roots, and the small sproug is killed. This occurs when the root has the smallest amount of vitality, and by constant repetition the root dies, turns brown, and worms find food in the hill. The proof of this is seen in the fact that most of the missing hills occur in rich, warm land. Where yards are shaded by timber, so that the sun does not strike them during the warm days, or where the land is cold and late, the vines have done well. Another source of destruction to the hop root is the Winter or early Sering. or where the land is cold and late, the vines have done well. Another source of destruction to the hop root is the Winter or early Spring pruning. At this time the roots are almost dormant. The flow of sap is weak, and the root is robbed of most of its life by cutting off the lateral roots. Later, when the vines are trained on the strings or wires, and the sap is flowing in response to the warm sunshine, we can afford to cut and stack large. chine, we can afford to cut and slash large quantities of aprouts and mots, and the vine thrives all the more, and produces more and er hope. This, in my opinion, is the prime

#### War in Spirite Trade.

The greatest war ever known in the spirits ime trouble has been brewing in the ern members have objected strenuously to cerrestrictions placed on the trade by the ermination on the part of Western distribsters to break away and form a new association of this new combination. It will be known as the Commercial Distilling Company, of Terre Haute, Inc. The capitalization will be \$400,000. The new company has signed a \$100,000 contract for machinery equip-

sur that there will be any war of prices tarted, and declare that the new combination and be able to run independent of the Eastern

new company means that a war will be in-augurated and fought to the finish. These cording to their estimation, to be a fight for supremacy between the United States Spirite mation and the new independent company,

It was amounced some time ago that an organization was being perfected to enable the representatives of the Southern California Fruit

The Southern California Fruit Exchange and the California Fruit Distributors have joined per cent of the fresh fruit of California. Fur ther than this, the distributors will work with bine, and in most cities the latter's agents will

the California Fruit Agency, the citrus combine, and in most cities the latter's agents will handle both citrus and deciduous fruits, thus centralizing the control of California fruits.

Maple Sugar Crop.

In an interview, a representative of the George C. Cary Company, of St. Johnsbury, Verment's leading maple sugar dealers, gave the following statement concerning this year's crop:

As is usually the case, the maple sugar crop this year is proving larger than at first estimated. The production in 1902 probably averaged two and one-half pounds to the tree, the largest average in several years. In many sections this year the flow of sap was light, but in others it was nearly as great as in 1902, so the average is fully one and one-half pounds to the tree. While this is only five-ninths of the amount made last year, it compares favorably with other seasons. There was very dark colored and of comparatively poor quality. High prices have ruled thus far, the farmers recoiving 8 cents a pound. This has been due to large demands from the users, who foared there was not enough to go around. In Canada, however, the sugar crop has been very large, about three pounds to the tree.

Canned Pineapples Scarce.

IRON TRADE REVIEWED.

Better Feeling, but No Change i Volume of Business.

CLEVELAND, O., July 2.- The Iron Trateview, discussing market conditions in urrent issue, says: There is a better fee current issue, says: There is a better feeling in the iron trade, though without any change in the week in the volume of businesse placed. The large railway contracts of last week, and distonal businesse done by the Western road in the past week, and the pending inquirie for rails, amount to about 250,000 tons o standard rails, standard sections, have inspired confidence in the continuance of demand from that source on a liberal scale for anothe year. Some improvements in prospects for crops, as contained in reports from along in portant Granger roads, has also helped to make sentiment in the iron trade.

Consumption continues very heavy; the par-ticular change that has come over the trade is that buyers are relieved of the necessity of looking so far ahead in arranging for supplies. that buyers are relieved of the necessity of looking so far ahead in arranging for supplies. So far as foundry pig iron is concerned, the situation is not changed, except for some further settling in price. Buyers and sellers alike are hunting for the level on which business can be done freely, but have not found it, and n sy not for some weeks.

ANOTHER DAY OF INACTIVITY IN NEW YORK STOCK MARKET.

Some Doubt Felt Over Showing of Weekly Bank Statement - Old Bonds Show Weakness.

NEW YORK, July 2—4mother speculative anticipation was disappointed by the action of today's market. This was that with the annual requirements of the money market reflected annual requirements of the money market reflected annual requirements of the money market reflected clearly enough the reflux of funds after the stringency incident to the settlement. Some doubt is felt over the showing of the weekly bank statement, which will be published to morrow owing to the Saturday holiday. It is expected that this will show the effects of the large operations incident to the beginning of the fract year, as was the case with returns of the Bank of Engiand and the Dank of Itaria of the finest year, as was the case with returns of the Bank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Itaria of the Hank of Engiand and the Dank of Hank of Engiand and the Dank of Hank of Engiand and the Dank of Hank of Engiand and Engiand Prices of the Hank of Engiand and Hank of Engiand and Engiand Prices of the Hank of Engiand and Hank of Engiand Engiand Engiand Prices of the Hank of Engiand Prices of the Hank of Engiand Engiand Prices of the Hank of Engiand Prices of t

In the bond market some of the older issues tended downward. The semi-annual interest of 1% per cent came off the New York Central general mortgage 3½s, and they sold at par for the first time in their history. The issue of this refunding mortgage late in 1886 was regarded as the opening of a new era in our financial history and was one of the notable events heralding the following period of prosperity. In 1869 they sold as high as 113%, and last year as high as 109%. They sold earlier this year at 101, which was the previous low record. Total saies of bonds, par value, \$1,725,000. United States 5s advanced & per cent on the last call,

Montana Wool Sales. BUTTE, Mont., July 2.—The wool season has opened in Montana. The first clip in the Beaverhead was sold today to a Philadelphia firm by G. Sanders. The bulk was 80,000 pounds, and the price 14 cents. Wool is selling at from 15½ to 16½ cents at Billings. It is about the same at Miles City and Great Walls. The average price for the season, how-Fails. The average price for the season, however, will not be more than 14 cents, it is thought. The clip for the state will be about 25,000,000 pounds.

DAYS FOR EVERYBODY.

Programme of the Woodmen of the

the World carnival will have a special feature. Wedding, bables', children's and numerous other "days" will be celebrated, the confetti fiend will reign supreme with confetti at something like 1 cent per.

Tuesday, July 14, will be opening day.
Children's day will follow on the 15th.

The carnival queen will receive her crown on the 15th correction day. The 17th will on the 18th, coronation day. The 17th will be Women of Woodcraft's day and on the 18th sturdy Woodsmen will celebrate. On the 19th, Sunday, the carnival grounds will be closed. The 20th will be Oregon day. Governor George E. Chamberlain has accepted an invitation to be present on this occasion and appropriate exercises will be held. Fraternal day will take up the 21st and on the 22d baby day in the afternoon will be followed by the public weekling in the evening. The number of couples to be united by the bonds of wedlock on this nounced, but the wedding gifts will un-doubtedly have the desired effect on a large number of willing candidates. July 23 will be given up to the Multnomah Amateur Athletic Club and the 14ht will be Elks' day. The 25th will be grand closing day and will be the occasion of a confetti

George L. Hutchin, one of the directors of the queen voting contest, returned yes-terday from a trip to Baker City, La Grande, Pendleton and The Dalles, and announced that all these cities are elect-ing queenly delegates to the W. O. W. carnival. In all there are 12 towns electing queens and Mr. Hutchin's report is a flattering one. Steve A. Woods, assistant manager of

the Southern Carnival Company, received a telegram from Albany yesterday, stat-ing that Joe Kator, the wild animal trainer, while giving an exhibition in the lions' cage at Albany, had been attacked by Wallace, the largest of the beasts, and se-

the local voting contest for queen there have been several marked changes since yesterday's count. Miss Verna Stein-egger made the largest gain, today's count showing an addition of 515 votes to her credit. Miss Helen Sauerman is a strong third with a gain of 145 votes and lacking only 50 votes of second place. Miss Elsie Morgan gained 50 votes and has sec-ond place. Mrs. Emma I. Jackson gained 58 votes and is still 1101 votes in the lead of her nearest opponent. However, several of the contesting young ladies are said to be accumulating a reserve fund of ballots, which they will vote on the last day of the contest, so it may be said that no one can tell who will receive the honors. The following is the result of yesterday's

count:

Mrs. Emma I. Jackson
Miss Elsie Morgan
Miss Heien Sauerman
Miss Euia Bennett
Miss Verna Steinegger
Miss Anna Philips
Miss Martha Luetchenger
Mrs. W. M. Williams. Danger of Lynching Is Passed.

PEORIA: Ill., July 2.-John McCray, who a week ago Thursday night shot and killed Detective Murphy, and who was removed to Galesburg to prevent being lynched, was quietly brought back early this morning by orders of Judge Green, of the Circuit Court. The special Grand Jury will consider his case at once and if he be indicted Judge Green will appoint an attorney to defend him immediately. It is not believed that any further attempt

Marriage of Columbia County Official
