DENVER, Cole., July &-The fist an

The attendance at the opening session, though taxing the capacity of the immense tent which had been provided for the occasion, did not include as many delegates as had been expected, on account of delayed trains. It is impossible even to give a reasonable estimate of the number now in the city, but it will run into the thousands.

The opening of the convention was preceded by the annual business meeting of the Christian Endeavor Corporation, at which officers for the ensuing year were elected and reports of officers submitted. The weather was perfect, and more than 10,000 people attended the opening meet-

BOSTON, July 9 .- The sensation of to day's session of the National Educational Association came tonight in the spirited difference of opinion between President Eliot, of Harvard, and President Butler of Columbia, on the one side, and Miss Margaret A. Haley, of Chicago, on the other, over a proposed amendment to the by-laws giving the selection of the nomi-nating committee, now lodged with the state delegates, to the president. Miss Haley opposed the proposed change and was victorious, after a lively forensic battle, in which the two college presidents and a number of delegates joined. Miss Haley contended that the proposed

amendment was nothing less than a move toward investing the power of government in the male members of the association. Both President Eliot and President Butler insisted that under the existing conditions the states are not getting the proper representation on the committee on nomina
