Crop Coming On in Excellent Condition.

LITTLE DAMAGE BY VERMIN

Early Varieties Well in the Burr and Later Kinds Ready to Blossom -Only a Few Yards Being Sprayed.

SHORT HOP CROP IN CALI-FORNIA.

SANTA ROSA, Cal., July 10.-The hop crop in this section will be much ago, conditions now showing that the crop will fail far below the yield of last year. Similar reports are being tions, including the hop districts of the Northwest and East. The shortage of the crop will result in a material ad-

SALEM, July 10 .- (Special.)-While growers nd dealers are engaging in a quiet but deemaining bales of 1902 hops, the 1903 crop is seather promises to be unfavorable for their nultiplication. Early Fuggles hops are already are ready to blossom. Some growers have already sprayed their yards once, and in a few time. But these instances are rare. The great majority of the yards are clean and have so few lice that the owners will not begin spraying for a week or ten days yet.

hop market for the reason that buyers and sellers are far apart on prices and getting farther part every day. Dealers are ready to buy and While some growers may be ready to sell at prices offered, the large majority who have not yet sold will hold until nearly picking time, believing that there is more chance market improving than of its getting

alers who are bearing the market have the long end of the lever, for the tendency is downward. They continue to argue to the growers that the brewers are supplied and will not pay the prices demanded. The growers, on the her hand, generally adhere to their faith in the statistical situation and say that the brewers will ultimately need all the available hops, se who could have had 25 cents for their we had cumulative evidence of the truth of saying that the hop business is a gamble and they are wondering where they will be at

CHEESE IN POUND PACKAGES.

Government Recommends a Plan to Make It More Popular.

ts are being made by the Government United States and to increase its consumption nt experiments with the common American brand of cheese show its food value to be very great. in these tests 93 per cent of the gested, the available energy pro per cent. Notwithstanding its remarkably urishing qualities, cheese is eaten only to a limited extent in the United States. In fact, it titutes less than half of I per cent of the tal food consumed in this country. After several years of careful study of the

shject, scientists have evolved a plan to popularize cheese in the United States. They are convinced that the system of making large eses, which in the retail trade are carved handicapped the industry. The choese thus epared and sold is not strikingly tempting. Noting that print butter brings a higher price than that article in bulk, and is in far eater demand, Professor E. H. Farrington reasoned that cheese put up in pound packages, each one bearing the imprint of the maker, would enhance its sale. What recommends the method particularly is that it opens a profitable thing to individual dairy farmers. At present less than 6 per cent of all the cheese manufactured in the United States made on farms, Factories control the industry. They turn out annually about 300,000;-

on refined in the East.

NEW YORK, July 10.—Spot its was fi higher at f122 10s in London and futures were 15s higher at f123 10s. Locally tin was also higher, closing at 27.15927.30c.

Copper declined about 5s in London, spot there closing at f36 12s 6d and futures at f56 2s 6d. Locally copper was nominally unchanged. Lake and electrolytic are quoted at 14c and casting at 13.50913.75.

Lead declined 2s 6d in London to f11 5s 7d; quiet here at 4.12½c.

Spelter was unchanged in London at £20 17s 6d, but was lower slightly here, being quoted at 5.7595.875s.

STOCK TRADING HEAVY, BUT AT THE EXPENSE OF VALUES.

ACTIVE ON SELLING SIDE

Movement in New York Central Continues to Dominate the Whole Market.

NEW YORK, July 10 .- The Stock Exchange did as much business today in the first two hours of the session as was done during the in turn more than twice as much as the recent daily averages. This revival of activity has been on the selling side of the market and yesterday's wide inroads on prices were added to today. Owing to the late rally on the movement to cover short sales, the day's extreme declines were considerably mitigated,

stock's extreme decline of \$\frac{1}{2}\$ points was the most considerable in the active list. The price touched 118 during the early afternoon and closed at 1194. Quite a number of leading speculative stocks were at one time from 2 to 3 points below inst night. St. Paul and United States Steel, the latter at only a fractional decline, touched lower prices than before this year and the same was true in a number of inactive stocks. Pennsylvania sold down to its previous low record at 123, but snormous buying orders at that level were immediately disclosed. There was no impor-tant new developments to account for the continued weakness of the market. It was an-nounced or authority that whatever plans were in contemplation for raising additional capital for the New York Central, nothing was likely to be done until September. There was an admission as to the probability that the great terminal construction contemplated by the company would be done through the medium of a terminal company organized for the purpose. But it was realized that New York Central credit must be relied upon for rateing the money.

The continued stream of New York Central stock coming up in the market was sufficient in itself to take away the effect of disclaim errs of a contemplated stock issue or bond issue Stocks of the subsidiary Vanderbilt compa nies, which are seidom dealt in, also suffered wide declines, Lake Erie & Western preferred losing 9, Peoria & Eastern 6½ and Canada Bouthern 2½. Chicago & Northwestern also suffered a 2%-point decline and the preferred the latter with a recovery. There were other notable declines among the high-grade investment stocks, such as New Jersey Cen-tral, which lost 6; Delaware & Hudson, 5%; Lackawanna and American Express 5 and Pullman, 3½. The occasional railies of the market inducated the large part played by professional short selling in the weakness, but large amounts of long stock were dislodged by the bear tactics of the professional traders and each successive rally until the last one was availed of as a best for renswed seiling. The first effective rally of the day came after the publication of estimates of the weekly morrow's gold shipments of \$2,600,000, how-mr, do not figure in this estimate. The large ceipts on balance from the interior were a secided surprise, in view of the movement of occulators in stocks were not able to get uch light on the crop situation from the ovement of the grain markets. The market oned about steady on the late rally. Bonds were weak in sympathy with stocks. Total same, par value, \$2,180,000. United States bonds were all unchanged on the last

SAN FRANCISCO MARKETS. Wheat Higher on the Generally Bullish Situation.

FRANCISCO, July 10.-(Special.) Wheat worked higher on a generally bullish situation. Barley was less firm, as offerings were more liberal. Oats were well sustained, with receipts light. Flour was firm in sympathy with wheat. Bran was rather easier. Hay was steady for choice and weak for low grades.

Orchard fruit was in good local and shipping demand. Bulk apricots were less plentiful and advanced \$5 per ton, with canners buying er. Some watermeions and cantaloupes, which are now more plentiful, were also shipped to the Sound. Figs were in excessive supply and weak. Cherries again arrived freely and moved slowly. Some black grapes from Yuma were offering. Choice berries were firmer, but supplies of Mexican limes are close at hand New potatoes were quieter and weak, excepting fancy box lots. Old Burbanks were lower, as the demand has subsided. Onlone were easy. Summer squash was scarce and higher, but other vegetables were mostly weak-

er, especially green corn. Choice poultry was sustained, but poorer grades were easy. Butter was slightly firmer, outside orders helping the market. Cheese was well sustained. Eggs were firm, but no higher, the supply being ample. Receipts-61,000 pounds butter, 26,000 pounds cheese, 28,000

dozen eggs.
Weol and hops were quiet and steady.

year average of S9.

The average condition of Spring rye is S8.3, as compared with S9.3 on July 1, 1902; 93.3 at the corresponding date in 1901, and a ten-year average of S7.5. The acreage of 51.5.

The acreage of potatoes, excluding sweet potatoes, is about 49,000,000 acres or 1.6 per cent less than that of last year. The average condition of potatoes on July 1 was 88.1 as compared with 92.9 on July 1, 1902; 87.4 at the corresponding date in 1901, and a ten-year average of 92.6.

report also includes fruits and various ninor crops, which will be published in detail in the crop report. WHEAT STRONG AT CHICAGO.

Market Advances on Reports of Crop Damage.

CHICAGO, July 10.-Cables failed to re-CHICAGO. July 10.—Cables failed to respond to the advance in the price of wheat yesterday and this fact, together with the favorable wea.ber conditions, caused an easier tone at the start. September being unchanged to the lower at 78% 978%. The prospect of a builtsh Government crop report was the principal factor throughout the session and the buying was of good character the entire day. There was a fate outside demand and St. day. There was a fair outside demand and St. Louis and the Northwest were both firm, which helped prices here. After-selling up to 794c for September there was a reaction on realizing sales, but crop damage reports continued to come in and prices held strong. The

close was %c higher at 79c. 64; fryers, \$4.5066; hens, \$4.5065.50; ducks, cld, \$3.5064.50; do young, \$465.

WOOL-Spring, Humboldt and Mendocino, tone was easier. The close was about standard to the strength of the strength in wheat, but the market was again under considerable selling pressure and the undertone was easier. The close was about strength in wheat, but the market was again under considerable selling pressure and the undertone was easier. considerable selling pressure and the under-tone was easier. The close was about steady with September a shade lower at 51%;651%;c. Oats ruled quiet and the market was gov-erned largely by the action of wheat. The close was firm, with September %6%0 higher at

> Liberal receipts of hogs and lower prices at the yards started provision prices in a down-ward direction and with practically no support, the market failed to rally from the oper ing weakness. Trading was light and without feature. September pork closed 5c lower. Lard was 74610c lower, while ribs were unchanged. The leading futures ranged as follows: WHEAT.

WHAT HONOLULU WANTS Congress Asked to Erect Federal

Building and Favor ex-Queen. HONOLULU, July 10 .- (By Pacific Ca. ble.)—The Legislature has passed a reso-lution asking Congress to provide Federal buildings for this city; also in favor of the passage of a bill in favor of ex-Queen Liliuokalani's claim. The bounty on cof-fee production and the furtherance of the contemplated improvements at Pearl Harbor are recommended.

WOMAN BEATEN BY ROBBERS, They Sought Money Which She Had

Deposited in Bank. SAN FRANCISCO, July 10 .- A daylight robbery, which for mystery and daring is almost without parallel in this city, was committed at 314 Gough street about 3 o'clock yesterday afternoon. Mrs. Bridget Annie Hughes, wife of Thomas E. Hughes, a bricklayer, was viciously at-tacked in her home by either two or three men, who knew that only the night before she had been paid \$500 for in-juries sustained in a street-car collision. They believed this money was in the house, and cruelly beat and choked Mrs. Hughes in their attempt to force her to disclose its hiding-place, but they only secured a few cants in change in a purse they tore from her dress. The booty they tore from her dress.

they sought was safe in a bank.

Leaving their victim covered with blood, half unconscious and lying in the hall-way, the robbers made their escape. Two men were seen leaving the premises. In men were seen leaving the premises. In connection with the robbery the police took into custody Mrs. Rose Rubenstein and Jacob Goldberg, who lived in the same house. As in the attack upon Mrs. T. V. Matthews last March, when Docia Noian was the counselor of the thieves, so the woman in this case was suspected of having helped to lay the plans for se-curing the coin thought to be within reach. Detective Reynolds took her to the hall of justice, as a result of her own contradictory statements made to him at the scene of the crime, but she and Goldberg succeeded in establishing their inocence and were released.

There can be no doubt that the desperate attempt to rob Mrs. Hughes was made by those who were in some way acquainted with her business affairs.

Charged With Criminal Assault. BAKER CITY, Or., July 10 .- J. W. Bu ker, of this city, was arrested yesterday, at Huntington, on the charge of having ommitted a criminal assault on Nellie Brown, aged 22, who lives on a farm near Huntington. Buker was arraigned before a Justice of the Peace and bound over to the Circuit Court under \$500 bond. The girl is said to be half-witted, and was the rosecuting witness in a similar case about
