Lines of Frisco System to be Consolidated-New Bond Issue,

NEW YORK, July 21 .- Announcement of an official nature has just been made re-garding the projected consolidation of the Chicago & Eastern Illinois Railroad Comany, the St. Louis, Memphis & South-astern and other lines owned by the St. Louis & San Francisco road west of the Mississippi River. All these lines are now in operation with the exception of a branch of 150 miles between Thebes and St. Louis, which is now under construc-tion. The lines are to be consolidated into the Chicago, St. Louis, Memphis & New Orleans Rallroad Company, a new corporation, which, including the Chicago & Eastern Illinois and the line now being netructed into St. Louis, will own a total mileage of about 1500. There will be an issue of bonds, says

the Times, and it will necessarily be large, as the proceeds will be used principally for the purpose of retiring existing securities. The exact amount of the issue has not been fully decided upon. The impor-tant point, however, is that the cash reguirement in connection with the transac-tion will be small, inasmuch as it will consist largely of an exchange of the bonds of the new company for the securities of the various other companies consolidated. Chicago, St. Louis, Memphis & New

Orleans Railroad Company, when compieted, will constitute an important line from Chicago, St. Louis and Kansas City over the Frisco and Chicago & Eastern els and for all the northwestern ter-

Integens and for all the horthwestern ter-ritory served by the Rock Island to the New Orleans gateway.
