LONDON, Aug. 12.—The Daily Mail this morning prints a dispatch from Belgrade which says that the Macedonian insurwhich says that the Maccoonian insur-gents never appear in great numbers, but in scattered detachments, thus baf-fling the Turkish troops and avoiding open ecounters. They confine them-selves mostly to the destruction of villags and crops, expecting in this way to compel the populace to join the rebellion. The Turkish soldiers are powerless to deal with these small bands, but to show that they are notive they occasionally loot peaceful Christian villages and perpetrate the most terrible out-rages under the pretense of combating the Insurgents. Bashi Bazouks have be-come the curae of the villages. They rob-and murder indiscriminately, and an-

As far as known the following villages have been de-Nared, Narakov, stroyed: Korrtschu, Nared, Narskov, Kosinetz, Schleve, Lichnaderes, Viadovo, Ostrovo, Sorovitch, Eskitschu, Bakitz and Jezer. BULGARIA IS MUCH ALARMED. Intervention by Powers Will Alone

Prevent a Massacre. SOFIA, Aug. 12.-The whole Bulgarian penly express their fears that a general massacre of the Christians in Macedonia is inevitable, possibly within four days and almost certainly within a fortnight. In-tervention by the powers is believed the nly way to prevent bloodshed. Meanwhile the government continues to main-nin its peaceful attitude, but it believes that a sudden development of affairs cross the border may at any moment rener the authorities powerless to prevent

Turkey Blamed for the Outbreak. The officials here blame Turkey for the ituting a search for arms in the vil-

th doing less to prevent the insurgents om crossing the frontier than Bulgaria, sough Turkey maintains four times as any troops along the border. The Turk-h soldiers invariably retire to barracks sugget and remain there until sunrise, ving free egress to the Macedonia inregents during the night. The Turks the bravely during daylight, but dislike armishing in the durk. It is everywhere clared that the present ministry is doing int where circumstances may prove to ong for the Cabinet. The growing eco-nic depression in the country consti-es a dangerous factor in the situation.

Whole Outbreak a Great Surprise, The most astonishing feature of the sit tion here is the remarkable quietud ith which the people have received the ews of the fresh rioting in Macedonia, he whole outbreak came as a great surse, even to the local revolutionary comlittees, which were not prepared for so rly a rising. In spite of the stirring speals of the committees, little or no tlar enthusiasm is apparent, not even ng the 20,000 Macedonian residents of fis. How long this condition will last penus largely upon the developments in Should the rising spread to the villayet of Uskub and come to the Bulgarian fronier, it is probable that the population of bulgaria will become arouse. haria will become aroused.

The official announcement also said: The change of personnel of voting trustees of the stock of the Seaboard Air Line Company does not mean the purchase of the company by Bock Island or 'Frisco Interests, although the 'Frisco lines extend into Birmingham and are a part of the Southern situation. It does, however, emphasize the fact that all the great railway systems are carrying out the policy of more closely cementing the railway interests of the country. which will greatly retard, and it is hoped, entirely prevent demoralization of the rate situation, or the unnecessary instruction and duplication of property."

The policy of the Scaboard Air Line The policy of the Scabcard Air Line for a long time was one of absolute independence, so much so as to make it at times inimical to the interests of opposing roads in adjacent territory. Today's developments, it is thought, will do away with such trouble in the future. The fight between socalled "Morgan interests," represented by the Southern Railway and the Scabcard Air Line people, during the last few years has been ple, during the last few years has been a sharp one. In contrast with the oidtime rats-cutting, which the Scabourd in-dulged in, it has been significant that in recent years it has had a sort of silent understanding to maintain rates, so that all of the railroads in Southern territory would be able to get as much profit as possible out of their traffic.

Extent of the System. The Seaboard Air Line Rallway Com pany, operating 2611 miles of road, was formed under the laws of Virginia in 1800 to succeed the old Richmend, Petersburg and Carolina ralload. The system now extends from Richmend, Va., to Tampa, Fla., with connections extending word to Monteconers. west to Montgomery and Birmingham and east to Charleston, Wilmington and Norfolk. A traffic agreement with the Pennsylvania and a through passenger and freight service is maintained be-tween Washington and New York.

The Seaboard Air Line also owns the Bay Line Steamship Company, operating from Baltimore to Norfolk.
