

TRIBUTES TO CECIL

King Edward Deplores Salisbury's Death.

CONDOLENCES ARE POURING IN

References to Dead Statesman Are Made From All English Pulpits—Many Visitors to Hatfield Attend Parish Church.

LONDON, Aug. 23.—King Edward's tribute to the deceased Marquis of Salisbury is given in the court circular tonight, dated Martenbad, Sunday. It runs as follows: "The King has received with profound grief the news of the death of the Marquis of Salisbury, and His Majesty deeply deplores the loss of so great a statesman, whose invaluable services to Queen Victoria, to the House of Commons, and to the highest offices of state which he held for so many years will ever dwell in the memory of his fellow-countrymen."

Messages of condolence are pouring in to Hatfield House, the residence of the late Marquis. The messages, which include King Edward and Queen Alexandra, the Queen of Portugal and President Loubet. Touching references were made to the dead statesman in the services of almost all the churches in the United Kingdom. There were many visitors to the village of Hatfield today. The parish church was crowded this morning, the worshippers including Premier Balfour, the Earl and Countess of Selbourn, the Marquis' sons, and the members of his family and household.

Lord William Cecil, the rector of the church, officiated, but, beyond choice music and appropriate hymns, the service was of the usual character.

The senior curate in his sermon paid a tribute to the deceased, especially dwelling on his private virtues and his devotion to the church. In the conclusion of the discourse the whole congregation rose and remained standing while the organist played the "Dead March" from "Saul." The funeral has been provisionally fixed for the end of this week, to enable Lord Edward Cecil, who is on his way home from Egypt, to attend the service.

The physicians met at Hatfield House tonight and issued to the press a brief description of the final stages of the illness, which confirms the statements already called by the Associated Press.

The newspapers this morning, some of which appear with black borders, devote the bulk of their space to the late hours and career of the Marquis of Salisbury. In their editorials they pay warm tributes and express deep admiration for the dead man, recognizing that with him there passes away the last of the great English statesmen of the Victorian era as well as the last of the brilliant group of European statesmen which included Bismarck, Gorshakoff and Andrassy.

It is held that his work in the domain of foreign policy that he has most remembered with gratitude was his constant endeavor to preserve peace. He is spoken of as the true representative type of the unambitious, conservative and aristocratic class.

The Paris correspondent of the Times says: "Shortly after the Armenian massacre, it came to my knowledge that Lord Salisbury regarded the deposition of Abdul Hamid as perhaps the best solution to the great evils of Turkish misrule. In a letter to a friend, however, he said he supposed that the best solution was the conservative to consent to such a course, and apparently the idea was never officially mooted."

SINKS NEAR HER WHARF.

Late Premier Was Always for Peace With Gaul.

PARIS, Aug. 23.—The death of Lord Salisbury made a deep impression here. Although he is not generally regarded as feeling towards here that his disappearance will contribute to strengthen the position of Colonel Secretary Chamberlain, which circumstance is not thought likely to promote friendship between the two countries.

The ability, prudence and moderation of the ex-premier are frankly recognized, though some of his sarcastic utterances are recalled. It is acknowledged that while he firmly upheld Great Britain's interests, at the same time he always strove to prevent a rupture with France, and it is admitted that Chamberlain would have been far more dangerous had any other statesman been in power.

CANADA IS DETERMINED.

Poaching on the Great Lakes Will Be Stopped.

OTTAWA, Ont., Aug. 23.—The Department of Marine and Fisheries is determined to put an end to illegal fishing in the great lakes. It is not the intention of the government, however, to enforce the law with severe penalties, as has been estimated in some quarters since the Petrol-Silver Spray incident occurred. It is the opinion in official circles that the desired end will be attained without resorting to harsh measures, which might lead to international complications.

Swift boats will be manned and placed at points in the great lakes where poaching has been the most rampant. They will be armed with rifles and seven-pounders as all the patrol boats are now equipped.

Expedition to Hudson Bay.

HALIFAX, N. S., Aug. 23.—To prevent another Alaskan boundary controversy and to make observations of the climate, geography and natural resources of both land and sea of the northern regions of Canada, an expedition under the command of the Dominion government sailed from Halifax today on the steamer Neptune for Hudson Bay. The expedition will report on the alleged extensive poaching operations carried on in that great sea by the Americans.

The steamer will first go to Baffin Bay, where the whaling stations will be inspected and thence to Charley's Inlet, where she will go into Winter quarters. As soon as the winter has fully set in she will be made the center of sledging expeditions in all directions.

Before leaving the inlet in the Spring a police post will be erected which it is the intention of the government to maintain permanently. The steamer will later proceed to Greenland to make possession of the land in the vicinity. The Neptune will return here in November, 1904.

MARKET IS LIFELESS.

Outlook in the Balkans Checks Healthy Business.

LONDON, Aug. 23.—The stock market experienced a lifeless week. Consols, which recently have been poured on the market, closed a trifle better, but the check in the rally of Americans and the ominous outlook in the Balkans acted as a deterrent to any healthy business.

Speculators were exceedingly cautious in operating in American railroads, but the belief prevails that a general upward movement will set in.

Foreign securities were very flat.

Annual Baseball Tournament.

RAINIER, Or., Aug. 23.—(Special.)—The third annual tournament of the Columbia County baseball clubs will be held in Rainier Thursday, Friday and

Saturday, August 23, 24 and 25; \$100 in prize, the Harry Reed cup, and the champion county cup are offered as inducements. The baseball team at Clatskanie won the cup and was the champion of the county in the tournament held in St. Helens a year ago.

SIXTH MINING CONGRESS

Will Convene at Deadwood in September.

DEADWOOD, S. D., Aug. 23.—Judging from the inquiries received from all parts of the country the sixth annual session of the American Mining Congress, which is to be held in this city and Lead during the second week of September, is of far more importance than the people of this section know. The queries received daily as to whether Secretary Shaw, of the United States Treasury, is going to promise for the President a new cabinet office to be devoted to mining. Of course, the Secretary can do nothing of the sort, but it is generally understood that the congress will adopt resolutions looking toward that end, and it is more than probable that several amendments will be suggested and the accomplishment of that proposition as its object.

The programme as arranged so far has addresses by Secretary Shaw, Director Roberts, of the Mining Bureau, W. Van Dusen, of Nevada; Franklin R. Carpenter, of Denver; Charles W. Merrill, of Lead City; Nelson H. Darton, of Washington, D. C.; J. Irving, of Washington, D. C.; John Blatchford, of Terry; W. Parker, of Washington; Dr. J. N. Todd, of Vermilion; Professor J. D. Holmes, of St. Louis; Professor C. C. Chas. of Rapid City; Hon. John L. Webster, of Omaha; Governor Charles N. Herriot, of South Dakota; Governor Toole, of Montana, and Governor Van Sant, of Minnesota.

One hundred tons of gold ore is on its way to this city to form a part of the mineral exhibit for the congress. This is only a portion of the Black Hills exhibit, and several other large exhibits from other states are to be displayed here. This is the working ore of 100 of the producing mines of this section. Reinforcements have been put into the Mineral Palace building, so that the floors will hold this tons of precious mineral.

A branch postoffice has been installed at the Mineral Palace, and delegates and visitors may have their mail addressed in care of that department.

KRIEGBERUND IN CAMP.

Two Thousand Delegates Parade With Emperor William's Flag.

TERRE HAUTE, Ind., Aug. 23.—The feature of today's session of the North American Kriegerbund encampment was the parade in which marched the 2000 delegates and numerous military and civil bodies. A feature of the parade was the flag presented to the Chicago societies four years ago by Emperor William.

The Kriegerbund was formally welcomed this afternoon by an address by Major Henry B. Steeg, speaking for the local German societies.

The sham battle representing the battle of Santiago was given at the Driving Park. A feature of the afternoon was a parade by the Kriegerbund, which was devoted to prize drills and band concerts.

MAY TIE UP SHIPYARDS

New York Central Federation Takes Up Marine Machinists' Fight.

NEW YORK, Aug. 23.—At the close of a stormy session of the Central Federation of Unions today it was voted to stand by the Marine Machinists' Union in the strike for an increase in wages. This was taken up all the shipyards in New York and vicinity, may be ordered this week.

The conference committee reported that in their efforts last Friday to come to an agreement with the employees they had made no progress; that the employees positively refused to consider the minimum of \$3 per day or to grant an increase.

Chicago Waiters to Be Called Out. CHICAGO, Aug. 23.—In pursuance of the declaration made yesterday that a strike would be called in all the restaurants controlled by the Chicago Restaurant-Keepers Association, and a number of other restaurant committees of the Waiters' Union will lay their tools tomorrow to call out the thousands of restaurant employees upon whom the throngs of business men in Chicago depend for sustenance. Only a few restaurants in the downtown and outlying districts are to be closed by the labor committee, and the leaders declare that before night 5000 persons will be idle.

THE DAY'S DEATH ROLL.

Charles Carroll Bonney.

CHICAGO, Aug. 23.—Charles Carroll Bonney, who was president of the World's Congress of the Columbian Exposition, died here today of paralysis after an illness of three weeks.

Mr. Bonney, who was born in New York State 72 years ago, was prominent as a lawyer, teacher, author and orator. He was one of the originators of the law-and-order movement for the enforcement of cutting laws and was president of the World's Congress of the Columbian Exposition in 1893.

Lieutenant-Commander Davenport. DETROIT, Aug. 23.—Lieutenant-Commander Francis O. Davenport, U. S. N., retired, died at his residence here today of heart failure. At Annapolis he was a classmate of Admiral Schley. He served on various ships during the Civil War and was retired in 1870 at his own request.

Dr. John M. Evans. EVANSVILLE, Wis., Aug. 23.—Dr. John M. Evans, after whom this town was named, and who was well known throughout the state, died today, aged 81 years.

Robert Stevenson. CHICAGO, Aug. 23.—Robert Stevenson, a pioneer wholesale druggist of Chicago, is dead of heart disease.

Texas Fever in Siskiyou County. SACRAMENTO, Cal., Aug. 23.—Veterinarian C. H. Biemer has returned from a trip to Siskiyou County where an attack of Texas fever is depopulating a large herd of cattle. Over 90 per cent have died and many more will perish from the disease. He has quarantined a herd of 60 animals and reports that there is but little danger of the disease spreading.

A Little Girl's Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy. Major, the three months old daughter of Mr. and Mrs. John Blue, of Richardson, Oregon, was ill with cholera infantum, so ill in fact that the local physician had given her up. Mr. and Mrs. Westley Saunders were at the house at the time when the Chamberlain's Colic, Cholera and Diarrhoea Remedy was procured and he at once secured a bottle and with the consent of her parents gave the little sufferer a dose of it. To the surprise of the mother and when she awoke the next morning was out of danger. This happened almost three years ago.

RACE STARS' BETS

Shamrock Is Put in Drydock at Erie Basin.

DAMAGE FOUND TO BE TRIFLING

Measurements Will Be Taken on the Challenger Tomorrow Morning—Visitors Go Up the Hudson to Grant's Tomb.

NEW YORK, Aug. 23.—The Shamrock III was towed today from her moorings inside Sandy Hook to the Erie Basin, where she was at once placed in drydock. When the water had been pumped out it was found that the straining to which she had been subjected in the heavy windward thrash yesterday had apparently started some rivets, for a gang of dockhands were set to work tightening them up. The damage, however, appeared but trifling. Her beam was found to need only a little polishing, and when she was refloated she was ready for the measurements, which will be taken early tomorrow morning after which she will return to her moorings.

It is unlikely that the remeasurements will alter the time allowance in any appreciable degree, and it is felt that should the additional weight of anchor and chain, which would be aboard when the tape is passed over her, increase her sailing length, the original figure will be restored by the removal of extra weights.

The Shamrock I also was towed to the basin, where she will await her owner's disposition.

After seeing the challenger drydocked, Sir Thomas took a party of guests to the Erin to Seagate, where they attended a dinner on board Commodore Todd's steam yacht, Thistle, after which the Erin went up the North River to the Earl and Countess of Shaftesbury and the other foreign visitors an opportunity to visit General Grant's tomb.

This evening Sir Thomas and his guests attended a dinner at the Oriental Hotel, Manhattan Beach, at which General J. C. Bates and General Corbin were present. The race on Tuesday will be over a triangular course.

The Reliance took a short spin outside Sandy Hook today, and then returned to her moorings.

CONSULT OVER MEASUREMENT. Lipton Has No Objections to Make to the Committee.

SANDY HOOK, N. J., Aug. 23.—There was more than ordinary bustle for Sunday inside the Shamrock. The John L. Scully, one of the New York Yacht Club boats, came down from the city bearing the racing committee at an early hour, and the reasons for the proposed strike were carefully gone over.

Sir Thomas Lipton said that Mr. Pitt had been informed that they need not carry chain or anchor.

"However," he added, "I have no objection to offer, and no fault to find, and, as you see, I have sent the Shamrock up to the dock."

This was true, for an hour before the committee arrived the tug cruises had taken the two Shamrocks in tow and was proceeding to the Erie Basin.

No sooner had the Shamrocks left than Captain Lipton's line to his tender, the Reliance went out beyond the Hook. The crew rated mainmast and jib, but the Captain was undoubtedly just trying the best of her sails, for he only cruised a few miles and returned in an hour.

Sir Thomas, in the Erin, followed the two Shamrocks up to the city, and later the Reliance's tender also went up to the city. This also was a very interesting sight, and she held receptions all day long to admiring crowds of enthusiasts.

The Shamrock III will be measured in the morning, returning in the afternoon.

SANK NEAR HER WHARF.

Excursion Boat Captain Saves Many Lives by Good Judgment.

M'KEESPORT, Pa., Aug. 23.—The Annie Roberts, an excursion boat carrying 120 passengers, sank here tonight, but no one was drowned. The boat had been up the river with the Ancient Order of Hibernians and their guests from Pittsburg on their annual outing.

On returning to the wharf, approaching this place, it was discovered that the vessel was rapidly filling with water, and Captain Klein, without letting his passengers know of the condition, ordered the boat to be beached. The water was quickly done, and when the boat was within 25 feet of shore she sank in about six feet of water.

The excursionists were all taken off without fatality by means of skiffs and barges.

When the boat sank the lower deck was covered with water to a depth of about six inches. Women and children became panic-stricken, and there were many narrow escapes from drowning during the transfer from boat to shore.

Sentled to Death in a Wreck.

ST. LOUIS, Aug. 23.—A special to the Republic from Brunsdwick, Mo., says: "On Monday night a fire broke out and several others were severely burned by escaping steam and six circus ponies were killed in the wreck of a circus train here today."

The wreck contained a car containing the men and ponies were a total wreck and the escaping steam scalded five of the men, who were asleep in bunks over the ponies.

WANT OREGON MEN.

Census and Land Bureaus in Dispute Over Services of Forest Fisher.

OREGONIAN NEWS BUREAU, Washington, Aug. 23.—A great deal of misunderstanding exists between the census and land bureaus in regard to the services of Forest Fisher. The principal one being that the present Administration had the law changed so that the selection of general officers could be made only by the President and not by the Senate. This is absolutely false. For 50 years the President of the United States has had authority under the law to select the man he chose as general officer. He can select a man for private life, and make him head of the Army, if the Senate will confirm.

The fact is that the right of seniority extends in the Army up to and including the rank of Colonel. This is in the infantry, cavalry and artillery, the fighting portions of the service, as well as in the staff bureaus. The President can make his selection from any of the officers at the head of the staff bureaus, or for any other general officer in the Army.

In connection with this story an attempt has been made to make it appear that Major-General Wade has been outrageously treated by the present Administration, and numerous instances are given where officers have been jumped over his head. Wade was promoted from Colonel to be Brigadier-General May 26, 1887. This promotion was made by President McKinley. Had there been no war, Wade would have landed at the head of the list and been Commanding General of the Army. But the Spanish War changed all things. Among others, it changed the status of Wade as a soldier. A very good man, but a man who did not have the energy necessary to make him valuable as a high commanding officer.

And now other men have been jumped over him. Seven men have been made Major-Generals who were below Wade in rank as Brigadier-General, or even Colonel. One of them retired almost immediately. Wheaton, and he will not be considered in this list. Young was a Brigadier-General on the 22 of June, 1900, nearly three years after Wade first held that rank, and was made Major-General in February, 1901. Wade and MacArthur were made Major-Generals on the succeeding days. MacArthur reached the rank of Brigadier-General on the same date that Young did; Chaffee never was a Brigadier-General. He was jumped over all Brigadier-Generals from the rank of Colonel, on account of his Chinese campaign. These three men rank Wade at the present time. It is explained that all of them will be Lieutenant-Generals of the Army. All of them were appointed

Major-Generals in February, 1901, by President McKinley.

This is another case where Roosevelt is followed by Wade. His predecessor laid down for him. He took the senior Major-General of the line and made him Lieutenant-General. He intends to take the highest officer in the service, Hughes, Bates and Davis were made Major-Generals respectively April 1, July 15 and July 21, 1902. They were made Major-Generals on the 21 of February, 1901. They all were jumped over Wade by President Roosevelt. Hughes and Davis have already retired, and Bates will retire in a short time. He did not interfere with Wade's promotion.

So those who are trying to make it appear that President Roosevelt has interfered with Wade's advancement have not considered the matter in the light of truth and history.

FAST TRAIN JUMPS TRACK

Two Are Killed and Several Are Injured.

LITTLE FALLS, N. Y., Aug. 23.—A special train on the New York Central, carrying New York City papers, was wrecked at Gulf Bridge in this city today.

Engineer Robert Lilly and Fireman Peter Conley, both of Albany, were killed, and employees of the World, Sun, Rochester News Company and American and Journal were severely injured.

Conductor Erhardt and several other members of the train's crew were slightly injured.

The train, which was running at the rate of a mile a minute, was composed of an engine and three express cars. In rounding the sharp Gulf Bridge curve the engine jumped the track and landed at the foot of the embankment. The front car, in which were all the passengers, followed the engine down the slope.

STEAMER SINKS IN CANAL.

Panic-Stricken Men Try to Throw Women in the Water.

INDIANAPOLIS, Aug. 23.—The pleasure steamer Indiana was sunk in the Indianapolis Water Company's canal at the park at Iyve tonight. The park officials were notified by a boy named J. N. Olyphant, of Indianapolis, and P. E. Betts, of Anderson, Ind., who were passengers, say that they saw a woman and a baby sink to the bottom. They did not see them come to the surface again and feel sure they were drowned.

About 50 people were on board when the vessel sank about three-quarters of a mile above its starting point in the canal, which is about eight miles long and runs from Indianapolis to Broad Ripple Park.

The canal is narrow and from ten to 15 feet deep in the middle. It is not yet certain what sent the steamer to the bottom. Defective machinery, overloading on one side and leaks are blamed.

Skiffs in the canal aided in the work of rescue of fainting women and children. Mr. Betts, who saw the woman and baby drown, saved his wife as she sank the third time. She weighs over 200 pounds.

Thirty persons were thrown into the water when the boat sank. Several of the male passengers did heroic work in getting them to shore. They were aided by the ship's crew. Much additional excitement was caused by several men on the boat who became panic-stricken and tried to throw women and children into the water. Search is being made to see if any bodies are at the bottom of the canal.

SANK NEAR HER WHARF.

Excursion Boat Captain Saves Many Lives by Good Judgment.

M'KEESPORT, Pa., Aug. 23.—The Annie Roberts, an excursion boat carrying 120 passengers, sank here tonight, but no one was drowned. The boat had been up the river with the Ancient Order of Hibernians and their guests from Pittsburg on their annual outing.

On returning to the wharf, approaching this place, it was discovered that the vessel was rapidly filling with water, and Captain Klein, without letting his passengers know of the condition, ordered the boat to be beached. The water was quickly done, and when the boat was within 25 feet of shore she sank in about six feet of water.

The excursionists were all taken off without fatality by means of skiffs and barges.

When the boat sank the lower deck was covered with water to a depth of about six inches. Women and children became panic-stricken, and there were many narrow escapes from drowning during the transfer from boat to shore.

WOOL WAR IN SIGHT

Manufacturers Object to Paying Higher Prices.

DEALERS FIRM IN HOLDING OUT

They Contend Raw Material Costs More Than Before—Trend of Foreign Product Is Toward Material Advances.

NEW YORK, Aug. 23.—(Special.)—The Textile Manufacturers' Journal, in its issue today, says:

"The sales of wool in the principal markets of the country, exclusive of Boston, for the week ending August 21, as compared with last week and the corresponding week last year, have been as follows:

Table with columns: This week, Last week, Year, Domestic, Foreign, Totals

"The total sales reported since January 1 amount to 4,831,500 pounds domestic and 22,863,519 pounds foreign, aggregating 27,695,019 pounds, as compared with 74,317,260 pounds domestic and 23,074,500 pounds foreign, aggregating 97,391,760 pounds, during the corresponding period last year.

"The shipments of wool from Boston for the week were 5,074,876 pounds, as compared with 4,599,969 pounds last week. The shipments since January 1 have been 14,159,216 pounds.

"Questions of price are now occupying the greatest attention in the various wool markets. The dealers are decidedly bullish in their opinions, and base their arguments for higher prices upon the increased cost of wool in the country. Undoubtedly the growers have been somewhat inflated in their ideas of new-clip values, but it is questioned if the rates that have been paid have been high enough to warrant the advances that some of the sellers say are inevitable. Just at present the dealers are very firm in their attitude, but this has not as yet had the desired effect upon the buyers.

"Manufacturers feel that they can ill afford to pay high prices for their raw material in the face of existing conditions in the goods market. The spring season of woolen goods has not yet advanced far enough to warrant the claim of a big year, and the prices at which the different lines have been sold do not indicate an excess of demand over supply. If advances for wool are obtained, it will be only after a stubborn fight on the part of the manufacturers.

"As to foreign wools, the trend is undoubtedly toward higher levels, and actual sales at material advances over old prices have been made. In carpet wools the quietness which precedes the fall buying is apparent, but prices are very firm and the opinion is general that few can be brought in this year under the low-duty limits."
