

FIRE COSTS LIVES

One Hundred People
Perish at Budapest.

GREAT STORE ALL ABLAZE

Folks in Upper Stories Are
in a Deathtrap.

NUMBER INJURED BY JUMPING

They Cling to the Windows Until
Their Position Is Unbearable—
Victims Are Mostly Working
People—Loss Is Very Heavy.

VIENNA, Aug. 24.—According to a special dispatch received here 124 persons perished in the fire at Budapest.

BUDAPEST, Aug. 24.—Fire started this evening in a four-story building, the two lower stories of which were occupied by a fancy goods firm, the upper floors being residential flats. There were 200 people in the building, and it is now stated that between 40 and 50 persons were killed, including Herr Goldberger's wife and son. The police announced that by jumping from the windows 20 persons were killed and 16 injured, nine seriously. The damage is estimated at 4,000,000 kronen, mostly covered by insurance.

The warehouse contained piles of flimsy material and the flames spread with frightful rapidity and soon reached the residential floors. Only the work people near the doors below were able to effect their escape. The residents above, seeing their escape cut off, clung desperately to windows, screaming for help. The firemen held out sheets of canvas and called to them to jump. Fifteen persons were saved in this way, but many in jumping missed the sheet, nine being killed on the spot.

BIG FRAUDS CHARGED TO WRIGHT.

Famous Financier Hears the Side of
Stockholders Cursing His Arrest.

LONDON, Aug. 24.—Proceedings in the case of Whitaker Wright were resumed today. In opening for the prosecution, Horace E. Avery said that Wright, being managing director of the London & Globe, British-American and Standard Exploration Companies, using these names as a shield for his purpose for stock exchange speculation, engaged in a series of transactions, the result of which was the ruin of many investors. Wright controlled all the financial operations of the companies, that the much-discussed speech of the late Lord Dufferin, at a shareholders' meeting, was written by Wright. Mr. Avery concluded by saying that the losses of shareholders in the capital of three companies amounted to £2,000,000, and added evidence of the London & Globe Finance Corporation originally held by Wright, he appeared to possess only 250 shares at the time of the collapse of the concern.

The day was occupied with the examination of witnesses in support of Mr. Avery's contention that Wright swelled the assets and had the assets transferred to another company at the time of the collapse. The day was occupied with the examination of witnesses in support of Mr. Avery's contention that Wright swelled the assets and had the assets transferred to another company at the time of the collapse.

MORE LIGHT ON HUMBERT TRIAL.

Editor of Punch Tells of Regnier,
Referred to as Crawford.

LONDON, Aug. 24.—Sir F. C. Burnand, the author and editor of Punch, in a letter which is published in the Times this morning, recalls that Regnier, whom Mrs. Humbert in court declared to be the man who left the alleged fortune, but who took the name of Crawford because of his notorious history, was a Frenchman, became his neighbor at Hamstead, an English watering place during the Franco-German War, under the assumed name of Metaki.

FLOODS IN CHINA DO GREAT DAMAGE.

SHANGHAI, Aug. 24.—Floods in the Kiang district have seriously damaged the Suan Tung Railway. The flood has burst its northern embankment above Tsinan and flooded the territory from that town to the sea. Sixty miles of German telegraph line has been destroyed by the inundations.

DUTCH FINALLY WIN WAR

Achilles, After Thirty Years' Fight-
ing, Decides to Submit.

NEW YORK, Aug. 24.—Private news from Achilles, says the Brussels correspondent of the Times, calling by way of London, is to the effect that Panglima, ruler and Rajah Rensima, who have been for many years two chief rebel leaders, will formally submit to the Dutch in the course of the next few days.

The colonial troops of the Netherlands have been at war with the Achillese almost continuously since the latter part of the cause of the war was the refusal of the Sultan to recognize the suzerainty of the Netherlands, over which long ago negotiations were held. The Sultan sent a diplomatic agent to Singapore to appeal for the military aid of this country, and at the same time he dispatched commissioners to treat with the Dutch Government. Encouraged by the hope of aid from Great Britain and the United States, the Sultan rejected the terms offered by the Netherlands.

The war thus began has cost the Dutch over \$300,000,000, and the lives of several thousand soldiers. One expedition after another has been sent to Sumatra, but as soon as the Dutch have been completely crushed it has broken out again. The Dutch have tried by every means to end the war which has crippled the finances of the Dutch Indies.

Baby Lion Holds Actor's Room.

Kansas City Star.

Merely because Lawrence D'Orray, the actor, expressed a desire to send a baby lion to friends in England on a recent visit to Boston, the animal trainer yesterday had one of his men deliver at the Hotel Wellington, where the player lives, a tawny infant with a fighting weight of 125 pounds. The little prince of beasts, still crated, was taken to the actor's room. When the attendant took off the lid of its box the baby lion jumped out and frisked about in a way which, while it did not frighten, certainly disconcerted D'Orray.

The actor thought the messenger was joking when the man said he had a brute of that sort in the box, but he failed to see the point when the agile cub practically took possession of the place. After a lively scramble the pet was returned to the small wood cage, and then the

attendant left the hotel. Bostock's messenger omitted to fasten the box securely, however, and when D'Orray returned to his room after a visit to the office he found the yellow youngster again at large.

INSPECTION TO BE KEEN.

Washington Assessors' Work to Be
Thoroughly Scanned.

OLYMPIA, Aug. 24.—(Special.)—The State Board of Equalization will begin its next session on the first day of September, and will sit, according to law, not to exceed 30 days. State Auditor Atkinson, as chairman of the board, is now preparing all preliminary work and documents for the use of the board. The board is made up of the Secretary of State, Land Commissioner and State Auditor.

Mr. Atkinson, in speaking of the coming session, said that it is the intention of the board to go very thoroughly into the work of the County Boards and County Assessors this year, so far as the law authorizes them to make investigations of the mode and manner and thoroughness with which assessments have been made of the various classes of property throughout the state, in order that the board may more thoroughly inform itself as to the merit of the present system of assessments. They will do this not only because it is, more or less, their duty, but because there exists a necessity to provide revenues sufficient to meet the growing demands of the state and the large appropriations that are being required at the hands of the Legislature.

"The last Legislature made what was considered to be a rather large appropriation for the various state institutions and departments," said Mr. Atkinson. "It seemed to me that we, as a state board, who are responsible in general somewhat for the raising of taxes and especially for setting the rate for state general taxes, would have a difficult task on our hands. We do not wish and we do not expect to make any radical changes in the present system of state tax above what it has been for the last six or eight years past. It appears certain to me now that it will not be necessary to raise the rate above what it was last year, but the board is increasing revenues of the state from licenses and fees and other sources will be much larger this year than ever before, and for that reason that the board is to newspaper reports from the various county boards now in session in the various counties of the state, the valuations have been largely increased over those of any previous years, which I take it, is due to the wonderfully large amount of improvements and general growth and development of many classes of property throughout the state.

"New houses and new business blocks have been multiplying in every city and town in the state, and the many thousands of new people that have come to the rural portions of the state during the last year have added immensely to the aggregate valuations in the farming districts. I would not be surprised if the aggregate property valuation of this state, which amounted to \$200,000,000 last year, would reach a valuation of nearly \$300,000,000 this year. Washington is one of the youngest of the states, but the property values, I find, are growing more rapidly than those of any Western State, or Eastern, either, for that matter, without exception, in proportion to the number of inhabitants.

"The rapid growth of this state has called for, and will continue to call for, larger appropriations at every session of the Legislature in order to meet the needs of its rapidly growing departments.

"Our state tax is lower than that of any other Western State having revenue in proportion to those of our state.

"Two-thirds of our total state tax is for the purpose of sustaining our public schools. The tax levied for this purpose is about \$150,000,000 a year, under the present system. We have a school system which largely favors the farming and rural classes, in that the cities and towns send out to the country much more money raised by taxation than they receive. There are few states whose public school system are organized in this way. The country people are so highly favored, and in which the smaller school districts raise so little money by local taxes.

"However, it must be said that we have a smoothly-working, enlightened, splendid system of public schools, and one which the people of the state are proud of, and for the raising of taxes and sustaining of this system we very rarely hear complaint from our citizens."

The schedule of days for hearing of counties and railroads is as follows: September 1, Mason, Lewis, Chehalis, Pacific, Kittitas, Jefferson, Island and Chelan; September 2, San Juan, Coville, Clark, Yakima, Skamania and King; September 3, Spokane, Stevens, Douglas, Ferry, Chelan, Knappton, Lincoln, Whitman, Yakima, Franklin, and Benton; September 4, Walla Walla, Klickitat and Columbia; September 5, railroads.

TOILET OF ELEPHANTS.

Bathed in Oil and Then Sandpapered
Vigorously.

"To get a wild animal is one thing, to keep it is another," said Pearl Souder, an authority on such things. "Elephants look dirty because of a habit they have of tossing soil and straw over their backs, but it is not so. No human being's skin gets more attention than the hides of these big animals. They are brushed and scrubbed time and again each day. The skin is kept as real Turkish bath, and this process is kept up, taking nearly a month, and keeps half a dozen men busy. It may be that this unending grooming makes their hides sensitive, and the dirt and sun-baking is a natural result. The dirt is washed off and the skin is kept as real Turkish bath, and this process is kept up, taking nearly a month, and keeps half a dozen men busy. It may be that this unending grooming makes their hides sensitive, and the dirt and sun-baking is a natural result. The dirt is washed off and the skin is kept as real Turkish bath, and this process is kept up, taking nearly a month, and keeps half a dozen men busy. It may be that this unending grooming makes their hides sensitive, and the dirt and sun-baking is a natural result. The dirt is washed off and the skin is kept as real Turkish bath, and this process is kept up, taking nearly a month, and keeps half a dozen men busy.
