ADRIANPOLE SITUATION GRAVE

Sultan Finds All His Posts Along the Frontier Destroyed—His Subjects Are Fleeing Toward Constantinople.

SOFIA, Aug. 28.—The general situation in the vilayet of Adrianople continues alarming. The revolutionaries have destroyed all the Turkish posts along the frontier.

The Albanians say the Turkish Commander of the district of Seresh has ordered his subordinates to kill and destroy everybody and everything Bulgarian immediately the insurgent bands appear.

A fierce fight occurred at Pasasqual, 29 miles from Adrianople, where three Turkish battalions surrounded a body of insurgents.

The Macedonian organization is reported to be planning a big movement. General Zouhioff is said to be organizing a body of 500 Macedonians to cross the frontier.

REBELS FORMULATE PEACE PLAN. Autonomous Government is Asked for All the Provinces.

LONDON, Aug. 28.—It is announced that the Macedonian committee has formulated a scheme of autonomous government for the European provinces of Turkey.

The project provides for the formation of four autonomous provinces—Albania, consisting of the vilayets of Scutari and Jemina; Macedonia, consisting of Bitolia and Salonica; the vilayet of Thessaly and Thrace, or vilayet of Adrianople.

Other provisions are: The Sultan to provide defense of the land and sea frontiers; internal order to be maintained by an internal and local police; the powers to appoint a European High Commissioner for three years; the Porte to nominate, with the consent of the powers, a European Governor-General for each province; a European commission, assisted by elected native delegations, to work out the demarcation, organization and administration of the provinces until their organization is completed, and for this purpose an international army of 45,000 men, all Europeans, shall occupy the province.

The Sultan is to be authorized to withdraw all his troops except those needed for frontier defense.

The provinces are to defray the cost of the army occupation, whose Generals shall belong to one of the neutral states of Europe; the provinces also to contribute to the Sultan's civil list, to the maintenance of the imperial army and navy, and to be invited to the treaties and conventions concluded by Turkey.

The European commission in all matters to work in accord with the Porte.

The document is signed by E. Lazarovich.

The London papers comment on the project as being too crude and ambiguous to be workable, though doubtless embodying the aspirations of a large section of the insurgents.

DYNAMITERS' PLOT DEEP.

Principal Train Was to Be Blown Up to Show World Strength of Rebels.

PARIS, Aug. 28.—The increasing gravity of the conditions in Turkey is further shown by an official report just received from Philippopolis, giving details of the revolutionary plot to blow up the Orient Express.

One of the plotters had been designated to sacrifice his life by boarding the train and throwing the bombs.

This plot probably was connected with the dynamiting of the omnibus train at Kuleli Burgas, but the Philippopolis report establishes the fact that the original plan was aimed against the leading trans-European express for the purpose of impressing the world with the magnitude of the disaster.

Reports received here from the French Consul at Salonica and Monastir are more reassuring. They say they have no further fear of their lives, unless the Turkish soldiery become more lawless.

utmost efforts to suppress the rebellion in the vilayet of Tokos. Every available man has been called out from the last line of reserves to the nearest recruits.

The train outrage near Kuleli Burgas will have, it is thought, a very damaging effect on the Turkish government, showing at once the strength of the insurgents and the weakness of the Turkish authorities, who, in spite of warnings received days ago that the trains would be attacked, were themselves unable to protect the passengers.

Porte Tells of Rebels' Doings. CONSTANTINOPLE, Aug. 28.—The Porte has announced to the Embassies of Austria and Russia a memorandum describing the doings of the insurgents in the vilayet of Adrianople.

The Porte is not losing any time in addressing measures to suppress the outbreak in the vilayet of Adrianople. Makir Pasha, commanding the artillery, and Sadik Pasha, commanding the infantry force, have started from Constantinople for the center of the disturbance at Kerk Killechi.

Reports from the frontier indicate that increased numbers of recruits are crossing in small parties into Macedonia.

Strong Defense for Constantinople. CONSTANTINOPLE, Aug. 28.—Considerable forces of troops have been stationed in the various suburbs of Constantinople as a precautionary measure in view of the appearance of insurgents less than 100 miles from the capital.

A trainload of troops was dispatched yesterday from this city to Tchereskezol, Vilayet of Adrianople, where they were to concentrate in the mountains of Moshovo. They are expected to attack Tikvesh and Shiegheli. During the evening of August 25 a force of insurgents attacked Nereska and the soldiers were stationed, and 200 of whom were killed. The insurgents have constructed earthworks. Seven battalions of Turkish troops, which arrived at Nereska this morning, are now bombarding the defenses.

Lord Wolsley, in a memorandum, complains that the Commander-in-Chief has become the fifth wheel to the coach, and that the Secretary of State for War is the actual Commander-in-Chief.

Lord Roberts said the officers in many cases were not qualified for their work, and expressed the opinion that the juniors were better than the seniors.

The Yali received the remains, evidently much disturbed, and remarked that the Consul was to blame for not using his revolver on the policeman.

Marines Make a Bold Attack on Portland, Me., but Fail to Make a Landing—Maneuvers Will End Today.

PORTLAND, Me., Aug. 28.—At noon tomorrow the mimic war waged off this port since midnight Tuesday, with all manner of maneuvers by the Navy, will come to an end, and several thousand men hurried to the defense of the city will be withdrawn from the harbor defenses.

Today's movements consisted of a fierce engagement, during which a landing party of 180 men under Rear-Admiral Coghlan captured all the stations and defenses of the Cape and Spurholm. These marines and jacksies landed almost at dawn, and were engaged until afternoon, when they returned to the fleet, which had remained off Richmond's Island all day.

Rear-Admiral Coghlan believed he had achieved the greatest victory of the Navy, but at 1:45 Lieutenant Jordan, in command of the Engineer Corps at the Two Lights, was informed by telephone that the umpires had decided that no landing was effected by the invaders, as the men and boats had been put out of action before the landing was attempted.

Therefore the capture of all the points on the Cape, including the signal, searchlight and fire control station, at Two Lights, the defenses at Silver Springs and the searchlight at Pond Cove was void, and they stand as if no attempt had been made at their capture.

This left the immense searchlights in action for a demonstration tonight. Reports that the invaders were marching upon the forts prevailed, but if such had been the intention, they were carried out, the men returning to the ships at 8:45.

The men standing at the entrenchments on Meeting-House Hill, three miles from the city, were reinforced by 600 men from the forts, and in anticipation of an assault from the invaders or an attempt to march upon the city proper. The capture of this force would require more than 800 invaders.

Admiral Barker began his last demonstration shortly before midnight. A part of the fleet appeared opposite the Two Lights on the cape from Richmond's Island, and it was reported general quarters were sounded there at 12:30. The Fort Preble batteries opened their fire at 12 o'clock and kept up a constant roar. McKinley and Williams about this time joined in the engagement, the purpose of which was unknown at 1 o'clock. The Panther was the first vessel to appear around the cape, and together with another cruiser, passed the Two Lights, going in the direction of Halfway Rock.

The destroyer Worden, flying the white flag of truce, came into the harbor at noon and anchored off Port Preble. A boat was sent ashore bearing a messenger who carried a message from Rear-Admiral Barker, commanding the fleet, to General Chaffee, commanding the Department of the East. General Chaffee was at Fort Preble and noon afterward received the message.
