Opening Prices on Salmon Are at an Advance.

DUE TO SHORT PACK ON SOUND

Quotations on Mackerel and Sardines Advancing-Local Produce and Jobbing Prices-Oregon Wool in the East,

The salmon market is characterized by decided firmness and a material advance in prices over last year. Opening prices of \$21.

sockeyes are announced as follows: Onepound talls, \$1.50; one-pound flats, \$1.80;
haif-pound flats, \$1.50; one-pound flats, \$1.80;
haif-pound flats, \$1.
Columbia River chinooks have been advancing, owing to the short pack of Puget
Sound sockeyes. Packers are now holding
talls at \$1.25\$1.40. Some of the cambers
on the lower river have sold all their pack on the lower river have sold all their pack of Suring chimodes, while others have pracdeally disposed of all their one-pound flats.

Prices of Alaska fish have not yet been named, but the announcement is expected fally. Advices from New York indicate that the prices may be as high as \$1.20@1.25. While the pack of Alaska fish will be considerably smaller than last year, there will still be a very fair output, but prices will without a doubt rule very bigh in sympathy. with the strength in quotations on the Puget Sound and Columbia River packs:

Taking the fish market the world over, the prospects are for strong quotations for the ext two years. Not only is there a big shortage in the canned fish pack on the Pacific Coast, but on the Eastern coast the ame conditions prevail. The catch of mackerel so far this season has been the smallest in the past 20 years. What mackerel have been caught are very large, so that they cannot be canned, neither are they of the right size to go to consumers at popular

The sardine pack along the Eastern const is much lighter this year than in former years, while the pack of France has been almost a complete fallure for the past two years. There are very few French sardines offering, and these are at exceedingly high prices. Some Portuguese sardines have been offered in the place of the French article. These are also quoted high.

### WHEAT LOWER IN PALOUSE, Drop in Price Causes Farmers to

Sell More Liberally. COLFAX, Sept. 4 .- (Special.) -- The price of wheat has dropped at Palouse country points 68 to 65 cents for club, and from 71 to 68 cents for bluestern. The fall in price has

and the tendency to frighten farmers, and fore, but none are selling their entire crops. The sales are generally of small lots, varying Manning, agent for the Northwestern Ware Company, bought 30,000 bushels at vaand it is estimated the total sales for the day the county aggregated 100,000 bushels. nce the rains of last week and the weather

It is estimated that from 60 to 70 ech cut, and probably 30 per cent has haul the grain to town. In Western west to the county line averaged about 18 bushels. East of there the yield is better. ling from 30 to 45 bushels per acro. No Spring wheat has been threshed in that ocality yet, as harvest is later than in the estern part. It is thought Spring wheat will average from 20 to 25 bushels in that locality,

Tacoma Mills Buying Wheat. TACOMA, Wash., Sept. 4 .- Wheat reached a higher price yesterday than it has at any within the past three years. In the

afternoon bluestem was quoted at 85 cents and club at 82 cents. Receipts of wheat at this port are gradually growing larger, and still they are very light for this season of the year. Millers are taking practically all wheat that has reached Tacoma thus far, the prices being higher than exporters feel warranted in paying. The only deals seing made among buyers are transactions between the exporters and millers, whereby the former dispose of their high-priced wheat. Many inquiries are being received from South Africa, and it is likely that when prices are adjusted with exporting values at continent will share with Europe wheat exported from Tacoma. A well-informed Tama wheat man says that not more than 1,000,000 bushels of wheat will be experted from Tacoma this year, although he thinks that the flour exportation will be the heaviest in the history of the port.

Idaho Crop Report. The Idaho weekly crop bulletin says in

Apples are doing well, and as a rule are ass affected by pests than usual, though ome extreme Western localities report seri-us damage from this cause. A good crop ous damage from this cause. A good crop of Crawford peaches is maturing in Western valleys, and trees are well inden with later varieties; in parts of Cassia and Oneida counties, high winds have blown much fruit

from the trees, and in some extreme south-eastern localities fruit is shrunken from shortage of water for irrigation. Harvest is making rapid progress in eastrin counties, and in other sections is nearly complete, threshing is general, and is near-ing completion in some western districts; realn is yielding well in most instances exept where there has been insufficient water; here is some complaint of grain baving een shelled by wind in parts of Bannock

Cutting of the second crop of alfalfa is e third crop is promising a fair yield; try rains caused some alfalfa to lodge; a southeastern counties, but over a large rt of the state recent rains have been suf-cently heavy to be of benefit to ranges.

Ranchers Holding Their Hay.

BAKER CITY, Gr., Sept. 4 .- (Special.) -- Most the ranchers in this vicinity are holding hay for the Winter market, when they ect to name their own price. At present stack, and one or two men, who own a the quantity of very fine hay, have refused for it in the stack. A hay or outs ranch, irrigation, will pay for itself the first son, with anything like a fair crop. Some the best buy land in this valley, it is estied, will not the owners from \$00 to \$80 per re this season. The increase in acreage uncultivation has no effect on the market. ept to stimulate the demand, and there is reason ever to fear an overproduction in

Stores Will Close Monday.

The wholesale trade wish retallers to ow that as next Monday is Luber day, ST. LOUIS, Sept. 4.-Wool, unchanged

CANNED FISH HIGH It will be observed as a general holiday, in DULL BUT VERY STRONG table houses may be open until noon, but the grocers will be closed all day

> Oregon Wools in the East, The American Wool and Cotton Reporter

of August 27 said: Oregon wools are quiet, there being no very large business put through since the 2,000,000-pound sale of some weeks ago. A large Philadelphia worsted concern is reported to have taken about one-third of the Eastern Oregon clip. The Valley wools went quits largely to local mills. Oregon vent quite largely to local mills. Oregon staple is worth 53@55c clean, or about 1744 in the grease; clothing wools sell at 15@16c in the grease according to what they are,

## PORTLAND MARKETS.

Grain, Flour, Feed, Etc. The wheat market continues active at firm prices, 80 cents for Club, and 54@85 for Bluestem. Millers on the Sound, having more pressing wants, are paying more for early delivery. As the export value of wheat is not over TS cents, it can be seen that hippers are not in the market. WHEAT-Walla Walla, 80c; bluestem, 84

BARLEY-Feed, \$19620 per ton; brewing, \$21; rolled, \$21621.50.
OATS-No. 1 white, \$1.10; gray, \$1.0561.10

HAY—Timothy, \$1s per ton; clover, nominal; grain, \$10; cheat, nominal.

CLOSING UP OF SPECULATIVE AC-COUNTS IN NEW YORK MARKET.

small Volume of Transactions for the Week Show Walting Attitude of Financial World.

NEW YORK Sept 4 - Today's stock market was again excessively dull, but distinctly strong. The three days which will intervene before trading will be resumed prompted the closing up of speculative accounts, and the fact that tomorrow is also a holiday in London emphasized this disposition. It is evident that emphasized this disposition. It is evident that the majority of outstanding accounts was on the majority of outstanding accounts was on the short side. There was no other reason for the strength of the market, as the bulls were as unwilling to put out fresh commitments on the eve of the long holiday as were the bears. Atchesion was the feature of the market, both as to the volume of dealings and the extreme advance of 2½, which earliy distanced all other as to the volume of dealings and the extreme advance of 2%, which early distanced all other stocks. There were some very heavy bear accounts covered on the advance, which helped the upward movement, and gave grounds for the supposition that they were the subject of the movement. But the movement gave rise to some surmises of an accumulation on a large scale, possibly for purposes of control. Rock Island interests were pointed to by the current rumors, and there seemed to be an effort to convey the impression that Pennsylvania and Harriman interests were opposing or competing in this accumulation.

The Atchison movement had some sympathetic effect on the general list, but the largest response was confined to the Southern and Southwestern corn and cotton carriers. The movement may have been in part a re-

flection of the Government report on cotton, which had a continued effect also in inducing liquidation in cotton. The corn market did not reflect any excess of confidence in that crop, and the report of frost in the Northwest gave rise to some fears that the cold would extend into the corn belt. But the news of the condition of that crop in the lower portions of the best conduced to a growth of confidence in the safety of that portion of the crop, and also may have been an influence in the strength of Southwestern railroad stocks.

of Southwestern railroad stocks.

The tone of the recently reported utterances of the Secretary of the Treasury on the general business and financial outlook had an encouraging effect on sentiment, and his adyocacy of an emergency circulation etimulates the hopes of the financial district for such a measure. But the emphasis by the Secretary being made of Government money in the agri-cultural districts had somewhat the effect of an admonttion against speculative uses of these

The forecasts of the currency movement of the week indicate a slight improvement in favor of the interior, which, with the week's losses to the Subtreasury, show a probable decrease in userve held by the banks of \$54,000, 5000. There have been some ahipments to the South in connection with the cotton crop movement, but the amount on balance would have been in favor of New York had it not been for the large movement to Boston, which seems to have amounted to more than \$2,000.

Bonds were dull and very firm, and Gov-ernment bonds continued to advance. Total sales, par walue, \$755,000. The stock market has backed and filled during the week on a small volume of dealings, reflecting clearly enough the highly profes-sional character of the market, and the waiting attitude of the financial world in general business in bankers' bills at \$4.863564 for de-on the securities market outlook. The fate of mand, and at \$4.861464.8325 for 60 days; posted the crops and the needs of the money market. between now and the end of the year are th principal matters to be cleared up before any definite stand on the future prospects of definite stand on the future prospects of se-curities can be expected. The feeling of con-fidence over the money outlook has gained force greatly. This was due in an important degree to the understanding that \$40,000,000 of Government funds in the Treasury stood ready for deposit in bank depositories. The impriring effect of this assurance eccountries inspiring effect of this assurance encourages some attempt to put up prices of stocks by an element of professional speculators. But the banks and large controlling interests in the great properties whose shares make up the body of stock dealings appear to have frowned on these efforts as calculated to defeat the conditions of security which are growing up in the money market. The relaxation of the money market was felt to be very important for the continuance of business activity and

prosperity. The premonitory symptoms of the interior of the country's money resources is at hand, Trading in stocks will be likely to halt until

the test is made.

The Government report on cotton clears up one of the most important elements of uncer-tainty. This is accepted as an assurance of a plentiful cop. The situation is benefited not only by this assurance, but by its influence in prompting the large liquidation of present speculative holdings of cotton, the promise of relief for the consumptive demands of mano-facturers, and the encouragement to bankers to offer blils of exchange with assurance of a free movement of cotton later, with which to cover the obligations thus ensumed. The American demand on foreign money markets for exchange is beginning to soom large in the

for sxchange is beginning to noom large in the opinion of market managers.

The advance in the Bank of England minimum rate of discount from 3 to 4 per cent on Thursday was directed immediately against Germany, which is making very heavy requisitions on the English gold supply at this time. But Germany's calling home of credits is indirectly intended for the American warket. is indirectly intended for the American market, Conditions during the week promise normal progress in the corn crop, but there has not been the hot, forcing weather tending to correct the lateness of the crop and leasen its danger from early frost, which has been hoped for. Furtive rumors of damaging frosts have already made their appearance, and the certainty that they will continue to circulate, with whatever basis, until the crop is harvested serves to deter speculative commitments in stocks. Reports of iron trace conditions show an excess of hopefulness, but there has been complaint of accumulation of steam sizes of anthracite and some curtailment of products in consequence. Railroad earnings continue at a high level ,and confidence of rathroad of.

ficials in the future maintenance of traffic is expressed. The market for railroad bonds is dull, but some slight investment absorption is reported. Government bonds have risen in price in re-spouse to the expected need for additional oldings by the banks to serve as security for the increased Government deposits promised. Old and new 4s coupon advanced % per cont; the new 4s registered I per cent, and the Es and 3s, 1½ per cent, as compared with the closing call last week.

# SAN FRANCISCO MARKETS

POTATOES ARE IN DEMAND FOR ALASKA SHIPMENT.

Wheat Dull Without a Sale of Options-Old Stock Raisins Al-

SAN FRANCISCO, Sept. 4 .- (Special.) -- Wheat was dull, with not a sale of options all day and quotations easier in sympathy with Chicago. December barley sold up to \$1.15, and closed 1 cent off. Spot lots remained firm at full figures. Oats were inactive, pending the opening of the Government bids on September 10. Flour was firm. All feedstuffs, excepting rolled barley, were easy. The grain exchange

lines of fresh fruits, with an absence of shipping demand. Grapes and peaches were alight. ly easier under more liberal arrivals. Eartlett pears were in light supply and firm. Winter varieties of pears were more plentiful, but the apples were slow and weak, but best Gravensteins and Bellflowers were firm. Quinces were in larger supply, and lower. Pomegranates were dull on account of poor quality. Canta-loupes were higher. Mexican ilmes were in short supply and quoted stronger. Bananas were steady.

stocks.

were without much change.

Poultry was in lighter supply and firmer Butter and eggs were very firm for fancy grades. Cheese was weak. Receipts, 20,000 dozen eggs.

CHICAGO, Sept. 4.—Although advices gen-rally were favorable to lower wheat values, rush of shorts early in the session, incident to the three days' adjournment of the board, caused a builten tone, and pushed prices up. December going from the opening, 82%c to 82%c. Foreign advices, weakness in the Western markets, the favorable weather and free offerings from the Southwest, caused an easier feeling, and December sold down to \$2\kg when tired longs let go their holdings to a considerable extent. The close showed a little better sentiment, although there was a net loss in December of Mc, at 82%c.

by the weather. There appeared to be plenty of corn for sale, however, and the advance was lost. The local sentiment continued built-

rices ruled firm at a fair advance. December closed 16% higher, at 371,037%.

Covering by local shorts on small receipts and higher hog prices gave provisions a strong tone. Trade was of fair proportions, packers and commission-houses doing the selling. October pork closed 15c higher; lard, 25,000 higher, and ribs 20c higher.

higher, and ribs, 20c higher.
There will be no session of the Board of Trade tomorrow or Monday.
WHEAT.
