

DRIVE TO COVER

Gambling Will Be Carried On in Clubs.

OPINION OF SEATTLE OFFICIALS

Public Games Can Be and Are Shut Down—County Attorney Scott Says He Can Reach All of Them.

SEATTLE, Sept. 4.—(Special.)—Speaking from experience with a "wide-open town" public officials in Seattle are inclined to agree with Mayor George W. Humes, of Portland, that gambling cannot be entirely suppressed.

Not all of the Seattle officials agree with this statement. County Attorney W. T. Scott, for instance, declares gambling can be prohibited, and in support of this contention declares there was no gambling in Seattle during the last year of the grand jury and after he assumed his office.

In a general way, Mr. Scott is correct, but after the numerous attempts made more or less successful to attempt to open, and several games ran for a short time. They ran, in fact, up to the time the gambling law was enacted.

Seattle has been an "open" town because its public officials believed public sentiment favored a plan of shutting down gambling. Mayor Humes put the question straight during each of his three campaigns. He was opposed because the other faction declared he would permit open gambling, and that would mean a "wide-open town."

Gambling, prior to last June, when an act of the Legislature of 1901 became effective, was in a state of confusion. The plan of permitting open gambling city officials arrested and fined the gamblers regularly. It amounted to a license of the practice.

But Seattle has been "closed" and gambling absolutely prohibited even during Humes administration. The police forces showed at times that it could stop the games and that the officers would be obeyed. Discussions among the gamblers, an overreaching of authority and one or two cases of rioting during the summer of 1902.

But gambling was only stopped for a short time. "Yes," Mayor Humes said in answer to an inquiry, "you can stop public gambling, but you cannot stop it in the clubs. How can you learn that the innocent card games being carried on there are really gambling games, and if you knew it in your own mind it is impossible to prevent them entirely."

"There are the secluded gambling games where swindling operations may be carried on. These can be stopped in time. The police officers do not learn of them at once, but sooner or later their location is discovered and the games stopped. In the same way word might come eventually of the location of games run on "the square."

Old officers of the police department coincide with Mayor Humes' views. These are officers who have served for years under different police administrations and have had experience in closing down or permitting gambling. They declare that while gambling can be practically wiped out secret games may be running and the police will not be able to stop them entirely. Police officers inside clubs are gambling is practically out of reach. Prosecuting Attorney Scott holds that gambling can be stopped.

"I am confident of it," he said. "Since I have been in office I have showed that it can be stopped. If gamblers understand that the officers of the law are bent upon wiping out gambling and that they will make the violation of the law a serious matter they will not attempt to open. They will understand that the cost is too great."

Somewhat there seems to run a general sentiment of friendship or tolerance toward poker games. None of the public officials seem to regard it as a vicious pastime engaged in a game of draw or stud, and point to the fact that poker was to be proceeded against the spirit of the law would demand that all minor social club where dues were contributed and prizes offered, would have to go out of business with the poker games.

Records Were Absent, but That Did Not Foll the Land Agent. SALEM, Sept. 4.—(Special.)—Like finding money is an expression that might well apply to an experience of ex-State Land Agent J. W. Morrow who found two state farms of which there was no record in the State Land Office. As the State Land Board has sold one of the farms for \$200,000, it is a "find" of "finding money." The lack of knowledge of the state's ownership of the farm was due to the absence of a record which should have shown the fact.

Soon after the appointment of Mr. Morrow as State Land Agent, Governor Chamberlain arranged for the preparation of a complete record of the state's interests in all these lands and of their condition, names of tenants, etc. Books were procured for these records and Mr. Morrow began upon the work, but soon resigned to accept a position with the O. R. & N. Company. His successor, Oswald West, is now busy upon this record, and when it is completed he will have something worth turning over to his successor.

At present when an intending purchaser inquires regarding one of these farms taken upon foreclosure of a mortgage, the State Land Agent must refer to several records in different departments of state land business before he can tell exactly what the state has to sell, and even then he can learn but little as to the actual value of the land.

There is no record, for instance, show-

GETS BIBLE BUT NO BAIL

PREACHER KENNEDY IS STILL IN JAIL AT HILLSBORO.

HILLSBORO, Or., Sept. 4.—(Special.)—Rev. R. H. Kennedy still remains in jail in default of bonds. While a few of his church members of the past few faith in his innocence, no one has offered to execute the bond of \$100 that would give him his liberty. This is considered strange, inasmuch as among the members of the Congregational Church there are many wealthy people.

The officers have discovered that Kennedy hired a wheel in Portland the evening of the crime, and that he did not return it until the next morning. This is considered significant, as the robber who entered the Warren home Monday night rode to the farm on a bicycle and came from the direction of Portland.

On the other hand, Kennedy claims that he simply rode about Portland for a few hours and went to his lodgings at a late hour. To his fellow ministers he stated that on his trip about the city he met no one whom he knew.

Kennedy had borrowed small sums, ranging from \$20 to \$50 from many of the parishioners, and as he did not repay the loans, many lost confidence in him. His wife is well educated and advertised that she would conduct a preparatory school for college here commencing with this month.

Miss Minnie Warren is not shaken in her ideas of identification, and it is singular that both women are certain, and were certain before Kennedy was found. Kennedy was the man. Miss Warren repeatedly called the robber a coward while he, becoming exasperated, he said, "Damn you."

Rev. Mr. Curran, Kennedy's successor in the Congregational Church, today took the prisoner a Bible.

Attended Harvard Divinity School and is Well Known in Boston. BOSTON, Mass., Sept. 4.—(Special.)—According to the books of the Congregational Society, Richard H. Kennedy is a minister of the gospel in good standing. He is well known in Greater Boston. At one time, from 1882 to 1885, he was settled over a church in Linden, a part of Malden, Mass., and was well liked there. From Malden he went to Pepperell, Mass., and thence West. His record as given by Secretary Rice, of the department of pastors' supplies, is: Richard H. Kennedy, born in Virginia, 1847. Attended Vanderbilt College, Nashville, Tenn., but was not graduated. Was licensed to preach as a Methodist in 1881. In the early '80s he came to New England, and after spending a short time at the Harvard Divinity School, was ordained to preach in 1882 by request of the Linden (Malden) Congregational Church. After three years' service in Linden, Mr. Kennedy took a pastorate at Pepperell, Mass., where he remained until 1897.

The next move of Mr. Kennedy was a long one, taking him to San Mateo, Cal., where he remained until the Fall of 1900. Thence he went to Albany, Or.

Body of Baker City Resident Found With Life Extinct. BAKER CITY, Or., Sept. 4.—Harry Lockwood, an old resident of this city, was found dead in Powder River, under Center street bridge, this afternoon at 5:30 by Leslie and Charles Lee, two little boys 10 and 12 years old. Coroner Snow was called and the body was taken from the water, which was only about 18 inches deep. There was a cut over the right eye, which was apparently made by a sharp rock when the man fell in.

It was developed at the inquest that Lockwood had been in the neighborhood to attend the Woodmen's Lodge. His wife said he did not return home last night. The last seen of him alive was shortly after noon today. The circumstances of his death indicate that he fell in the water while sick and was unable to help himself.

Lockwood was about 55 years of age. He leaves a wife and four children. He was an organizer for the Modern Woodmen and was a member of several fraternal societies, in which he carried insurance. He was in easy circumstances.

HEAVY RAIN. CORVALLIS SCHOOL BOARD SUES BOND ISSUERS. CORVALLIS, Or., Sept. 4.—(Special.)—The Corvallis School Board has made a sale of an \$800 bond issue to local capitalists on a basis of 4 per cent interest. The money is to be applied in the purchase of ground and erecting a new school building. The bonds were taken by six local investors, whose names have not been made public.

The award of the bonds to local investors is in violation of a provision of the school law, which provides that the bonds shall be first offered the State School Board at a 5 per cent interest rate. The local board wrote the State Board, offering the bonds at a 4 per cent interest rate, but received no reply. Thereupon it sold the bonds to local people, preferring to take chances on being compelled to pay the penalty for violation of the law, rather than let the bonds go at 5 per cent.

The fine prescribed for violating the par-

ACQUIRE FRESH PROPERTIES.

New York Company's Purchases in the Bohemia Country.

COTTAGE GROVE, Or., Sept. 4.—(Special.)—G. E. Hengen, director and business manager of the Oregon Securities Company, of New York, arrived in this city some days ago. Since then he has spent most of his time at the company's properties in Bohemia, and the result is that some valuable acquisitions were made. The Broadway group, consisting of 20 acres, and the Ophir group, of 80 acres, were added to their territory, making a total of 100 acres.

The Ophir group is an extension and joins the Musick property, which the company has drifted on one to six levels to the edge of the Ophir. This property has been owned for a number of years.

WATER WORKS WONDERS. Klamath Desert Changed to Smiling Grain Fields. Pumps Will Be Used Extensively to Irrigate Tracts if Experiments Shall Prove Successful.

SALEM, Or., Sept. 4.—(Special.)—State Treasurer C. S. Moore, who has just returned from a month's outing in Klamath County, reports that all industrial affairs in that section of the state are prosperous and that the country surrounding Klamath Lake is steadily developing. Irrigation ditches are being enlarged and extended to such an extent that nine-tenths of our people are dyspeptic. Take the case of Mrs. Ida M. Turro, the wife of a prosperous farmer at Brainerd, Crow Wing County, Minn. She says:

"Irrigational meals and too hurried eating ruined by digestion, and I was miserable until, by the aid of Dr. Williams' Pink Pills for Pale People, I was cured. I was in a very low state of health, food was of no use to me, and I was unable to do any sort of domestic or professional work. My stomach and it became sore and bloated. Everything I ate seemed to turn sour. I suffered so much when I ate that I had to almost starve myself. There was a pain in my heart, my bowels were constipated, I felt chilled all the time, and my flesh fell away till I was horribly thin. The doctor gave me medicine, but it did not help me, and I kept growing worse until, at my mother's suggestion, I began taking Dr. Williams' Pink Pills for Pale People. They made me feel better very soon, and I kept on taking them till my stomach stopped bloating, the pain in my heart disappeared and I became perfectly well again. I have recommended Dr. Williams' Pink Pills to all my friends, and I will always speak of them in the highest terms."

Dr. Williams' Pink Pills cure stomach trouble by their tonic action, building up the digestive organs and enabling them to do the work that nature intended them to do. Artificial ferments and predigested foods weaken the stomach in many cases. Medicines should not do the stomach's work, but should be in condition to perform its natural functions. A diet consisting of such useful information will be sent free on request by the Dr. Williams' Medicine Company, Schenectady, N. Y.

Dr. Williams' Pink Pills for Pale People are sold by druggists, or will be sent postpaid on receipt of price, fifty cents per box; six boxes for two dollars and a half.

Over Two Conferences. Bishop Cranston Arrives in San Francisco. SAN FRANCISCO, Sept. 4.—Bishop Earl Cranston, of Portland, Or., came to this city yesterday for the purpose of presiding at the California German and Japanese conferences.

German conference opened yesterday morning in St. John's German Methodist Church, on Army street. As the bishop was delayed in getting here, the conference was organized by the Rev. W. Schaefer, the presiding officer of the California German district. The Rev. F. Hollman, of Prospect Park, Los Angeles County, delivered a sermon in the evening. The Rev. L. Truesdell, of Clatsop, superintendent of the German deaconesses' work, will speak this evening on "The Deaconess Movement in German Methodism."

The body of the delegate to the general conference of the American Methodist church, which will meet in Los Angeles, and the delegates of the laymen of the California German conference, will be held tomorrow.

Bishop Cranston will preach next Sunday morning at St. John's German Methodist Episcopal Church. The California Japanese conference will be opened this afternoon by Bishop Cranston, on Pine street. The 25th anniversary of the commencement of Japanese immigration to the United States will be observed this evening. The speakers will be W. Bishop Cranston, Rev. M. J. Harris, superintendent of the Japanese work in this country; Rev. V. Francis, been actively engaged in the country alone, and in attempting to ford the river was drowned.

DEATH OF D. K. WARREN. Prominent Astorian Succumbs to Attack of Heart Disease. ASTORIA, Or., Sept. 4.—(Special.)—Daniel K. Warren, one of the wealthiest and foremost citizens of Clatsop County, died at his residence at Warrenton this evening, after an illness of but a few days from rheumatism of the heart complicated with kidney trouble. Yesterday morning he was suffering from a cold, but last night he suffered a relapse and lingered until about 8:30 this evening, when he expired. No arrangements for the funeral have yet been made.

Warren was a native of New York state, 77 years of age, and came to Astoria across the plains in 1853. Shortly after arriving here he opened a general store, and ever since has been actively engaged with the business interests of the community, amassing a large fortune and being recognized as one of the most enterprising as well as the most highly respected residents of the county. At the time of his death he was president of the Astoria National Bank, vice-president of the Astoria Savings Bank, a director of the Astoria & Columbia River Railroad Company, and heavily interested in many other business enterprises in this vicinity. He left besides a widow four children: Mrs. H. C. Thompson, of Portland; Mrs. R. Higgins, of this city; and George and Earl Warren, of Warrenton.

BABY SCALDED TO DEATH. Pails Plug From Vessel Filled With Boiling Water. ONTARIO, Or., Sept. 4.—(Special.)—The 17-months-old boy of Andy Newman, an influential sheepman of this place, was scalded to death today. The child's mother was washing and had poured boiling water into the washing machine. The baby pulled out the cork at the bottom of the washer, turning the boiling water upon his chest.

The bird did not seem so deep, but the shock and pain caused death in about one hour after the accident.

MEET OLD FRIENDS IN ALASKA. General Funston Was Shown Courtesy by Prominent People. VANCOUVER, B. C., Sept. 4.—(Special.)—General Frederick Funston has returned from Alaska, where he has been engaged for the past six weeks in inspecting the Government forts and camps and seeing what further changes and improvements can be made by next year. The General reports finding the forts in a good condition and all preparations nearly completed for getting in the winter campaign. The chief's "While in Alaska many courtesies were extended to General Funston by the prom-

MARRIED LIFE EXTENDS OVER SIXTY YEARS

MR. AND MRS. J. H. GOODMAN.

EUGENE, Or., Sept. 4.—(Special.)—Mr. and Mrs. J. H. Goodman, old pioneers of Lane County, last Saturday celebrated their sixtieth wedding anniversary. It was made an occasion of family reunion as far as possible, and nearly all the family as could gather at the home rejoiced with the old people. Mr. Goodman is now 81 years of age, while Mrs. Goodman is 77. They are in what may be termed robust health for people of that age, and do not show that time has dealt harshly with them.

They were married in 1843. They came to this county in a very early day and settled on a farm east of Springfield, where they were successful, and after acquiring a competence they retired and moved to Eugene to spend their declining years.

By O. P. Adams, C. F. Cathcart and W. W. Cathcart. There has only been assessment work done from year to year, notwithstanding large bodies of high-grade ore have been struck.

By acquiring this property, the Oregon Securities Company will have nearly 300 feet to drift on from the Musick lead. The company is installing machinery as fast as possible and it will be but a short time until it will have 40 stamps and concentrators in operation.

MET A LONELY DEATH. Body of Unknown Man Found in the Grand River. ENTERPRISE, Or., Sept. 4.—(Special.)—The body of an unknown man was found in the Grand River on Saturday by Bird Sarret and R. H. and Lee Thompson, while out hunting in the Promise section, 12 miles north of this place. The body was evidently lodged against a large rock by the rising waters during the recent rains.

It was impossible to identify the man, and in fact, there was no clue as to the identity of the person as it was not known that anybody was missing in that neighborhood nor any place further up the river.

The body was brought ashore by means of a boat and the clothing found to consist of a common shirt, woolen coat and pants, the underclothing being of flannel. There was no evidence of foul play and the only theory advanced is that the body is that of some prospector or land hunter who was out in the country alone, and in attempting to ford the river was drowned.

EUGENE PEOPLE TAKE HOLD. Determined to Make the District Fair a Success. EUGENE, Or., Sept. 4.—(Special.)—The officers of the District Fair are making arrangements for the fair to be held at Bangs' Park, near Eugene, for four days, commencing September 28. The five-day fair is a racetrack in the park has been put in first-class condition. There is not a better track in the state.

Premiums to the amount of \$1500 are offered for the various exhibits, while \$5000 are offered for the exhibits to be offered by citizens of Eugene. The people of Eugene have subscribed nearly \$1500 to aid the enterprise. The large pavilion on the site is being enlarged to make room for exhibits, and stock-sheds, horse-stalls and a grandstand are being erected.

The park is an excellent place for camping, and a number of wells are being driven in different parts of the park for the benefit of those who wish to camp during the fair.

All Ready for Carnival Week. CORVALLIS, Sept. 4.—(Special.)—Arnold's big show arrived in the city this afternoon, and everything is in readiness for the opening tomorrow morning of the first free street fair and carnival ever held in this state. The carnival will be in continuous session until the evening, with special features each day.

Many people are absent from the city, but with the reduced rates of transportation, it is expected that the management expects to make up for the falling off in attendance of home people by attracting outside visitors to the city.

MILL CREEK LAND WITHDRAWAL. Three Thousand Acres for Reservoir Site in Walla Walla Valley. WALLA WALLA, Wash., Sept. 4.—(Special.)—Three thousand acres at Mill Creek's headwaters were withdrawn from entry today by a telegram order from the Department of the Interior, which is supposed to design the withdrawal as a natural storage basin for Mill Creek's spring overflow. This is the stream which flows through the center of Walla Walla and is used quite extensively on either side for irrigation.

The withdrawal strip is sections 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, and 21, some five miles along the creek's headwaters.

The district was recently examined by Special Government Agent W. H. B. Knox on a natural reservoir hunting tour. The establishment of such a storage basin would be of great benefit to Walla Walla Valley gardeners within reach of Mill Creek as a water famine is annually feared.

THE HABIT OF HASTE

AND THE SERIOUS RESULTS TO WHICH IT OFTEN LEADS.

One peculiarity of Americans upon which visitors from other countries comment is the habit of haste. This extends even to eating. Meals are eaten hurriedly and irregularly; food is swallowed half masticated and the stomach is unthinkingly neglected, and abused to such an extent that nine-tenths of our people are dyspeptic. Take the case of Mrs. Ida M. Turro, the wife of a prosperous farmer at Brainerd, Crow Wing County, Minn. She says:

"Irrigational meals and too hurried eating ruined by digestion, and I was miserable until, by the aid of Dr. Williams' Pink Pills for Pale People, I was cured. I was in a very low state of health, food was of no use to me, and I was unable to do any sort of domestic or professional work. My stomach and it became sore and bloated. Everything I ate seemed to turn sour. I suffered so much when I ate that I had to almost starve myself. There was a pain in my heart, my bowels were constipated, I felt chilled all the time, and my flesh fell away till I was horribly thin. The doctor gave me medicine, but it did not help me, and I kept growing worse until, at my mother's suggestion, I began taking Dr. Williams' Pink Pills for Pale People. They made me feel better very soon, and I kept on taking them till my stomach stopped bloating, the pain in my heart disappeared and I became perfectly well again. I have recommended Dr. Williams' Pink Pills to all my friends, and I will always speak of them in the highest terms."

Dr. Williams' Pink Pills cure stomach trouble by their tonic action, building up the digestive organs and enabling them to do the work that nature intended them to do. inent men of the country, many of whom were old friends of the General when he was in the army. The general was at Dawson a large reception was given in his honor by Governor and Mrs. Congdon, whose guest he was during his stay there.

He was met at Dawson by the Government steamer Jett Dawson, which was bound for the river, stopping at Fort Egbert and Fort Gibbon to inspect the posts. At Nome the General was delayed a week in the steamer Jett Dawson, which was bound for the river, stopping at Fort Egbert and Fort Gibbon to inspect the posts.

DRUGS COMPANION TO DEATH. Marshfield Woman in Falling Under Logging Train Clatches Friend. MARSHFIELD, Or., Sept. 4.—Mrs. Fannie Rickford and Mrs. E. O. Gibson were run over and instantly killed at 6:30 o'clock this morning by a logging train on the Daniels Creek Railway, at the station at King's camp. The women had boarded the train en route for Marshfield, but to secure a better position on the cars got off. In attempting to get on again while the cars were moving slowly, one missed her footing, and in her fall grabbed the garments of the other, taking her down under the wheels with her.

The bodies were badly mangled and there was not a sign of life when they were recovered. Their screams as they fell appeared to be heard by the engineer, who was running the locomotive when the accident occurred, and he applied the air brakes, stopping the cars immediately.

Mrs. Gibson's husband was engaged in the logging camp on a woodman, to blame can be attached to the train hadis or the management for the casualty.

Baker is Disbursing Quartermaster. VANCOUVER BARRACKS, Wash., Sept. 4.—(Special.)—The Quartermaster's Department, having reported at department headquarters, has been ordered to take charge of the office at Fort Vancouver. Colonel J. H. Halshaw, relieving Colonel Forrest H. Halshaw.

New Lewis County Spawell. CHEHALIS, Wash., Sept. 4.—(Special.)—Another Lewis County spawell began cutting for the market this week. The Adair Lumber Company, of Adna, H. Syverson, formerly of Portland, is president and manager of the company, and his partners are the Marston brothers, E. and John.

OPERATIONS. The modern appliance—a positive way to perfect manhood. Men's Diseases

Dr. W. Norton Davis

EXPERT SPECIALISTS. Through preparation is the first essential for thorough work in medical practice. Upon this point our great success of effecting permanent cures where others have failed speaks sufficiently. We have gained practical experience by over twenty years of study in men's diseases. All these years have been years of continuous observation and research. We have had every opportunity to acquire a thorough knowledge of men's ailments. We have replaced inadequate and inaccurate treatment with methods and remedies of our own devising. We have practiced a scientific and thorough practice as a permanent cure. We have replaced the entire range of men's ailments.

"Weakness" Our success in permanently curing that condition commonly known as "weakness" fully demonstrates the absolute correctness of our method of treatment, which is the method employed by ourselves alone. We have cured thousands of cases of temporary activity by the use of strong internal tonics. This is the only method of curing "weakness" in general practitioners and specialists, and is a treatment that cannot be overpraised. It is a permanent cure. "Weakness" is merely a symptom of chronic inflammation in the prostate gland, which is a permanent cure. It is a permanent cure. It is a permanent cure. It is a permanent cure.

Specific Blood Poison. The most hideous of all venereal diseases can no longer be classed as incurable, even in severe cases. Medical aid is to keep the disease dormant by persistently dosing the system with mercury. This is as incorrect as many other ancient theories to which the profession clings. It is a permanent cure. It is a permanent cure. It is a permanent cure. It is a permanent cure.

Stricture. Our treatment for this disease removes the necessity for surgical operations, even in severe cases. It is a permanent cure. It is a permanent cure. It is a permanent cure. It is a permanent cure.

Contracted Disorders. To but partially cure a contracted disease is almost as dangerous as to cure it not at all. It is a permanent cure. It is a permanent cure. It is a permanent cure. It is a permanent cure.

Quick Cures Certain Cures. We cure the worst cases of piles permanently without the use of ointment. It is a permanent cure. It is a permanent cure. It is a permanent cure. It is a permanent cure.

OPERATIONS. We treat all and all diseases with positive results. It is a permanent cure. It is a permanent cure. It is a permanent cure. It is a permanent cure.

CONSULTATION FREE. Patients call on the city write for blank and circular. inclose stamp. Address THE C. GEE WO CHINESE MEDICINE CO. 23 Alder St., Portland, Or. Mention this paper.
