CRICGS WINS RAPIDS

First Large Steamer to Ascend Upper Columbia.

MOMENTS OF GREAT ANXIETY

Machinery Is Deranged While Vessel Carrying the Washington Congressional Delegation Is on a Big Spokane Riffle.

FRUITLAND, Wash., Sept. 4.-(Special.) -The steamer Griggs, the first large river boat ever to ascend the Upper Columbia succeeded after a half day's effort in crossing Spokane Rapids at dusk last

When in the middle of the most dangerous part of the rapids the machinery operating the device for hauling the steamer up became disabled and the steamer hung for 30 minutes in great danger. The Washington Congressional delegation is aboard.

Race With the Chelan Gives a First Thrill of Excitement. ABOARD STEAMER ALEXANDER

GRIGGS, Mouth of San Poll River, Ferry Wash., Sept. 3.—If this steamer Harvey, in Stevens County, it will be the first river craft of any size that has ever navigated the Columbia River between Brewster, Okanogan County, and a point near Kettle Falls.

The Alexander Griggs will be the third steamer to pass the turbulent Spokane Rapids and Box Canyon. The little steamer Echo has reached Kettle Falls at high water and is now laid up near that place. She is only a 40-ton vessel, while the Griggs is rated 100 tons net and 174 tons gross. Captain J. I. Miller took the steamer Chelan up as far as the Spokane Rapids, but was unable to go beyond. Cap-tain Bruce Griggs got the steamer Cowano up part way and dropped back and the r was subsequently wrecked at the

Therefore the Alexander Griggs has the distinction of being the first large-sized steamer to attempt to navigate the Co lumbia from the present head of naviga Brewster, to the vicinity of Kettle Falls. If she reaches her destination she will be the second steamer to get through

The present trip was planned primarily to allow Senators Foster and Ankeny to inspect the river and prepare estimates for the cost of removing obstructions from navigation so that the river boats could regularly between Wenntchee and Kettie Falls. Congressman Jones, of the other members of the Congressional delegation, was the only one to join in making the investigation. The transportation facilities were provided by the Columbia River Navigation Company, President J. D. Miller and General Manager Bruce Griggs being personally in charge. The steamer Alexander Griggs, being the fastest of the fleet, was selected to make the difficult

and hazardous journey.
The first week in September was se lected as being the most advantageous time, considering the weather and the condition of the river, in which to make

on leaving Wenatchee Tuesday morning an up-river race was arranged between the Griggs and the Chelan. The latter boat has just been refitted and the conducted as an experiment. The season resulted in has just been refitted and was given two hours and 15 minutes start, as it had to make several stops. The Chelan was overhauled at Chelan landing. Captain J. D. Miller took charge of the wheel of the Griggs and his son, Captain Charles Miller, tooted defiance from the house of

For six miles the Griggs could not pass the Chelan, but finally the veteran cap-tain, J. D. Miller, ran the nose of his boat close to the shore and got inside the Chelan. Then the Griggs crowded the Chelan into a swift current and won the most exciting race ever witnessed on the Columbia River.

At Brewster the proposed Government irrigation project was inspected. By taking water from the Methow River, seven miles south of the town of Silver, ed to reclaim 30,000 acres, mostly in and about Brewster. The ditch would be 37 miles long and would be 400 feet higher than the town of Brewster. The cost is

estimated at \$400,000. In connection with this work F. H. Newell, chief engineer of the Geological Sur-vey, wired Senator Foster that he would to Wenatchee Thursday and inspect the Brewster proposition Friday of this week. Mr. Newell has been reviewing field parties in Oregon for a couple of weeks.

At Brewster, also, the party examined \$6300 in gold bricks which J. F. R. Foss. president of the Monmouth Gold Mining Company, had just brought out from the Sinte Crees mining district, located in the northeastern corner of Whatcom County,

year the British Columbia line. Mr. Foss was very enthusiastic. He said with ten stamps on an initial run of 30 days, working under many difficulties, they had secured \$11,000. The cost, he said, was less than one-third of the product. In the cost he did not figure the expense of putting in an expensive plant. more stamps, he says, it will be possible for his mine to clean up from \$200,060 to \$300,000 per year for a long time, as he has plenty of ore in sight.

He did not enthuse entirely over his own mine, but claimed the results demonstrat-ed that there were good mining properties in the state of Washington just as good indeed, he said, as those that have made Cripple Creek famous and profitable. Mr. Foss is a Minneapolis man. He finds it far easier to come out of the Slate Creek district via Brewster than by any other

TOM FITCH'S ELOQUENCE AND WIT

Hon. Thomas Fitch, brilliant lawyer, politician and orator, will contribute to The Sunday Oregonian, beginning tomorrow, a series of articles which he has named "Recollections and Reflections of Thomas Fitch." He deals with men and affairs of the Pacific Coast, and no old-time resident west of the Cascades and the Sierras can read them without special interest. To those who know Mr. Fitch it need not be told that his writings are rich in eloquence and wit. His first article, "The Silver State," will appear in The Sunday Oregonian tomorrow.

brought against him.

The court room was again crowded, women being especially anxious to obtain an entrance, in anticipation of a dramatic finale. Hundreds of people gathered about the precincts, but there demonstration on the arrival of the prisoner, who entered the dock with head erect, shoulders squared and perfectly self-possessed. He even nodded pleasantly to the witnesses called by the prosecution as they passed him on their way to

the witness box. The cyldence presented was simply a repetition of the testimony at the inquest, after the finding of the body of Miss Hol-land in a ditch near the moat four years after her mysterious disappearance. To the surprise of every one, counsel for the defense announced that he would not call any witnesses, not even Dougal,

who had previously asserted that he in-tended to testify in his own behalf. His counsel, in his address, dwelt upon the alleged inconclusiveness of the evi-dence, but the jury, after an absence of 55 minutes, brought in a verdict of guilty, and the Judge, assuming the black cap, sentenced the prisoner to death by hanging without commenting on the verdict.

On One Limb Excruciating 'Pain Physicians Little Value.

CURED BY CUTICURA

"I wish to say that my mother has been a victim to ulcers from varicose veins for thirty-five years. Eleven of these terrible sores have existed at one time on the limb affected. Excruciating pain and intense suffering was endured with all sorts of remedies on trial and numberless physician's calls and pre-scriptions applied, but all practically with but little benefit. However, at last the remedial agent was found in Cuticura Ointment which surely proved its weight in gold, alleviating pain and csusing healing processes to commence and a cure speedily effected.

"She has also used the Cuticura Ointment with marked benefit in erysipelas of the face and eczems. The Cuticura Soap has also established a record only as the best; cleansing, purifying and healing in its nature, ing proved itself a most excellent and valuable auxiliary to the Cuticura Ointment. I would remark that this testimonial is entirely unsolicited, being a voluntary contribution for humanity's sake, and the commendation of the Cuticura Remedies to the fullest confidence, being satisfied of their purity, genuineness and almost miracles

H. L. MORSE. March 16, 1898.

Mr. Norse Writes, March 4, 1903, that Mother Could Not Live Without Cuticurs.

"Your letter of the 28th February received and will say in reply that my mother having used Cuticura Ointment used other remedies, has found that no other remedy will ease the pain and heal varicose ulcers like the Cuticura Remedies. Mother says she could not live without them."

DOAN'S IDNEY PILLS

Bad Backs

Are found in every household. A back is a bad back when it aches or when it's lame and painful. Bad backs come from sick kidneys and warn you of serious trouble if the kidneys are not relieved.

Backache may not seem serious to you, but it's an early symptomatic indication of dangerous diabetes, of dropsy, of Bright's disease. Better cure it when it's only backache. Doan's Kidney Pills cure every kidney ill.
