UNDERWEAR

FIRST FLOOR.

Specially Selected for Our Grand Fall Openings, Fall 1903

The store that is best as an everyday thing is pretty apt to be best in its special occasions, that's where we stand on the underwear question. The Olds, Wortman & King underwear stocks are planned on very broad lines—very great, and the economy are large. Limited space today forbids general mention, so we'll pick the Queen from the live-Queen Merode—underwear for particular, prudent women. If imitation is the sincerest flattery, underwear must be the best underwear made judging from the number of lines being shown as "just as good" as Merode. Every garment of the Merode brand is hand-finished. The most particular attention is given to every detail. The fabrics are different from those produced by any other mill. The detail finish and fit which have made the Merode justly famous in not an accident, intelligent ability and methods known only to the manufacturer of "Merode."

We Are Agents for Portland for This Celebrated Make.

And carry the lines complete in every quality and style. In cotton we show the long sleeve vests and shirts, splendid line of underwear that sell for 50c a garment. Same in the heavier, fleeced line, all styles, at 60c each. In light weight Merino vests, pants or tights 85c. The heavier Merino line at \$1.00, \$1.25 and \$1.50 each. In silk and wool mixed at \$1.75. The Union suits are particularly good values at \$1.25 for heavy cotton, \$1.75 and \$2.25 for the wools and \$2.00 for suit for the silk and wool mixed. We also carry a large line of children's Merode underwear.

MINERS MUST GO TO WORK

Novinger Wage Scale Will Be Settled Afterward.

KANSAS CITY, Mo., Sept. 13.—The Novinger miners must resume work pending a discussion of the wage scale between the miners and the operators. A convention of District 25 held here so decided, and a committee of Novinger miners and scale men is now on the way to tell the miners this fact. As the latter in their meeting on Friday agreed to abide by the convention's decision, it now looks as if they must resume work without further parley or be ousted from the union.

It is expected that the scale committee and committee of operators will begin their joint sessions sometime tomorrow. President Mitchell hopes that this work will be finished this week. Both he and the convention will remain until it is completed, for the convention must indorse it before it is final.

The fact that nearly 100 delegates are here will have a tendency to expedite matters on the part of the miners at least. Miners' scale committee and operators' committee will meet tomorrow morning.

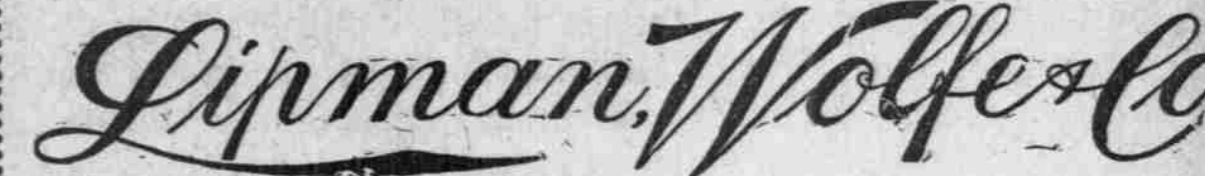

WILL PROTEST TO PRESIDENT.

STIRS UP DYNAMITE

Switch Engine Causes a Terrific Explosion.

Great Hole Torn in the Ground, Freight Cars Wrecked and Hundreds of Windows Broken by the Shock—Three Wounded.

BAY CITY, Mich., Sept. 13.—Clarence D. Hopper and Roy Boucher, switchmen of the Michigan Central Railway, were instantly killed by an explosion of dynamite in a car in the yards at West Bay City today. Robert Roblin, engineer; William Noble, fireman, and John Cradle, conductor, were injured, the latter so severely that he may die. All of the trainmen were residents of this city.

The explosion occurred as a switch engine was making up a train. The engine backed down upon several cars, the first containing 100 pounds of dynamite, a consignment of Lee-Metford rifles and a quantity of reduced charge shells for indoor practice, and it is said that the force with which it struck the explosive-laden

car exploded the dynamite. Hopper's body was badly mangled. A big explosion was torn in the ground by the explosion, a score of freight cars demolished and nearly 300 houses in the vicinity suffered broken windows. The shock was felt three miles from the scene.

APPRENTICE SEIFERT DEAD.

Second Victim of Alcohol Explosion on Olympia—How It Happened.

NORFOLK, Va., Sept. 12.—Lieutenant-Commander Vandover, executive officer of the cruiser Olympia, today gave out an official statement of the facts attending the explosion of a barrel of alcohol on the cruiser's deck last night, causing the death of Marine Corporal Yerkes, of Philadelphia, the fatal injury of Apprentice Seifert and the serious injury of Third-Class Master-at-Arms Caster and Apprentice Shavey, in addition to the burning of the cruiser's forward awnings and awning supports.

The explosion resulted indirectly from the smuggling of alcohol into the Navy-Yard by members of the cruiser's crew. The statement of Lieutenant-Commander Vandover says: "The entire crew of the Olympia were returning aboard after 48 hours shore liberty, when a five-gallon water breaker containing a score of ounces of alcohol in the forward turret. The executive officer ordered a thorough search of the ship and the yard in her vicinity to find any other spirits that might have been smuggled. As the cruiser is in drydock all her small boats are lined in rows along the wharf near the drydock. Between two of these boats two men were discovered. One of them escaped in the darkness. The other was placed under arrest.

"When the men were hiding was found a full barrel of alcohol which had been broached. It was by order carried aboard the Olympia to be emptied into the alcohol tank on the aft deck. This tank being

full, the barrel was carried forward by Corporal Yerkes, Seifert, Shavey and Caster. In the meantime the crew was called to quarters and every man accounted for. "While the men were in line answering the roll, the detachment with the barrel began pouring its contents into a tank on the port side of the forward turret. They had scarcely begun work when in a manner yet to be ascertained the fumes became ignited and exploded with terrific force. Both ends of the barrel were blown out, followed by a torrent of burning alcohol that spread in a flood of flame over the forward deck.

"Yerkes was struck in the head by a stove from the barrel and fell into the burning mass. He was roasted to death. The other three men were also struck by flying fragments of the barrel, but were knocked away from the center of the fire, and thus two of them escaped fatal injury, but Seifert was horribly burned and so injured that he cannot recover.

"It was at first thought a tank of smokeless powder had exploded and the crew for a moment broke ranks but in a second recovered and turned to save the injured and extinguish the fire. The injured men were hurried to the Marine Hospital where this afternoon it was stated Seifert could not live through the night, but that the other two would recover. Yerkes' body was shipped to Philadelphia for burial.

Apprentice Seifert died at the Marine Hospital late this afternoon. He will be given a military burial.

Funds for Winter Relief. KANSAS CITY, Mo., Sept. 13.—The joint food relief committee of the two Kansas Cities has practically completed its work. It has distributed \$75,000, mostly in cash, to the people of Armourdale, and in doing so has helped 400 families.
