SACRAMENTO, Cal., Sept. 11.—(Special.)—Sam Morris, the Indian twirler, pitched like a demon for seven innings to pitched like a demon for seven innings to-day and none of the Senators could do a thing with his delivery, although two scratchy hits were made off him that should never have been made. In the eighth inning, however, the Senators seemed at last to have taken his measure, and they bunched four hits on him that scored three runs to the delight of the Immense crowd. They succeeded in getting two more runs in the ninth inning that assured them the victory. Up to the seventh inning the game had all the flavor of another victory for the gritty Portlands, and Manager Mique was on the squirm. Thomas was being hit freely, and although by good luck no runs were made, still there was always the uncertainty existing that a batting rally would come est any moment, and in consequence the local fans were on tenterhooks the whole

The Browns got their first man over the rubber in the fifth inning when Blake drove out a double to left field and scored on Eagan's wild throw. In the eighth Hoi-lingsworth drove a double to center field and geored on Elsey's double that went to the same locality. In the ninth Blake bounced one down on the ground that went 20 feet in the air and he beat it out. A single by Van Buren sent him to sec-ond base and another single by Francis

With the Senators, nothing was doing until the eighth when Hildebrand, the first man up, drove a three-bagger to right field and scored on McLaughlin's single to left. McLaughlin went to second when the ball got away from Nadeau and scored on Eagan's single. Townsend macrificed Eagan to second, he went to third on Sheehan's out, and scored on Doyle's single. In the last inning Thomas walked and went to third on Casey's hit to right field, scoring on Blake's wild throw, Casey reaching second on the play and crossing the rubber on McLaughlin's

Rosch has again signed articles for Seiger to fight Turner, the fight to be pulled off in three weeks. The New pulled off in three weeks. The New Yorker came within an ace of beating Turner, and if the articles hadn't called for a draw at the end of 20 rounds in case both men were on their feet, the decision would have gone to Seiger. Roach is after Jimmy Britt's scalp, and if he is given half a chance he will pit his man against the clever Californian.

ELECTED AN HONORARY MEMBER OF MULTNOMAH

HERBERT W. KERRIGAN.

At a meeting of the Multnemah Athletic Club, held last week, the officers of the club presented Herbort W. Kerrigan with a pleasant surprise in the nature of an honorary membership. Kerrigan is one of the best-known athletes on the coast. He was born in Portland 25 years ago, and since 1893 he has taken an active part in track and field sports. It was not until 1894, however, that he began to make a name for himself, but since then he has been an indefatigable worker, and it has been mainly through his tireless efforts that local athletics have reached their present high standing. Kerrigan became a member of the Multpomah Club in 1894, and since that time he has participated in practically all of the athletic events held under the auspices of the club. He holds at present the Coast championship for the high jump, the world's record for the high dive, and also the record for the Kerrigan's life membership in the Multnomah Club is given him in appreciation of his long services in directing the club athletics; in short, if it had not been for Kerrigan during the past couple of years, the touraments which have been a feature in the club's history, would have stopped alto

took place. Vigneux, who proclaimed loudly that heretofore he had been man-ager only in name and without authority, was given full control of the team and also given a month in which to make good. Opinions will differ as to whether Vigneux has made good as a manager during the past month. It is, perhaps, well for him that the matter is left to the club officials and not to a vote of the local fans. If the passing of judgment rested with the majority of the fans, the betting would be against Vigneux,

> Whispering Phil Nadeau is still leading the league in batting. He is still the premier batsman in spite of the slump which he took while facing the Oakland pitchers, which left him in the neighbor-hood of 370. Joe Corbett, who has been playing second for Los Angeles, is second with a percentage of 358. Pitcher Mc-Farlan, the new Brown twirler, has the highest batting average of any player in the Pacific Coast League, but as he has not taken part in over a dozen games, he is not yet entitled to a rating with those who have taken part in many more. In about 48 times at bat he has walloped out between 18 and 29 hits.

The following are the batting averages of those over the 250 mark who have participated in at least fifteen games: Na-deau .370, Corbett .358, Van Buren .357, Lumley 356, Thielman 354, Dillon 352, Esigan 323, Moskiman 318, C. Northwestern papers are discovering that Henry Hart was not treated fairly by the Pacific National League. Hart found it out over two months ago. An Oregonian reporter told Hart in San Francisco one day during the opening series of the Pacific Coast League that he had tied up to the wrong people, and that the best he would get would be a chance to throw away his good money against a bad game. He was told of the exact situation in Portland, but he believed the other fellows. It cost him \$50,000.

ALL IS FOOTBALL,

Training Soon to Begin for Contests on the Gridiron.

UNIVERSITY OF WASHINGTON, Seattio, Sept. 13.—(Special.)—By the close of the week the University of Wash-ington football practice will have been ington footbail practice will have been well started. Coach Knight is expected to acturn from a short trip into the mountains Monday evening, and will be on the ground from that time on. The different players are continuing to arrive in the city, and are making ready for a hard season's work. Captain Spidell is more than pleased with the readiness with which men are coming in for the Fall practice in response to his urgent request. It will be the aim of both the captain It will be the aim of both the captain and coach to have their team playing good football by the first of October.

Tom McDenald and Dave Grant returned from their surveying party Saturday afternoon, and will be ready to take their place in the line-up by the end of the week. These two men are undoubtedly the most valuable acquisitions that the university has made to its group of ath-letic men for the last few years. Their help will be felt in every branch of the outdoor sports. As track athletes and baseball players their records are up to any amateurs in the Northwest. However, as yet they have played very little football, but nevertheless through their football, but nevertheless through their natural ability Coach Knight expects to make stars of them before the close of the season. McDonald holds the strength record in Seattle, having made a total of over \$200. At present he weighs consid-erably over 200. McDonald's all-round whilly can be realized from the fact that but nevertheless through their ability can be realized from the fact that he has made 10 feet 6 in the pole vault. Grant, while not as large a man as Mc-Donald, is likely as valuable. He will try for an end position, and, with his speed and strength, should make a most formid-able candidate, while his partner will at-tempt to hold down one of the tackles.

The schedules of games remains about the same as decided some time ago. The contest between the Universities of Oregon and Washington has now been den-nitely set for November 14. The game nitely set for November 14. The game will again open up relations between the two institutions. It has been two years since the colleges have met in football, and the coming game will likely lead to a contract which provides for a series of three gamea. It is the idea of a number of Oregon men, and also of those interested in Washington athletics to pull off the annual games in Seattle at Thanksgiving. It has now become quite certain giving. It has now become quite certain that Stanford will be in this city on the coming Thanksgiving. While a contract has not as yet been signed, still the Call-fornians will make every attempt to come north, us they are especially anxious of locking horns with Washington.

locking horns with Washington.
One change in the schedule that at present looks probable is a trip into Oregon during the early part of the Fall. The 'Varsity will meet the Oregon Agricultural College and Willamette University, if the contemplated trip is made, about if the contemplated trip is made, about the middle of October. Coach Knight does not like to take the team away from home so early, but as it is not possible to get games in Seattle later in the season, it will be a case of necessity.

An attempt is now being made to give the second team a full schedule. During October it is planned to take this aggre gation into the southwestern section of the state, and then somewhat later take them down the Sound, playing the teams at Whatcom, Furhaven and Port Town-send. Heretofore it has always been a difficult matter to keep the second team men at their positions after it became certain that they were not to win places on the 'varsity eleven. It is thought that the above-mentioned scheme will remedy this avil.

SAN FRANCISCO, Sept. 13.-(Special.)-Morris Levy began "hitting the wires" last night to locate the Dixle Kid and offer night to locate the Dixie Kid and offer him a go with Ai Neili in a double main event with the Hanion-Yanger bout of September 29. Neili was supposed to have retired from the ring, but the old longing has come back with the restoration of strength to his broken hand, and he wants to don the spangles at least once more. If Dixey can be found—and he is believed to be at Sacramento or Stocktor, the event to be at Sacramento or Stocktor, the event of the spangles are sacraments or Stocktor. to be at Sacramento or Stockton-the card should be a strong one. OREGON CITY, Sept. 12.—(Special.)— "Instructions for the public school of Clackamas County are scarce again this year," said County Superintendent Zinser today, "I do not expect that any of the districts will be unable to find teachers, but the number of persons that is follow-ing this profession is not as large in this county as it has been in years gone by. The wages paid teachers in this county are exceeded by few counties of the state, while the general average has been increased annually for several years, so the question of wages cannot be responsible for this scarcity.
