Interior Merchants Prepare for Big Winter Trade.

WEEK FOR JOBBERS

Hop Market Not Yet Opened-Activity in Wheat Expected Soon-Local Produce and Merchandise Quotations.

Local trade in the past week was the best of the season, according to the reports of groery jobbers. Interior merchants are stocking p well, anticipating a big business this Win-In view of the good prices received for all kinds of crops. The bop market is exected to open within the coming week. Wheat ading is light, but a period of activity is xpected as soon as prices get to an exort basis. The produce trade was only mod-

WHEAT-There is not much activity in the theat market, as the lower price has checked The tendency is downward and the uarket is approaching the actual export basis. there is no change in the situation it is rs in the next two or three weeks. Quotayesterday were 77 cents for club, 81 ents for bluestom and 80 cents for Valley. The foreign trade situation is thus summarized by J. W. Bush, of London, in the Northwestern Miller of September 9:

The wheat market in this country remains extraordinarily quiet and unaffected in face of the continued bad weather for the English rop, not 20 per cent of which is probably et cut, and of which perhaps only half a loren threshed samples have yet been seen. This is nearly a mouth later than an early scaand at least a fortnight inter than the

the better very little will be in condition be threshed this slife of Christmas.

The prospect, therefore, is for an increased emand for foreign wheat during the next

months, just as was the case last year, wing to the poor condition of English wheat which led to a gradual improvement in the value of most sorts and especially of American

Russian wheats are practically at Russian wheats are in the meanwhile rel. The trade here is in the meanwhile rel. very slow to move, hoping almost against sope that the weather after all may set in dry and fits and enable the crops to be harvested

s figures as to the Northwest Spring crop cabled as 164,000,000 bushels for tes being also cabled at 147,000,000 and ompared with 187,000,000 last so be correct it is argued that in lew of the exhaustion of old stocks of Spring heat this country can not expect the usual upply of ills wort of wheat nor can it be expected that Spring wheat flour from Min-esota will be offered cheaply.

weak point in the situation and one at checks speculative buying on any im-rtant scale is the position in France. In the oth and just of the center of that country tops have been harvested well, and the price of 256 6d936s tid per 456 pounds eing accepted. In the north, the crop re-ns in the fields, and according to a report only lessed, it is said by the Ministry of ulture, much damage has been done by be recent heavy storms. The north, however, an buy native wheat in the south and center t much lower prices than the present level f foreign wheat, so that France remains out the running as a competitor for foreign

It is quite probable, however, that in the sext week or two, if the weather continues est week or two. If the weather continues nfavorable, prices in France will rise again o an importing point and this would have a immediate effect upon prices. My advice, nerefore, is, waith the French markets closely

ans that the buyers on the other side will ve to advance their ideas, or wheat holders this country will have to let their grain at lower prices than they have been holdflour on old contracts.

Milliford of all kinds is firm at prices quoted week ago. Oats, barley and hay are un-

HOPS-The local hop market has not opened et. Picking will be completed by Saturday tht and balling will be under way next week \$21 cents for both new and old hops. A ow samples have been received and they ary greatly in quality. The feature of the eign situation is the firmness of German arkets, which are from 5 to 10 shillings

WOOL-The markets in this state are exemely quiet and will remain so for the st of the season. The American Wool and lotton Reporter of September 10 said of Oreon wools in Boston:

ery steady. Oregon fine wool, if well bloodand containing a good percentage of staple,

The Reporter quotes Oregon wools at Eastern oard markets as follows: Eastern staple, 75/818c; Eastern Oregon choice clothing, 15 16c; do average, 13614c; do beavy, 12613c;

alley Oregon No. 1, 19620c; do No. 2, 196 e; do No. 3, 18619c; Valley Oregon lambs, Of the general situation in the East, the

porter says:

The market is still quiet as a whole, alugh for certain descriptions of stock there a good, stendy inquiry. This applies, estably, of course, to medium grades. Bright sols have been conspicuously active, owing \$11.13 the quite liberal takings of a well-known save Hampshire concern, whose representative \$1.65 pound a purchased some good-sized lines of half. Alaska ree-eighths and quarter-blood stock, comsising, it is reported, Missouri, Wisconsin and plants wools. The same concern is also SUG. ampshire concern, who chart into lines consequence of the concern who is also freed to have purchased of Irish wools of medium territories to some extent, for two Philadelphia concerns have purchased in the purchasing of medium grades I stock in fleeces and letritories, and in the atter some large business is said to be pending, involving the sale posibly of several militor pounds, which may or may not be consummated, although the chances are, at this writing, that it will be. Certain large consumers, whose advent into the market had been expected bung before this time, have not yet and their appearance, but others have, although the chances are, at this work whose advent into the market had been expected bung before this time, have not yet and their appearance, but others have, although the grade their appearance, but others have although the case relationship of only modorate quantifications of only modorate quantifications of the case relationship of the

Interior, there is no doubt that dealers are ing from local territory, while the city oing traffe is interfered with by farmers dling their own products. The best de-

mand is for oranges and lemons which, in view t the limited demand, are firmly held. Prices of green truck of all kinds are generally

The eggmarket has been somewhat excited this week by a strong demand coming on top of a light supply. Prices advanced to 25 cents for fresh ranch, but later dropped back to 24 cents, as storage stocks were drawn upon. Chickens have been coming in freely, but sell readily at the established quotations.

GROCERIES, MEATS, ETC.—No changes have occurred in the list of staple groceries during the week.

Linseed oil advanced 5 cents a gallon yes-

terday. Receipts of livestock have been good and former prices have been maintained. Dressed ments are as last quoted, except pork and veal, which have declined slightly. Canned meats have advanced from 214 to 10 cents.

PALOUSE WHEAT CROP.

Good Wenther Prevails and Work Is Being Rushed.

Provisions are unchanged.

COLFAX, Wash., Sept. 46.-(Special.)-Beauthroughout the Palouse country and harvest work, which was suspended for several days, has been resumed and will be rushed as long as the good weather prevails or until all the grain is eafely harvested. Investigation shows that but little damage has been done by the rains. Practically all the grain in Whitman County has been cut and fully 60 per cent is threshed. Two more weeks of good weather will see the last of the crop saved. There are plenty of machines and men to complete the work in a short time. All teams not engaged in harvesting are rushing grain to the warehouses, which are rapidly filling

The price holds firm at 65 cents for club and red; 66 cents for Sonora and 69 cents for bluestem. Outs are worth 85 cents per 100 pounds, and barley TTM cents per 100 pounds. While there are no large lots being sold, the average daily sales aggregate a large amount. From 1 to 2 cents above these quotations has been offered for large lots of wheat, but has been refused by the farmers.

The Washington Weekly Crop Report says; The abundance of moisture was very beneficial to pastures and ranges, and root crops and cabbage were greatly improved. It is thought that late potatos will in some cases

Grain, Flour, Feed, Etc. WHEAT-Walla Walla, 77c; bluestem, 81c; Valley, Sec. BAHLEY-Fred, \$19920 per ton: brewing, \$21; rolled, \$21921.50. OATS-No. 1 white, \$1.10; gray, \$1.05@1.10 an immediate effect upon prices. My advice, therefore, is, watch the French markets closely and do not part with your wheat too freely, for if ever there was a season in which the whole of america's surplus, if it do not exceed 175,000,000 to 200,000,000 bushels, will be absolutely wanted by the importing countries, it is this present season of 1862-04.

FLOUR, FEED, ETC.—The local flour market is active at last week's quotations. There is a good demand for old wheat flour from bakers and grocers, who usually stock up at this season. As it is a scarce article, the buying has stimulated the city trade. There has been no improvement in the foreign situation in the week. If any change has occurred, it has been the other way, There is counsiderable demand from the Orient, but a prices below what millers are asking. This means that the buyers on the other side will maye to advance of the other side will may to advance that the buyers on the other side will maye to advance the other side will may to advance the other side will may to advance the other side will may to advance the other side will maye to advance the other side will may to advance the other side will maye to advance the other side will may to advance

REPORTS OF DAMAGE STILL AF-FECT STOCK PRICES.

Beaviness of Steel Securities Continues-New York Banks Losing Cash-Exchange Steady.

NEW YORK, Sept. 16.—The same influences that have dominated the stock market for some time past were again in control today. The crop situation continued to be the paramount issue, and out of the mass of semantional rumors and reports recently circulated, it is at last clear that serious harm has been account to crows in certain sections of the wrought to crope in certain sections of the Northwest. From Georgia and Alabama came-roports today of damage to cotton by high winds and heavy rainfalls.

reports today of damage to cotton by high winds and heavy rainfalls.

Trading during the early session was noteworthy chiefly for a regewal of yesterday's seiling movement for Western account, Chicago taking a leading part. As in the early week, the Steel securities were sgain ognospicuous for their heaviness, both the common stock and the 5 per cent bonds decilining to new low levels. Sales of the bonds were very heavy, transactions for the first two hours aggregating considerably more than one-half of the operations for that period in the bond department. Decliners in the list were general at the outset, but the tone good changed to relative steadiness. Atchison seemed to be taken up quietly, and Union Pacific was another of the few stocks that offered resistance to the early selling pressure. Commission houses reported little business and out-of-town operations were doubtless curtailed by the storm, which caused serious interruption to all telegraphic service. The specialties were almost entirely neglected, a notable exception being International Paper preferred, which declined almost 8 per cent below the last recorded sale. Brooklyn Transft registered a 2½ per cent loss, but lated made almost complete recovery.

At midday the market was almost at a standayli. A rally in no sense proportionate

At midday the market was almost at a standardil. A raily in no sense proportionate to the early decline soon followed, on buying attributed to important local interests, but support was still lacking in the Steel issues, the common selling lower than in the morning, while the bonds continue to be pressed for sale. Sugar, which has taked a place in the interesting the state of the inactive list, was sold for Boston interests, it is said. The steady tone of the late after-noon was more attributable to short covering than to any real buying demand. The Steel bonds more than regained their loss of the

early part of the day. The local money situation continued un-changed. It is estimated that the banks will lose at least \$7,900,000 in the course of the week. There is a partial offset to this, how-ever, in additional Australian gold imports, another shipment of \$1,500,000 being now on

ed et r, at as er sie et ror et	ure. The ground has, as an effect of the abundant rainfall, been put in excellent condition for plowing and the seeding of Fall wheat. Previous to the rains but little of such work had been done, but it will now go rapidly forward. Late apples will probably he larger on account of the rainfall.  Harvesting and threshing were interrupted by the bad weather, and completely stopped on the 14th. Good weather will enable these operations to be resulted on the 14th, and a few fine days would see harvesting finished in all localities. Wheat in the shocks in the eastern counties, and outs in the western counties, were quite badly wet by the storms, and the grain will be considerably damaged. Portunately harvesting was more than three-fourths done.	the news from the Northwest soon became more reassuring with foreign news rather tame and these influences, together with a sharp break in September at Minneapolis, caused the atrength to desert the pit, and December relapsed to 82%c. Local traders followed the action of brokers supposed to be acting for Armours, who sold wheat generously. The trade was ingre and the late market took on a better tone. December closed unchanged at 8216825%c.  Bhorts in the corn pit made a concentrated rush to cover at the opening and the biddfng continued vigorously until the price had gained 1½c on the closing quotations last night. But at the advance offerings from holders with profits became so free that they checked the upward movement. The late mar-	changed. It is estimated that the banks will lose at least \$7,900,000 in the course of the week. There is a partial offset to this, however, in additional Australian gold imports, another shipment of \$1,500,000 being now on the way to the Pacific Coast. Bankers believe that because of the easy rates for call meney, the Secretary of the Treasury will not anticipate the \$3,500,000 interest due on bonds October 1. Foreign exchange showed more steadiness at a slight advance.  The bond market was slightly lower this morning, following the sharp break in United States Steel second 5s. The tone improved later, but the close was somewhat irregular. Total sales, par value, \$1,610,000. United States 2s roupon advanced 1 per cent on the last call.

Wheat at Tacoma. TACOMA, Sept. 16.—Wheat—Unchanged; bluestem, 82c; club, 78c.

FALLS TWENTY STORIES. Rock From Skyscraper Causes One Death and a Panie in New York,

NEW YORK, Sept. 16.—A huge block of stone coping fell from the upper part of the 20-story Flatiron building, Twentythird street, Broadway and Fifth avenue, carly today. The mass lapded on the Fifth avenue side of the building with a crash that could be heard for blocks. A large hole was torn in the pavement and frag-ments of the stone flew in all directions. One of the pieces struck John Rupple, a bartender, as he was passing along the avenue half a block away, and broke his leg. Another fragment hit a passing team of horses and caused them to run away. Cash wheat was dull and nominally unpassengers, bound down town, was also damaged by the shower of small stones. Half a dozen of the windows in the car were shattered and several of the passen-

No cause for the loosening of the stone could be ascertained. The Flattron building, a comparatively now sky-scraper of peculiar build and great size, stands in one of the busiest quarters of the city and at any other hour the falling stone would have caused several fatalities.

GEORGE WASHINGTON'S QUEUE.

It Hid a Luxuriant Suit of Straight and Very Dark Hair. The Father of his Country concealed a luxuriant suit of hair beneath his queue wig. Many now wish the old fashion were in vogue, to conceal thinned hair or baidpess. Yet no one need have thin hair nor be bald, if he cure the dandruff that causes unchanged. Tomatoes were quieter and easier both. Dandruff cannot be cured by scouring the scaip, because it is a germ dis-ease, and the germ has to be killed. New-bro's Herpicide kills the dantruff germ -no other hair preparation will. 'De-stroy the cause, you remove the effect.' There's no cure for dandruff but to kill

> 10 cents in stamps for sample to The Herpicide Co., Detroit, Mich. **Blood Poison**
