VISION IS CONSOLED

Takes First Money in Race of 2:17 Non-Winners.

HIGH BALL SHOWS BAD TEMPER

Getaway Wins 2:30 Trot—Adnor and Sally Goodwin Show First in the Running Events—Entries for Today.

SALEM, Or., Sept. 18.—(Special).—The drastic punishment handed out to W. G. Durfee and the mare he was driving yesterday, Sweet Marie, seemed to have a wholesome effect on many of the drivers, and today, with the exception of the drive that Hartnagel gave St. Patrick in the second heat of the 2:30-class trot, for which he was set down one heat, every race and heat was fought out to a finish.

The day's sport opened with the consolation 2:17 race for nonwinners in the Greater Salem stake, which was won by Vision and which took three heats to decide. St. Patrick, Getaway and Lord Kitchener had to go to the distance. Five heats, before the race was decided. It was in this race that Driver Hartnagel bumped into disfavor with the judges. It looked as if he had a chance to win the second heat with St. Patrick, so Hartnagel was unseated for laying up, and J. E. Irwin was put up behind the horse. St. Patrick got away well and was leading Lord Kitchener down the back stretch when he broke and fell back and finished last. The judges resented Hartnagel in the next heat, but the best he could do with St. Patrick was to finish behind Getaway, who won the last heat and the race.

Tomorrow is the last day, and just as soon as the last race is over many of the horses, both running and harness, will be loaded on the cars and shipped to Portland. The horsemen have been looking forward to the coming race meet at Portland with a great deal of interest, and already entry blanks for the different races have been filled out here during the past week. All of the California horses, save Sweet Marie, will be sent off in the first heat, and after getting off in seventh position he raced around Benarba and Rajah in the back stretch. At the half he was two lengths in front, and he could have finished a city block ahead of Benarba, who was second.

In the second and third heat Hogaboom,

try as he would, could not bring High Ball up. Both times they were sent away with the blue, horse trailing back ten lengths. He finished fifth in the second heat and was second in the third. In the last heat High Ball, with a speed that was magnificent by behind, kept coming on, passing the trailers as though they were anchored to the track. At the three-quarters he was on even terms with the leaders, Vision and Benarba, and was spreading sail for Vision, who had to be driven for every ounce that was in him by Lindsey in order to win. The mile was traveled in 2:12½, 2:19½, 2:30½.

The two running events were really the most interesting of the day. Adnor, winning the first, a 4½-furlong affair that was a bruising race from start to finish. Sally Goodwin, the heavily played favorite, was first in the seven-furlong race. Starter Hogaboom had considerable trouble in getting the runners away in the first race, but when he sent them off they were in a bunch. Classes got away in front with Aurora Band, Clivoco next. Rounding the turn for home Adnor moved from third position and showed in front at the seven-eighths and was battling gamely with Aurora for first position. Williams with heels and whip began riding the Adnor horse, and he finished first at the wire. Sally Goodwin was back in fifth place, and did not enter the running until turning in for home. Hogaboom, who was in front at the wire, was sent down one heat, every race and heat was fought out to a finish.

PATCH NEARLY BREAKS RECORD.
Heavy Track at the Last at Readville Tires Him Greatly.

REARVILLE, Mass., Sept. 18.—It seems quite probable that but for the slowness of the footing in the last 200 yards the champion harness horse, Dan Patch, would have succeeded in his attempt today to lower his record of a mile in 1:50, made at Brighton Beach, a few weeks ago. Paced by one runner, the quarter was made in 26 seconds, and the half in 0:54. From there on he had the benefit of two runners, and reached the three-quarters in 1:29½.

The record then seemed to be trembling, but on getting into the stretch a heavy bit of track was experienced, which tired the pacer so much that he reached the wire in two minutes flat. It was generally believed that had Dan Patch been favored with the same track conditions as those prevailing on Monday, when Major Delmar made his effort at the trotting record, the pacing record would have been broken. Summary:

2:17 class, pacing, purse \$100; two in three—Gracie Keller won two straight heats in 2:11, 2:15. Miss Brock, Direct View, Prince Caton, Nicklette, Nanita, Wild Wind, Kasall, Dr. Short and Allie also started.
2:07 class, trotting, purse \$100; two in three—Wentworth won the second and third heats in 2:08, 2:09; Rhythmic won the first heat in 2:07½. Susie J. and Prince of Orange also started.
2:30 pacing, purse \$100; two in three—Cubanole won the second and third heats in 2:06½, 2:06; Gold Brick won the first heat in 2:07½. Nonamie, Al Bock and Brown Heels also started.

At Delmar.
ST. LOUIS, Sept. 18.—The track was heavy at Delmar today. Summary:
Six furlongs—Aalsomar won, Bugle Horn second, Model Monarch third; time, 1:21½. Mile and 70 yards—Worthington won, Aules second, Yarna, Ponso third; time, 1:54.
Five and a half furlongs—Quaker Girl

won, Wreath of Ivy second, Leech third; time, 1:12.

to George Memsc, of Portland, and Sam Goodman is only awaiting acceptance of favorable terms before he turns the local lad loose to eat up the Mexican.

Memsc is probably the best man that Herrera has ever stood up before and the offer of Bishop to let the Mexican go in shows pretty clearly that Biddy is yearning for a chance to get at the gate receipts again. Memsc's record is as clean of defeats as a score board is of figures before the game begins. The Portland lad has had the going all his own way in the past and should be able to at least be on his feet when the last round is over.

Bishop wired yesterday that he wanted Herrera to take on the Portland boy and fixed the time as October 2. That is too early for Memsc, and Goodman will ask when Bishop's supplementary letter is before him, that the date be postponed four days. Memsc hurt his thumb at the time he was spilling Louis Long's physique, and the digit has not had time to heal. He will need four days longer to put it in shape to wear the thumb piece of a glove and Bishop will have to give way to this demand if his protegee is to gain a real experience.

Memsc, too, will have to be granted a little time to work off the surplus avoirdupois that he has accumulated since his last stretch of hard work. He did not have to expend himself even then hard enough to last long, but in the meantime he has built up from 125 to 142 pounds. Biddy Bishop has asked that the men weigh in at 6 P. M. on the day of the fight with 130 pounds as the limit. This is not to the liking of Goodman, and, if Bishop gets the match, he will have to allow the men to get onto the scales at noon. This is not a serious point, and is likely to be conceded, though it will do Memsc a world of good to get that extra six hours' rest before the mill.

Memsc has shown heretofore that he can get down to weight without losing any time in the performance, and the 12 pounds of surplus fat does not worry Goodman's little fighting machine a bit. He took off 17 pounds within 11 days when he was getting ready for his last appearance inside the ropes and with two weeks in which to slough the 12 pounds he will not need it should be easy going.

The approach of unfavorable weather, does not look good for the kind of training that Memsc is going at, for outdoor work may be cut off at any time by the wetness. In this the four days of extra time will come in handy to the Portland lad.

Biddy Bishop has had his Mexican in condition for some time. He brought him to Portland in a fit condition and hurried him away to the burg on the Sound when the lights went out on the game here. Biddy went north looking for something easy to bring in the shekels and expected to find the northern sports hungry for a good look at the Mexican in action. Whether he found it or not there is no doubt that the Turner-Sieger fight revived his hopes and now, if Memsc will only take on the man from the promoter will look after the rest.

Through there has been no intimation as to the probable agreement on this point, Portland fight specialists believe that Bishop and Goodman will get together on a proposition to call the thing a draw if both men are on their feet at the end of the fight. Twenty rounds will be the limit and it is believed here that Memsc can keep his hands up that long before Herrera.

The Mexican has been favored heretofore in numerous ways, some of them resembling a disposition on the part of the other factor in the fight to allow Herrera to reach in and jab at his will. But all of the men Herrera has met have walked into him and the Mexican has been able to fight on the defensive. It is likely that when he mixes with Memsc he will have to start an exploration expedition of his own and that Memsc will constitute the reception committee portion of the function. In any event, the Portland lad is not going to get any the worst of it in his argument with the man from across the border.
