### POWE SCANPREVENTBYACTION

Servian Bands Said to Have Crossed the Frontier, and Are Now Fighting in Macedonia-Greeks Are Going in Revolt.

LONDON, Sept. 21.-The Balkan situation presents few new features this morn ing. The German Emperor's influence at Vienna is said to have been thrown in favor of allowing the Sultan the utmo freedom in suppressing the insurrection. Both Turks and Macedonians claim the victories in the daily encounters.

A report from Sofia states that Bulgaria's military preparations are reaching the stage of perfection that will enable the concentration of 20,000 men on the frontier within a week, and the stocks of provisions, weapons and ammunition are

rapidly becoming efficient.

According to a dispatch from Constantinople to the Daily Telegraph, the Sultan is so firmly resolved to avoid war that, on the report that France was sending a fleet to Turkish waters, and again when it was stated that Bulgaria was mobiliz-ing, he drafted a decree forbidding massa-cres in Macedonia and conferring more extensive local administrative privileges than had been demanded by the insurgents themselves, but on each occasion, finding the rumors unfounded, the decree was rescinded. It is believed, however, that should any power threaten a demon-stration in Turkish waters, the decree will be signed.

The Sofia correspondent of the Daily Telegraph gives a similar report that the Sultan is ready to concede local autonomy, but will not grant a Christian Governor to Macedonia. Instead, he would propose a mixed commission, composed of Turks, Macedonians, Bulgarians, Greeks and Wallachians, to administer the provinces The Servian newspapers are discussing the probability of a reconciliation with Bulgaria on the basis of free trade be-tween Servia and Bulgaria, and a defen-

sive alliance against the Turks.

A dispatch from the Monastery of Rila, adds the Daily Telegraphs correspondent, says the Greeks are joining the revolt in the districts of Melink and Demir-Hassar. The Constantinople correspondent of the Times declares that he has good authority for asserting that several Servian bands have already crossed the frontier, and are now fighting in Macedonia. If Bulgaria fights Turkey, he continues, it will be dif-ficult for Servia to lag, and it is quite clear that a Turco-Bulgarian war would not be so one-sided as at first sight it ap-

## NOT AN ULTIMATUM.

Bulgaria Only Means It as an Appeal to the Great Powers.

BOFIA, Sept. 20.—Some apprehension having apparently been created owing to misunderstanding regarding the precise meaning of Bulgaria's last note to the powers, explanations have been given to me diplomatic agents here that the emorandum was not intended as an ultimatum, but was rather in the nature of an appeal for the intervention of the great powers before that intervention should be too late. The Bulgarian Ministry, it was stated, was determined to maintain its attitude of neutrality up to the last moment, but it feels the impossibility of standing by indefinitely while the Turks exterminated the Bulgarian element in Macedonia.

The government's position is rendered increasingly difficult by the attitude of the May Samiral Halgan May 24 Cressington vigorously backed up by the revolutionary committees, is persistently endeavoring to force the government's hand and provoke hostilities with Turkey.

May 21 Monteam April 16 Professor Koch May 8 Amiral Halgan May 24 Cressington May 25 Europe July 16 La Fontaine May 27 Arthur Figer June 11 Christel Amy 27 Germonine creasingly difficult by the attitude of the Macedonian population in Buigaria which, vigorously backed up by the revolutionary committees, is persistently endeavoring to force the government's hand and provoke Instillities with Turkey.

A special dispatch from the Monastery of Riia, Buigaria, says the condition of Riia, Buigaria, says the condition of

of Rila, Bulgaria, says the condition of of insurgents under the lendership of Yankoff, Stoyanoff, Darvinghoff and Sografoff, all of whom were formerly Bull July 18 Name the Turkish garrison of Melnik, 65 miles northeast of Salonica, is believed to be ex-tremely critical. It is besieged by bands grafoff, all of whom were formerly Bul-garian officers. The insurgents number 1900, while the garrison is believed to con-Demir-Hassar and Razlog.

The Turks have withdrawn nearly all their forces from the districts of Danaounana and Razlog to send them to the relief of Meinik. As a consequence, unusua tranquility prevails throughout the dis trict of Razlog, where the authorities, lacking the support of the troops, have ceased their policy of persecution, and the Beys are even furnishing bands with food. The Turkish population is described as being in a state of consternation.

A company of Turkish soldiers and bashi-bazouks recently found the hiding place of 100 families of refugees from the cillages of Dupenia and Echia, near Resen. They captured the party, violated the women and committed other atrocities. The united bands of Monassieff and Michallof have had an encounter with the troops near Demir Kapu, 62 miles north-west of Salenica. The Turks had many killed, including two officers.

#### SULTAN EXPRESSES REGRET. Tells Russian Ambassador That Mur-

derers Will Be Punished. CONSTANTINOPLE, Sept. 20.—In an audience with M. Zinnovieff, the Russian Ambassador, Friday, the Sultan expressed his regrets at the excesses committed by the Turkish troops in the vilayets of Mon-astir and Adrianople. He said that orders had been sent to the authorities concerned to prevent their repetition, and he gave the Russian Ambassador to understand that the guilty parties would be punished.

The German Ambassador, Baron von Bieberstein, also had an audience with the Sultan, who showed himself most optimistic. The latter declared that the insurrection was drawing to a close. fact, it had already been suppressed in some districts, and the Porte would there-fore immediately issue proclamations an nouncing the resumption of the application of the reform schemes.

After the granting of these audiences an

extraordinary council of Ministers was held at the Yildiz Klosk, and the delib-erations were continued on Saturday. It is understood that the council drew up fresh instructions to the Valls in the sense of His Majesty's declaration. Official dispatches from the Valls of Salonica, Monastir and Adrianople report encounters which resulted in favor of the Turks.

### TO DRIVE THE TURK OUT. Macedonian Recites Programme of

Burning and Slaughter. LONDON, Sept. 21.-The Daily Mail's correspondent at Sofia telegraphs: One of the revolutionary chiefs has in-formed me that the revolutionists are massing thousands of men at various points on the frontier, and their labora-tories are working incessantly to replen-ish their stock of bombs and explosives. points on the fronter, and their laboratories are working incessantly to replenish their stock of bombs and explosives,
They do not count much on war between
Turkey and Bulgaria, but on the day
they hear that the meeting between the
Czar and Emperor Francis Joseph has
not had the desired result for Macedonia
the world will witness the beginning of
massacres, burnings and destruction compared with which the Turkish atrocities
will seem child play.

"The banner of revolution," my inform-

FEARS ONLY FORCE ant say, "will be unfuried in all the border districts. Every city and village, whether the inhabitants are friends or foes, will be destroyed, and such a state of anarchy will be caused that the Turks will sten out voluntarily and leave the will step out voluntarily and leave the country to the Macedonian survivors. We have selected the frontier districts for these final operations so that Europe may hear the despairing cries of the dying na-tion which the Turks would stifle."

> Denies Profunction of Churches. WASHINGTON, Sept. 20.-Chekib Bey, the Turkish Minister, has received a dispatch from his government denying the reports which have been published in cer-tain European newspapers that the reserves in garrisons at Pristing, Noviborar Voichetrin, Sennitche and Metrovitza are engaged in aggressions against the Christian inhabitants in those places and are committing acts of profanation in the

The Minister's advices are that in rense to inquiries made by the Porte of authorities at those cities, the reply was that the publication referred to was without any foundation whatever, and that the soldlers always observe the rules of military discipline.

# OPERATORS ARE CAREFUL

Poreign Political Situation and Tight Money Kills Business.

LONDON, Sept. 29 .- With the serious political crisis in Great Britain, added to the hardening of money rates and the gloomy Halkan prospects, the operators on the stock exchange last week observed extreme caution. Business decreased and prices dropped all around. Following the unprecedented depression of consols the best gilt-edged securities gave way,

The weakness in the iron market, both here and in the United States also tended to lower prices. Business in the American to lower prices. Business in the American market was of the smallest proportions, Atchison and Union Pacific showing the most marked decline of the whole list. Canadian railroads also closed lower on the week's dealings.

#### Clatsop Docket Is Light.

ASTORIA, Or., Sept. 20.—(Special.)—The September term of the Circuit Court will be convened by Judge McBride on Monday. The list of civil cases is somewhat smaller than usual, there being only 84 on the docket. There are seven criminal cases to come up for investigation as fol-

Arthur Freel, forgery; Otto Hill, larceny by ballee; Antone Lund, larceny from a store; Israel Mattson, assault with a dangerous weapon; Lorenzo Pilkington, malicious destruction of personal prop-erty; Thomas Taylor, larceny from a dwelling; Frank Adams, raps. The last grand jury served during the September term of 1991 and as Judge Mc-Bride usually orders one every two years, it is expected one will be drawn this term.

### Correspondents on Custer Field.

BILLINGS, Mont., Sept. 20.—The Wash-ington correspondents reached here this morning, and after being entertained by the Commercial Club proceeded to the vested, and of affording an outlet for the Custer battlefield. After several hours products and the capital of the gold-there they went to Sheridan, Wyo.

## NOT SILVER COMMISSION

ONE OF INTERNATIONAL EXCHANGE DELEGATES EXPLAIN.

Object Is to Help Silver-Using Countries to the Solid Ground of a Gold Standard,

LONDON, Aug. 31 .- (To the Editor.)-The purposes of the Commission on Inter-national Exchange seem to be the subject of misaprehension in certain quarters, which I am confident you will be glad to aid in removing. It is not surprising, per-haps, that such misapprehensions have arisen, partly from the nature of provious commissions on monetary matters sent to Europe by the United States, and partly because of the somewhat complicated na-ture of the questions involved. The primary purpose of the Commission

has been to promote the extension of the gold standard to China and other silver-using countries. It has been, in this sense, distinctively "a gold commission" rather than "a silver commission," as it has been called by one or two of those who have

misunderstood its objects.

The Republic of Mexico, in preparing to establish the gold etandard, thought proper to ask other sliver-using countries to join her in the same object. In the case of China the fact that there are, in that country, few monetary experts, and that the power of the central government is somewhat impaired by the privileges of the Viceroys in respect to coinage, made it seem desirable to secure some degree of foreign co-operation in changing her systm. If such assistance had been sought from a single power, there would have been the gravest danger—indeed, practical certainty—that jealousies would have arisen among other powers which might have put obstacles in the way of carrying out an intelligent monetary plan. It was to clear the way first of difficulties of a diplomatic character, therefore, that the Commission on International Exchange decided to confer with the powers of Eu-rope. It was thought desirable to ex-plain to them the disinterested motives of the United States in aiding China to adopt a sound monetary system and to call their attention to the material economic benefits

likely to result to the gold countries from the adoption of such a system.

The history of other countries which have given stability to their monetary systems by the adoption of the gold stand-ard abundantly proves that importation is encouraged from gold-standard countries, because the importer and exporter can count with certainty upon getting a full return in gold for goods sold in local currency. Moreover, in the case of most of these countries, like Russia and Japan, a great stimulus has been given to the investment of foreign capital for the building of railways and mills, and the equipment of the country with the machinery of modern civilization. This movement has had the double advantage of conferring great benefits on the undeveloped countries where such capital has been

capacity for production and saving under modern machine methods has, in many industries, outrun their capacity for consumption at home. The advantages of such a plan are so obvious, when pre-sented, that the European powers consult-ed have all agreed that the establish-ment of the gold standard in China is de-sirable and practicable. sirable and practicable.

The methods by which the gold standard

is to be introduced into China it is not possible here to discuss in detail. It is sufficient to say that the method proposed by the American commission has been in successful operation for 20 years in the Netherlands and the Island of Java; was introduced into British India in 1887; and has recently been sanctioned by the Con-gress of the United States for the Philippine Islands. In the Philippines and in China it has been felt that it would not be practicable to introduce a pure gold currency, like that of Great Britain, be-cause wages range from 10 to 20 cents a day in gold, and a gold coin the size of a sovereign or a five-dollar gold piece would represent nearly the earnings of a month. The subdivisions of transactions are so minute that a large use of silver coins is necessary. These coins it is pro-posed to maintain at a gold parity by maintaining gold redemption funds, in the manner proved best by the experience of other gold-standard countries.

other gold-standard countries.

One important reason for seeking the co-operation of the European powers was the fact that at least two of them besides the United States are themselves proposing to change the monetary systems of their colonies in the Orient from silver to the gold standard. Genet Belt. silver to the gold standard. Great Britain has taken the preliminary steps for carrying out this programme in the Straits Settlements, and France has done the same for her large possessions in Indo-China. The American Commission, in view of the adoption in the Philippines of a silver coin representing about the coinsge value of 32 to 1, thought it desirable that in China and these European dependencies a similar ratio should be adopted. It should be clearly understood, however, that the term "ratio" is not used with any reference to the bimetallic theory; that the ratio will in itself fix the value of the silver coins. That value should be maintained by Government con-trol of the coinage and adequate provision for gold reserves. This has been from the peginning the consistent policy of the American Commission. Whatever has come before the com-

mission in regard to silver has been sub-sidiary to the fundamental object of in-troducing the gold standard into China and other silver-using countries. The governments of Europe have not been asked to change their monetary systems. They have not been asked to increase their purchases of silver bullion. They have not been asked to join any monetary union for sustaining the price of silver. It has simply been suggested that if, in making such purchases of silver as they found actually necessary to keep up their subsidiary coinage, they should distribute these purchases with a certain regularity as to time, this polity would tend to diminish violent fluctua-tions in the price of the white metal. It is difficult to see that any sound objec-tion lies against this policy, and none in fact was made by any of the European Commissions when the matter had been The Commission on International Exchange has never believed that stable exchange could be secured except by the gold standard. Incidentally, how-ever, it can hardly be disputed that violent fluctuations of exchange could be reduced by distributing the purchases of silver required by the government for coinage purposes with a certain regular-ity as to time, just as disturbances to the money market in the United States were diminished some dozen years ago when the Government decided to distribute its pension payments at different agencies ever different dates instead of making all the quarterly disbursements on the same Yours very respectfully, CHARLES A. CONANT.

#### ENDS DOMESTIC TROUBLE Old Man Kills Son-in-Law and Puts Bullet in His Own Brain.

BUFFALO, Sept. 20 .- James Mears, 70 years old, today shot and fatally wounded his son-in-law, Michael Crotty, 33 years old and then sent a bullet through his own brain, dying instantly. Family quar-rels were the cause of the crime. A year ago Mears deeded some property to his daughter Katherine, stipulating that she should not marry and that she sho provide for him until his death. Katherine was married to Crotty three months ago. Recently affairs in the household had not been running smoothly. Last Wednesday their domestic affairs were aired in the Police Court. Crotty, who had been arrested on a warrant secured by the old man for assault, was dis-

Today while Crotty and his wife were In the dining-room, Mears came into the room and the quarrel was renewed. Crotty was standing at the window when Mears stepped up behind him and began shoot-ing. He fired twice, both bullets entering Crotty's back. Mrs. Crotty attempted to disarm her father, but he brushed her aside and sent a bullet into his own brain He died instantly. Crotty will probably die before morning.

#### SHOOTS VIOLATER OF GAME LAW. Attempted to Make Arrest and Wounds Man in Struggle.

WILKESBARRE, Pa., Sept. 20.-E. W Campbell, one of the game wardens of Luzerne County, today shot and probably fatally wounded Roman Dales, aged 25 years, near Campbell's Lodge, two miles from Pittston, Several foreigners of late have been violating the game laws, espe-cially on Sunday. Campbell, with other officers, found five men today prowling around the woods with guns. He notified them to leave, which they refused to do.

An attempt was made to put Dales under arrest when the latter raised his gun to shoot. As he did Campbell seized the weapon. It was discharged in the scuffle, the contents tearing Campbell's clothing to shreds. Both men fell to the ground. Dales made an attempt to recharge the gun, whereupon Campbell pulled his revolver and in a second strug-gle Dales was shot, the ball striking him in the back. The prisoner, after being shot, grappled

again with the officer and showed fight until he was overpowered by the other officers, who came to Campbell's relief. The injured man's condition is serious and

may prove fatal.

Campbell surrendered to the authoriies and gave ball for a further hearing ers, all foreigners, are under arrest.

If you are tired taking large old-fash-ioned griping pills, try Carter's Little Liver Pills and take some comfort. A man

# can't stand everything. MEN NO CURE
