Dealers Offer 23 to 24 Cents for Choice.

### PROSPECTS GOOD FOR GROWERS

Drop Larger Than Anticipated-Producers Generally Holding for Better Prices-Local Jobbing Quotations.

high prices in two successive years. Hope were worth 25 cents last year, and they will do as well this se arket has opened as follows: 13 614

best initial figures in many years, 23824 cents for choice. So far as can be seen, the outlook

Picking was practically completed in this state last night and balling operations will general this week. Until baling has been deted, it will be impossible to give close figures on the yield, but growers say the crop turning out larger than expected, as the Many growers will raise as mny ore than last year. The quality is exceedingly varied, running from very poor choice, with a sprinkling of mold in nearly

farmers are not disposed to sell under 25 cents. A few sales that have been made have been 50 and 75-bale tota around 22% cents. Word has been received of a sale of 1000 bales of Sacramentos at 24 cents

Regarding the recent storm in the hop-growing district of England cable advices say: "We estimate our crop 400,000 cwt. Crop is injured by wind and promises very different qualities. Many of low quality. The price of 1903 hops is 50s to 140s."

Mail advices from Germany estimate the Berman crop proper at only 80 to 85 per cent of last year, and on this basks it is figured that the total production of the Continent will be close to 200,000 cwt, short of last year. German markets continue to be quoted firm

The Waterville Times, of the 15th, said of the

New York crop:

The hop harvest is now completed, and the general report is a less yield than was expected before picking. Some yards have come down but little better than last year, and the crop was very light then. As to quality, there will be, as always, a great diversity. There will be choice hops, and from that to very poor. Thus far there has been very little business, as it is hard to tell the quality of hops until, they are haled, and very few have been baied yet. Growers, too, are very firm in their demands, and that seems to restrict business. It is also said that brewers are holding off. The mands, and that seems to restrict business. It is also said that brewers are holding off. The majority of opinion seems to be that the yield for this state will be less than 20,000 bales, and some have put it as low as 35,000, but that is an extreme view, Probably 45,000 would be nearer right. Two lots of Humphrers were sold this week at 25c and 26c.

### WALNUT FUTURES.

### Prices Announced by the California Association.

Prices have been named by the association at Los Angeles as follows: No. 1 soft shell, 12%c; No. 2 soft shell, 10%c; No. 1 hard shell, 12c; No. 2 hard shell, 10c. The crop is way short of early estimates and orders have been booked for a possible full crop. All orders coked are subject to pro rata delivery in case of short crop. It is not known at this time on what bark the deliveries will be made, as buyers consider the prices high and are con-

In the Portland trade an agreement has been cached between grocers and produce men to maintain the same prices. Heretofore the Grocers' Association has had one list, the produce dealers another. The result has been confusion and dissatisfaction generally. The prices as announced range from 14 to 15% cents, according to quantity. It will be two or three weeks before California wainuts begin to arrive. A cur of French walnuts is en route from New York.

Handling Merced Sweets. The Vegetable Union, of Los Angeles, has gone into the Merced-Atwater sweet potato Business. It announces to the trade its invasion. in the following circular:

"We have arranged to fundle a large portion of the crop and have our experienced agents located in the fields. These sweet potatoes are now in good ablighting condition, and we can furnish carlots on short notice. We can ship either in crates or sacks, but strongly recommend the use of crates, which insures best condition on arrival. Sweets shipped in sacks are more or less bruised in handling, which is not the case when shipped in crates. There will be an extra charge of 25c per 100 pounds to cover cost of crates. The minimum weight per carload at present is 10,000 pounds, but we are promised a 24,000-pounds minimum in a few days. This reduction will be a great advantage to the trade." We have arranged to handle a large portion

Offer for Rops Refused.

INDEPENDENCE, Or., Sept. 21.—(Special.)

—Twenty-two cents was offered here for hope fast week, and was refused. The growers have private reports that indicate a good price, and expect from 25c to 30c to be the ruling figure. Practically all the yards have been picked. The biggest yards in the county, Horst Bros." and McLaughlin's, have nearly a week's run

Lambs Shipped to San Francisco.

EUGENE, Or., Sept. 21.—(Special.)—John Stewart and A. J. Pickard yesterday shipped a special train of 2000 lambs to the San-Francisco market. This is the first important shipment of stock from this station for a year. Prices are not given. If satisfactory returns are realized, another shipment will follow.

### PORTLAND MARKETS

Grain, Flour, Feed, Etc.

Wheat is weaker all around. Very little business is reported as the farmers are backward about selling on a failing market. Prices are practically down to an export bada, and as soon as growers will consent to let go, a heavy movement should begin and some chartening of ships may then be expected.

ELGIN, BL, Sept. 21.—Butter was quoted at 21 cents a pound on the Board of Trade to-day, an advance of 14 cents over last week's figures. The sales for the district during the Week were 702,802 pounds.

Advance in Sliver.

## SENDS UP STOCK PRICES

FAVORABLE NEWS RECEIVED FROM THE GRAIN BELTS.

Statistics of Railway Traffic Show Large Increase in Movement of Corn-The Money Market,

NEW YORK, Sept, 21.-There was a period of depression in the stock market today, but the market recovered later in the day and wiped out most of the declines. The covering of shorts by the bears was the principal eleon shorts by the bears was the principal se-ment in the raily, but the bears were prompted to this course by the lessened anxiety mani-fested by the real owners of stocks. The principal factor in the relief of senti-ment was the news from the crop region and its effect upon the grain market. The weather

Its effect upon the grain market. The weather map was reported an ideal one for all classes of crops. In addition to this present condition, the weekly statistics of railroad traffic showed a large increase in the movement of corn, especially in the shipments of the grain from primary points which showed an increase of 1,893,000 bushels over the week before, and of 2,828,000 over the movement of the corresponding week last year. It was argued that if the farmers were willing to part so, freely with their holdings of corn, it part so freely with their holdings of corn, it

part so freely with their holdings of corn, it served to discredit last week's reports of evcessive frost damage to the cereat.

The course of United States Steel was watched with great interest, and its decline to a shade below the lowest record, which was reached last week, encouraged traders to sell the rest of the list. The assertion was circulated that the leading banking interest in the Steel corporation had expressed the opinion that there was no occasion for a supporting that there was no occasion for a supporting measure in the stock market. Other stocks in measure in the stock market. Other stocks in which this interest is dominant were affected, notably the coalers. It was evident, however, that support was afforded United States Steel. The fact that a number of the iron and steel industries commanded a premium in the loan department this morning served as a warning to the bears that they might be overseiling the market and prompted them to cover. While the disposition to sell stocks was thus curbed in the course of the day, no important demand in the course of the day, no important demand was awakened and the market showed in-creasing duliness in the course of the raily. The financial district continued in a state of uncertainty and apprehension over the possible extension of the reaction to the com-mercial world at large. Allegations have been made that the demand for mercantile credits in showing great urgency and that high rates are paid for these credits. Inquiry among bankers in the Wall-street district failed to bear out this assertion. Prime grades of paper negotiated through customary channes bring 8 to 6% per cent. For names less known and for applications from other than their regular sources, banks are inclined to ask higher rates or are indisposed to lend at all. This is in accordance with the knowledge that the whole banking fabric of the country has been devoting itself for some months past to preparations to supply the regular legitimate commercial demands for credits. The returns received from day to day by the Controller of the Currency of the condition of the Na-tional banks at interior cities show a general improvement in percentage of reserve over that for the corresponding period of last year and encourage the growing hope that the regu-iar course of business will not be disturbed by lack of funds this Autumn. The murket closed

on the last call.

WHEAT STEADILY DECLINES. Bears Have Their Own . Way at Chicago.

CHICAGO. Sept. 21.—The wheat market had no builtsh news from anywhere during the greater part of the session. The start was influenced by good weather, weak cables and corn weakness, December opening with a loss of %6%c, and except for a spurt during the first hour to 79%c on covering by local shorts, the market received but Bitle support and declined steadily. The Northwest Southwest declined steadily. The Northwest, Southwest and local houses dumped their holdings upon the market and stop-loss orders came out. Near the close, reports of export business from the seaboard caused some of the early sellers to turn buyers, and a little better feeling resulted.

Corn opened about %c lower and showed ad-ditional weakness as the session advanced. Good weather in the corn belt was responsible for unloading by longs, and there was but little support at any point on the way down. The country was also a heavy selier of, both cash and futures. December closed with a net loss of 2140 at 4674c.

outs sympathized with the corn and wheat markets, was easy and sold off early. Trace was large and the sentiment mixed. December closed at 37½, a -loss of %c.

The demand for October ribs, presumably from packing-house interests, was heavy and that product showed an advance at the close of 15c. The rest of the list was weak in sympathy with ours, October pork closing 47%c The leading futures ranged as follows:

#### AT MERCY OF BANK. Auction Sale of Oats-Quiet Trade in

able to Form Any Plan to Pay Out.

SAN FRANCISCO, Sept. 21.—(Special.)—Lo-cal speculative prices for Rading cereals went lower, but had a small raily. Spot wheat again cal speculative prices for feading cereals went lower, but had a small raily. Spot wheat again declined, and spot barley, though unchanged, was easy. Old holders now are more willing to sell. Other cereals, excepting rye, were weak. The feature of the oats market was the sale at auction of nearly 300 tons of No. 1 red at \$1.27\frac{1}{2}\$. Flour is moving well on export account. Feedstuffs and hay were weak.

Receipts of fresh fruit were light, but trade With the announcement of this decision

was rather quiet. Continued cool weather had came also a practical acknowledgement that they believed their plans for financa dulling effect. Peaches and grapes were in ample supply with prices generally easy. demand, but ordinary offerings were slow of sale. Best Bartlett pears from the mountains command fancy prices. Choice prunes were well cleaned up and firm. Outness and pomegranates were plentiful and weak. Melons were dull, owing to cool weather. Mexican

cal fruits were unchanged. Potatoes were weaker under larger arrivals. Three carloads of Merced sweets were on the market. Onions were quiet and easy. Tomatoes were weaker, with receipts large. Most

limes were in light supply and steady. Tropi-

firmer. eggs were firm, but large withdrawais from cold storage prevent further advance. Cheese cheese, 12,000 pounds; eggs, 16,000 dozen. VEGETABLES-Cucumbers, 30@50c; garlic,

Consolidated Lake Superior Is Un-

NEW YORK, Sept. 21 .- The directors of the Consolidated Lake Superior Company after a two hours' meeting today, gave u

ing the company to a sound position had been blocked at every point by the great financial institutions that are behind rival steel companies in the United States,
After the meeting, speaking for the
other directors, Mr. Sanborn said:

"Nothing has been done, because there was nothing that could be done. We did not come here to consider any plan that had been formulated. We came here to try to find some plan, and we did not. No feasible plan was presented. The directors can do nothing."

CAN'T SEE BOOKS OF TRUST. Stay of Proceedings Granted Tobacco Concern in Suit of Creditors, TRENTON, N. J., Sept. 21.-Chancellor dagee today filed an opinion granting a stay in connection with the proceedings instituted by Edwin A. McAlpin and others against the Universal Tobacco Com pany. This stay prohibits the examinabooks, pending an appeal to the Court of Errors and appeals from the decision of Vice-

The Vice-Chancellor made an order au ther the chancelor made an order au-thorizing the examination of the com-pany's books. This he did in connection with the suit brought by McAlpin and others charging mismanagement and asking for the dissolution of the voting trust under which William H. Butler, president of the company, dominated the company's policy. The matter new goes to the Court of Errors and Appeals for final adjudica-

Ice Company Is Embarrassed. BALTIMORE, Sept. 21.-A court order

vas signed today requiring the Hammond Ice Company to show cause on or before October 31 why a receiver should not be appointed. The bill was filed on behalf of the Knickerbocker Trust Company and others, the allegation being that coupons payable about July I last have not been paid, and that the mortgage given by the company to secure the payment of said bonds is in default. Ormond Hammond, president of the com-pany, denies that the corporation is insolvent.

WANAMAKER WINS SUIT.

Ex-Postmuster-General Will Have to Pay Nothing in Libel Action, BEAVER, Pa., Sept. 21.-The slander suit brought against ex-Postmaster-General John Wanamaker by former State
Printer Thomas Robinson has ended in a
victory for the defendant. The sealed
PORTLAND-OSWEGO SUBURBAN SERVICE verdict was read in court this morning and

result This was given and the verdict

was then opened and read, wording. It had read that the jury finds Mr. Wanamaker not guilty and the Judge changed this to read "the jury find for the defendant" to conform with the legal requirement.

To Rid New York of Beggars. NEW YORK, Sept. 21.—Police Commis-sioner Greene has announced that by an arrangement with the Charity Organiza. tion Society, all professional beggars and vagrants arrested hereafter will be photographed and their pictures placed in a gallery to be kept at the society rooms. An organized effort will be made to rid the city of the beggars, the worst class of whom are said to have formed themselves into a society known as "yegg
