CONTEST BITTER AT ALL TIMES

Three Men Against the Union Suspended by President Richards -Executive Meeting Held,

KANSAS CITY, Mo., Sept. 23.-After being in session behind closed doors since

early this morning, the convention of the International Association of Bridge and Structural Ironworkers at 10 o'clock tonight voted in favor of seating Sam Parks and the other delegates from local union No. 2 of New York. There were but three votes cast against Parks and his friends. The result was a decided victory for Parks, as it reinstates him and local No. 2 of New Work, of which he is the business agent, and directly repudlates the action of President Buchanan in suspending it. The Parks delegation will now

The credentials committee presented two reports. The majority report referred the matter to the convention for final action, while the minority report declared that the suspension of the union was un-constitutional. Mr. Parks and his fellow members of Union No. 2 were requested to leave the hall until the convention had disposed of their case, and this they did

peaceably.

The majority report, referring the Parks matter to the convention, was received with demonstration, but as soon as the secretary had finished reading the minority report a dozen delegates jumped to their feet and demanded recognition. President Buchanan declared all out of order, and after some delay requested that all members of Union No. 2 with-

Parks was already on his feet leading his followers toward the door, and with a witty sally at the president's expense all made their way toward a committee room, where they swaited any summons that might come from the convention.

At the request of several delegates, Persident Buchanan instructed all news-

President Buchanan instructed all news paper reporters and spectators to with-draw, and in a moment more the longexpected fight over the New York dele-gation was on behind closed doors. Heat-ed argument ensued immediately, and the loud words of the delegates could be beard plainly in the hallway.

Parks smiled complacently, and said:
"We will win. Just wait. The convention will decide in our favor within 15

While we recognize the right under the constitution of the president to suspend a local union, we are of the opinion that the suspension of Local Union No. 2 was not constitutional, inasmuch as the evi-dence submitted fails to convince us that due notice was given Local Union No. 2 by President Buchanan of his intention to suspend said local if their violation of the nstitution did not cease. All of this is provided for in article 6, section 2, of the constitution of this association."

The credentials committee reported fa-vorably on the question of allowing inside men, or shop men, in the membership. This was passed up to the conven-tion itself, also, but has not been taken up yet. There are 150,000 of these men, and if they are accepted it will immensely strengthen the organization. There seems a strong sentiment looking toward About 100 delegates are in attendance

from every part of the United States and from Canada. It is expected that the convention will remain in session for at least a week. No very important questions out-side of the seating of the Parks delegation and the question of separating the "inside" or shop men from the National organization are up for consideration.

GREAT NORTHERN MAKES PEACE, Firemen and Engineers Make Con-

cessions, as Well as Company. ST. PAUL. Sept. 23.-The controversy between the engineers and firemen and the Great Northern road was amicably settled tonight. Neither the company officials nor the grand officers of the two brotherhoods would state just what the terms of agreement were, but it is known each side made some concessions,

The firemen are understood to have

been granted a slight increase in wages, bringing their schedule to a parity with those of the various other trans-Conti-nental lines. No increase is believed to have been granted the enginemen, but umerous minor changes were made in

the working rules.

The controversy, which at one time threatened to take on a most serious character, was brought to an end by a series of conferences which began yes-terday afternoon and ended toright. The grievance committee of the two brother-boods had been in St. Paul in conference with the officials for more than a month. It is said that nearly every con-cession asked by the committee was at ne time granted by the general officers. and a tentative agreement was reached which was then referred to President Hill. Mr. Hill then referred the matter back to the general officers, and they at once withdrew their consent to the concessions previously granted. This greatly incensed the men, and it looked for a time as though a poil of the locals would

be taken as to whether or not there should be a strike. Grand Chief W. F. Stone, of the Brotherhood of Locomotive Engineers, and Grand Chief Hannahan, of the Brotherhood of Locomotive Firemen, were summoned to St. Paul to take charge of the negotiations. Another conference was asked of the company officials and was granted. After this conferenc, Mr. Stone said the company showed a disposition to meet the men in a spirit of fairness. and a peaceful settlement was probable. The conference was continued throughout today, and tonight an agreement was signed by the company officials and the committee representing the men. Messrs. Stone and Hannahan left tonight for Bal-

"DIFFERENT STORE" Fifth and Washington Sts.

OVERCROWDED!

Yes-Overcrowded! There you have it in a nutshell. When our buyers went into the market last July to purchase Fall stocks we were assured by the contractors that our new building would be ready for October occupancy. We bought accordingly-bought for the combined floor areas of both our present store and our five-story annex now in process of building. (The iron frame is nearly ready for delivery when visible progress will be apparent on Sixth street.) So here's congestion-thousands of feet of floor space we had calculated on that has not materialized, and it leaves us with much more in many lines than we can conveniently handle. Vigorous measures are due and start now. Certain lines must be reduced. We adopt strenuous methods to effect this result.

FIRST FLOOR. SPECIAL UMBRELLA SALE FIRST FLOOR.

On all the week. The rainy season is really with us now-never know when a cloud is going to tip over and spill its stored-up raindrops on Oregon. The rain is all right—the best health and beauty preserver known, as is demonstrated daily on our streets in the springy step and clear complexions of the passing throng, wonderful in comparison with the sallow faces that dry up and crack, possessed by denizens of the states where drouth prevails a great portion of the year. BUT rain is NOT a good thing for the new hats and gowns—we've provided protection at little cost here this week in our stock of handsome, new Umbrellas, underpriced for special selling all week just in need time.

Ladles' silk and wool mixed umbrellas, black and colored, worth \$2.26, \$1.50 and \$3.90.

Mr. Engley and his associate, John

Murphy, left the courtroom together. S. D. Crump, for the respondents, presented an argument along purely legal lines. He said he wished to correct the impression derived from Lieutenant Mc-Cielland's remarks yesterday that they contended the writ of habeas corpus is uspended. But, he said, the respondents alleged it was not always necessary to grant the writ. The question which he argued was whether the writ shall stand

MILLER'S CASE GOES OVER.

Federation of Labor Discusses It. but Defers Final Action.

WASHINGTON, Sept. 33.-The executive council of the American Federation of Labor today considered the case of W. A. Milier, the foreman of bookbinders, who was dismissed from the Government print-ing office because he had been expelled from the local Bookbinders' Union, and who was subsequently reinstated by order of President Roosevelt but took no action a the matter, deferring that until later in the present session. Trolley Lines Increase Wages. NEW YORK, Sept. 21.-The Public Serv-

ice Corporation, of Newark, N. J., which controls all the trolley lines in Essex, Hudson, Union and Passaic Counties, has signed an agreement with members of the Amalgamated Association of Street and Electric Employes, providing for a uniform wage rate of 22 cents an hour for motormen and conductors, an increase of 3 cents. A large number of men are employed on the lines.

Two Mines Grant Eight-Hour Day, TELLURIDE, Colo., Sept. 22.-Manager Henry Buckley, of the Silver Bell mine, granted his mill men an eight-hour day, and three shifts will be employed in the Captain Davidson, manager of the Carribeau Montezuma, also granted an eight-hour day. This practically settles the labor troubles in Ophir, with the ex-ception of the Butterfly-Terrible mine, whose manager, J. S. Kenting, refused to treat with the Union.

Democratic Machine Has Another Man, and Rayner Says He Ignores the Politicians in Making His Announcement.

OREGONIAN NEWS BUREAU, Washington, Sept. 23.-Attorney-General Isador Rayner, of Maryland, who gained a widespread reputation because of the manner in which he handled the Schley case, before the famous court of inquiry, is out with a formal announcement of his candidacy for the Senate to succeed McComas, Republican. Rayner is bidding for the Democratic vote, but is apparently looking for some Republican support, for in making his announcement he says he submits his claims to the people and ignores the politicians. The regular Democratic organization in Maryland has heretofore been supposed to favor Governor Smith as its candidate for McComas' seat.

Roosevelt Will Visit the South, BIRMINGHAM, Ala., Sept. 23.-Internal Revenue Collector Thompson, who is just back from a conference with the President at Oyster Bay, said today that Mr. Roosevelt is considering making a trip South this Winter, and speaking in two or three cities in Georgia or Alabama. While the President did not so state, Mr.

Thompson is of the opinion that he would like the Southern people to understand him better, and he is anxious to come South to dispel some of the erroneous impressions now thought to prevail in this section regarding his Southern attitude.

CAN'T INHERIT DISEASE.

German Professor Has a New Theory Regarding Consumption. BERLIN, Sept. 21.-The Deutschen Me-

desche Voschigrift publishes a synopsis of lecture which Professor Von Behring, of Marburg, will deliver before the German Naturalists' Congress at Cassel next Friday. Professor Behring does not believe that tuberculosis can be inherited or contracted epidemically by an adult. He asserts, however, that a decisive factor in the spread of tuberculosis is the nourishing of infants with milk taken from cows

suffering from that disease.

The human infant, like the young of all animals, lacks the digestive apparatus and protective organs which in the case of grown-up persons prevents the germs from entering into the tissue. As a consequence, he contends, young children should be nourished with milk free from the

germs of tuberculosis.

Professor Von Behring's efforts are being directed toward the substitution of sanitariums and a system of inoculation for consumption hospitals. He is firmly convinced that, like animals, human beings can be rendered immune by inocula-tion with tuberculosis toxin obtained from cows. The professor, however, distinctly says hi sexperiments to obtain a perfect toxin are not completed.
