MAD RUSH TO DEATH

Train Strikes Curve at Very High Speed.

MURLED ON ROCKS FAR BELOW

Bodies of Nine of the Trainmen Are Horribly Mangled-Seven of the Wounded Taken From Twisted Mass of Wreckage.

CHARLOTTE, S. C., Sept. 28,-While running at a high rate of speed, a south-bound fast mail train on the Southern Railway jumped from a trestle 75 feet high, north of Nanville, W. Va., this af-ternoon and was almost demolished. Of the crow of 16 men, including mail-car-riers, nine were killed and seven injured. The dead are:

ENGINEER J. A. BRODIE, of Placerville,

FIREMAN CLARENCE WHITE.

CONDUCTOR TOM BLAIR.
MAIL CLERKS J. L. THOMPSON, W. T.
CHAMBERS, D. T. FLORY, P. N. ARNDEN. A flagman and a brakeman, whose names are

The injured are: Mail Clerk Louis W. pelrs, Frank E. Brooks, Percival In-enmauer, Charles E. Reames, J. J. Dunlap, M. C. Maupin and J. H. Thomp-son, The recovery of Mail Clerk Speirs is not expected, and other clerks are

Thought to be fatally injured.

The trestle where the accident occurred is 500 feet long and is on a sharp curve. Engineer Brodle, who was a new man on that division, came to the curve at high

The locomotive had gone only about 50 feet on the trestle when it sprang from the track, carrying with it four mail cars and an express car. The trestle, a wooden structure, also gave way for a space of 50 feet. At the foot of the trestle is a shallow stream with a rocky bottom. Striking this, the locomotive and cars were reduced to a mass of twisted iron and steel and pieces of splintered wood.

All the dead men were mutilated. No one on any of the cars had made an ef-fort to jump, and the bodies of all those killed were found in the wreckage of the different cars to which they had been engaged. A crowd soon gathered. Some

women among them fainted at the sight of the crushed bodies. All the express tter in the express car was destroyed, The mail bags in all the mail cars wer torn open and the letters and packages were scattered, but it is believed none are lost. Fire which appeared in the wreck-age shortly after it occurred was quick-ly extinguished.

LOW'S BIG FIGHT.

(Continued from First Page.)

Croker could never regain his old position even if he wanted to. Murphy is too firmly intrenched in power now, and the few district lenders who dared to secretly oppose him were all disposed of at the recent primaries.

Croker's friends say that he doesn't want to come back, and that if he ever revisits America it will simply be for a short pleasure trip. He has assured Murphy through friends, that he has no desire to mix in the battles of Tammany Murphy accepts the assurance but incidentally has taken precautions to prevent Croker from changing his mind. far as the personality of Candidate

McClellan is concerned there is little that can be said against him. As the son of his father, General George B. McClellan, he has always been regarded as a valuable political asset by Tammany Hall, and has been in office almost since becoming a voter. Treasurer of the Brooktwo years president of the Board of Aldermen and ten years a Congressman make up a pretty long political office-holding record for a man who is only 28 years of age. He has always been regarded as a "safe man," has never been an exceptionally brilliant figure in Congress, but is popular with his associates there, and has never made "mistakes." He has always been "regular" in Tammany Hall, and never could be allured into following any of the numerous independent or reform movements which have caused many brilliant men like Bourke Cockran to be suddenly and permanently removed from the glaring lime light of political favor to the

blackness of political oblivion. The only thing that can be said against Representative McClellan is that he is too regular. No one denies that he is honest, a gentleman of education and breeding, and a politician of ability, but his critics declare that he has been accustomed ever since boyhood to carry out the wishes of the organization, and that the probabilities are that he will invariably render them paramount to the needs of the community.

The main objection to him from within the party has come from the Brooklyn Democrats, who declare that an out and out Tammany Hall man cannot be elected. Leader Murphy, however, has satisfied himself that the real reason for their alarm is that they fear that McClellan's nomination will make it impossible for them to elect their county and borough ticket, and personally he does not care whether the Brooklyn Democrats have this patronage or not, what he wants is a Mayor that he can control, and is supremely indifferent whether in getting it some other fellows are injured or not. It's selfish, of course, but still it is politics, and the Brooklyn men would give him the worst of it if they could. And in consequence he has turned a deaf ear to all their pleadings.

There is another factor in the case which is causing the Democratic leaders a good deal of anxiety although they will not admit it, and that is the independent candidacy of William S. Devery, "the best Chief of Police New York ever had." as ex-Mayor Robert S. Van Wyck once called him. Devery has already been nominated "by petition," and his name will appear on the official ballot. Both parties are much interested in figuring on what his vote will be, for it is generally admitted that practically all of it will come from the Democrats. Leader Murphy has been making a quiet canvass, and tells his associates that Devery will cut no figure in the result whatsoever. On the other hand the Republican leaders believe he will poll 50,000 votes. If they are right it will elect Low. But the result of forecasts in bygone years have shown that Republican ante-election figures in Greater New York are seldom based upon

anything more substantial than hopes. Devery, who it is admitted brought about the election of Low two years ago, because Mayor Van Wyck retained him in office, is now the bitterest opponent of Tammany Hall. He was elected leader of his district a year ago, despite the hottest fight on the part of the organization, but it was a victory barren of re-

leaders, or executive members, as they are called, they simply threw him out and kept him out. This year he ran again but was defeated.

Bevery Strong With Workers. Ever since last Winter Devery has been ming himself as a Mayoralty candidate. He has joined everything in sight. and is an honorary member of a score of labor organizations. During the troubles in which Sam Parks has been concerned he has been the firmest friend of that often tried walking delegate, and furnishes cash ball for him at every opportunity. There is no use in denying that this ex-policeman, who became a millionaire on a salary that at its great est was \$6000 a year, is very strong with a certain element of the working classes. The question is whether or not they will

follow him at the polls. Mayor Low was elected two years ago when the Democrats were desperately on the defensive by a plurality of 32,000 votes. Last year in a straight fight for Governor the Democratic nominee carried Greater New York by a plurality of over

Leader Murphy does not expect any such plurality for his candidate this year. His own private figures (which may be revised later) are 50,000 in old New York for McClellan, 5000 or 10,000 in the other boroughs except Kings, which he expects to see Low carry by 20,000. This would-

give his candidate from 20,000 to 49,000 and

he believes it will be more by election

He admits that with some high-class independent Democrat these figures could be materially increased, but says, and his lieutenants agree with him, that the victory of a straight-out Tammany man by 1500 means more to the organization than a 150,000 victory for a candidate whom they could not control, and who would

constantly be causing them to wonder where they were at. Tammany's motto is: "To the victors clongs the spoils," and the Tiger has no intention of giving anything to the inde-

pendents unless they have to, In the meantime the fusionists are buckling on their armor to battle their best for Low while the wild cries of Jeome are ringing in their ears.

They are in doubt as to whether he is crazy or a true prophet And it will be over a month before they will know whether to laugh at him or do him honor.

NIXON ANNOUNCES CANDIDACY.

Reform Movement, He Says, Will Put Democracy in Power Again. NEW YORK, Sept. 27 .- Lewis Nixon tonight announced his candidacy for the Democratic nomination for Mayor. In a public statement he said:

"I am a candidate for the Democratic omination for Mayor. This statement to take my stand with those Democrats, however small their number, who believe that the Democratic party of this city should lead and not follow in the forward march of municipal reform."

ssues that are old enough to have gained permanent hold on the public mind. These issues are police blackmail and that mercenary spirit which breeds dis-honesty in the public service. To them may be charged all the party's recent loss of local prestige. The Democracy has not been beaten on these issues by Republi-can votes alone, by any means. It has been beaten chiefly by Democratic votes.
"The Democratic party of this city has all the issues in its favor except these

two. It is easily within its power to throw off their dead weight when it makes up its mind to do so. Its right to dom-inancy will be restored as soon as it does. There can be no doubt of the result of any campaign in which the party explicitly and without equivocation commits itself the reforms for which the city has four times voted in ten years.

Mr. Nixon would say nothing more about his candidacy.

LONDON MARKET STAGNANT Depression in Stocks Is Unrelieved Throughout the Week,

LONDON, Sept. 27 .- The uneasiness co cerning the money market both in London and New York resulted in complete stag-nation last week on the stock markets, which passed through a week of unrelieved depression. Renewed realizations especially of investment stocks, produced a heavy fall in prices, except in the foreign department, which received strong support from Paris, where the belief pre-vailed that the talked-of war in the Balkans would be avoided.

SOFIA, Sept. 27.-Pathetic dignity and the utmost peacefulness characterized the Macedonian demonstration here today. After the celebration of a requiem in the Cathedral, which was crowded, 15,000 Macedonians and their sympathizers joined in a procession which marched through the principal streets of the city. Bands played funeral marches and carried sloft were black flags and black-framed pictures representing the dead leaders of the movement, burning villages, etc. Outside the Cathedral, Michaelovski ad-

dressed the demonstration. Other speakers also urged the maintenance of peaceful conduct. A committee of three was appointed as a delegation to call on Pre-mier Petroff and ask him whether the government would help the Macedonians. Prince Ferdinand, after going to church this morning, did not return to the Palace, but departed unexpectedly for his hunting-box at Kostonetz. of Philippine commerce for May, 1903, show the foreign trade of the islands aggregated for the month \$6,872,962, exclusive of Government supplies and gold and silver, being even greater than that reported for April of the present year, the value of which exceeded that for any single month since American occupation Importations amounted to \$3,291,655, be ing considerably in excess of the monthly average as a result of heavy purchases of foodstuffs. The outgoing trade included shipments of Philippine products to the value of \$3.481,327. For it months ended May 31, 1903, the total trade amounted to \$90.576,245, while for the corresponding period of 1902 the value was \$50,824,090.
All the gain indicated by the foregoing figures is due to the extraordinary in-crease in exports, especially of hemp. Copra shipments also are on the increase and the exportation of this product now ranks second in importance, followed by sugar and tobacco. Customs revenues to the value of \$5,500,000 were collected dur-ing the 11 menths of 1903, an increase amounting to over \$1,000,000, as compared with the previous year.

New York Walking Delegate May Disrupt Union.

HIS MAN UP FOR PRESIDENT

Election of Donnelly Will Mean Great Defection From the International Association of Structural Iron and Bridge Men.

KANSAS CITY, Mo., Sept. 27.—Pitts-urg, Cleveland, Buffalo and Wheeling lelegates, representing 10,000 men, deckied at a meeting here tonight to withdraw from the International Association Structural Iron and Bridge Workers in the event of the continued dominance of Samuel Parks, the New York walking delegate in the annual convention now being held here.

Michael Finherty, chairman of the Pittsburg delegation, will direct the anti-Parks fight on the floor of the convention. The injection of Parks and his influence has so shaped affairs that the New York walking delegate is an issue as directly opposed to the Buchanan regime and it has been decided to fight it out on that line by again attempting the re-election of Buchanan.

At a caucus of Buchaman men tonight it was figured that the president could

Y., is to the Parks candidate for the presi-Those opposed to him assert that his election will mean a reign of bossism by Sam Parks and that they will with-draw from the international body if it comes about. pledged to him.

The New York delegation decided to turn down Secretary-Treasurer Johnstone for P. J. Dalton, of Chicago. Johnstone is a member of Local No. 2 and a Parks supporter and it is believed by naming Dalton they would capture the Western vote in case of a split.

KANSAS CITY, Mo., Sept. 27.—Samuel Parks, delegate to the International Association of Bridge and Structural Ironworkers from Local No. 2, new York, said tonight that harmony would prevail during the re-mainder of the session of the convention, which will resume its sessions tomorrow.

The refusal of the convention to grant a charter to the new union known as the "New York Housesmiths' Union," which ent four delegates to this convention. Delegate Parks says, is a closed incident. These four delegates in a statement issued

to the convention say:

"In refusing a charter to the New York
Housesmiths' Union you have virtually indorsed all that is bad and rotten in tradeunionism. By your action you have lost
to your body the greatest city in the United States. At present you refuse to recognize an organization which will be in the end the dominant power of the iron trades in New York." The statement attacks Samuel Parks, and continuing says:
"Keep that man in and within three months there will be nothing left of No. be down and out as far as New York is

"Now, we will say that any organiza-tion that relies in brute force to main-tain its supremacy will in the end, end in disorder and disruption." Delegate Parks

said tonight: "I am quoted in New York as saying in New York. But if there is not a change in the conditions at East River bridge I shall start something there in about two weeks." President Buchanan

be any further trouble in the convention.

There will be no split."

A caucus attended by Parks and his followers, is in session tonight and it is believed that a plan to expedite the busi-ness of the convention to an early adfournment is under consideration. It is said that Parks is in favor of holding night sessions and it is probable that the convention will be in session tomor-

ow night. Parks and his followers, it is said, fear that President Buchanan and his supporters intend to attempt the disruption of the present organization that they may reorganize the convention before a new set of officers is elected. Parks wants to finish the business of the convention, ncluding the election of officers before Buchanan could accomplish the disrup-tion of the present organization.

J. F. Donnelly, of Albany, N. Y., who-is the candidate of the Parks crowd, to-night makes the positive claim that he will be elected president. He says he has 55 votes pledged to his support.
