The batting and fleiding of Blake and the all-around work of Hollingsworth were features. The locals hit the Indian hard, but his luck stayed by him, the hardest drives going atraight at the fielders. Van Buren went back about 50 yards and gathered in a long fly from Brashear's bat that looked good for a

Sacramento, 9, 2; San Francisco, 4, 3. SAN FRANCISCO, Sept. 27.—One of the most desperate baseball struggles ever fought on a diamond was the 13-innings struggle today between the locals and Sacramento. The game throughout was a splendid spectacle of skill and striving for mastery, the players taking and adopting the most difficult chances and the pitching being in keeping with the balance of the game. In the ninth the visitors played even and from that time to the finish the excitement of the onlookers was feverish. Revival of Horse Racing in Portland a Success.

GOOD HORSES, LARGE CROWDS

Confidence in the City's Ability to Maintain Racing Is Restored and Two Thirty-Day Meets Will Be Given Next Year,

Stolen bases-Oliver 2, Sharkey 2, Gains, Let-Of all the race meetings ever held in Portland the one just closed by the Mult-nomah Fair Association goes down in history as the best. During the five days there was an average at ing the five days there was an average at-tendance of 4000 people, the weather was almost faultiess, the races were all good considering the class of horses, and, for the first time almost in the history of Irvington, there was not a complaint of any sort to the secretary. The order on the grounds was perfect and the touts who ventured out to the races had to walk a straight and narrow track. Only one man was ordered out of the grounds and there was never a call for the as-

sistance of the police.

The horsemen who came to Irvington track to race for the purses hung up, it may be said to their credit, helped the managers make the meeting the success that it was, and they left yesterday for various parts of Oregon and Washington, where they race their horses, with praise and more than a kindly feeling towards the officials of the association and en-thusiastic over the prospects of the larger and better meetings which will be held next year. When Mr. Hirsch, Mr. Leigh-ton, Mr. Diamond, Mr. Adams and others SALT LAKE, Utah, Sept. 27.—The Elders fell upon Dowling in the seventh inning of first undertook the task of giving the meeting, they were met on every hand with rebuffs and were constantly rethe first game today and batted out a total of six runs. Not daunted, these men set about the task of getting up the meeting and now they have the extreme satisfaction of having those who were most bitterly opposed to the Tozier was substituted, but the damage had already been done. The second game was called in the sixth inscheme won over and they will lend their assistance to make the meeting of 1994 better than any ever held in the Northning on account of darkness. Attendance,

Most of the horses, both harness and runners, which raced at Irvington last week, raced at Seattle and these owners say without equivication that Portland as a racing town is 100 per cent better than Batteries-Wiggs and Hausen; Dowling the Sound city. This is the view, not only of horsemen, but of the bookmakers, who say they handled more money during the five days than they did in Seattle in three weeks. They were also enthusi-astic over the prospects, and, while they left the city loser on the week, they will not need coaxing to come back next year, They were pleased with the manner in which they were treated by the officials.

Another thing that pleased the horseowners as well as the crowds, was the SPOKANE, Wash., Sept. 27,—Spokane won a double header from Seattle this exceptionally brilliant work of Starter McCarthy. While he is an old hand at starting harness races, he has been out of the game for a number of years. His work gave absolute satisfaction from the first day until the last race was raced and won. His work was a pleasing to all won. His work was so pleasing to all that he has received several offers to act as starter at a number of places where racing is to be held. Mr. McCarthy makes no claim to be a starter of running horses, but his work was so well done that he was congratulated by every owner on the track when the meeting closed Saturday night. What has been said of Mr. Mc-Carthy can also be said of Presiding Judge Skinner and Mr. Leighton, who was one Batteries—Dammann and Frary: Strick-lett, Rockenfield and Stanley. Horsemen throughout this section of the country swear by Mr. Leighton, and when he asked them to bring their stables to Portland they were glad to do so. They came rather as a compliment to the men who were backing the Spokane .......030601 4 3 Seattle .......0900012-310 2 association and they carried away som thing over \$10,000 in purses.

Secretary and Treasurer Adams spent the greater part of yesterday endeavor-ing to get his report in shape for the meeting of the association. He did not complete the work, but he could tell by what he had done that the meeting was a success financially, as well as satisfying

the public that Portland was a good rac- Spring meeting. Added to the Fall meeting town. It is the intention of the association to

At first it was thought that a 60-day straight race meeting would be held, but the idea has been abandoned and in-stead there will be a 30-day meet next June and another 30-day meet in Septem-ber. This plan was decided upon in order to give the harness men a chance to share in the big purses which will be hung up. The June meeting will be devoted to run-

ning races exclusively, unless harness horses of the class which is ready so early in the Spring are worthy of attention. The Portland June meeting will follow the close of racing in California and the officials have the assurance of the California locky Club that they will do every fornia Jocky Club that they will do everything in their power to induce the best just as soon as the raining season is over, stables racing in California to come to Portland.
