WHEAT MARKET IMPROVES.

December Option Closes Half a Cent

Higher at Chicago,

CHICAGO, Sept. 29.-Fairly active buying

of values on Wall street, started shorts to

cover early in the day and as a result the market ruled strong. Opening prices were firm on steady cables, with December a

shade to 14 0 14c higher at 77c to 774c. A good demand from all classes of bdyers soon caused a raily and December sold up to 774c during the last half hour. Part of

the early strength was due to the better Southwest and Northwest markets and to the extensive demand. Toward the noon

hour there was much selling by pit traders, due to an increase of 7,669,000 bushels in the world's visible supply, and the market

eased off in consequence. Trading was rather quiet the latter part of the session, but a steady tone prevailed, December clos-

Corn followed wheat in its upward ten-dency, ruling strong, with much covering by shorts. December closed % % % higher

Onts were firm early in the session, due largely to the strength in other grains and

the market received fair support from bro-

kers. December closed at a gain of %@%c at 36% @38%c.

With the exception of pork and lard, the

provision market ruled firm on a good de-

mand from brokers. An advance of 5c is the price of hogs with light receipts at th

LAST WEATHER BUREAU REPORT

seeding of Fall Grain in Columbia River Valley-Stock Generally in Fine Condition-Variable Yield of Potatoes.

As the staple crops of the state have either been secured or else are practically safe from future adverse weather conditions, the weekly crop bulletin of the Weather Bureau here will, after this week, be discontinued until next Spring. The last ue, printed yesterday, said:

Light rains fell in the Willamette Valley along the coast during the early part the week, but otherwise the weather of the week, but otherwise the weather hroughout the state was dry and pleasant. days were warm, but the nights, as a rule, were cool, and frost occurred in East-ern Oregon and in scattered localities of Southern Oregon on one or two mornings; they did no damage of coprequence

they did no damage of consequence.

The weather was very favorable for threshing, and this work was actively pushed to completion. Prune picking and drying also made satisfactory progress. It will require shout a week or ten days more to complete the prune harvest; the crop this year is an excellent one, both in quality and quantity. But little plowing or seeding has been done yet west of the Cascade Mountains, owing to the dry condition of the soil. In the Cohumbia River valley and it some sections of the Grand Ronde Valley the seeding of fall grain has progressed rapidly. More rain is needed in Western Organ before fall plowing will become general. The corn crop continues to do nicely, and some fields are new ready for the sile. Point diagning has began, with variable yields. In some sections the grop is turning out well, while in others, despecially along the const, the average yield will be very light, owing to hight and rot.

Stock is doing well and is reciterally in 100 picks. The corn cannot be per pound; Columbia River, 1-pound tails, \$1.20. \$11.13. \$11. The weather was very favorable for threshing, and this work was actively pushed to completion. Prune picking and

wing to blight and rot. Stock is doing well and is generally in fine condition. A good rain would benefit pastures, but as a rule feed is plentiful, especially on the ranges. Some green feeding is being done in the dairy districts to keep

senns are being harvested, with good resuits. The third crop of alfalfa turned well, and was secured in good condition. Pears and plums continue to yield satis factorily and are sting marketed as rapidly as possible. Apples are only fair, an some counties they are dropping badly.

General Crop Report.

WASHINGTON, Sept. 20.—The Weather Sureau's weekly crop bulletin says: The principal corn states have experienced meather conditions exceptionally favorable for maturing late corn, and while frosts have been quite general over the central and astern portions of the corn belt, no rial damage is indicated. Probably less than 20 per cent of the corn crop is unmatured, and while the proportion yet exposed to in-jury in Dakota. Minnesota and Wisconsin is greater, the bumature will make good feed; farther south only a very small part of the crop is still soft.

While conditions have been favorable for threshing in the Spring wheat region, reports of dampness of grain in shock as a result of previous rains continue. Harvest is now completed on the Northern Pacific Coast and threshing has advanced.

With generally seasonable temperatures over nearly the entire cotton belt, n large part of the cotton crop has already been gathered. Cool nights and the very general prevalence of drouth in the central and western districts have been detrimental and rust and shedding continue to be extensive-

WOOL MARKETS.

Fair Amount of Business Done at Boston-London Sales Close.

BOSTON, Sept. 29.-There has been a fair nount of business done in the wool marcet this week, though in medium-sized lots Buyers are taking only enough wool to supply the current needs of their mills. Prices are firm, with practically no change from last week. BANKS SUPPORT MARKET

FINANCIAL INTERESTS TURN TO THE BUYING SIDE.

Stock List Closes Strong With Many Gains Running From Two to Three Points.

NEW YORK, Sept. 29.—People who came down to Wall street today expecting a deorallzing break in prices met with a sur prise, as vigorous support was forthcoming from the most powerful financial interests in the country, and was steadily offered throughout the day. The market closed ac-tive and strong and at the best prices of the day. Net gains of 2 to 3 points were the general rule throughout the list and the leaders exceeded this, Pennsylvania and leaders exceeded this, Pennsylvania and Amalgamated Copper rising 3% and Union Pacific, Atchison, Louisville, Rock Island, Metropolitan Street Raliway. Brooklyn Transit and Peoples Gas from 3 to 3%. The expectation of the further slump today was founded on the demoralized tone of Pennsylvania and the resulting unsettle-

ment of the whole list last night. This in fluence was supplemented by the further de cline in British consols today to a new low level. As the course of this premier Britisl curity has kept pace with our own market the down grade, reflecting the same condition of overextension of capital in certain lines, chusing the necessity for drastic liqui-dation elsewhere, the opening tone here was decidedly unsettled. The United States Steel stocks made a further break, the common and preferred breaking through yester-day's new record.

The majority of opening changes were on the side of declines, and there was some special pressure against New York Central, yesterday's break' in Pennsylvania having brought that 6 per cent stock down to a parity with the 5 per cent New York Cen-tral. The usual bear pressure, under these froumstances, developed against the latter But Pennsylvania's opening rise of a point was the proclamation that other influences were at work. The buying of this stock was raceable to the banking house of Kuhn Loob & Co., which manages the company's inancial operations. The very heavy buying orders in United States Steel preferred were credited in a similar way to J. P. Morgan & Co., and it was confidently affirmed that the open buying of Amalgamated Copper by brokers usually employed by the Standard Oil party might be accepted in good faith as indicating the activity on the buying side of that party.

There has been an almost superstition feeling among the whole speculative contin-gent that the melting away of prices, which had reached the point of a slow panic, would not be checked until these financial leaders began to buy stocks largely and in oncert. Conviction that this would happen had an electrical effect upon speculative sentiment, and drove the bears to cover with a scramble. Some of the large bear speculators put out fresh short lines at different stages of the advance, in the confidence that the large buying orders wer designed simply to support the market, to be resold upon any considerable advance. But there was no evidence of this reselling and the belief gained ground that the great banking interests had definitely changed their recent policy of abandoning the mar-ket to its own resources and biding the time when the fever of selling, which has taken hold of these securities-holding public, should exhaust itself. It was evident at the same time that the urgent liquidation lacked the force which carried down prices

a recent markets.

As a result there was a marked revival of onfidence and dissipation of many of the shadowy fears which have infected the speculative mind of late with even greater effect than actual developments. The news of the day, of which there was little bear-ing on values, was not a factor at all fit the movement of prices. The bond market became firm, in sym-

pathy with the recovery in stocks. Total sales, par value, \$4,985,000. United States 2a declined 34 per cent on the last call.

Changes in Available Supplies. NEW YORK, Sept. 29 .- Special cable and telegraphic communications to Bradstreet's this week show the following changes in available supplies, as compared with last

ecount: Wheat, United States and Canada east of the Rockies, increased 2,000,000 bushels. Affoat 'and in Europe, increased 4,700,000 bushels.

Total supply, increased 7,609,000 bushels. Corn, United States and Canada east o the Rockies, increased 1,292,000 bushels.
Oats, United States and Canada east of
the Rockies, decreased 543,000 bushels.

RIDICULED BY CANADA.

Counsel in Alaskan Case Discusses Allegiance of the Natives,

LONDON, Sept. 29 .- When the Alaskan Boundary Commission resumed its session this morning, Christopher Robinson, Cranberries are now a feature of the fruit K. C., who suffered from severe indis market. Four carloads arrived from the position yesterday, but who had bene-East since Saturday and more are due soon. fited by the night's rest, resumed his Prices range from \$5.50 to \$9. Black grapes speech in behalf of the Canadian claims, though, at the suggestion of Chief Justice Alverstone, counsel remained seated. Mr Robinson dealt vigorously with the fallibility of the maps of the district under contention, holding that the American well for fancy four-tier belifiowers and deductions therefrom were therefore weak spitzenbergs, but cheap stock was dult. Mr. Robinson continued his speech after the luncheon adjournment. Ridiculing the United States contention that it had se cured the allegiance of the Alaskan pa tives, he said: "With a bottle of whisky and a blan-

> Replying to Lord Alverstone's query of yesterday afternoon as to whether counsel would prove that the coast mentioned in article 7 referred exclusively to the strip which Russia was to obtain by treaty, Mr. Robinson maintained that ar-ticle 7 meant reciprocal privileges in the listere (strip previously referred to), imcertain inland waters, and not south of latitude 54:40, as the United States contenás.

Counsel argued that Russia had not the right to grant privileges south of latitude 54:40.

Hannis Taylor, ex-United States Minister to Spain, of counsel for the United States, followed Mr. Robinson, Dealing with the International law phase of the dispute and discussing the Hudson Bay Company's relations with the British Empire, he maintained the company's officials were empowered to represent Great Britain from an international point of view, and, therefore, transactions with the Hudson's Bay Company must be regarded as having the weight of that relation.

Mr. Taylor will continue his argument

America Is Asked for Protection. NEW YORK, Sept. 29.—The State De-partment of the United States Government having instructed the Minister at Bogota to arrange, if possible, an amica-ble adjustment of the affairs of the Central and South American Telegraph Com-pany with the Colombian Government, the empany has instructed its engineers to

delay cutting out Buena Ventura until further orders, says a Herald dispatch from Panama, Because of the statements that the Co-ombian Government has ordered the telegraph company's Panama office to closed in the event of the company los-ing the Buena Ventura office, the Central and South American Telegraph Company has asked that the United States give proection, under the treaty of 1898, from any interference on the part of Colombian of-ficials relating to its office in Panama.

Suit Is Formally Dismissed. CINCINNATI, O., Sept. 29.-The case of Talbot J. Taylor and others, to restrain the voting of stock held by the Union Pacific Railway, at the annual election of the Southern Pacific Company, was today formally dismissed in the United States Circuit Court of Appeals, on telegraphic advices from counsel in New York. It is now understood that the Southern Pacific election, which has been postponed from time to time by the court since last April, will take place week after next, at Beechmont, a suburb of Louisville, which is the egal headquarters of the company.

To regulate the stomach, liver and bowels, and promote digestion, take one of Carter's Little Liver Pills every night. Try them.

Oregon Kidney Tes is prepared without alcohol, which is injurious in kidney and bladder diseases.
