One Firm Goes to the Wall.

NEW YORK, Sept. 2). - The Consol dated Stock Exchange, firm of Taylor & Mandeville suspended today. Failure of customers to meet their margin in yesterday's sharp break is believed to be the cause for the failure. The firm is composed of Henry B Taylor and J. Arthur Mandeville. Taylor was a member of the board of managers of the Consolidated Exchange

CATTLE MAY CROSS PARK

Crater Lake Route to Range, How ever, Will be closed This Year.

OREGONIAN NEWS BUREAU, Washington, Sept. 21.-The superintendent of Crater Lake Park at Klamath Falls, was today advised to permit Al Melhase, of Fort Klamath, to strive 2000 sheep over the public park to the Fort Klamath Winter feeding ground not later than Octo bar 14. In the same letter, the superin tendent was again advised to wara cattlemen in that section that such permits will not be issued during the season of 1904. The Interior Department is emphatic in stating that other means will have to be devised in future for driving cattle to and from the several ranger than across this section of the reserved public domain.

SAD PLIGHT OF INDIANS.

Strong Drink Is Causing the Impoverishment of the Puyallups.

OREGONIAN NEWS BUREAU, Washington, Sept. 29 .- The first report of Henry F. Liston on the Puyallup consolidated Indian agency near Tacoma, Wash., seems to indicate a deplorable condition. The granting to the Indians of full power to sell their lands and chattels has worked great evil. The Indians, it is said, will sell their birthright for the price of a few drinks, and even the boys and the girls are alleged to be acquiring the drink habit. Drunkenness, according to Liston's reports, prevails to a shocking degree.

Liston urges Congress to take away from the Indians the right to sell property, the proceeds of which are now being used to purchase alcoholic stimulants of the most vile sort. Some means should most vile sort. Some means should be devised. Mr. Liston suggests, to prewent the utter impoverishment and de-struction of the Puyallups through strong drink.

New Washington Postmaster.

moved its embargo on cattle and sheep from the New England ports was the conclusion of the great work in which the department had been engaged since Sep-tember 1 for the eradication of foot and tember 1 for the eradication of foot and mouth disease from the New England states. The Scretary regards this as the most important and valuable piece of serve under obligation to them."

ents Arthur T. Hadley, of Yale, NK Murray Butler, of Columbia, Jacob G. Schurman, of Cornell and Ira Remsen, of Johns Hopkins, in brief congratula tory addresses. Grover Cleveland then spoke making special reference to the importance and value of free education President Finley's inaugural address dwelt on the importance of locating col leges in cities. Mr. Cleveland in his ad-

dress said in part: "I cannot rid myself at this moment of the thought that education is a selfish useless thing if it is to be hid in a nap kin or if it is to be hugged to the breast by its possessor as a mere individual prize, and it seems to me the existence of schools and colleges in this land of ours can scarcely be deemed important, except as they are the sources from which education may be distributed through many channels, for the enrichwhich distributed ment of the body politic, and the stimulation of patriotic thoughtfulness among our people.

We contemplate today the great service of usefulness which embelishes the history of the college of the City of New York, and we see for its future vasily increased facilities and opportunities; but our most inspiring thought should be that the advanced education it imparts freely bestowed upon tich and poor alike, without price or cost.

"If we have outgrown the simplicity of ur early National life; if with the growth of abnormal enterprises and a mad struggle for wealth, a constant and acute solicitation for the country's weal has been somewhat subordinated; and, if in our social and business-like life we can see signs of a cleavage that may divide our people into distinct and unsympa-thetic classes, we should be watchful. If

with these things we also discover a ly heard at Rilo. movement loward a more general col-legiate education, we ought to regard it place near Okhr as another unfavorable symptom, if in-creasing learning is to be made a mere ornamental accompaniment to the wholesome and pitlable ostentation of riches

"It should be the prayer of every patriotic citizen that American education may never be so degraded; that it may always remain true to its mission, a steadying force against all untoward conditions; that higher education as it becomes more accessible and widespread may reinforce the firmness of our National foundations, as they are made to bear the increased stroyed by the Turks and the Christian weight of our country's healthful develop population massacred. Fugitives are ar-

weight of our country's heatinful develop-ment, and that in the democracy of edu-cation our people may ever be gathered together under the sanction of enlightened and strong Amèrican citizenship." A letter of congratulation from Presi dent Roosevelt was read. It is in part

as follows:

"My Dear President Finley: "You are now called to preside over an educational institution which is the crown of the pub-

le school system of the greatest state in our Union, an institution whose existence hows how definite has been the decision of our people that the state should aid, not only in elementary but in higher edu-

cation. Nothing is more distinctive of our American Republic than the peculiar fos-tering care which through their representatives the people have assumed over the education or all the citizens in pri-mary matters and of all those who care to go beyond primary matters in those additional branches necessary as perquisites for the attainment of leadership in the to dispense charity.

street, much more than in London, a termisation to the crisis would be welcomed with a sense of general relief. The procrastination does not assist the Min-lstry to recover its shaken prestige."
