### NUMBER OF PEOPLE INJURED

Property Loss in Central Section of State is Heavy—Baby is Blown Fifty Yards, but Suffers Only a Few Bruises.

EMPORIA, Kan., Oct. 7.—Three persons were killed outright, two fatally injured, and 14 others more or less seriously hurt, as the result of tornadoes that prevailed near Hamilton, Greenwood County, and at Alleville, in Coffey County, Kansas, last night. The property loss is enormous. The town of Alleville, which has 250 inhabitants, was practically demolished. Wives were prostrated, and the extent of the storm was not learned until late today. The list of casualties may yet be incomplete. The dead, near Hamilton: EDITH BAILEY, 16 years old, daughter of W. E. W. Bailey. MR. GILMAN, father of Mrs. John Bailey. Unknown man.

Storms General in Central Kansas. Heavy rains and wind storms were general all over Central Kansas last night. With the exception of those near Hamilton and Alleville and vicinity, only minor damage was done. In Greenwood and Coffey Counties, five distinct funnel-shaped clouds formed about the same time. The two largest of these clouds struck near Alleville and, traveling

southwest, destroyed buildings and crops over a strip a quarter of a mile in width. At Alleville, every one of the 50 houses in town was either totally wrecked or moved from its foundation. The two general merchandise stores there, one owned by T. C. Jones and the other belonging to D. R. Grant, were totally wrecked, and the entire contents destroyed. On the opposite side of the street, two blacksmith shops, a lumber yard and the Methodist Church, as well as the Missouri Pacific depot, were demolished. But one person, William Bruce, was seriously hurt. He was crushed by falling timbers and will probably die.

Miraculous Escape of Baby. Southwest of Alleville, in Coffey County, heavy damage was done to farming property. The farm house of John Earline was torn to pieces and four members of the family injured, but none dangerously. A baby was blown a distance of 50 yards and suffered only slight bruises. A schoolhouse was blown down, and the house of J. W. Atherton blown away. All the members of the Atherton family, except a young daughter, escaped injury. Her leg was nearly severed by flying timbers, and she is in a serious condition. The other injured lived four miles west of Hamilton, where within a limited locality nine farm houses were destroyed. Many small buildings were turned over and hundreds of stacks of hay and corn shocks scattered.

BURIED UNDER FALLEN WALL. One Omaha Man is Killed, Three Badly Hurt and Several Slightly. OMAHA, Neb., Oct. 7.—A windstorm which struck the eastern portion of Omaha this afternoon blew down a brick wall at the north end of the new Union Pacific shops, burying four workmen, one of whom, A. T. Ratcliffe, of Lawrence, Kan., was killed, and the other three seriously injured and several others slightly hurt. Those seriously injured are: L. Pennington, Nat Brown and Joseph Leonard, all of Omaha. While all the three were seriously cut and bruised by the falling brick, none will die. C. F. Robertson, a cigar dealer, who was leaving the Merchants' National Bank during the storm, was knocked senseless by a falling screen, but was not dangerously hurt. Several buildings in the East end were shaken considerably, among them being the five-story building of the Union Pacific headquarters. The newly-completed walls of the shop building were being made ready for the roof and were thought to be substantial. The

heavy wind, however, crushed them in, causing a complete wreck. The injured men were removed to a hospital in an ambulance. It was believed for a time that several others were buried in the ruins, but all the workmen have been accounted for.

Haystacks Are Badly Scattered. TOPEKA, Kan., Oct. 7.—News has reached here of a disastrous tornado which caused destruction to farm property last evening at the Bear Creek settlement, 12 miles southeast of Topeka. Several farm houses and barns were destroyed, trees blown down and cornshocks and haystacks of the farms scattered all over the neighborhood. So far as has been learned no one has been injured.

Trees Uprooted at Lawrence. LAWRENCE, Kan., Oct. 7.—A heavy wind and rain storm prevailed here last night. Signs were blown down, trees uprooted and much minor damage done. The passenger shed at one end of the Union Pacific depot was blown across the tracks, blocking traffic, and the warehouse of the Lawrence Nursery was demolished.

Light Plant Out of Business. JOPLIN, Mo., Oct. 7.—A severe rain and wind storm here early today caused several thousand dollars' damage. The storm traveled at the velocity of a tornado. The electric-light plant was badly damaged, and the city will be in darkness for several days.

### HOLDS GREAT CROWD AT BAY

Prominent Pueblo Physician Drives Every One From Store, and is Only Overpowered When Men Slip in From Behind.

EBLO, Colo., Oct. 7.—While crazed from the influence of liquor he had been drinking for several days, Dr. C. O. Rice, one of the most prominent physicians in the city, shot and almost instantly killed Police Officer Martz, while the latter was trying to arrest him in a drug store. The tragedy occurred at 8:30 o'clock after the frenzied physician had driven every one out of the store by flourishing his revolver and threatening to kill any one who came within range. Police Officer Sliker shortly afterward accidentally shot himself through the pelvis while attempting to effect an entrance into the store. The wounded officer is in the hospital and will probably die. It was not until 10 o'clock that the doctor was captured. Meanwhile he had been holding an enormous crowd at bay in front of the drug store. Finally an entrance to the rear of the store was effected through the cellar, and the doctor was overpowered before he could offer any resistance. He was taken to the County Jail by a circuitous route for fear that some attempt at violence might be made. The big crowd was loud in its denunciation of the killing. Officer Martz, who was killed, had lived in the city for 25 years and had served many years as a patrolman. Dr. Rice, who did the shooting, is one of the oldest and most prominent physicians in the city. He is the founder of the Fair-

### TILLMAN BEGINS HIS DEFENSE

Ex-Lieutenant-Governor Shows Editor Threatened His Life. LEXINGTON, S. C., Oct. 7.—The defense in the case of ex-Lieutenant-Governor James R. Tillman entered upon the presentation of its case today. Solicitor-General Thurmond announced when the trial was resumed that the prosecution had no further evidence, and would rest. Nine witnesses for the defense were heard. It is estimated the defense will consume the remainder of the week with its witnesses. Juror Sharpe, who has been sick for the past three days, was able to take his seat today, although court was adjourned an hour earlier on his account. The state rested without the introduction of further testimony, and the defense entered at once upon the presentation of its case. Counsel for the defendant first renewed the motion made early in the trial, that the court instruct the jury to disregard all testimony given by witnesses for the state showing a weapon in the possession of the defendant prior to the shooting. The court ruled the testimony to be competent. The defense, referring to the defendant, were read by counsel for the defense and offered in evidence, reciting what he stated Gonzalez Tillman, reciting what he stated Gonzalez Tillman said, among other things: "He said: 'I can slap his face and he ever bats his eyes at me I'll fill him so full of lead that he will never tote it off.'"

### VOLCANO AGAIN ACTIVE

Mauna Loa, in the Island of Hawaii, is Eruption for a Day. HONOLULU, Oct. 7, 11:30 A. M.—The volcano of Mauna Loa, on the Island of Hawaii, is again in a state of activity. The eruption began yesterday at noon, and was reported here today. When the ship Ormbyr, from Newcastle, passed the Island of Hawaii yesterday, from the summit of the crater a vast column of smoke with fire below descended. The appearance of the lava flow at Kilauea is normal with mild activity. Further advice state that Maunaloa's outbreak is very heavy. The flowing lava makes a grand spectacle. Excursions are being arranged from Honolulu. A wireless message from Hilo to the Advertiser says the volcano is very active, and the lava flow is going towards Kahuku cattle ranch. A messenger reports that two streams of lava very wide may be seen from Volcano House, Kilauea and all parts of the Kona plantation. The glow is visible in Hilo. It is believed that the lava will break out further down the mountain. No plantations or settlements are endangered by the lava flow and the eruption will be without material damage.
