Report on aid for colleges enlisted a good deal of enthusiasm in the interest of Albany College. It was recommended that \$15,000 be raised at once, as a partial endowment. Reports on Sunday observ-ance and temperante frew out lively dis-cussion and the presbytery went on rec-ord as being opposed to the opening of the Lewis and Clark Exposition on Sun-

day during the year 1905. Dr. Thompson's report on home mis-flons shows the church to be growing and all fields manned.

A petition from the Sodaville Cum-berland Presbyterian Church was received asking to be organized into the Presbyterian Church in the United States America. The request was granted and a commission named to organize a church the third Sunday if the way be clear. The discussions showed that while there

have been no widespread revivals, there has been progress in all lines of church work during the last six months.

At the popular meeting held in the hurch at 7:20 P. M., presided over by Dr. Ketchum, there were addresses made by Rev. T. B. #### Los Angeles Couple Hended for Oregon to Join Hands.

SAN FRANCISCO, Oct. 8.-(Special.)--Although they deny they contemplate matrimony, their friends are certain that Miss Grace Fleming and Arthur Van Curen are figuring in an elopement, Both are in this city from Southern California where they are prominent socially. Their plan, according to their friends, is to proceed to Klondike, stopping in Oregon

to be married. Van Curen arrived here from Ventura last Tuesday night and is at the Russ, Miss Fleming registered at the Palace from Ventura at noon yesterday. Van Curen is said to be very well con-

## Link Connecting Springfield and Henderson Will Be Completed.

EUGENE, Or., Oct. 8 .- (Special.)-Deeds have been received here conveying to the Southern Pacific Company the land for the right of way for the connecting link between'Springfield and Henderson Station, and this vexatious question now only needs the signatures of present owners who have made agreements to that effect to be ended. The company has also purchased ten

acres of land from Henry Thuman, ad-joining the present Henderson Station, Just what the company expects to do with this land is not known here, but is a matter of some speculation. It is the theory of some that it will be made a kind of yard for cars and engines, and probably some machine shops may be put up there.

## Cascara Hunters Disappointed.

CORVALLIS, Or., Oct. 8-(Special)-Corvailisities who went to Alsea and Yachais region to search for cascara homesteads are returning home. They lid not generally meet with the success they anticipated. Cascara tree locators whom they were to pay \$50 for each quar-ter located failed to place them on lands that promised to justify the required outlay. None of those who returned has as yet filed homestead papers. Something over six sections of land have, however, been filed on under the homestead arrangement within the immediate past.

## Disappointed in Water Supply.

COLFAX, Wash., Oct. 8 .- (Special.)-The City Council of Colfax has abandoned its attempt to get water by digging wells in the ball park, and has released its option on the park. Citizens are urging that the plan suggested by Professor Roberts, of Pullman, to pipe artesian water from that town be adopted, or at least thoroughly investigated, before any more money is spent in digging wells. The present water supply is inadequate, and of such poor quality as to endanger health.

APPLES STRIPPED FROM TREES.

## Linn County Orchardists Grieve Over Damaged Fruit,

ALBANY, Or., Oct. &-(Special.)-The damage done to the apple crop by the wind storm the first of the week was far in excess of what was first thought and reported by orchardists. Since the weathconditions have settled, orchards have been examined, and the situation is de-pressing to those most interested. In the

apple orchards the ground under the trees is literally covered with fine Winter apples. In many cases the trees are re-ported to be utterly stripped of fruit, while the apples lie in great masses on the ground beneath.

The fruit on the ground cannot be sold as first class. Although the apples were almost ready to be gathered, and were considered to be ripe, yet every apple on the ground is bruised sufficiently to take it out of the first class.
