UNABLE TO WALK

INSPECTOR JORDAN CRIPPLED WITH INFLAMMATORY RHEUMATISM.

A City Official of Lynn, Mass., Tells How He Was Cured by Dr. Williams' Pink Pills.

There is scarcely a city or village from the Atlantic to the Pacific which has not its quota of rheumatic cripples. That much of their suffering and inconvenience is unnecessary is proven by the fact that a specific has been found for rheumatism in all its forms, a remedy that has cured extremely stubborn cases. The statement of a recent cure should give encouragement to the most hopeless sufferer.

Charles F. Jordan, of No. 7 New Chatham street, Lynn, Mass., inspector of sewer construction in that city for many years, was for a long time afflicted with inflammatory rheumatism in his feet, which made him unable to walk.

"It is hardly necessary to say that my condition was extremely painful," he says. "The rheumatism settled in the joints and made me helpless so far as walking was concerned. The skin became very tender and sore and I suffered agonies every time I had an attack."

"My sister-in-law advised me to try Dr. Williams' Pink Pills for Pale People and I took them with the best results. They also had a beneficial effect upon my general health. I might add that my daughter-in-law is taking this remedy for rheumatism of the face and finds that the pills are helping her greatly."

Rheumatism has been treated in widely different ways, even in quite recent times, and ignorant superstition has furnished many so-called "charms" to ward off the disease. Most people now know that to cure rheumatism it must be treated through the blood, and to prevent the disease the blood must be kept pure.

Dr. Williams' Pink Pills for Pale People have a powerful effect in combating the poisons in the blood which cause rheumatism. This is the secret of the marvelous success of these pills in curing many severe disorders of the blood and nerves which do not yield to ordinary medicines.

Dr. Williams' Pink Pills for Pale People may be obtained at all druggists or direct from Dr. Williams' Medicine Company, Schenectady, N. Y.; 50 cents per box, six boxes for \$2.50.
