

WATER FLOOD CAUSES GREAT DISTRESS.

WATER IS SLOWLY FALLING. Five Hundred Seek Food and Shelter in Armory.

RAILROADS RESUME TRAFFIC.

Damage in Paterson Will Reach \$2,000,000, and at Passaic Equally as Much—No Additional Fatalities.

NEW YORK, Oct. 12.—With reports of receding floods following from all quarters, Paterson, Passaic and the other water-swept towns of New Jersey are relieved of further peril, and are beginning now to get a clear idea of the extent of the devastation.

In Paterson alone the damage to property is estimated at \$2,000,000, without taking account of the loss in wages to thousands who have been temporarily deprived of occupation by the shutting down of factories.

Tonight the water is reported to have fallen four feet below the highest mark, the only possible source of damage would be the bursting of the great water mains, which were undermined by the flood. The distress continues great, and tonight fully 500 persons were still compelled to seek food and shelter in the Armory. No additional fatalities were reported throughout the day.

In Passaic damage is estimated to be at least equal to that in Paterson. Many adjacent villages still were under water today, but with the falling of the waters all danger of a collapse of the great Dundee dam was declared to be past.

Traffic was resumed during the day on all the railroad lines entering New York with the exception of the local service on the main line of the Erie. The milk famine in the city was broken by the arrival of the usual number of milk trains on the West Shore, New York Central and Lackawanna and other roads.

CAROLINA COAST CLAIMS SHIPS.

Several Are Known to Be Lost, but Most of Crews Escaped.

NORFOLK, Va., Oct. 12.—The first news from the Carolina Coast since the beginning of the hurricane last night dispels the hope that the treacherous shoals between Currituck and Hatteras have not claimed their quota of victims.

Two vessels are known to have been lost on that stretch of the coast, and further reports are expected to bring news of more wrecks, as at this time three schooners are missing, with one barge. Two schooners and a barge, in addition to those wrecked between Cape Henry and Dam Neck were lost during Thursday and Friday. The crews of the schooners were rescued, but the barge went down with all on board.

The tug Buccanere, Captain Joseph Lang reports that the barge Oracle, founded off Cape Henry with Captain Cookson, her cook and three seamen, all white.

Observer A. W. Drinkwater, of the Currituck, reached Norfolk today by the inland route and reported the loss of the schooners Mabel Rice and J. W. Holden Thursday and Friday. The life savers had seen the Rice about 2 P. M. Saturday with her crew in her rigging, but she was then two miles out at sea, and nothing could be seen for her.

At 4 P. M. Saturday, the life savers had succeeded in stretching a line across the wreck and rescued the captain and crew of seven men. It is estimated that the cargo of lumber carried by the schooner Rice was worth more than \$50,000.

The three-masted schooner J. B. Holden, of Suffolk, is ashore near False Cape, Va., and is a total loss. Her captain, W. O. Grammer, of Suffolk, and her crew were taken off by the life savers. The Holden was heavily laden with lumber and attempts to save at least a portion of her cargo failed.

The schooner Isabella Gill, Mary Lee Patton and Jennie Thomas, bound from the South for Baltimore are not accounted for and there is grave reason to fear for the safety of these vessels.

GREAT DAM IS SAFE.

Rampao River Slowly Subside—Only Two Lives Lost.

TUXEDO PARK, N. J., Oct. 12.—The Rampao River, after rising higher than ever before, so far as existing records show, and sweeping away many small dams, several bridges and houses and a section of the Erie Railroad track, is now slowly subsiding, and the Tuxedo dam, which it was feared would be withstood, is considered safe. So far as known, only two lives were lost. George Nixon and a companion employed on E. H. Harriman's estate at Ardri, when driving home from Central Valley, were overtaken by the flood and drowned.

Of the damage to property along the course of the Rampao, no estimate can yet be made. The village of Tuxedo was nearly obliterated by the overflowing of Pierson's Lake and the breaking of the dam at its lower end. The cottage dwellers fled to the hills, and have been looked after by those whose homes were on higher ground.

DANGER PAST AT PATERSON.

People Cannot Return Home Until District Is in Sanitary Condition.

PATERSON, Oct. 12.—The water in the streets is rapidly receding, and the danger is now said to be over. The worst district is in the vicinity of the river, where the water in some places was 11 feet deep. A relief fund has been started for the destitute.

The heaviest damage in Paterson was to the manufacturers. The police and firemen have been steadily engaged since Sunday morning in work to remove families from the upper floors or the roofs of their houses in the flooded district, and the work is still going on.

The health authorities have a difficult task before them in devising means to prevent an epidemic of sickness in the flooded territory. The people who were forced to leave their homes will not be allowed to return until the district is in a sanitary condition.

STEAMERS EXPERIENCE ROUGH WATER.

NEW YORK, Oct. 12.—Incoming steamers from European and coastwise ports today reported extremely severe weather during the last three days. Captains report the fiercest weather experienced on the coast in many years.

The steamer City of Savannah, with 54 passengers, came into port with a heavy sea broke over her bridge. The forward funnels were swept away in the water poured into the saloon.

LOSS ALONG DELAWARE A MILLION.

TRENTON, N. J., Oct. 12.—It is estimated that the havoc wrought by the flood along the Delaware River will cause a loss of nearly \$1,000,000. Nine bridges, each built at a cost of from \$50,000 to \$100,000, which spanned the river at various points between here and Easton, were carried away. It is reported that the telegraph operator, named Lefevre, was drowned last night while trying to cross the river at Raven Rock.

TWO MORE WRECKED REVEALED.

NORFOLK, Va., Oct. 12.—Two more wrecks that occurred in the hurricane last week were revealed today when the first news in almost a week was received from the North Carolina coast that the schooner J. B. Holden, lumber-laden, from Norfolk, is a total loss. The three-masted schooner Mabel Rose was pounded to pieces on the shoal off Paul Samuels Hill, 20 miles south of Currituck. Both crews were saved.

SIDE OF COLORADO.

Its Answer in Water Suit Begun by Kansas Filed With Supreme Court.

WASHINGTON, Oct. 12.—The answer of the State of Colorado to the amended bill of the State of Kansas in the suit of the latter state to enjoin the former from the further appropriation of the waters of the Arkansas River for irrigation purposes, was filed today in the United States Supreme Court. The document was presented by Colorado's Attorney-General, Hon. N. C. Miller, who is to be assisted in the case by a formidable array of counsel, including former United States Senator Wolcott and former Justice Hoyt.

The answer sets up the contention that the United States Supreme Court is without jurisdiction. It is also claimed that the Arkansas is a navigable stream or that the use of the water for irrigation in Colorado has the effect of diminishing the volume of the stream in Kansas. The use of the water for irrigation is defended as in accord with the custom prevailing in the arid region of the country, and the fact is set forth that many of the ditch corporations now operating in Colorado were incorporated in Kansas when that state comprised the territory now embraced in Colorado. Chase C. Goodale, as solicitor for the Graham Ditch Company, filed the answer of that company to the complaint made by Kansas against it.

INDICTMENTS ARE INVALID.

Kansas Judge and Bank Official Not Responsible for Shortage.

LEAVENWORTH, Kan., Oct. 12.—Judge John F. Phillips, in the United States Circuit Court here today, handed down a decision holding in effect that none of the 15 counts in the first indictment against ex-Judge William Martindale, who was indicted by the Federal Jury on the alleged charge of misappropriating the funds of the First National Bank of Emporia, Kan., was valid. There is still another indictment against Martindale in connection with the handling of funds in several small bank failures at the First National Bank of Emporia.

The indictments against Judge Martindale, who was first vice-president of the bank, grew out of the failure of the First National Bank in 1888, when President Charles Cross, a noted cattle breeder, committed suicide after an investigation that disclosed the fact that he had lost the bank's money in a speculative investment. Cross left a confession exonerating Martindale, the latter was indicted.

BEGINS FIGHT ON WILL.

Patrick Agin Seeks to Break Last Testament of Millionaire Rice.

ALBANY, N. Y., Oct. 12.—Argument was made in the Court of Appeals today in the matter of the will of William M. Rice, the probate of which Albert T. Patrick, convicted of the murder of Rice, is fighting to reverse. The respondent is John D. Hartline, one of the executors of the probated will who represents more particularly the "William Rice Institute for the Advancement of Literature, Science and Art," of Houston, Tex., a proposed memorial to Mr. Rice, to which he bequeathed the bulk of his estate. Mr. Patrick was represented today by William B. Hornblower, while Patrick was represented by John C. Tomlinson, Max J. Kohler and Edward Kohler.

The appeal is from the decision of the appellate division, Supreme Court, sustaining that of Surrogate Fitzgerald in recognizing the will bearing the date of September 8, 1888, repealing as a testamentary forgery the instrument dated June 30, 1900, put forward by Patrick. Rice died on September 29, 1901, aged 84, leaving an estate estimated at \$4,000,000. In the Patrick will but \$250,000 was bequeathed to the proposed "Rice Institute," and the bulk of the rest of the estate to Patrick, who declared that he held a certain "secret trust" from Mr. Rice.
