OF ENCLOSED FLOOR SPACE!

THREE-QUARTERS OF AN ACRE OF FLOOR SPACE

Mountains of merchandise are here-carloads are arriving almost daily. Our storehouses are filled

to overflowing with splendid new merchandise bought with the expectation of occupying our new

annex on Sixth Street ere this. See what this building delay means! The above figures show

the actual amount of selling and storage space lost to us this season that was counted on when the

Autumn goods were bought. Merchandise ordered in good faith from manufacturers will be re-

ceived-countermands now would be unfair and unworthy of such a house as ours. There are

future seasons ahead we must bear in mind. We must keep our reputation fair in market as well

as home—so we receive the goods, arrange for short term-storage and apply the force of sharply

reduced prices to move them out quickly from our overtaxed storehouses and salesrooms. It means

an enlarged department upstairs-but they're not-they're here, now, anxious to escape from their prison box

and get a glimpse of the outside world-to make footsteps that may become famous. In many cases manufac-

turers have made us concessions in price to meet us half way in our spirit of fairness in non-cancellation. Manu-

facturers have souls and have helped us nobly in our dilemma to obtain room. They couldn't make room, but

they've made prices on shoes that allow of us handing over to you at less than usual prices. Our variety is

larger than at most regular and exclusive shoe stores. Every shoe is from our regular stock and bears our name.

Our reputation is bound up in every parcel that goes forth from this shoe store and we stand responsible with a

character as sound as the steelquilted oak soles that underlie our shoes. There's style and quality, too.

Some thought, continued Mr. Root, that the Americans and Canadians came to London because Alaska was a wonder-land of claimants, but the greatest object lesson of the whole proceedings was that the United States had such trust in Great Britain that she was willing to meet and discuss a question vital to her, not in a neutral capital, but in a capital belonging to one party to the controversy. Nothing, he said, could more emphasize "the ab-solute confidence of all parties in the good faith, generous hospitality and fair play of the English people. The admirably graceful, tactful and correct way in which the British Government has fulfilled that trust has made us feel at home in the trust we have reposed in you."

Fiscal Issue Makes More at Home, In a humorous vein, Mr. Root said that they felt even more at home as doubtless the fiscal controversy had been specially raised at this time for the benefit of the American members of the tribunal. Then analyzing the arguments of both political parties in England, he added amid shouts of laughter, "nothing could be more de-lightful to us than to find our country simultaneously upheld as the best exam-ple of internal free trade and of too suc-

Can Have Manchuria - Latter Blames Britain and China for the Present Situation.

YOKOHAMA, Oct. 13.-All reports ema nating from Shanghai of the opening of hostilities between Japan and Russia, etc., may be dismissed as absurd. Russo-Jap nese affairs are marking time.

The second secretary of the Russian Legation left Tokio October 12 with secret dispatches for the Russian Viceroy of the Far East, Admiral Alexieff. An Important conference of veteran Japanese statesmen, including the Marquis Ito, was held at the Premier's office to-

China, Japan and Britain Held to Have Caused the Present Dispute. ST. PETERSBURG, Oct. 12.-The Fortion of the reported disembarkation Japanese troops at Masampho. Regarding Manchuria, the Foreign Office states the question is at present closed. The exist-ing situation is the fault of the Chinese, Japanese and British. If China desired to reopen the negotiations and accept cer-

tain conditions, the situation could still be changed, as Russia is not rooted to the soil, and could leave if she liked.

MINISTER HOLDS ALARM UNDUE. Japanese Official at London Receives Reassuring Advices.

LONDON, Oct. 12 .- Baron Hayashi, the Japanese Minister here, has received reas-suring news from Japan with reference to the situation in the Far East. He says his telegram indicates there is no need what-ever for alarm, and adds the message was not a reply to anything he had cabled, so he thinks it was probably sent because of the alarmist rumors which have been in circulation in Europe, and which finally

officials who have been studying at the military academies of Modena and Racco-gini have been called to Japan by telegraph, and immediately started for Brindisi to embark for Japan.

The meeting of British Admirals at

Singapore has no connection with any spe-cial tension at present existing in the Orient. The meeting was announced as far back as August 25, for the purpose of enabling the commanders of the East In-dian, China and Australian stations to confer with reference to a general scheme whereby the three squadrons can be fused in the event of necessity, instead of each being confined, as heretofore, to the sphere definitely assigned to its jurisdiction. It has been arranged that a similar confer-ence shall be held annually.

If Russin Gives Her a Free Hand, She Can Have Manchuria. VANCOUVER, B. C., Oct. 12.-"Japan does not want war, but unless Russia makes considerable concessions will not

rin in exchange for a free hand in Corea. "There is a secret treaty between China and Russia, under which the latter is al-lowed to hold Manchuria for 15 years.

"The Anglo-Japanese alliance has ceased exist for all practical purposes. "An agreement is on the tapis between Britain and Russia.
"Britain counsels moderation and de-

sires to prevent war at any cost.
"Japan has shown its teeth by two sets f military maneuvers almost simultaeously, an unprecedented occurrence."
The foregoing are the chief points in a remarkable letter received by the last Japan steamer from a well-informed cor-respondent at Osaka. The correspondent goes minutely into Japan's attempt to pave a path to peace, and says the chief trouble is that Japan asks as much as if it had totally defeated Russia in war. Semi-officially the Mikado's government has made known to the people that war will result if "Russia is determined to set at naught her treaty obligations with China and at the same time to harass Japan in Corea." The Nichi Nichi, evi-dently under official inspiration, an-nounced that in that case "Russia must be prepared to be held responsible for the

Secretary Root Makes a Very Happy Speech-Justice Alverstone Replies to Critics.

LONDON, Oct. 13.-With what Secretary Root described as "all the cere-monies and regalia which from child-hood have been more a fairyland than a real land to all Americans," the members, counsel and attaches of the Alaskan boundary tribunal were entertained by the Lord Mayor of London, Sir Marcus Samuel, at a banquet at the Mansion House tonight. Almost all those associated with the case now in the balance, from Lord Chief Justice Alverstone down, were present, though Attorney Finlay and Sir Edward Carson were

The Lord Mayor proposed the health of President Roosevelt while the band played "The Star-Spangled Banner." Then his lordship proposed the toast of "The Alas-kan Boundary Tribunal," with which he oupled the names of Lord Alverston Secretary Root and Sir Louis Jette. He declared the present method of the submission to a tribunal of a dangerous dispute between two great nations would be a lasting lesson of peace to the world.

"We may say," said the Lord Mayor "that the verdict will be loyally accepted and acted upon and what might lead to serious trouble will be averted." Lord Chief Justice Alverstone, in replying, after having feelingly referred to the death of Sir Michael Herbert, said that, though the tribunal was not an il-

No explanation was given of the reason for this question.

The tribunal adjourned until tomorrow without reaching a decision.
