Miss Josephine Meade Called to a Fireman for Aid, but Paul Schmidt Fired Quickly, and Her Plea Was Cut Short,

SAN FRANCISCO, Oct. 15 .- Josephine Meade, a student of the University of California, was shot and killed today by Paul Schmidt, aged S years, who afterwards committed suicide.

Miss Meade was formerly a resident of Los Angeles, where she was employed as & teacher in the public schools. Schmidt was also a resident of Los Angeles, where he is said to be prominently connected.

The tragedy occurred at 1819 Laguna street, where Miss Meade lodged. On leaving the house Miss Meade was met hy Schmidt, who had been seen waiting in the neighborhood for some time. Mis-Meade and Schmidt adjourned to a nearby doorway, where they stood for a few minutes, Schmidt talking earnestly and with many gestures.

Miss Meade stepped away from him and approached a firemen, to whom she said:

"I beg your pardon, but this man-" At that moment Schmidt began shooting. He sent four bullets into the girl's body. When she fell dead he calmly looked at her a few moments and walked down the street, removing the empty shells from his revolver.

He then reloaded the revolver, and, after firing in the air to test the cartridge, placed the pistol against his forehead and fired. He died instantly.

Schmidt and Miss Meade had been acquainted several years and were once engaged to be married. His attentions became distasteful to her, however, and she, becoming alarmed at his threats against her life, gave up her position in Los Angeles and went to Boston to escape bim, afterward coming to this city, where Schmidt followed.

Miss Meade was a niece of Vicar-General Hartnell, of the Southern California and was of an excellent reputa-

Miss Meade's departure from Los Angeles was caused by the unwelcome attentions of Paul Schmidt. For several months he persecuted her and insisted that she marry him. When she refused he threatened to kill her, and in fear of her life she gave up her position and left

At the office of the Superintendent of Schools it was stated that Miss Meade had been carried on the list of teachers since 1901, her leave of absence being ex-tended from time to time. It was understood at the office that she returned from the East and later went to San Francisco. Last Monday at the regular meeting of the Board of Education Miss Meade's resignation was tendered and accepted. She had written from San Francisco stating that she would not be able to return to Los Angeles.

JILTED LOVER KILLS GIRL. Calls Her to Door and Puts Four

Bullets in Her Body. BUTTE, Mont., Oct. 15.—Miss Helen Kelly, aged 18, was shot and killed in her room in the Dakota block this morning by Albert Beckmann, a former lover. Beckmann claimed he advanced the girl 300 to buy a trousseau. They were to have been married, he said. She changed her mind. Beckmann brought suit to recover the money, but lost his case.

Just at daylight he went to her room and knocked. Thinking it was her brother, who lived in the next room, Miss Kelly opened the door. Beckmann thrust a revolver in the half-opened door and fired six shots. Four of them took effect, and the girl fell dend. She was carrying a lamp. This exploded and set fire to her clothing and the furniture. Roomers ex-tinguished the fire after the body had been slightly burned.

Beckmann has escaped. He will be lynched if caught. The Kelly girl was highly respected. She came here only ten weeks ago from Ireland.

Hold-Up Men Held Up.

WALLA WALLA, Wash., Oct. 12.-When two men tried to hold up William Miller last night he escaped and hid behind a tree along a dark part of the street. As the two men came after him, he stepped out with a gun, and forced both pair of hands sioft. Miller then marched his cap-tives back toward town. Four blocks on the way they suddenly ran under some trees, Miller being afraid to shoot. The pair is supposed to be following the races.

AUDITOR CAN EXTEND TAX. Opinion of Attorney-General on

Newly Incorporated Town, OLYMPIA, Wash., Oct. 15.—(Special.) The authorities of the new town of Newport, in Stevens County, have been wor-ried as to their ability to collect taxes for ried as to their ability to collect taxes for the year 1903. The town was incorporated last April, and the County Assessor in making up his rolls had returned no property as being in the incorporated City of Newport, as it was not an organization prior to March I. The Auditor has since then been in a quandary as to whether he should now go to work and change the rolls and extend the Newport levy for 1905.

The question was finally referred to the State Auditor, who asked the Attorney-Gederal for his opinion. In answering the question the Attorney-General says: "The County Assessor should have noted

on the assessment rolls the fact that the property which fell in the corporate limits was situated in the town of Newport. There was ample time to have done this because the rolls were not turned over to the Auditor by the Assessor until the first Monday of August. This omission ought not to prevent the town from exercicity the total to be the total to the total transfer. cising its right to levy a tax. From the records establishing the boundaries of the town the Auditor can readily ascertain what property is situated therein and ex-tend the tax as provided by law."

WHISTLER'S PARTY INVESTIGAT-ING RESERVOIR SITES.

In Country North of Malheur Lake-Union County Citizens Appeal for Water Supply.

HARNEY, Or., Oct. 15.—The field party of the Geological Survey in Oregon, under the direction of John T. Whistler, district engineer, consisting of M. D. Williams and Frederick C. Huber, is continuing the de velopment of topography of irrigable lands in Harney Valley. Fomething over one-half of the valley north of Malheur Lake has now been covered. It is estimated that the work can be completed by De-

Another field party, consisting of Her-bert D. Newell and Edmund I. Davis, is investigating an additional reservoir site on Lower Bully Creek and one on Upper Willow Creek. The Willow Creek reservoir site is being studied with a view of ascertaining the possibility of covering certan lands on the west side of Upper

Willow Creek Valley.

The work on the Umatilla project has been in charge of Thomas B. White and a party of four assistants. After a full examination of the reservoir site, the canal line to Umatilla River will be taken

up, topographic work being carried on at the same time.

A representative body of citizens of Union County, Oregon, has presented to the Chief Engineer of the United States Geological Survey a statement of the ex-isting conditions in that county, accom-panied with a request that investigations and surveys be made of certain reservoir sites and of the possibilities of develop-ing an underground water supply by means of artesian wells. The petition asserts that Union County contains more than 100,000 acres of fertile irrigable land, and that the present water supply dur-ing the two months of low water suffices to irrigate only about 1000 acres.

Under the present conditions there can be no material development of the natural resources of this county, and the peti-tioners request early action on the part of the Survey. It is claimed that the natural flow of the Grand Ronde River has of late years been decreasing until there is not enough water during July and August to supply the existing rights, the lack of water seriously endangering orchards already planted and the gardens and farms already established,

The petitioners assert that there is suf-ficient flood water now going to waste which if stored would irrigate the whole valley, and that there are excellent sites for reservoirs. An early examination of the situation on the Grand Ronde River in this section has been ordered by the Chief

MARION A WEALTRY COUNTY. Resources to Run a Year Without

n Tax Levy. SALEM, Or., Oct. 15.—(Special.)—"I think old Marion is in better financial condition than any other county in the state," said County Clerk J. W. Rowland this afternoon, as he signed his name to his semiannual account. The account shows that Marion County is not only out of debt, but has resources enough to carry it another year without another county

The expenditures for the jast six months amounted to \$47.695, and for the preceding six months \$50,391, or \$78,685 for 12 months. Of this sum, \$33,000, or nearly half, was for roads and highways. There is now in the county treasury \$65,466 in cash, and there is due on the 1902 assessment roll \$24,000, of which a large part has already been collected and is in the hands of the Sheriff. Amounts due on previous assess-ment rolls bring the total resources up to

nearly \$125,000. Some of the back taxes cannot be col-lected, but enough of them are good to make the financial assets of the county Alaska.

PRUNES IN POOR DEMAND. Association Holds Price Up to Two

sand One-Haif Cents.

SALEM, Oct. 15.—(Special.)—Duliness and uncertainty prevail in the prune market. The greater portion of the crop in this vicinity has been harvested and by the middle of next week all the growers in the hill country south of Salem will have their prunes cured. The yield has been large and the quality is first class. The prunes are rich in sugar, of excellent flavor and of unusually good texture. The dried fruit this year shows no "bloaters" such as are found some years. The crop having turned out better than was expected, the growers have nothing now to and One-Half Cents. expected, the growers have nothing now to trouble them but selling the crop.

It is estimated that the Oregon crop, including that of Clark County, Washington, will amount to about 1000 carloads, Of this quantity probably a little more than one-third has been sold at prices ranging from 4 to 445 cents for the 40 to 50 to the pound size. The sales at the high-er price were made early and recently a cents for 40s, or a 2%-cent basis, has prevailed. Lower prices have been made by a number of dealers. A little less than one-third of the entire crop will pass through the hands of the Willamette Valley Pruns Association. Valley Prune Association, the Umpqua Valley Association and the Clark County Association and individual dealers who are at present holding for a 14-cent basis price. It is estimated that more than a price. It is estimated that more than a third of the crop is unsold and in the hands of growers who are not identified with associations and who are looking for a chance to sell at the best price they

The situation seems to be that Eastern dealers have not shown much interest in prunes and the market has been quiet thus far. Association fruit has been held at a 25-cent basis price. In the meantime outsiders have been selling for less and of late there has been a slower thank for compared to the second halfs of the second sale for prunes at the 2½-cent basis. An oc-casional car is sold at that price. The question before the association is whether to continue to hold at 2½ cents until the weaker growers have finished selling, in the belief that the market will then stiffen a little, or to drop the price to 2%

cents basis.

The Willamette Valley, Umpqua Valley and Clark County Associations are acting together. At the last conference on the subject it was decided that the association price shall be maintained. the supply of fruit in the world, and the prices being demanded in California, warrant Oregon growers in holding for a 2½cent basis price. A large majority of the Santa Clara Valley growers, in Califor-nia, are holding for a 3-cent basis price, though some sales have been made at 2%

in the price of association prunes, though the sales committee may act at any time. Shipments of prunes shipments of prines are being made daily from the Williamette Valley Association and the Tillson & Co. packing plants in this city.
