Chamberlain Reaches Washington on Land Mission.

WILL SEE HITCHCOCK TODAY

Governor Will Pay Especial Attention of Lieu Selections, but Affairs of State in General Will Be Thoroughly Discussed.

OREGONIAN NEWS BUREAU, Washington, D. C., Oct. 19 .- Governor Chamberlain, of Oregon, reached Washington late last night, and at 3 o'clock tomorrow afternoon will have a conference with Secretary Hitchcock, of the Interior Department, at which he will take up the matter of State lieu land selections and public land affairs in Oregon in gen-The Governor heartily approves the campaign that is being waged by Secretary Hitchcock against land speculators and corporations that are grabbing up the public domain to the exclugion of bona-fide settlers, and intends to tell the Secretary he will do everything in his power as Governor to assist in earrying on the campaign against land sharks, and to bring about an honest land administration in his State.

On his way to Washington, Govern Chamberlain stopped with friends in Baltimore and in Maryland. He devoted his time today to the meeting of the Supreme Council of the Scottish Rite Ma-

LAND REFORMS UP TO CONGRESS. Roosevelt Will Touch but Lightly on Subject in His Message,

OREGONIAN NEWS BUREAU, Washington, D. C., Oct. 19.-President Roosevelt, in his annual message to Congress will touch but lightly on the subject of reform in the public land laws, but will go to the extent of favoring such modifications in the statutes as will more effectively safeguard the rights of bonafide settlers, and tend to curtail the operations of corporations and speculators. He will not indorse any particular plan of reform. Considerable pressure is even now being brought to bear to secure the President's approval of various reform measures, but without success. He will allow Congress to frame such reform logislation as it may deem best.

Senator Hansbrough, chairman of the Senate Public Lands Committee, is arming for a fight in defense of the commuta tion clause of the homestead act, but advocates radical modification of the timber and stone and desert land acts. Other prominent Westerners will advocate a general revision of all land laws. and the great diversity of opinion will no doubt result in compromise legislation, so far as the repeal of the timber and stone act is concerned.

Land Commissioner Richards generally indorses the ideas of Senator Hansbrough, and says he will favorably report upon any bill which provides for the sale of timber on unreserved public lands at not less than its appraised value, sales to be made at public auction. This pian will insure the Governbe taken up by entrymen. Such a law would cut off the operations of timber

timber from the public domain as needed. to indorse a bill for repeal of the com mutation clause of the homestead act, for it is under this act that thousands of acres are each year acquired by speculators and corporations, in violation of the spirit and the letter of the law,

Senator Hansbrough will meet a very determined opposition when he undertakes to prevent the repeal of the commutation homestead law.

PUGET SOUND FARES BADLY,

Navy-Yard Asked for \$2,955,000-

Only \$340,966 Is Recommended. OREGONIAN NEWS BUREAU, Washington, D. C., Oct. 19.-The Navy Department is not very liberal in its treatment of the Puget Sound Navy-yard, in its table of estimates made public to day. Where the commandant of the yard had asked for a total appropriation of \$2,955,000 at the coming session, the Secretary recommends an appropriation of only \$340,956. The vast difference between the two recommendations is explained by the fact that the Secretary floes not recommend the purchase of additional land for the yard, for reasons heretofore stated, and consequently does not recommend a new drydock, or the construction of other new buildings asked for by Commandant Barclay. The itemized estimates of Secretary Moody are

"BROWN" ARMY MEETS DEFEAT, Blues" Invade Its Territory, and

Keep Steadily on Their Way. FORT RILEY, Kan., Oct. 19.-The wa maneuvers of today comprised two dis-tinct affairs. In the first, Colonel Duncan, of the Sixth Infantry, with a batalry, composing a "blue" force, crossed the Republican River and invaded terri-tory belonging to the "browns." A force of the "browns," under the command of Lieutenant - Colonel Kingsbury, of the Eighth Cavalry, attacked the "blues" as soon as Colonel Duncan turned back, his force becoming the rear guard of an im-aginary army that had gone before. Colonel Duncan, however, kept steadily on his way, and although his "losses" were considerable because of the preponderating fire of the "browns" brought against him, managed to reach his camp without being cut off. He fought vigorously and damaged the "browns" badly. The second exercise was exactly simi-

lar, the rear guard being commanded by Colonel Jacob Kline, of the Twenty-firs Infantry, and the pursuers by Lieutenant Colonel Stever, of the Adjutant-General's

The weather was ideal throughout, and

the exercises were considered by umpires to be a great success. The National Guardsmen will not be taken into the actual work of the man-euvers for two or three days. Tomorrow

they will be drilled along the Pawnee flats and marched up and down the steep hills to got them into good form. BIG SAVING TO GOVERNMENT, Contracts Are Let for Numerou

Money Order Blanks. WASHINGTON, Oct. 19.—The contracts for furnishing printing and blanks for the ency-order system, except the forms emselves, for the next four years, have been awarded to 14 bidders, who bid for various, items. The aggregate involved is \$200,000. The first bids opened June 20 last, bore evidence of a combination, and \$50,000 for the four years. The contract for the money-order forms, awarded some months ago, saved \$50,000 for the four years over the old contract total aggregate saving of \$101,000 effected by the new contracts for money order

Ships Are Probably Crutaing Off the Coast of Corea-Negotiations at a Standstill.

PEKIN. Oct. 19 .- Like other cities in the far East, Pekin is perplexed by the reports from various points of events por tending a Busso-Japanese war. Most of these reports on investigation prove to be unfounded. The opinion prevails here that Russia proposes to hold all she has gained in Manchuria, and refrain for the present from further advances into Corea It is also believed that Russia is con-vinced that no nation, except Japan thinks of contesting her position, and, having assembled a fleet and army which she considers strong enough to repel any Japanese attack, she is awaiting devel-

opments in Japan's policy.

The majority of the Russian ships have left Port Arthur since the maneuvers for an unknown destination, but it is supposed that some of them are cruising on the shores of Corea, watching Ma-San-Pho and other ports. AMERICAN INTERESTS ARE SAFE.

COLORADO SPRINGS, Colo., Oct. 19. Hon. Horace N. Allen, United States Minister to Corea, who has been in that country for 18 years, and who is coute to the Orient, spent the day Colorado Springs. He left Seoul last Spring, crossed Russia by the Trans-Siberian Railway and spent the Summer in Europe and the United States. garding the political situation in the Far East, Mr. Allen said:

"As regards the negotiations that are now being carried on by Russia, China and Japan, I, of course, do not care to be quoted. Our position is that of a neutral friend to each, and they all three feel very friendly toward the United States. However the matter may be decided, it seems it will not be to the disadvantage of America. Many of the press telegrams we see in the news-papers here show unmistakable signs of inaccuracy and sensationalism in dealing with the present Oriental situation, and it is a good plan to await confirma-tion before forming conclusions upon

"During the year past Russia has t gun to operate a timber concession, said to embrace most of the northern fron-tier of Corea. In the operation of this concession, the Russian concessionaires have run counter to the interest of cer-tain Japanese, who held similar agreements with local magistrates. It is thought this concession may lead to

"As to the port of Masampho, on the south ceast of Corea, near Japan, which has been a bone of contention between Russia and Japan for some time, it is true that Russia has obtained from Corea the allotment of ground for a special Russian settlement and coaling station, but this was offset and practical ly nullified later on by a similar allot-ment granted to Japan. Any attempt of either power to occupy these settle-ments in a military way would doubt-less lead to serious difficulties.

"I have been impressed by the fact that by the expenditure of the \$30,000,000

in the construction of the Siberian Rall-way and cities, and the suppression of the Manchurian bandits who had for merly made it impossible for the people to market their produce, Russia has brought order into this immense agricultural region of Manchuria and has thereby made possible an extensive, growing trade. It per cent of which new comes from the United States. This shows that Manchuria is a splendid and growing field for American commerce While at Port Arthur, although that

is not a commercial port, I saw two steamers unloading, one a cargo of American beer, and the other a cargo of American flour. My observations led me to the conclusion that the imports of Russia were largely composed of vodka, the native drink. Russia is not a manufacturing country, and therefore re-ceives its manufactured products very largely from other nations. The Russians with whom I talked all expressed themselves as very favorable to Americap commercial enterprises.

DENVER, Oct. 19.-Colonel Roswell Eaton Goodell, president of the Denver Stock Exchange, died at his home in Denver this afternoon of Bright's dis-With the exception of one daughtralia, all the members of his family were

at his bedside. Colonel Goodell was born in Connecticut in 1827, and when a boy accompanied his parents to Illinois. At the age of 15 he was Postmaster of Ottaws, Ill. When mployed as secretary of the Board of ommissioners to investigate a claim of the Illinois & Michigan Canal Company against the state, he met Abraham Lin-coln, who was also on the board. Although Mr. Goodell was a Democrat, Mr. Lincoln asked him to run for Secretary of State on the Republican ticket. He

did so, and was elected.

Later he became cashler of the Merchants' & Drovers' Bank, of Joilet, and from there went to Chicago as a director of the Fourth National Bank. He was also treasurer of the Chicago & Alton Railroad, and the Pullman cars were first used through his efforts.

He enlisted and served through the en-tire Mexican War and at the time of the breaking out of the Civil War organized the Twentieth Illinois Infantry. It was through this that he received his title as Coionel, although he did not enter the service, owing to financial reverses which made it impossible. In 1878 Colonel Goodell came to Leadville, where he hoped to retrieve his fortunes, which were swept away by fire. He lived in Leadville for 12 years, and during this time was engaged in mining and investing capital for
