the currency committee be continued, that its report be referred back, and that it act with similar committees from the various states, to follow all proposed legislation introduced in Congress affecting the present banking laws and to take such action as they may deem best. The substitute was overwhelmingly defeated, and the resolution of the executive council adopted. Hon, Ellis Roberts, Treasurer of the United States, was greeted with enthustastic applause when he was introduced to deliver a speech on "The Effects of the Inflow of Gold," and he was even more heartily applauded when he had concluded. A vote of thanks also passed, testifying to the appreciation of the convention.
