#### CROWDED CARS JUMP TRACK.

Take Fire From Third Rail, and the Passengers Are Panic-Stricken.

NEW YORK, Oct. 24 .- A train composof two cars on the Kings County Elevated Structure, at the Brooklyn end of the bridge, jumped the track at the curve at 11:45 last night, narrowly escaped fallthird rail, and was partly consumed, with the flooring of the structure. Fifty pas-sengers were bruised by the joit and thrown into a panic by the blaze, and all rushed to the tracks, regardless of the

deadly third rail, and escaped.

The two cars, both moters, were crowded. They started on signal, forging ahead with more speed than is considered safe and immediately left the track on a curve within 10 feet of the platform, and crashed into a bumper outside the curve. Passengers were thrown from their seats and windows were broken. As the cars came to a standstill, a loud report resounded, and others, like musketry, followed. Simultaneously a sheet of flame shot into the air. Then a shower of sparks, mingled with tongues of blue fire, played around the cars, setting fire to the flooring and

sides and igniting the elevated structure.

The imprisoned passengers shricked in horror, and madly rushed to the rear door, which was closed. In a twinkling the door was shattered, and men and women poured out upon the platform and swarmed down upon ther cadbed, oblivious of the fact that death lay in the sputtering third rail. Luckily none of the frightened passengers touch it, and all escaped to the station platform, Mean-while the flames communicated by the third rail grew, and the fire engines were called out and eventually extinguished the

It was said that the departing members of the "host" had returned to Zion City because so many of the heads of departments had left their places there vacant.

Many members of the host received a severe shock today when they were informed by the railway companies that their tickets would have to be used during the early part of next week. # HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name-" Syrup of Figs"-or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Cc.-printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices,
