## STOCKS ARE STRONGER

WEEK OPENS WITH A GENERAL ADVANCE IN NEW YORK.

Speculation Centers in Amalgamated Copper, Which Rises 3 1-4---Railway Reports Unfavorable.

ors did not find much difficulty in bidding up prices today and their operations made up market. They met light offerings of stocks as prices advanced, but they attracted no as prices alyanced, but they attracted no outside following to speak of. Some buying by uncovered shorts was induced and this helped somewhat in the advance. In the occasional pauses in the professional operations on the advance, the market fell into an aimset stagmant condition, but yielded little. The closing was strong and not much below

ing, and in fact offered several doubtful factors. But traders were inclined to argue that the Fittsburg not only exercised an influence of their own, but they aroused a spirit of sus-pictous inquiry into banking and trust com-pany conditions as a whole. This makes it improbable that these conditions have any suprises in store in the banking world, and the operators in storks are encouraged from the operators in stocks are encouraged from this to feel a confidence that other failures would be with as little effect in Wail street as those which have already occurred. Specific reports of improved conditions at Pittsburg and Baltimore, also conduced to the feeling of

the admissions, now first made, in the weekly reviews of railroad traffic that the general traffic situation does not look so strong as it did a month ago. This is in strong contrast

Today's speculation centered in Amagamates Copper, which rose an extreme 3%. The ad-vance was based on much the same kind of argument as that in other stocks, namely, that the harm from the Montana litigation was dis-counted in the previous decline in the stock. Reported efforts to compromise the copper quarrel were also an element in the tradingand it was argued also that the jump in the price of raw copper, which has resulted directly from the close down of operations by the Amaigamated properties, might yield a handsome profit on that company's accumulated stocks.

TROOPS "FIGHT FOR LIFE." War Game at Fort Riley Develops Into a Spirited Contest.

FORT RILEY, Kan., Oct. 26.-Colonel Stever, of the Fourth Cavalry, who has proven several times during the present series of maneuvers the dashing work he can do at the head of his troops, was given a chance today to show his ability when compelled to hang on and fight for his life. He was given command of a small force defending Fort Riley against superior numbers under General Carr. and ordered to hold his place at all hazards. Colonel Stever's position at Fort Riley was by the terms of the military problem made vital to the Blue forces, in order that a junction might be made by it with

a hypothetical main force.

General Carr's force was designed to prevent the junction of the two Blue armies, and in order to prevent this his object was to carry the position at Fort Riley by assault. The problem, which was carefully arranged by Colonel Wagner, the umpire, resulted in a spirited contest on the hills back of Fort Riley and was highly successful. was highly successful. One of these contained, it is said, news which broke his self-imposed secluout explaining the mystery.
