The most interesting contests in the East are the state elections in Maryland and Rhode Island, and the municipal and county contests in New York City. Massachusetts will choose a full state ticket. All the Republican candidates were renominated. Bates besides having been Governor this year, was previously Lieutenant-Governor for three years. The Brooklyn organization indersed McClellan, but at first refused to include Grout for Controller and Fornes for President of the Board of Aldermen in its res olution ratifying the ticket because they had been the Fusion nominees, having been dropped by the Fusionists when the Democrats indorsed them. Hugh Mc-Laughlin declared these men were no Democrats and he would not support them. A fight in their behalf was made, however, by State Senator Patrick H. McCarren/ and, at his request, a meeting of the Kings County committee was called to consider a resolution proposed by Mo-Carren declaring for the entire Democratic ticket, including Grout and Fornes. This resolution was lost by a vote of 141 to 148, but the subject was referred to a nmittee of 15, and this committee, after several days' consideration, met and adopted a resolution pledging support to Grout and Fornes.

At first, it was believed that Huch Mc-Laughlin, the veteran leader of the Kings County Democrats, had approved the action of the committee of 15, but the following day, he made a long statement in which he declared his continued opposition to Tammany Hall. After the meet-ing of the committee of 15, Mr. McCarren took charge of the Democratic campaign in Kings County. The places of Grout and Forness on the Fusion ticket were taken by Heinreich and McGuire respec-

Liveliest Contest in West.

In the West the livellest contest is in Ohio where Myron T. Herrick and Tom L. Johnson, both of Cleveland, are the leaders of the Republican and Democratic ticket, and Marcus A. Hunna and John H. Clark are struggling for members of the Legislature which will elect a United States Senator.

In Iowa, Albert B. Cummins is making his second race for Governor, his opponent being Jeremiah B. Sullivan, who is depending on the Democratic vote, the Populists having their own state ticket in the field.

Governor Beckham is seeking re-election in Kentucky, the Republican candidate being Morris B. Belknap, who is making an active canvass.

The Democrats will have a walk-over in Missippii, neither the Republicans nor any other opposition party having put a ticket in the field. The contest in Nebraska is for a Justice

crats and Populists fusing on John D. Sullivan. Two Regents of the State University are also to be chosen. In Colorado the Democrats made a

straight nomination for Judge of the Supreme Court, the Populists putting up one of their own party. The fight for municipal control of San Francisco and Salt Lake, particularly the former, is very warm.

NEW YORK, Oct. 26 .- If the plans of the opposing managers do not miscarry, this, the closing week of the municipal campaign in Greater New York, will outstrip anything of the kind hitherto seen

There will be several thousand meetings held in the five boroughs by midnight of Saturday. There will be 690 Democratic meetings in Brooklyn borough aione. The fusionists have hired for Sat-urday night every hall south of Four-teenth street and east of Broadway. Several automobiles will start with fusion spellbinders tomorrow night and continue

Peasant Girl Appears in Court at Berlin, and Declares the Child in Dispute Is Her Offspring.

BERLIN, Oct. 26.-The trial of Countess Isabella Wescroka Kwilecki, belonging to a rich and aristocratic Polish family, on the charge of pretending to have born a son over six years ago, and presenting him as heir to an estate at Weoblewe, Province of Posen, consisting of 10,000 acres and having a yearly rent roll to-taling \$15,000, began here today. Count Kwiiceki appears at the trial charged with being an accessory to the crime. The Countess was arrested January 22 of the present year, and the Count was taken into custody August 5. One mid-

wife and two women servants were also placed in the box as accessories. The morning train from Posen brought about 250 witnesses, mostly Polish peas-ants, who made a motley crowd in the courtroom, owing to the variegated col-ors of their dresses and headgear and the crying babies in the arms of many of Countess Kwilecki is defended by l leading Polish lawyers. Very great interest is manifested in the case here, as the accused Countess and Count are well known in the higher aristocratic circles of Berlin, She was born in March, 1846, married the Count in 1864, and bore him three children, the last in 1879. Then the Countess and Count Kwilecki allege the latter gave birth to the son who is the

cause of the recent proceedings.

This son is said to have been born January 27, 1897. The prosecution alleges that the latter is the son of a peasant girl of Parcz, in Austrian Silesia, who is pres-ent as a witness and as claimant for the

She was un-able to give satisfactory explanations of many questions and some damaging facts were brought out, including that when the Countess came to Berlin to await her accouchment she said she did so be-cause she could get better medical attention here, but she did not call in a physician and employed a midwife. The Countess, it was also shown by the testi-mony, intended going abroad for ac-couchment and only refrained from so doing by representations being made to

her that the collateral heirs of the estate would suspect her.

Another point brought out today was that the Countess refused to see the fam-tly physician when he came from Posen to Berlin to attend her, and she also de-clined to permit him to see the child's

Plano Buyers—We are going to talk to-day particularly to those ouyers who have either an old organ or plano to exchange in part payment for the new instrument. The information and advice we are going to give you is for your benefit solely— does not affect our pocketbook in the least

to give you is for your benefit solely—does not affect our pocketbook in the least.

Now, the first thing you do is to wonder how much you are to be allowed for your old instrument. You go from store to store in quest of bids and you smile with approval on the man who offers you the most for your dear old square. Btop right where you are, for you have made the most common of all plano mistakes. In the first place remember that all the love and reminiscences you have bound up in that old organ or plano do not affect its market value in the least, Your old instrument is worth just what it can be sold for, and not a dollar more.

Now, when a dealer sells you a plano he figures that he must get just so much out of the deal to make a certain profit. Although he knows he can get but &e for your old plano he has agreed to allow you ties, or more for it. Now, if he takes your old instrument in at ties and sells it for \$50, who stands this loss of the \$50. You don't suppose the dealer does, do you? Well, he hasn't; he has simply raised the price of the new plano \$50.

Buyers, what matters it what the dealer SAYS he is allowing you? He might charge you \$400 for your old one, or he might charge you \$400 for your old one, or he might charge the figures to \$500 for the new one, allowing but \$100 for the old one, the result is the same. In either case the difference you have to pay is the same—\$500.

Now, what you want to do is to not be hypnotized by the large amount you think you are getting for the old plano. The point you want to keep your eye on is the DIFFERENCE you have to pay in money. That will tell the whole story.

When a dealer flatters up your old plano and has a special place for it and offers you more for it than your better judgment tells you it is marketable for, drop him. Drop him like a hot cake, for he is lying to you. Be sensible. Be reasonable. Don't let your affection for the old plano blind you to the truth that it isn't the sweetest toned thing in the world. Don't think because father paid \$150 for the old organ 20 years a go it must be worth half that now. Why, bless your hearts, you can buy a new one for \$50. Yes, even less. Remember that old square planos rarely; yes, very rarely, bring over \$15 now.

Common sense, Plano Buyers, common sense is what we are preaching. If a man should come to your door and offer you wouldn't buy them. You would think there was something wrong with them, wouldn't buy. Well, there would be at that price.

Does not the same thing hold good in Now, what you want to do is to not b

wouldn't you? Well, there would be at that price.

Does not the same thing hold good in a plano deal? If a dealer offers to sell you a plano and take as \$100 of his payment an organ worth only \$50 would you consider the deal above suspicion?

Now, Plano Buyers, we do it the honest way or we don't sell you a plano. The fact of your old plano counting in the deal does not alter our lowest retail price one dollar. We do it the honest way. We sell you a good upright plano for just what it is worth and allow you for your old instrument every dollar we can sell it forno more, no less.

If you are bound to be deceived in the matter of your purchase you will have to hint up a house valuing your money and your old instrument more than its business honor. There is a right way and a wrong way. Which will it be?

Yours truly,

Allen & Gilbert-Ramaker Co.
