MEMPHIS, Tenn., Oct. 27.-Dan Patch (1:55%) within 45 minutes elapsed time, this afternoon smashed two world's records in succession on the track of the Memphis Trotting Association. First, he went against the world's half-mile pacing record of  $570_2$  seconds, held by Prince Alert, and clipped a second and a half from the record, pacing the distance in onds fist.

Next he hung out a world's record for a mile pacing to a wagon, making the mile in 1:57%, two seconds better than the time of 1:55%, which he made at the recent meeting on the Lexington, Ky., track, the world's record until this after-

Major Delmar, E. E. Smathers' two-minute trotter, was also sent to lower his own record and won. He cut a quarter of a second from the two-minute mark, making the mile in 1:55%. The quarter was made in 30 seconds, the half in 1:00 and

the three quarters in 1:29%.
In making the half-mile pace against time, Driver Myron McHenry started from the wire and breezed Dan Patch around to within a short distance of the halfmile pole, where two runners to sulkles were picked up, the forward sulky carrying the customary canvas dust strip. three horses swept by the pole and Mc-Henry gave the signal that the trial was a go. The quarter was made in 25% sec-onds, and the pacer dashed under the wire with the hands of the timers' watches sharp on the mark of 56 seconds.

Great Enthusiasm of Crowd. The demonstration from the grandstand

was quite as enthusiastic as that which was given Dan Patch when he set the pacing mile record of 1:56%, and that to Lou Dillon when she trotted a mile in 1:58%, but it and the other noisy ac-clamations of the new champions were all emphasized by the enthusiasm of the spectators when Dan Patch came upon the track again, this time to set a new

agon mark for the mile. With a few preliminary breezings b fore the grandstand the start was made with two runners as pacers. The quarter was made in 0:20%, the half in 0:58%, and the three-quarters in 1:28. Under the wire the champion pacer hashed in 1:57%, show-ing little effect from having smashed two records in a single afternoon. The pacer was driven by McHenry.

The rabbits of that section have become so numerous that they have destroyed all the crops. The farmers and sheepmen have decided that the only way to have either wheat or pasture is to de stroy the rabbits. It is expected that at least 2500 will be captured. The majority of the catch will go to the Portland market or the Echo Canning Company.

The newspapers here regard the situn-

Following the announcement made here yesterday that the Corean Government had protested against the Russian fortification of Yongampho, on the Yalu River, official advices received at Tokio tend to con firm the report that the Russians have fortified that place. This may lead to important developments, as the fortifiac tion of Yongampho would be an infringe-ment on Corean integrity.

MORLEY WILL BRING HOLLINGS. WORTH CASE TO AN ISSUE.

Los Angeles Manager Tries His Bluffing Tactics on the Browns, but Will Be Called.

Jim Morley, owner of the Los Angeles team, through Captain Dillon, has thrown down the gauntiet to the management of the Browns and says that the Los Angeies team will contest every game that Hollingsworth takes part in and that the clever little shortstop will not be allowed on the Los Angeles grounds. Evidently Morley thinks that the league is a one-man affair and that all be (Morley) has to do is to pull the strings and the rest of the magnates, being mere puppets, will jump and kotow to him This idea may be concealed somewhere in his brain, but in this bit of rumpus he is kicking up Morley may have started somethin

that he cannot carry through.

Moriey has acquired the bluffing habit until he has carried it to absurd ex-tremes. He has pulled off so many bluffs in Los Angeles that he has an idea that he can work the same game with the Northern end of the league, but "his" is coming and when he butts into Fred Ely and one or two of our fighting di-rectors his ship will sail. Hollingsworth did jump Morley, he may have done many things which others would not, but since he joined the Portland Browns he has behaved himself and has played brilliant

so "groggy" that Corbett refused to con-tinue the fighting and was awarded the

decision.

Although Murphy, besides evading many of Corbett's blows, landed frequently, his punches had but little weight behind them and Corbett scarcely noticed them.
Through the first five or six rounds there was practically little difference in the skill displayed by the competitors. In the tenth Murphy had the better of it. In the lith round Corbett started in to get the decision and rushed the battle from the start. At the end of a minute he landed a solar plexus blow on Murphy and followed it up with a left to the chin, sending the New Yorker to the floor until the referee counted nine. Murphy arose to continue the battle, but was too groggy. Corbett landed another left on the chin. Murphy went across the ropes and lay there for another count of nine. He got up before being counted out, but Corbett, noticing his condition, refused to continue the fighting and the decision was given to the Denver man. Murphy then fell his length on the floor. and Corbett picked him up and carried

terest Los Angeles fans. This is not so, for they are as good as any team in the

league. The real reason for the slump in

the Los Angeles attendance is not the unpopularity of the visiting teams, but

it is too much Morley. The fans of that city are tired of his bluffing rule. He is

Johnson timed his rushes and met him with terrific lefts straight on the nose and mouth, alternating with right appearants that seldom falled to land. Before five rounds had passed McVey's face was badly cut, his mouth swollen to twice its normal size and his nose bloody. Johnson outfought his heavier opponent every mix-up and twice fought him to on the body. "THE OLD SCRATCH."

How the Evil One Came to Be Popularly Known as "The Old Scratch." One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable that people thought it no worse than the evil one. A scalp full of dandruff keeps one scratching all the time; not only disagreeable, but considered very inelegant in polite society—as it should be—because one ought to keep the scalp so clean that it would not lich. To cure the scalp of dandruff effectively, use Newbro's Herpicide. It kills the germ that creates the dandruff, which is preliminary to falling hair, and, finally, baldness. IS YOUR STOMACH ON A STRIKE?

There is Nothing to Prevent You Employing a Substitute to Do Its Work.

There is such a thing as forbearance easing to be a virtue even in the case of one's stomach. There is no question but that some stomachs will stand a great deal more wear and tear and abuse than others, but they all have their limit, and when that limit is reached, the stomach must be reckoned with as sure as fate. The best way, and really the only effec-tive way, to treat your stomach when it rebels is to employ a substitute to do its work. This will give the weakened and worn-out organ an opportunity to rest and regain its strength and health.

Stuart's Dyspepsia Tablets relieve the stomach of its work by taking up the work and doing it just as one set or shift of workmen relieves another. They actually digest the food in just the same manner and just the same time as the digestive fluids of a sound stomach do. In fact, when dissolved in the stomach, they are digestive fluids, for they contain exactly the same constituents and elements as the gastric juice and other digestive fluids of the stomach. No matter what the condition of the stomach is, their work is just the same. They work in their own natural way, without regard to

surrounding conditions.

The stomach being thus relieved by Stuart's Dyspepsia Tablets, is restored and renewed by Nature, and the rest of the human body does not suffer in the least by reason of its failure to perform its work.

A Wisconsin man says: "I suffered the A wisconsin man says: I suitered the pangs of dyspepsia for ten years.
