

FLOP TO SCHMITZ

San Francisco Has a Change in Sentiment

BETTING IS TWO TO ONE

Other Mayorality Candidates Are Not Alarmed.

SAY LANDSLIDE IS IMAGINARY

Crocker, Republican, is in Second Place, While the Stock of Lane, Democrat, is Quoted at One to Five.

Table with 2 columns: Candidate Name and Vote Count. Includes Schmitz (Union-Labor), Wells (Republican), Tobin (Democrat), Ames (Socialist), O'Donnell (Independent).

SAN FRANCISCO, Nov. 2.—(Special.)—Popular sentiment has undergone a remarkable change within the last 48 hours in regard to the outcome of the election tomorrow. Up to Sunday morning Henry J. Crocker, the Republican candidate for Mayor, was a slight favorite in the betting, with Eugene E. Schmitz, the Union Labor candidate, next, and Franklin K. Lane, the Democratic nominee, a bad third.

At campaign headquarters the Lane and Crocker managers says the landslide to Schmitz is imaginary. The total registration is 70,000, but a vote of only 50,000 is predicted, due to change of residence at too late a date for transference.

At Crocker's headquarters the following statement was made tonight: "This year the Republican party is practically harmonious and united, and Crocker ought to poll 30,000 to 35,000 votes. With 20,000 in the three-cornered fight he will win. In 1898, when Charles L. Patton ran as the Republican nominee for Mayor, he received nearly 35,000, although Patton's chances before the election were not nearly as bright as those of Crocker."

At Lane headquarters it is stated that during the day 5000 votes have been drawn from Crocker. In explanation of this it is said that the large number of voters who take for their motto, "Anybody to beat Schmitz," and who were for Crocker, now believe Lane is the only hope. Lane's inside men stated tonight:

"The Primary League has left Crocker for Schmitz, the Mutual Alliance left him for Lane, and besides these two great defections he has lost thousands of independent Republicans who belong to no faction and will support Lane for the sole reason that he is the best qualified to beat Schmitz. On top of all this there is defection of William F. Herrin, counsel for the Southern Pacific Company and the Spring Valley water company. Herrin has gone over to the Schmitz camp, and with him has gone from Crocker the support of two big corporations that were expected greatly to aid Crocker. Lane himself said today:

"If you subtract from the normal Republican vote the Republican Union Labor vote and the personal following of Colonel Dan Burns, Martin Kelly and Abraham Ruef, the vote left to Mr. Crocker would be much less than that given Mr. Wells two years ago. Take from my vote for Governor, which was 25,000, a full 10,000, which is two-thirds of the total labor union vote cast two years ago, and there still remains 25,000, which is probably enough to elect me."

"All indications seems to be most favorable, and I should not be at all surprised to receive as high as 25,000 or 27,000 votes."

The immensity of the Schmitz machine has just come to light. It is deep-rooted in the tenderloin, in the City Hall, and on the water front. Every policeman, every fireman and every petty city official down to the janitors have been made parts of his big vote-collecting device. He counts upon a labor vote of 25,000, and an independent following of 10,000 additional, making a 35,000 total.

To Aid Navy in Making Guns. WASHINGTON, Nov. 2.—To aid the Navy in manufacturing the 915 guns necessary for the 25 battleships, armored and protected cruisers and gunboats now under construction or contracted for, Rear-Admiral Charles O'Neil, Chief of Ordnance, in his annual report, made public today, recommends that the Navy call for assistance on the Army gun factory at Waterville and on private concerns.

gun factory at a safe distance from Cavite, has been received at the Navy Department, and the Chief of Ordnance urges a sufficient appropriation for this purpose.

NEXT STEP IN ALASKA CASE. Negotiations Will Be Commenced For Survey of the Boundary.

WASHINGTON, Nov. 2.—John W. Foster, agent for the United States before the Alaskan Boundary Commission, has arrived in Washington, bringing the official text of the commission's findings and all the records of the American case. General Foster had an interview with Secretary Hay in further explanation of the actual results obtained in London and later in the day dined with the President.

Upon the delivery of the findings together with General Foster's own report within a few days, Secretary Hay will enter into negotiations with the British Government for the appointment of expert surveyors to mark the lines of the boundary as they have been described by the commission.

The findings of the commission, as they will be deposited in the State Department, bear the signature of the American Commissioners, Lord Alverstone and the American Secretary.

Contrary to the common impression, Canadian charts will be used as a basis of the survey work. It appears, according to General Foster, that the Canadians spent an enormous sum of money in the preparation of their case and the work of their cartographers, being very much more extensive and elaborate than that produced as part of the American case, was accepted by the commission as the standard. There are seven large charts of Canadian design in General Foster's hands awaiting filing in the department, each bearing the signature of the American Commission and Lord Alverstone, and these will constitute permanently the record of the boundary between Alaska and British Columbia.

NEEDS OF PUGET SOUND. Chief Endicott Recommends an Appropriation of \$140,000.

WASHINGTON, Nov. 2.—Rear-Admiral Endicott, Chief of the Bureau of Yards and Docks, in his annual report to the Secretary of the Navy, says several of the yards, especially those at New York and Norfolk, are becoming congested, owing to their limited area, and that unless some action is taken looking to their relief, their efficiency will become restricted.

The estimates for the coming fiscal year, it is explained, provide for continuing the work on drydocks at Charleston, for the New York yard, and the steel floating dock at Cavite, P. I., and that, with the exception of the estimate for the improvement of the water front at the New York yard, \$1,500,000, these are among the largest items for which estimates are submitted.

Attention is called to the need of more extensive accommodations for the storage of torpedo-boats. Admiral Endicott says a drydock of the largest capacity should be constructed at once at Pensacola, which yard, he believes, will be of absolute importance in the future. He adds that a new drydock ultimately will be required at the Puget Sound yard.

Among the proposed items for which estimates are submitted for the yards are the following:

Improving Island Channel in Mare Island Strait, \$140,000; electric plant extension, \$25,000; quay wall extension, \$40,000; locomotive crane and track, \$50,000. Estimates for the construction of two modern barracks for enlisted men to cost \$600,000 each are made, the sum of \$200,000 for each being stated as the amount required for expenditure for the fiscal year.

POSTAL SERVICE ESTIMATES.

Payne Asks for About \$15,000,000 More Than Last Appropriation.

WASHINGTON, Nov. 2.—Postmaster General Payne, in his estimates, forwarded to the Treasury for transmission to Congress, for appropriations needed during the fiscal year ending June 30, 1905, calls for an aggregate of \$168,085,770 for the postal service. The deficit for the year ending June 30, 1903, is estimated at \$8,613,706. The appropriation for the year ending June 30, 1904, was \$152,511,500, and the estimated revenue for that year is \$143,904,794. The estimate of the revenue for 1905 is \$159,455,965.

The total increase in account of city delivery service is \$1,571,750, and rural free delivery increase is \$1,512,750. The heaviest item is \$39,650,000 to roads for transportation of mail, an increase of \$1,450,000. Other important items included: Star route service, \$5,100,000; increase, \$1,000,000; compensation of postmasters, \$24,000,000, increase, \$2,500,000; pay letter carriers, \$20,721,250, increase, \$1,602,450; letter carriers and clerks in charge of rural stations, \$15,000,000, increase, \$1,000,000.

MORE BANK NOTES OUT.

Controller of Currency Reports Large Increase for the Year.

WASHINGTON, Nov. 2.—The monthly circulation statement issued by the Controller of the Currency shows that on October 31, 1903, the total circulation of National banknotes was \$19,500,000, an increase for the year of \$9,134,540, and a decrease for the month of \$315,852. The circulation based on United States bonds amounted to \$2,328,521, an increase for the year of \$2,867,322, and an increase for the month of \$1,136,367. The circulation secured by lawful money aggregated \$38,559,852, a decrease for the year of \$5,735,500, and a decrease for the month of \$1,950,548. The amount of United States registered bonds on deposit to secure circulating notes was \$282,926,590, and to secure public deposits \$188,259,365.

Trial for Hazing is Begun.

ANNAPOLIS, Md., Nov. 2.—The proceedings of the naval court-martial, called for the trial of the three "midshipmen of the first class, charged with hazing members of the fourth class, began today.

Deficit for October. WASHINGTON, Nov. 2.—The comparative statement of Government receipts and expenditures shows that for the month of October, 1903, the total receipts were \$46,963,213, and the expenditures \$51,901,478, leaving a deficit for the month of \$4,938,265.

The principal falling off in revenues was in customs, where the receipts were \$22,829,362, as against \$25,741,700 for October, 1902. Internal revenues show total receipts of \$23,833,851, an increase of about \$27,000.

To Teach Columbia a Lesson.

WASHINGTON, Nov. 2.—It was intimated at the State Department today that it might be a long time before United States Minister Beaupre returned to Panama, once he departs on his leave of absence. The inference is that the Minister will stay away as a sign of disapproval by our Government of the manner in which the canal treaty was disposed of.

A. G. Snyder, the secretary of legation, will remain at Bogota.

Beavers Admitted to Bail.

NEW YORK, Nov. 2.—George W. Beavers, the indicted ex-postal official, was informally committed by Commissioner Hitchcock today to the custody of the United States Marshal pending the action of the United States Circuit Judge on the warrant for the removal of Beavers to the jurisdiction of the Eastern district of New York for trial on the Brooklyn indictment. He was admitted by Judge Holt to \$5000 bond pending the court's decision.

Treasury Inspectors Complete Work. SAN JUAN PORTO RICO, Nov. 2.—The United States Treasury inspectors now at Ponce and Mayaguez will sail for home November 4 and report to Secretary Shaw the result of the investigation. The Federal Court continues to ignore the indictments against Captain Andrew Dunlap, commandant of the naval station here, and Robert Giles, a former contractor in Porto Rico, for smuggling.

Postal Fraud Cases Set for Trial.

WASHINGTON, Nov. 2.—The cases of W. H. Machen, Diller B. and Samuel Groff and George E. and Martha Lorenz, indicted on charges of conspiracy in connection with the sale of letter box fasteners to the Postoffice Department, were today set for trial on November 23 in Criminal Court No. 1 of the District of Columbia.

German Mail Steamer Wrecked.

LONDON, Nov. 2.—The German mail steamer Duisberg, says the Lisbon correspondent of the Morning Leader, has been wrecked in the fog near Lisbon. Many of her passengers were saved. She is now being assisted by salvage steamers.

Interest on Bonds to Cease.

WASHINGTON, Nov. 2.—Secretary Shaw has given notice that on February 2, 1904, interest will cease on such of the 5 per cent bonds of 1904 as may be out-
