Superintendent Turner had a wife and one child, a boy, who were living with him at the mine. Despite the fact that Superintendent Turner has been reported killed from the mine and the miners have given up all hope of ever seeing him alive again, W. B. Milliard, the general man-ager, seems confident that he will be found in some stope or winze where the smoke and gas cannot penetrate, and bases his confidence upon the thorough knowl-edge the former superintendent had of the underground workings of the mine.

The Alder Mining Company is now con-structing the most extensive mining plant in Southern Montana, and with all the new buildings, the plies of loose lumber and the dry wood and shavings every where it is a wonder that the whole plant was not consumed by the flames.

Presentiment of Death.

Turner was acknowledged as the leading authority on cyaniding in America. He was a member of the American Society of Mining Engineers. His father was formerly State Auditor of Colorado. Turner had forebodings that he would die before he was 35, as a brother, Frank Turner, met a violent death in Arizona some years ago, when just 35, and other members of the son, and is now being marketed. The family had been killed at that age. Tur- present owner bought this orchard two ner was within three months of 36, and his foreboding is realized.

Two more unidentified and frightfully mangled bodies were recovered from the Kearsargo mine this evening. The mine it, and this year, by the ald of irrigais now being flooded to quench the flames.

DEPRESSION IN PRUNE MARKET

War Between Santa Clara Growers

and Jobbers the Cause. SAN FRANCISCO, Nov. 5-(Special.)-Conflict of interests between the prune-growers and the jobbers of the Santa Clara Valley has caused a depression in the prune market of the West practically unprecedented, which may result in a panie in the fruit business.

Early in the season packers and jobbers took Eastern contracts for prones on a 1%-cent basis, attempting to fill them by buying Santa Clara County prunes at But the growers here refused 2% cents. to sell at that price. The jobbers were
