

SENATORS WIN

Philips Will Be Register at Vancouver.

NAME OF VAUGHN RECALLED

President Assures Washington Men It Was a Mistake.

HIS PROMISES WILL BE KEPT

Senators Are Gloating Over the Appointment Because They Are Convinced Hitchcock Tried to Name the New Official.

OREGONIAN NEWS BUREAU, Washington, Nov. 16.—There were unmistakable evidences of joy on the faces of Senators Foster and Ankeny today, when the President sent to the Senate the nomination of Hugh C. Phillips, of Goldendale, to be Register of the Land Office at Vancouver, Wash., and simultaneously withdrew the name of Frank E. Vaughn, who was last week nominated for the same office.

The Senators were determined to prevent Vaughn's confirmation, if his nomination had not been withdrawn, and in an interview with the President today were prepared to make this statement. The President, however, as soon as he was told that Vaughn had been nominated, said the name had gone to the Senate by mistake, and without his knowledge, and would be immediately recalled, which was done.

The President said he intended all along to live up to his promise made the Senators last Spring, that he would name the new Register at Vancouver when the Senate convened. He was promptly on his feet when the President said he intended all along to live up to his promise made the Senators last Spring, that he would name the new Register at Vancouver when the Senate convened. He was promptly on his feet when the President said he intended all along to live up to his promise made the Senators last Spring, that he would name the new Register at Vancouver when the Senate convened.

NEW LIU LAND BILL

Hermann Also Fathers Measure for Oregon City Building.

OREGONIAN NEWS BUREAU, Washington, Nov. 16.—In line with his belief, as repeatedly expressed in his annual reports, while Commissioner of the General Land Office, Congressman Hermann today introduced a bill to amend the Liu land exchange law by providing that wherever lands within forest reservations are relinquished to the government and other vacant surveyed public lands are taken in exchange therefor, the lands so selected must be of approximately the same character and the same value as the lands relinquished to the Government.

Mr. Hermann also introduced a bill authorizing the erection of a public building at Oregon City, to cost \$50,000; also a bill to ratify the treaty with the Klamath Indians, and to pay them \$357,000 for lands which they relinquish to the government under said treaty. The bill stipulates that \$250,000 out of this fund shall be placed to the credit of the Indians, in the treasury, and the remainder shall be allotted in severalty. All state lands in the reservation are duly protected.

Another bill which Mr. Hermann introduced proposes to grant each and every person who served not less than 14 days in the Indian war in Oregon and Washington and Idaho subsequent to March 31, 1855, and whose services were not paid for by the United States, shall be granted 150 acres of bounty land, the same as survivors of the Cayuse War have already been recognized.

He also introduced a bill establishing a life-saving station at the entrance of Tillamook Bay.

FOR OREGON LAND ENTRY MEN

Spooner Introduces the Bill Moody Got Through the House.

OREGONIAN NEWS BUREAU, Washington, Nov. 16.—Senator Spooner today introduced in the Senate the bill which Representative Moody had passed through the House last session, providing that all qualified homesteaders who, under order of the General Land Office of October 22, 1931, made settlement upon and improved any portion of the ordered sections within the conflicting limits of the Northern Pacific and The Dallas Military Wagon Road grant, in Eastern Oregon, and who were thereafter prevented, by decision of the Supreme Court from perfecting title to such lands, and were ultimately ousted, shall, in making final proof upon homestead entries made for other lands, be given credit for the period of their bona fide residence on the land or their improvement of the land for which they were unable to obtain title. In order to secure these benefits, however, such settlers must make entry within two years.

Senator Mitchell today introduced a bill providing for the sale of unsold portions of the Umatilla Indian Reservation.

SENATE PASSES ASTORIA BILL.

Estimate of Deepening of the Harbor Is Called For.

OREGONIAN NEWS BUREAU, Washington, Nov. 16.—The Senate today passed Senator Fulton's resolution calling upon the Secretary of War for a report and estimate for dredging and deepening Astoria harbor; Senator Foster's resolution calling for estimates for removing Starr rock from Bellingham Bay; for improving Chehalis River between Aberdeen and Montesano; for improving the harbor of South Bend.

Representative Jones today introduced a

bill authorizing the construction of a \$350,000 public building at Walla Walla.

Repealing Timber and Stone Act. OREGONIAN NEWS BUREAU, Washington, Nov. 16.—Senator Quarles, of Wisconsin, reintroduced his bill to repeal the timber and stone, desert land and homestead commutation laws. This bill, which was favorably reported to the Senate last session, provides no substitutes for the existing laws.

1905 Fair Bill Introduced. OREGONIAN NEWS BUREAU, Washington, Nov. 16.—Representative Williamson today introduced the Lewis and Clark Exposition Bill in the House in duplicate of the Mitchell-Sherman bill; also the bill for the relief of settlers in Sherman County.

IN AID OF FINANCE.

New Scheme to Increase the Circulation.

CHICAGO, Nov. 16.—Financier John Lambert, of this city, has what many men in public life pronounce a feasible scheme for increasing the country's circulation by about \$50,000,000. The plan is simple. It will require only a brief amendment of existing fiscal laws. For this reason it is not probable the idea will be submitted to Congress during the present session. Several prominent members of both Houses have discussed the project with Mr. Lambert, and have expressed themselves in favor of it.

Condensed in a sentence, Mr. Lambert would have each National Bank take out in actual circulation not less than eight-tenths of its capital stock and empower the Secretary of the Treasury to deposit in the National institutions all revenues over and above a fair working balance. Before Mr. Lambert's New York office in Washington, where he will confer with financiers and members of the National Legislature, Mr. Lambert commented on his financial plan as follows:

"To my mind, there are too many banks doing business with practically no circulation. On September 3, the date of the last year's report, the assets of the National Banks totaled \$70,723,000. Against this there was a circulation of only \$75,000,000. The banks should furnish good state, county and city bonds, mortgages, such as would be approved by a competent commissioner or by large insurance companies for trust investment.

"The government, of course, should have a first lien on all the assets of the bank, in case of insolvency. My scheme would add approximately \$30,000,000 to the circulation and increase the total by \$50,000,000."

Publishers Are Bankrupt.

CHICAGO, Nov. 16.—Bankruptcy proceedings against the Hennessey Company, publishers, were started in the United States District Court Saturday, and the matter was kept secret until today. The Equitable Trust Company has taken over the assets of the concern. Liabilities of the corporation were not stated in the petition, although the assets were placed at \$150,000.

BANK CASHIER ENDS LIFE.

Deed Committed on Hearing His Employer Was Dead.

CHARLESTON, S. C., Nov. 16.—Colonel E. M. Boyken, president of the Farmers and Merchants Bank, of Camden, S. C., accidentally shot and killed himself today while in the act of signing a check. The check was for \$100,000. The condition of the bank is not known.

CHOYNSKI FIGHTS TO A DRAW

Californian Goes Six Fast and Furious Rounds With Hart.

PHILADELPHIA, Nov. 16.—Martin Hart and Joe Choynski went six rounds to a draw at the Washington Sporting Club tonight. The bout was fast, both men taking the first two rounds, and both were bleeding freely at the close. The two fighters started out at a terrific pace, hitting right and left with telling effect. There was no perceptible difference in the men during the first two rounds. In the third round, Hart sent Choynski to the floor with a terrific punch on the jaw. Choynski remained on the floor until the referee counted eight, and then rose to his feet and came back vigorously at Hart, but the latter managed to hold his own. The fourth round was rather tame, but in the fifth the men again went at each other with terrific smashes and rights and lefts. In the sixth round, Hart hit Choynski almost at will. The latter was bleeding rapidly and was a little groggy until the seventh round, when he rushed at Hart and kept punching him until the bell announced the end of the fight.

Notwithstanding the amount of punishment received, neither man was badly hurt.

Sullivan Defeats Bernstein.

WASHINGTON, Nov. 16.—Kid Sullivan, of Washington, defeated Joe Bernstein, of New York, in nine rounds of hard fighting.

Forbes-Herman Fight a Draw.

CHICAGO, Nov. 16.—Clarence Forbes and Eddie Herman, Chicago featherweights, fought six fast rounds to a draw tonight.

BLOWN ALMOST TO PIECES.

Four Men Meet Death While Blasting Stumps and Stones.

COLUMBUS, O., Nov. 16.—Four men were blown to pieces on the stockfarm owned by Dr. J. B. Hartman, south of Columbus today. The dead: JESSE N. DYER, JOHN COX, RICHARD COX, and SCHLITZ.

Ex-Soldier Commits Suicide.

ALBUQUERQUE, N. M., Nov. 16.—The body of a soldier of the United States Army, until recently a soldier in the United States Army in the Philippines, has been found at the summit of the highest peak of the lofty Sandia range. A six-shooter, with one chamber empty, lay near the body. The body lay between two great boulders, as if the man had attempted to provide a tomb before killing himself. He came to this city from Los Angeles.

Government Wins Forage Suit.

WASHINGTON, Nov. 16.—The Supreme Court of the United States today decided the case of the St. Louis Hay & Grain Company vs. the United States favorably to the Government. The case involved a contract for 9,000,000 pounds of hay, a part of which was not accepted within the time specified in the contract.

Visitors to Portland.

Should not miss the delightful trips up and down the Columbia River. Particulars at O. R. E. ticket office. Turle and Washington.

MORE STRIKE RIOTS

Chicago Street Cars, However, Gaining in Number.

QUICKER TRIPS FOR TODAY

Police Force Will Be Increased by Five Hundred Men, and Screens Protected the Gripmen From Missiles.

CHICAGO, Nov. 16.—Encouraged by the successful operation of a regular service on the Wentworth-avenue line today, the management of the Chicago City Railway announced tonight that it would resume tomorrow to resume traffic on the Cottage Grove-avenue cable line. The intention is to start trains early in the morning and unless too much opposition is met with the service will be gradually extended later in the day.

Five hundred policemen will be added tomorrow to the number already detailed to guard the property of the company. This additional force will be assigned to the Cottage Grove-avenue line, and the cars will be run under the same protection as those on Wentworth-avenue. Screens have been provided for the grip cars to shield the gripmen, and the trains will be run at a high rate of speed in an effort to prevent crowds from blocking the tracks.

Riots Are Frequent.

Although considerable interference marked the operation of the Wentworth-avenue branch today, still a five-minute delay was maintained throughout the day, and an attempt will be made tomorrow to install a closer schedule. Riots were frequent all along the line, but the police charged on the crowds with such quickness and severity that serious blockades were not met with. When the last of the 25 cars that had been in the service reached the barn at 4:30 o'clock tonight, it was decided to send further traffic until tomorrow morning.

Small Hope of Peace.

The inquiry of the State Board of Arbitration asking that the difficulty be submitted to arbitration, it was announced by S. E. Bliss, counsel for the union, that the communication, it is said, will agree to arbitration of the wage question only, and will entirely ignore the demands of the men that the company should also be submitted to the board. As the latter clause in the demands of the men has been the stumbling block all along to a peaceful settlement of the trouble, it is said there is little chance, at least, of a conciliatory adjustment of the controversy.

Reports to the effect that union men were going over to the company and deserting the organization are declared by both President M. C. Buckley and Secretary L. D. Bland, of the union, to be falsehoods. Said President Buckley: "Within the last four days 75 men have made application to join the union. Among this number are many who have worked for the company for years and who heretofore have refused to join the union."

The company started two boilers at Fifty-second and State streets powerhouse today, where 20 nonunionists have quarters as though in a hotel. At the State-street powerhouse 15 men had been similarly installed. Twelve strikethrowers were smuggled into the barn at West Seventy-seventh street and Vincennes road.

Strikers Stone Passengers.

Cases are becoming numerous where passengers who ride under police protection on cars manned by non-union crews, it is alleged, have been followed by strikers and stoned after leaving the cars and men being stoned. The first case in which women are figured is that of Miss Beatrice Kimbark and her mother, who assert that they were assailed by a crowd near Thirty-ninth street and Wentworth avenue. Miss Kimbark has sworn out a warrant charging Charles Harper, a union conductor, with having struck her in the face.

The strikers are making much of an attack on Mayor Harrison by Clarence S. Darrow, who was one of the counsel for the union in the Chicago coal strike, and who has been one of Mayor Harrison's strongest supporters politically. Mr. Darrow has declared that if the street-car strikers are beaten Mayor Harrison will be responsible for the reason of having authorized the arrangements whereby the police ride in all the cars that are being operated.

According to the Federation of Labor at Faneuil Hall today. The first was upon the question of whether the Federation should grant a charter to the insurance agents of the country, and after a somewhat acrimonious discussion the matter was referred to the Executive Council. This was regarded by the delegates as a defeat of the plan to organize the insurance agents.

URGE PARTY FOR UNION MEN.

Federation of Labor Delegates See Financial Depression Ahead.

BOSTON, Nov. 16.—Two spirited debates enlivened which would otherwise have been a dull session at the convention of the Federation of Labor at Faneuil Hall today. The first was upon the question of whether the Federation should grant a charter to the insurance agents of the country, and after a somewhat acrimonious discussion the matter was referred to the Executive Council. This was regarded by the delegates as a defeat of the plan to organize the insurance agents.

The second debate was upon the subject of industrial depression. It was joined forth by the report of the committee on the President's statement, indicating the statement of President Gompers that a period of industrial depression was coming. Several delegates expressed their opinion that no depression was probable, but the Socialist delegates insisted that the President's forecast was true. They urged as a possible preventative not only organization on trades union lines, but also the formation of a political organization by labor workers.

Refuses to Recognize Strike Award.

POTTSVILLE, Pa., Nov. 16.—Slattery & Co., coal operators of Tuscarora, Pa., have refused to recognize the award of the National Labor Relations Board.

Peculiar To Itself

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of Hood's Sarsaparilla. No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

Miners Reject Peace Terms.

DENVER, Nov. 16.—Contrary to the expectation that obtained on Saturday, the mining was not resumed today in the Northern Colorado field, the operators' proposition to concede an eight-hour day pending the result of the strike in Southern Colorado, having been rejected by the miners. Information from the southern field is to the effect that neither the operators nor the strikers show any signs of weakening and a prolonged struggle is now expected.

Because of lack of coal, owing to the miners' strike, the Rock Mountain Paper Company has closed its mills for an indefinite period, throwing over 300 persons out of employment. It is possible that another conference looking to the settlement of the strike in Northern Colorado will be arranged in a few days. Both the operators and many of the miners were disappointed at the failure to come to an agreement on Saturday. The majority against a settlement was so small that it is believed that it can be arranged to have another ballot taken, those who favor a settlement will be in the majority.

"Silence is golden."

PIANO LETTER NO. 11

Piano Buyers—Today we are going to tell you where your piano troubles begin, and if you will follow our suggestions you will save yourself a heap of trouble and perplexity. It is, according to the old adage, "a wise man who letheth not his right hand know what his left hand doeth," and we are almost tempted to believe that the man who wrote it was thinking of the piano business when he did it.

Piano Buyers—Keep your business to yourselves. Don't tell every dealer that asks you what piano you have looked at in some other store. The reliable dealer doesn't care to know, and the unreliable one only wants a chance to "run it down" and pit some cheaper instrument against it, hoping to strike a balance in his favor by "talking price." Some dealers are more prone to launching abuse at their competitors' pianos than to dissertating on the merits of their own goods. Such dealers should be shunned by every sensible buyer.

When a dealer shows an inclination to want to know what piano you have looked at, which piano you rather favor so far, what the price is, quote you, all before he shows any inclination to tell you about HIS goods and prices, he betrays his weakness and a lack of confidence in his ability to meet open, honest competition on equal footing. Should you be so unwise as to tell him all he asks of you, you have placed at his disposal a complete survey of a battle-ground which will prove your Waterloo unless you are far more worldly wise than most people.

Now, Piano Buyers, while we KNOW that all the "looking around" in the whole world will not secure you a GOOD piano at a better price or on more desirable payment arrangements than we are able to give, we will tell you, still you are going to "look around." What you look at or what prices you are quoted you do not concern us in the least.

We do not gauge our prices by the size of the piano in stockbook, neither do we shape our course by what any competitor may have said to you. We have our own ideas regarding the equitable and honest way of conducting our business and should you place your confidence in us, our interests will be safe in our hands.

But don't forget that "a wise man keepeth his own counsel." Very truly yours,

Allen & Gilbert-Ramaker Co.

Smuggling Indictments Quashed.

SAN JUAN, P. R., Nov. 16.—The Federal Court today quashed the indictments for smuggling in the cases of Alonzo Cruzen, the Collector of Customs; Captain Andrew Dunlap, United States Navy, Commandant of the naval station here, and Robert Giles, formerly a contractor in Porto Rico, on the ground that the fines had been paid and offenses expiated. It is believed this action forever settles the cases.

London Cabdrivers May Strike.

NEW YORK, Nov. 16.—London is threatened with a general cabdrivers' strike owing to the competition of the "cabs," omnibuses and electric cars, says a World dispatch from that city. The cabdrivers have asked the owners for a reduction of a shilling a day in the cost of the cabs. This has been refused, and the "cabs" have called a meeting to vote on a strike.

THE DEATH ROLL.

Favorite of George III as Mrs. Marie Pigmur Harrison, who was in her childhood days pointed out by George III, King of England, is dead at her home in Brooklyn at the age of 101. She was the daughter of the King's bootmaker. After her marriage she became connected with several large traveling circuses, and came to this country, where she remained. It is said she introduced many dwarfs for exhibition, among them Tom Thumb.

Princess Elizabeth.
