CARNEGIE PLEDGES REAL AID. It Remains for Pittsburg to Say What Technical Schools Shall Be.

PITTSBURG, Dec. 1 .- Arthur A. Hemmerschiag, director of the new techno-logical schools now building, returned from New York today. He announces officially that in addition to the endowment of \$2,000,000 and the money furnished by Andrew Carnegie to defray the cost of the buildings, Mr. Carnegie is willing to do much more. He authorized Mr. Hem-

merschiag to say for him:
"If the people of Pittsburg want them, I am ready to make the technical schools the largest and strongest in the world. It remains for the people to say by their appreciation how large the schools shall

be and the question of expense is not to come into the matter." The possibilities opened up by this offer, Hemmerschlag says, are almost beyond conception.

Elijah III Is Forced Into Bankruptcy.

RECEIVERS GO TO ZION

Things Went Badly Since the New York Trip Failed.

LIABILITIES REACH BIG SUM

Leader Not Only Made Urgent Appeals for Assistance to His Followers at Home, but All Over the Land.

DOWIE AND ZION CITY.

Zion City, Ill., was founded two years ago, by Dowle, and has a population of over 10,000. It is the general headquarters for Dowle's church, and is said to represent an expenditure of \$20,000,000. Dowle is known to have accum

lated a large sum as the head of the Christian Catholic church, the assets of the organization being estimated at between \$20,000,000 and \$30,000,000. There was a large outlay of money, however, when Zion City was started, Lace and candy industries were started, and as both of these ventures have not been paying investments, a great deal more money was tied up. Dowie's differences with his brothes-in-law, Stevenson, over the management of the lace factory, cost more than \$100,-600, and other suits recently begun by creditors are said to aggregate a

CHICAGO, Dec. 1.-Financial difficulties, which began during the crusade of John Alexander Dowie, the self-styled "Ellijah II," and his restoration host to New York a month ago, and which have been rapidly increasing since Dowle's return, culminated tonight in the Federal Couris taking possession of all the prop-erty controlled by Dowie in Zion City, Ill. Fred M. Blount, cashler of the Chicago National Bank, and Albert D. Currier, a law partner of Congressman Boutell, were appointed receivers of the prop-Their bonds were fixed at \$100,000 by Judge Kohlsaat, of the United States receivers left for Zion City tonight to take possession of the property.

Hard-Pressed for Some Time. The bankruptcy proceedings against Dowie were based on the allegation that he is insolvent, and while in this financial

condition he committed an act of bankruptcy by making a preferential payment on November 4 to the E. Streeter Lumbe Company of \$3770. Dowie has been hardpressed by his creditors, and especially since it was announced that his recent mission to New York had proved unsuc cessful financially.

Impossible to Estimate Finances. Attorney Ettelson, representing the peitioning creditors, in his argument before Judge Kohlsnat said:

"The creditors whom I represent have reason to believe that Dr. Dowie is insolvent. Judgments have been accumu lating against him for several weeks past, and there is every indication that the overseer of Zion congregation cannot pay his debts. In such a crisis the creditors sought protection for their in-terests in the bankruptcy court. It is ization the Christian Catholic Church in impossible to estimate the liabilities or ssets of Dowie. Zion's affairs are comclicated and it will take several weeks. believe, before any idea of Dowle's inances can be had."

Judge Kohlsaat at first refused to appoint a receiver for the property, on the ground that Dowie should have notice of so important a proceeding. After listening to a further account of Dowle's affairs from Mr. Ettelson, Judge Kohlsaat decided it would be well to have the receivers appointed before the property at Zion City could be dissipated. He therefore entered the order, appointing Messrs. Blount and Currier.

First Confession of Weakness. Last Wednesday Dowie's first confes

sion of weakness was made at a rally in the Tabernacle at Zion City. "A lot of you people have cash in your

pockets," Dowie said to his followers. "Dig down and get it out. It is God's. and we need it in his work. You are cowards if you don't give it up. Deposit

Dowle talked in the same strain for more than an hour, tears glistening on his cheeks as he told of the financial status in which the Zion industries found themselves. Instead of frightening many into depositing, the appeal sent a long line of people to the bank on Friday, when they lined up at the paying teller's window, drawing out their money.

Less than \$3000 was deposited in the bank on Friday, while the amount withdrawn was twice as much. Late in the afternoon A. W. Graham, of Waukegan, tried to withdraw \$300 and was told he would have to give 30 days' notice before he could get his money. Yesterday another appeal was made by Dowle for funds, but the depositors who appeared were few and the deposits were chiefly in trivial amounts.

Dowle Makes Strong Plea to Zion. Today Dowie asked the members of Zion more urgently than ever for money, He declared he must have \$500,000 without delay. This sum, he said, he was handled with Chicago capital,

willing to take in short loans, but they

must be forthcoming immediately. In the effort to remedy the condition of affairs at Zion City, hundreds of letters were sent out daily to Dowle's followers in other parts of the country. In these letters, in which glowing prospects of Zion City's future were painted, and in which Dowie himself is quoted as praying that all those who believe in him will "follow the Lord," all Dowieites are urged, almost commanded, to sell their farms, stores and everything else and come to Zion City and take up the work of the church All of those who have money in banks were asked to draw that noney out of the local banks and send it for deposit at Zion City.

Wages Due Employes.

It is declared to be a fact that the em ployes of the manufacturing industries have not been paid for four to six weeks. What little they have received is said to have been paid entirely in the Zion City coupon books. Early in the week before last, Dowie made a personal trip through the various shops. It has been customary at Zion City to start each day's work in the shop with 15 minutes

devoted to prayer services. On the day in question, it is said, Dowie went to each of the shops and talked for more than two hours to the employes He told his followers and others that they must either wait for their salaries or must endure a substantial cut in wages This was agreed to. In one shop, a nonmember of Dowie's flock asked Dowie why he was going to Australia if his finances were so bad.

"Perhaps I may not be able to go at all," quietly returned Dowie. "I may have to stay and see that things are set right before I leave."

RECEIVERS ON THE SCENE.

Man Runs From Bank With Papers

but Is Soon Taken. CHICAGO, Dec. 1.-The receivers, with their attorneys, and Custodian Redleake, with six Deputy Marshais, went out to Zion City tonight to serve upon Dowle the notice of the receivership. Redieske and his deputies went to the bank, while the others called upon Dowie at his residence. As the officers were about to de mand admission to the bank, a man ran from a rear door. One of the deputies overtook him, and a second man came running from the bank, shouting: "Let me have those papers; I will get away with

Redieske threatened to place them under arrest unless they returned at once to the bank, which they did. He then placed the bank and the men in it under a guard. While this was taking place at the bank

the receivers and their attorneys called upon Dowie and read to him the petition and decision of the court which placed Zion in the hands of a receiver. After hearing the petition Dowle locked himself up with several of his leading

subordinates. He refused to allow himself to be seen or to make any statement, merely sending out word that he had othing to say.

The order of court issued today compels Dowle to appear in court December 11. It was nearly midnight when the receivers left Dowie. Although he would make no general statement, he declared District Court, who made the appointment to the receivers that the entire proceed on the petition of several creditors. The entirely solvent. He declared the receivership would be very short, as he would immediately pay all he owed and secure the discharge of the receivers.
It was decided by the receivers that the Zion City industries should be operated tomorrow as usual. The Zion City Bank will remain clesed tomorrow.

ADVENT OF DOWIE IN CHICAGO

From Divine Healer He Has Risen to Be Leader of Quite a Host.

CHICAGO, Dec. 1.-Dowle made his ad vent in Chicago as a divine healer in 1892. Renting a small apartment, he began the treatment of persons afflicted with every known kind of disease, and soon hundreds were coming to see him. He called him-self the head of the International Divine Healing Association, and had a tabernacle constructed an Stoney Island avenue, near Sixty-third street, where his congregation

held its first service.

Outgrowing these quarters in a few years, he leased a tabernacie at Michigan avenue and Thirteenth street, paying for it an immense rental. For several years the services were held there. As the con Zion, and three years ago leased the Auditorium in which to hold his Sunday gatherings. All this time, he kept up his divine healing, and many of those who came to him to be healed, became his stanchest supporters in the church.

It was shortly after he began the serv-ices in the Auditorium that he announced that he was the successor of Elijah, the Prophet of God, and that his teaching and actions were inspired.

Four years ago Dowie began negotia-

tions for the purchase of the land north of Waukegan on which Zion City now stands. Having secured options on a trace of 6400 acres, he platted it. Eighty acres were set aside for the lace factories, on which the industrial hopes of Zion City were founded. Samuel Sievenson went to Nottingham, England, ordered and paid deposits on 190 lace-making machines, which, with the accessories, when laid down in Chicago, cost almost \$1,000,000. Zion City was formally opened July 14 1901, when Dowle took up his headquar-ters there in an old farmhouse, after makters there in an old farmhouse, and ing a speech of consecration. Artisuns were hurried to the place and the construction of buildings and streets began. A year later the town had a population of the present time. of 2000 persons, and at the present time the population is estimated at about 10,000. The lace factories were opened over a year ago, an immense hotel, administra-

ion and auditorium buildings were con structed; brick, candy and woodworking plants were established, and at the present time an imposing building of stone for the Zion College is in course of construc-

Speaker Gives Him Place on Insular Affairs Instead.

Jones is Pledged to Work as Hard for its interests as Those of Washington-Strong Friend of the Columbia.

WASHINGTON, Dec. 1.-After a conference with Speaker Cannon this morning, Representative Hermann has abandoned hope of securing an appointment on the rivers and harbors committee The Speaker, however, asked him if he would like an assignment on insular affairs, the committee handling Philippine legislation, and Hermann assured him if he could not secure the place of his first choice that insular affairs would be quite satisfactory, in view of the influence that committee wields over a territory that is each year being brought into closer and closer relation with the Pacific Coast, and with which the Coast is now actively building up a large commerce. This position will undoubtedly be given Hermann.

The coveted place on rivers and harbors will go to Representative Jones, of Washington, who, like Senator Foster, is pledged to work equally in the interest of Oregon and Washington, Jones is especially favorable to the improvement of the Upper Columbia, and will do everything in his power to bring about the early construction of the canal between The Dalles and Celilo. Having that project at heart, he will also labor in behalf of permanently improving the mouth of the Columbia, upon which improvement the commerce of the upper river

KNOX HAS FAITH IN HIM.

Bad Record of Attorney Frost at Nome is Minimized. OREGONIAN NEWS BUREAU, Wash-

ington, Dec. 1 .- In view of his record at Nome, in connection with the scandal that involved Judge Noyes and Judge McKenzie, and resulted in his own sentence to one year in jail, the announce ment that C. A. S. Frost had been selected as special examiner of the Oregon land fraud cases caused as much surprise in Washington as on the Pacific Coast. In vestigation, however, develops the fact that Frost is not, in fact, to be a Government prosecutor in a true sense, but is to act as the legal assistant and stenographer to Francis J. Heney, of San Fran cisco, who is the man chosen by Attorney-General Knox to prosecute these cases. Soon after his appointment, Heney re quested authority to appoint Frost as his assistant, and on his request, the appointment was made by Attorney-General

Knox. Frost, by the way, is employed in Heney's law office in San Francisco. As a matter of fact, Knox does not believe Frost deserved the sentence that was imposed upon him two years ago by the United States Court at San Francisco It is well known that Knox believes that court is altogether too severe in its rulings. He came to the conclusion, after reading the records in the Frost case, that the latter had not acted with wrong intent while be was serving as assistant attorney at Nome, but had displayed a marked lack of discretion and good judgment. It was for this reason that Knox recommended and secured Frost's pardon after he had served but a short time in

1811. Frost's record in the Department of Justice, in this city, before he was sent to Nome, was thoroughly satisfactory, and while his course at Nome is not entirely approved by the Attorney-General, still that official believes Frost is honest and propriation from \$75,000 to \$100,000. worthy of encouragement. The recent appointment is only temporary, expiring with the close of the pending cases. It is said at the Department of Justice that Frost is too young a man and too inexperienced to be entrusted with such

important cases as those about to be tried in Oregon. Therefore a man of wider experience, such as Heney, was selected to assume the bulk of the responsibility of pressing the Government's cause The Attorney-General in appointing Prost was glad of an opportunity publicly to express his confidence in the man whom he believed was severely treated by the court at San Francisco, and is apparently of the opinion that Frost's record in con nection with the Nome scandal will in no way impair his usefulness in the coming

NAMES LAND-LAW COMMISSION

President Appoints High Officials to Consider Reforms. OREGONIAN NEWS BUREAU, Wash-

message, pointing out the abuses that are practiced under existing laws, and, in general terms, suggesting the advisability of making changes. He has however, formally appointed these three men a commission to make an extensive examination into the workings of the timber and stone, desert land and commutation homestead acts, in the hope that when they make a report they will be able to agree upon some specific solution of the present difficulties that exist in

The President had hoped that these mer could agree in recommending remedial legislation in time to permit the incorpora tion of their views in his message, for he felt timt in such event his recommenda tions would largely serve to guide Congress when it came to pass upon this question during the coming session. It develops, however, that the officials are by no means united in their opinion of what legislation is most needed, and until they can reach some sort of a compromisagreement, the President will have nothing more to say on this topic.

It is understood, moreover, that Secre tary Hitchcock, in his forthcoming report, will not go into detail in his recommendation for the repeal of the three laws named. He will renew his recommenda tion of last year that these laws should be so amended as to reduce greatly the possibility of fraud, but will leave Congress at liberty to work out what it may deem the most practicable form of substi tute legislation. He will be ready at all times to report on bills amending or repealing these laws, when they are submitted to him by Congress, and it is known in advance that he will approve the pending bills for the outright repeal of these three laws, but in doing so he will recommend that the bills be so amended as to provide some substitute for the laws that are proposed to be an-

MINERS ASK FOR ASSAY OFFICE

Mitchell Replies He Has Hopes of Passing the Portland Bill.

OREGONIAN NEWS BUREAU, Washington, Dec. 1.-Senator Mitchell has received from the Oregon Miners' Association, of Sumpter, a strong recommendation in support of legislation establishing an assay office at some point in Oregon. In replying to this letter, Senator Mitchell says he has already introduced a bill establishing an assay office at Portland, and he has hopes that this bill will pass. He believes the remainder of the delegation will agree that Portland is the proper location for an Oregon assay office, as such an office, should it be established must accommodate the ores from Southern Oregon mines as well as the others from impter and Baker City fields.

Representative Williamson's position on the location of the assay office is not known, but Senator Fulton and Representative Hermann both favor Portland. Senator Mitchell proposes to call an early conference of the delegation on this queson, and hopes to have united for his bill.
