

FOR JOINT ACTION

International Hatchery
Is Up Again.

PUGET SOUND GETS WISH

Hay Will Invite British Columbia to a Conference.

NOTE WILL BE SENT SOON

Commissioner Bowers Does Not Believe a Meeting Can Be Arranged, but is Willing to Give Washington Men a Chance.

OREGONIAN NEWS BUREAU, Washington, Dec. 2.—The Secretary of State today advised Senator Foster that he would, in accordance with his late request, and on recommendation of Fish Commissioner Bowers, extend to the Canadian Minister of Marine and Fisheries and representatives of the fisheries department of British Columbia, an invitation to meet with representatives of the Fish Commission of the State of Washington and of the United States and consider the long-pending proposition of establishing an international salmon hatchery on Fraser River, British Columbia.

Commissioner Bowers has all along taken the position that it will be impracticable to attempt to operate a joint hatchery controlled by both Governments, but is willing to do anything that will promote the salmon industry of Puget Sound. He makes it plain, however, that official information in his possession indicates that the Canadian and British Columbian Associates are not favorably inclined toward the establishment of a hatchery in conjunction with the state of Washington, statements by Commissioner Kershaw, of Washington, to the contrary notwithstanding.

Secretary Hay intends at an early day to extend an invitation to the Canadian officials through the British Embassy in this city, and if the invitation is accepted, it is expected that the prolonged discussion of conflicting rights of the Puget Sound and British Columbian fishermen may be finally adjusted.

SHOWS FAITH IN BANCROFT.

Postal Department Does Not Believe There is a Shortage in Portland.

WASHINGTON, Dec. 2.—Senator Mitchell this morning received a letter from a friend in Portland, announcing that a rumor was current there that trouble was brewing by the Portland postoffice, and that enemies of Postmaster Bancroft were endeavoring to make trouble for him.

Soon after he received the letter the Senator read the press dispatch announcing that postal inspectors had discovered an "I. O. U." for over \$200 taken from the cash drawer. With Senator Fulton, later in the day, Senator Mitchell called at the Postoffice Department. They were told the department had no information concerning such shortage, and believed none existed.

In response to a telegram he sent to Portland, Senator Fulton tonight received a reply stating there was nothing in the report of a shortage. The Oregon Senators think the whole affair will blow over without serious consequences. They believe that while there may have been some slight infraction of the regulations due to inexperience, Postmaster Bancroft purposely doing nothing wrong.

In ordering the inspection of the Portland office, along with all other leading postoffices in the country, the Postoffice Department had no knowledge of irregularities at Portland. If any were unearthed it was in the due course of work of the inspectors. No report has yet been received from the inspectors now in Portland.

IDAHO RESOLUTIONS SENT IN.

Heyburn Turns Over to Senate Memorials by Legislature.

OREGONIAN NEWS BUREAU, Washington, Dec. 2.—Senator Heyburn has presented to the Senate for reference to the proper committees the following joint memorials of the Governor of Idaho and the State Legislature:

Protesting against the creation of the Sawtooth forest reserve in Blaine and Custer counties; favoring National legislation regulating the use of public grazing lands; praying for an appropriation for resurveying and properly marking the boundary between Idaho and Wyoming; favoring more stringent legislation with regard to control of trusts; favoring election of United States Senators by direct vote of the people; praying for an appropriation of \$50,000 for drilling a well in the arid region of Blaine County; praying for a sufficient appropriation to improve the Pend d'Oreille River between Albany Falls and the mouth of Priest River.

ASK FOR HIS APPROVAL.

Washington Men Call Upon Architect in Behalf of Public Buildings.

OREGONIAN NEWS BUREAU, Washington, Dec. 2.—Senator Foster and Representative Cushman today called together on Supervising Architect Taylor, of the Treasury, to urge him to act favorably upon the bills calling for increased appropriations for the public building at Seattle, Tacoma and Spokane. Taylor said he was anxious that the increase asked should be authorized for Seattle, so a granite building might be erected, and he will probably recommend that the limit of cost of the Tacoma building be fixed at \$300,000, or \$350,000, and at Spokane, \$750,000.

Architect Taylor says that the \$400,000 already authorized for Tacoma and Spokane will not erect buildings of such size and style as are demanded at those cities, although he thinks the pending bills ask for more than is necessary.

Ask Root to Consider Ruling.

The entire Washington delegation to the called on Secretary Root and urged

a reconsideration of the recent decision of the General Staff to locate the artillery headquarters on Puget Sound at Fort Flagler. The members of the delegation say General Funston's chief of staff after an investigation, reported that headquarters should be located at Fort Worden, and they ask that this be done. Secretary Root will go further into the facts before acting on the recommendation of the General Staff.

LIGHT FOR INDIAN SCHOOL.

Department Favors Purchase of Springs to Secure Power for Plant.

OREGONIAN NEWS BUREAU, Washington, Dec. 2.—Some modern system of lighting must be installed at the Colville Indian School, in Eastern Washington, to supplant the present obsolete system of oil lamps, which are dangerous and generally unsatisfactory. The Indian Bureau has been making investigations to determine what form of lighting can most satisfactorily be installed, and has concluded that electricity will give better results than gas.

The question now arises, Where shall the power be derived? An estimate made on a plant for taking water from the Spokane River and carrying it by a canal to the school site shows that it would be very expensive. Located in the mountains, 400 feet above the school, however, are a series of large springs with a daily discharge of 100,000 gallons of water, and it is found the flow from these springs can be controlled at moderate cost, and will afford ample power, and in addition provide sufficient water for irrigating the school grounds.

These springs are located upon private land which is held at about \$400. The Indian Office will probably recommend that an appropriation of this amount be made so that the lands containing the springs may be acquired by the Government and the water be carried by flumes to the school plant. It is estimated that the installation of a power and electric lighting plant will cost about \$3000 in addition to the cost of the water.

RECRUIT FOR 1905 FAIR ARMY

Virginia Delegation Is Expected to Work on a Reciprocity Basis.

WASHINGTON, Dec. 2.—The Virginia delegation promises to become recruits in the army that is being marshaled by Senator Mitchell in support of his Lewis and Clark Exposition Bill. Representative Maynard, of Virginia, gave a dinner at Norfolk tonight to launch the boom for an appropriation for an exposition to be made commemorating the 30th anniversary of the settlement of Jamestown. A considerable number of Congressmen were in attendance.

On a reciprocal basis it is expected that Virginia will turn in and support the Lewis and Clark bill, while the Oregon delegation will be expected to lend its aid to the Jamestown measure when it makes its appearance.

Puyallup Bids Exceed Allowance.

OREGONIAN NEWS BUREAU, Washington, Dec. 2.—Two bids have been received by the Indian Office for the erection of a girls' dormitory school building and an addition to the boys' dormitory at the Puyallup Indian School, near Tacoma, but the price asked in each case exceeds the allowance. It may be determined to erect only the two new buildings, omitting the addition to the boys' dormitory until a further appropriation can be secured. The bids received were from Dennis Harrigan, of Tacoma, \$29,465, and Lester & Scott, of Tacoma, \$34,567.

NOTED LECTURER IS DEAD.

Colonel H. H. Hadley, Who Urged Temperance and Founded Missions.

BOULDER, Colo., Dec. 2.—Colonel Henry H. Hadley, aged 59 years, a wealthy New Yorker, died at the Colorado Sanitarium today from consumption.

Colonel Hadley was a temperance worker of national reputation. At the time of his death he was building a sanitarium on Boulder Neck for consumptives.

Henry Harrison Hadley was born in Ohio. He entered the Civil War as a private and was mustered out as Captain and Brevet Lieutenant-Colonel. He graduated from the National Law University of Washington in 1875. He practiced law in New York and the District of Columbia until 1885, when he was converted. He went into Rescue Mission work in 1888, and was very successful, organizing some 50 Rescue Missions and a number of total abstinence societies. He raised \$25,000 for their support and addressed 5000 audiences on the object of his work. He was the author of several books on total abstinence.

Ex-Commodore of Yacht Club.

NEW YORK, Dec. 2.—Edward M. Brown, ex-Commodore of the New York Yacht Club, and for many years well known in the fruit commission trade here, is dead at the age of 64. He became a member of the New York Yacht Club in 1877, and had owned many fast steam and sailing vessels.

Son of ex-Mayor of New York.

NEW YORK, Dec. 2.—Dr. Cyrus Edison, son of ex-Mayor Franklin Edison, died tonight of pneumonia in Roosevelt Hospital. Dr. Edison was the author of many articles on medical and sanitary subjects.

Son of Inventor of Gatling Gun.

NEW YORK, Dec. 2.—Robert B. Gatling, son of the late R. J. Gatling, inventor of the gun which bears his name, was found

Catarrh

Invites Consumption

It weakens the delicate lung tissues, deranges the digestive organs, and breaks down the general health.

It often causes headache and dizziness, impairs the taste, smell and hearing, and affects the voice.

Being a constitutional disease it requires a constitutional remedy.

Hood's Sarsaparilla
Radically and permanently cures catarrh of the nose, throat, stomach, bowels, and more delicate organs.

Read the testimonials.

No substitute for Hood's catarrh pills. Be sure to get Hood's.

"I was troubled with catarrh 20 years. Seeing statements of cures by Hood's Sarsaparilla resolved to try it. Four bottles entirely cured me." WILLIAM SHERMAN, 1630 8th St., Milwaukee, Wis.

Hood's Sarsaparilla promises to cure and keeps the promise.

Anything you may select now and wish laid away to be delivered later, we will care for and deliver at your bidding, any time up to Christmas morning. Don't you think you'd better shop TODAY THAN TOMORROW?

That
Toy
Shop

On Fourth Floor

2 Elevators to take you up and bring you back to earth again.

One might roam around among the thousands of wonderful toys spread out here all day with both profit and instruction. It is really marvelous what inventive genius has created for the amusement of the tots and children of a larger growth since last Christmas. We will not attempt to draw a type picture of this wonderland of toys—the most facile pencil would fail to do it justice. But come up and have a look around. We've converted two-thirds of this immense floor into a VERITABLE TOYLAND—the largest domain in all the Northwest entirely given over to TOYS AND GAMES—the grandest game preserve in Portland. ARE YOU A HUNTER? Welcome to our grounds.

DOLLIES

Are Awaiting Their Mamas

On Second Floor.

We've converted more than half the space occupied 12 months in the year by the largest and most superb stock of Millinery to be found west of Chicago into a

VAST PLAYGROUND FOR THE DOLLS.

The fact that we have already sold more than twice the number of any previous year, during the same period, is strong testimony that our dollies are worthy succeeding tenants to the millinery beauties they have usurped the home of. Every conceivable kind of a doll you can think of and some you'd never think of is here. Dolls of every sort and description. Flaxen-haired coquettes and brunette beauties foil each other. Gay dolls, sedate dolls, dolls that talk and dolls that never have a word to say. Dolls that know when to open their eyes and others that keep them open day and night—dolls that—but what's the use? Whatever pencil, however facile, could ever write a doll story worthy of this congress of doll beauty? Here is an aggregation of dolls, dressed and in negligee ready for the dressing by deft, tasty fingers and ideas of those who select them. Our prices are the lowest in the city, we are confident, upon comparison. Our variety much the largest and selections the prettiest, richest and best shown by any Christmas shop on the Pacific Coast.

ENGINEER IS TORN TO PIECES

Milk Train Crashes into a Freight-Six Men Injured.

NEW YORK, Dec. 2.—One man was killed, while six received serious injuries in a rear-end collision on the Newark branch of the Erie Railroad at West Nutley, N. J., seven miles from Newark early today. A heavily loaded milk train crashed into a freight on the West Nutley siding, wrecking both trains and tearing up the track for a distance of 30 yards. The milk train was running 40 miles an hour. The engineer of the milk train was torn to pieces, and every man in the crew of the two trains was hurt. Fifteen minutes before the milk train was due the freight arrived and was switching cars. The locomotive and three freight cars had just passed onto the siding when the milk train rushed down on them.

Trains Collide in the Fog.

CHICAGO, Dec. 2.—In a collision between two north-bound trains on the South Side Elevated Railroad today at the Fifty-first-street station, Harry Cottell, a motorman, was fatally hurt and several of the passengers seriously injured. The fog and frost on the rails were responsible for the accident.

Almost at the same moment several persons were injured in a collision between two Cottage Grove-avenue cable cars at Thirty-first street. While the guards of the elevated train were holding the gates shut in order to prevent

the passengers from jumping to the tracks below and possibly being electrocuted, the wires in one of the coaches became crossed, starting a fire in the crowded car. A panic followed. Windows were smashed and a rush was made for the doors. Charles F. Roman, one of the passengers, seized a fire extinguisher and broke the bottle over the fire. His example was quickly followed by others and the flames were extinguished before any serious damage had been done.

Two Trainmen Lose Lives.

DOVER, Del., Dec. 2.—As a result of a collision of freight trains at Greenwood this afternoon and the subsequent explosion of the boiler of one of the engines, the conductor and fireman were killed and several others injured. The cars caught fire and the flames communicated with several dwelling-houses near the tracks, forcing the inmates to flee for their lives.

Weather Prevents Trial of Cruiser.

BOSTON, Dec. 2.—The new cruiser Des Moines started out for her official trial trip today. As the cruiser passed out by Boston Lightship she found the wind increasing, and as the weather had thickened the officials decided the conditions would not permit of holding the trial. The cruiser returned to her anchorage.

Lothian Gets Oriental Passengers.

SAN FRANCISCO, Dec. 2.—As a result of the rate war the Pacific Mail Company today offered to carry Chinese passengers for the sum of \$2.

Low as was the fare, however, few availed themselves of the bargain, as all the Chinese ready to return to the

SAM PARKS IS VERY ILL.

Walking Delegate Breaks Down While Doing Light Work.

NEW YORK, Dec. 2.—Sam Parks, formerly business agent of the local House-smiths and Bridgemen's Union, is in the hospital in Sing Sing prison, to which he recently was sent for conspiracy in taking money from employers to call off strikes. Parks was removed from his cell to the hospital by direction of the physician, who says he is a very ill man. The labor leader is a victim of consumption, and it is expected he will be transferred to the prison hospital at Dannemora. When Parks arrived at Sing Sing he was put to work in the brush shop. The work is not hard, and for a short time Parks toiled along with the rest of the convicts, but the close confinement soon began to tell, and he broke down completely.

Mikado Decorates Military Men.

TOKIO, Nov. 17, via Victoria, B. C., Dec. 2.—At the Japanese army maneuvers, now proceeding in which 40,000 troops are engaged, the Emperor, after cordially receiving Sir Cyprian Bridge, British Admiral on the China station, and other

foreign officers, conferred orders on 47 visiting military men, of whom 40 were Chinese, others being Russian, French, German and Dutch. The Emperor viewed an engagement which took place in a wide expanse of rice fields near Furusato.

A review was held by the Emperor at Shimeji, on November 18, followed by an Imperial banquet, attended by the principal Japanese officers and visiting military men, 1000 being present.

Railroad President to Retire.

DETROIT, Dec. 2.—The news this afternoon says: On January 1 Henry B. Ledyard will retire as president of the Michigan Central Railroad, and his duties will be assumed by General Manager Richard H. L'Hommedieu. There will be no one selected to hold the title of president. President W. H. Newman, of the New York Central, will become the general head of the road, as he is on the Lake Shore now, with Mr. L'Hommedieu as general manager.

Railroad Will Not Build New Line.

CHICAGO, Dec. 2.—By an agreement between the Michigan Central and Pere Marquette Railroads, the Pere Marquette will enter Chicago and Buffalo, N. Y., over the rails of the former road. In consequence the Pere Marquette's plan to build from St. Thomas, Ont., to Buffalo, has been abandoned. It is said that the Vanderbilts have secured a large interest in, if not control of the Pere Marquette.

New District Judge Sworn In.

WASHINGTON, Dec. 2.—John C. Pollock, who was confirmed yesterday as United States District Judge of the District of Kansas, succeeded Judge Hook.
