MANY BIG BLOCKS
GREAT BUSINESS HOUSES AND NUMEROUS DWELLINGS MARK PROGRESS OF THE CITY

W. D. Oakes, general manager of the Oregon Water Power & Railway Company, who is well acquainted with the wants and business tastes of Portland, comprehends the importance of having the city neatly and smoothly maintained, and he tells us that some of the most important improvements have recently been made in the suburban districts. The streets, sidewalks, and alleys are all in a fine condition, and the buildings have been erected in a regular and systematic manner. The city is divided into districts, and each district has its own special characteristics, which attract the attention of the visitor.

S. BAN

The O'Reilly Company has just received a shipment of their new line of Chocolates. The company has been making Chocolates for many years, and have always been popular. The new line of Chocolates is said to be the best yet made, and will be introduced in the city shortly. The O'Reilly Company is well established, and is known for its good work.

65 Miles Standard Gauge Electric Line

ONLY INTERURBAN LINE IN OREGON DOING FREIGHT AND PASSENGER TRAFFIC

1893

I N LINE with our policy of progress, during the year 1903, we added many meritorious novelties to our already large stock; also opened the Arcade Theater and Amusement Parlors at 330 Washington street. We are now opening a large and elegantly equipped store on Seattle's busiest thoroughfare, 1404 Second Avenue, Times Building, where we can accommodate our rapidly increasing Alaska and Puget Sound business.

Eleven years of constant application to the study of mechanical and electrical novelties has enabled us to furnish the trade with the leading coin-operating devices and novelties. We carry the largest and most complete line, and with our lately established Eastern and Foreign connections, have unequalled facilities for supplying the trade with all the latest and best novelties in our line.

We being the oldest established, most progressive and reliable concern in this business on the Pacific Coast, solicit a share of your business.
