SEVERE ON TWO OFFICERS

Senator Contends the Concession of the Panama Canal Company is Void Because Colombia Voted It Down.

WASHINGTON, Jan. 7.—Morgan occupied the time in the Senate today in a reply to the speech of Lodge, delivered last Tuesday. Morgan again attacked the President and the attitude of his Government in connection with the Panama Republic. He introduced numerous newspaper extracts to bear out his contention that the revolution was assisted by officers and citizens of the United States.

When the Senate convened today Morgan took the floor to answer the speech of Lodge, made on Tuesday. Morgan remarked in opening that he proposed to "bring the eyes and ears of the Senate to the attention of the world to the question touching upon the merits of the resolution."

He described de facto, de jure and independent governments, and speaking of Panama said: "Panama is a lawful state for the future, and not dependent upon the recognition by the United States of a de facto government on the isthmus."

Rights Ascribed to Colombia.

"Colombia has the right under the laws of nations to consider that recognition as premature, as an act of war. Whether Colombia does desire it is another matter. A third power is not likely to be led into premature recognition unless affected by some private benefits, until the mother country has acknowledged the cessation of its sovereignty, just as Great Britain proclaimed our independence before the close of our war with that country."

FAVOR TO AMERICAN SHIPS.

Bill to Give Them All of National Business is Reported.

WASHINGTON, Jan. 7.—The Senate committee on commerce today favorably reported a bill, which provides:

"That vessels of the United States and no others shall be employed in the transportation by sea, of coal, provisions, fodder or supplies of any description, purchased pursuant to law for the use of the Army or Navy; but this section shall not be construed to prohibit the transportation of such articles by any vessel owned by any department of the Government. The President of the United States may from time to time suspend, in whole or in part, the above section whenever in the interest of National defense, such suspension may seem to him desirable or for the protection of the Government."

To Print Testimony in Wood Case.

WASHINGTON, Jan. 7.—The Senate, in executive session today, ordered the printing of the testimony introduced before the military affairs committee in the investigation of the charges against the confirmation of Brigadier-General Leonard Wood to be made a Major-General by Senator Foraker setting forth the views of the majority recommending the confirmation of the nomination, and the views to be filed by the minority, also will be printed, and one copy of each furnished to each Senator. The Senate decided not to make the documents public.

Advocates Opening of Reserves.

WASHINGTON, Jan. 7.—The questions of opening the Indian reservations, comprising nearly 100,000,000 acres, was considered today by the House committee on Indian affairs. The Indian Commissioner was heard at length by the committee, and he took the position that to throw these lands open to settlement was the proper and speediest way to elevate the Indian and to settle for all time the Indian question. He said this course should be pursued with the consent of the Indians if possible, but if not, Congress should take the action necessary to insure the settlement of the lands by whiter, all property values to be guaranteed to the Indians who owned lands.

Senate Confirms Nominations.

WASHINGTON, Jan. 7.—The Senate today in executive session confirmed the following nominations:

Mississippi House for Canal.

JACKSON, Miss., Jan. 7.—The House today passed the joint resolution adopted by the State Senate yesterday instructing the Mississippi Senators to vote for the Panama Canal bill to be introduced before the United States Senate.

Nine Jurors in Bowers Case.

SAN FRANCISCO, Jan. 7.—The task of impaneling a jury to try the case of Mrs. Martha E. Bowers, charged with the murder of her husband, Martin L. Bowers, was assigned to Judge

swer we are ever to get." Morgan concluded. Morgan attacked the dealings between this Government and the Panama Canal Company. Considered Canal Franchise Void. Quaries asked if Morgan considered that the six-year extension of the franchise of the Panama Canal Company was void. "Certainly," replied Morgan. "The only concession the company possesses expires by its own terms next October, and its prolongation is void because the Colombian Congress voted it down."

House Holds Brief Session. WASHINGTON, Jan. 7.—The House was in session but 15 minutes today. Hemenway (Ind.), chairman of the committee on appropriations, obtained unanimous consent that one hour be devoted to the opening of tomorrow's session to the consideration of a bill amending the act appropriating \$500,000 for the eradication of foot and mouth disease among cattle, so as to make \$250,000 of that amount available to meet the emergency caused by the Mexican boll weevil. The bill was favorably reported today. Adjourned.

SEND GREETINGS TO GORMAN.

Colombian Senators Elated Over His Championing Their Cause.

BOGOTA, Sunday, Jan. 7.—Senators Castro, Marroquin and 15 other Senators have addressed the following dispatch to United States Senator Gorman:

"The undersigned Colombian Senators heartily congratulate you, and those who support you, in defending the ideas of justice and respect for rights proclaimed by General Washington and sustained by all your great statesmen."

GOOD PROGRESS ON CANAL BILL.

Senate Committee is Expected to Report Early Next Week.

WASHINGTON, Jan. 7.—The Senate committee on foreign relations today continued consideration of the Panama Canal treaty. When the committee adjourned eight sections had been read and discussed. The Democratic members suggested a number of amendments intended for the purpose of strengthening and making more certain and absolute the control of the United States over the canal.
