COMMITTEE TO MAKE DEAL

Ely Brothers Have Option of Half Interest for \$6000 and Old Stockholders Can Have the Rest-Minority is Overruled.

The committee appointed to sell the Portland Baseball Association J. C. Alneworth.

R. S. Farrell. F. J. Richards.

Who was it that forecasted a "hot time" at the meeting of the stockholders of the Portland Baseball Association which was scheduled for last night at the Commercial Club? Whoever it was must have grounded his wires, for the stockholders met, and, if there was anyone esent with a "troublesome" intent, he carried it away concealed about his per-eon. Neither was the fellow who had an aged gentleman buying stock prior to the meeting on hand. He might have been present, but if he was, he did not come forth with the stock that it was said he bought. In the absence of the supposed "trouble," the meeting, while was a talky affair, lasting from 8:30

until almost 10 o'clock, closed without a 50-to-1 shot. Results, even a heated debate.

From beginning to end it was a case of Jack Little second, Doris majority rule, and it did rule, and the final result of the meeting was the ap-pointment of a committee of five stock-holders, whose duty it will be to sell the chib, bag and baggage, between now and March 1, for the sum of \$12,000. This result was not reached until a fruitless attempt was made by Chester A. Whitemore. R. S. Farrell and others representing the minority stockholders to have the capital stock of the club increased to \$25,000. This question was debated for almost an hour, but when it came to a vote the motion was lost. Mr. White more believed that the small stockholders should be given a chance to say whether they would come to the front and make up the \$15,000 and he bitterly opposed the selieme offered by the directors, that of selling the franchise for \$12,000 and re-organizing the club. There was no opition to the Elys being allowed to buy a half interest, but a number of the mi-nority stockholders thought the Portland baseball franchise was worth more than \$12,000, the sum for which the club was

The feeling prevailed among a number of the stockholders that they were get-ting a short shrift, but when it was shown that it would be practically imposgible to increase the capital stock to \$25,-000 when there was already a debt of \$12,000 hanging over the club, a number experienced a change of heart. At the end of it all, the vote on Mr. White-more's motion stood 1156 against increas-ing the capital stock as against 161.

Elys Secure Control.

When this was cleared up, a motion as made to sell the club for the amount of the debt \$12,000, and this was carried by almost the same vote. An amendment to the motion, to have the chair appoint umittee of five transact the business of selling the club, was made, and it pre-vailed. This committee was instructed to complete the sale on or before March with the understanding that the Elys pere to get a half interest on the pay-ment of \$5990, the remainder of the took, or any part of it, to be sold to the minority stockholders. Under this scheme the men who owned a controlling interest the old club will stand aside until all the small stockholders who wish to buy stock in the new organization have done so, then, if all of the stock is not

gold, they have pledged themselves to take up the remainder. An impression has gotten out that the Elys, through their efforts to get a half interest, have brought about the reorcanization scheme, but they have had nothing to do with the deal. When the question of reorganizing the club came up, Fred Ely, who all along wanted to own but a half or controlling interest came forward and offered \$6000 for a half interest in the new organization. This money was placed in the bank as a guarantee of good faith, and it has been there for some time. The only promise the Elys had was from a majority of the ders, who assured them that, if the club was sold, they were to have the first refusal of half the stock.

deal is not known, but it will be done as speedily as possible. The Elys stand ready to hook up to the deal today. The only business of the committee will be that of disposing of the other \$600. This, it is expected, will take some time, for it is the intention of the committee to give the small stockholders in the old club all the time they want in order to get them to buy up as much of the new stock as they wish to, and while the stock as they wish to, and, while the committee is instructed to have the deal losed by March 1, those who wish to closed by March 1, those who wish to buy stock will be given at least 20 days more, if they wish it.
