### LETTER FROM ITS COUNSEL

Attorney for Settlers Is Informed That President Elliott Has Ordered They Be Treated Fairly and Even Liberally.

A letter received by C. E. S. Wood, attorney for a number of the settlers on the famous Northern Pacific "overlap" grant, from the legal department of the Northern Pacific at St. Paul, gives assurance the bona fide settlers will be justly and liberally treated by the company. The letter is as follows: Northern Pacific Railway Company, Legal De-St. Paul, Minn., Feb. 26, 1904.

Subject: Overlap Case, My Dear Mr. Wood-I venture to address you My Dear Mr. Wood—I venture to address you because you are the attorney of some of the settlers, and are in close touch, I doubt not with all of them and with their representatives. I have seen the president of the company or this subject today, and can assure you be feels settlers should be treated with the greatest fairness, and even with liberality. Those will be his instructions to his subordinates. With this disposition on the part of the officers of the company, I have faith that the situation will work itself out without great injustice to any one and trust that you great injustice to any one and trust that you in the wish and disposition of this company.

Yours truly. C. W. BUNN General Counsel.

It appears from a statement made

by Mr. Wood that, while the case was onding in the United States Circuit ourt of Appeals, an arrangement was made between counsel for the settlers and counsel for the railroad that the bona fide settlers were to be paid by the railroad company all outlay on the land and for legal expenses. Some of these settlers were named and oth-ers were provided for under general terms. This settlement, however, did not apply to speculative claims or claims taken up after the "overlap" suft was begun, and was not allowed by the court because it did not cover

This announcement will be most pleasing news for the old settlers on the land who have spent years devel ing homes and farms, believing that they had a clear title to the property.

#### TAFT PRAISES WORK OF PRIESTS Missions Are Doing Great Work in the Philippines.

PHILADELPHIA, March I.—Secretary of War Taft was the principal speaker last night at the 18th annual dinner of the Presbyterian Social Union, of Philadelphia. He spoke on the "good which Protestant missions can do and are doing in the Philippines." He said he had been agreeably surprised to find how liberal the country had been in accepting the religious questions in these islands. "Justice demands." he said, "that we acknowledge indebtedness to the frians and other priests of the Roman Catholic Church who have given to the United States Christian material from which we can make a self-governing people."

overning people."

Secretary briefly reviewed the religious history of the islands, and said he did not think the time was ripe for proselyting. He believed that more can be done for the Philippines by sending money for hispitals, schools and churches, and above all, high-class clergymen who could set a standard for the people. Nine-ty per cent of the population, he said, lives in dense ignorance, and until this great percentage of the people has been educated, he added, self-government in the bisings must be restroated.

islands must be postponed. The hygiene of the Philippines, he said, Is dreadful. He told of how infants have died because of the lack of knowledge on the part of the parents to care for them.

#### KING EDWARD AT OLD COLLEGE Visit to Cambridge the Occasion for Opening New Buildings.

LONDON, March 1.—The King and Queen filled a round of engagements at Cambridge today, the principal function being the opening of several new buildings connected with the university, where the King was at one time a student. He was presented with an address of walcome, from the several and connected with an address of walcome, from the several and connected. welcome from the senate and council of the university. Replying thereto, the King spoke of his pride in having been a member of the university and the pleasure with which he always looked back at his undergraduate days at Trinity College, and emphasized the neces-sity for the extension and development of all branches of study and research
