County Convention Dominated by His Friends.

DELEGATION UNINSTRUCTED

Will Undoubtedly Support the ex-Representative in the Second District Congressional Convention.

LA GRANDEL Or., April 7 .- (Special.)-In the Union County Republican Convention held at Eigin today for the purpose of nominating a ticket for the coming county election and electing delegates to the State and Congressional Conventions, Charles E. Cochran, of Union, was made permanent chairman and W. B. Sargent,

of La Grande, was made secretary. It was said to be one of the greatest political fights ever held in Union County. There were 33 delegates in all, and two-thirds of the delegates were Moody men. Moody had 60 delegates to 33 for Williamson. A motion to instruct half and half was voted down, after a lively debate. Chairman Cochran stated tonight that while the delegation went entirely unin-structed there was no doubt about it being a solid Moody delegation. Following are the delegates to the State and Congres-

Chairman Cochran made a speech at the opening of the convention in which he stated how necessary it was for the people of Oregon to pull together at these conventions for the welfare of the state. He mentioned the nomination of President Roosevelt, and said Oregon should be as careful in sending out her delegation as Union or any other county tries to be in county trees to be in nominating the county ticket. He commended the selection of the Union County delegation, stating that if it should go either way, flivided or solid, it would go with the best interests of the people and country at large.

The following county ticket was nominated, there being no dispute on this ticket whatever: Representative, N. C. McLeod, Eighi; Clerk, James Gilham, La Grande; Sheriff, John Walden, Union: Recorder, D. H. Proctor, Eighi; Assessor, Repularing Brown, Island City, Commissional Commission Sorder, D. H. Henry, La Grande, C. E. Cochran was elected chairman of the Union County, Resulption, Control

the Union County Republican Central Committee and W. B. Sargent scoretary, for a term of two years, at this conven tion. This was very noticeable in the conver tion today, as neither man attended this convention. Mr. Church is a Moody man

LEVY'S ATTORNEYS THROW SUS-PICION ON A MERCHANT.

A typewriter agent testified he had cop ied a portion of the will on a typewriter found in Watkins' possession and the writing was identical. An employe of Wat-kins testified that his employer had Levy's signature on a piece of paper in the cash drawer. Chaotic Condition Among Pierce County Republicans Palpable.

TACOMA, Wash., April 7.-(Special.)-There is an interesting comparison to be made of the Tacoma City election figures

and a deduction to be drawn that has at least the merit of being possible, George P. Wright, the Democratic May-or-elect of Tacoma, carried all save one of the "saloon" precincts of the city. His majority over Campbell in these districts was 850. Campbell carried the residence districts by a majority of 169, giving

Wright his majority of 661.

The saloen vote in Tacoma is confined largely to what is known as "Old Town." the territory lying along Pacific avenue and C street and on Puyallup avenue and C street and on Puyallup avenue and upper Center street. There are precincts outside these limits where there is one or more saloons, but their influence is felt principally in the district outlined.
Old Town was the only saloon precinct that gave Campbell a majority, and he

had but a margin of one vote there. In South Tacoma, where saloon and carehop votes control, he lost heavily. In the 14 precincts taken as the "saloon districts" Campbell received 1977 votes and Wright The E other city precincts gave him

2501 and Wright 2802. It was claimed during the campaign—a fight in which contradictions were the rule—that Campbell was a McBride man. The closest man in his administration to the Mayor, R. W. Ciark, declared he was opposed to the Governor. Yet the secretary of Campbell's campaign committee Jesse Jones, is a McBride advocate, and his chairman, Ralph Metcalf, is a lum-ber manufacturer whom Ed Hamilton did not regard two years ago as a friend of the railroads.

The anti-Campbell districts are those that were wit. Fawcett in the primary fight, the general rule having a few nota-ble exceptions. In themselves they would not cut a big figure in the County Con-vention, but the McBride following counts upon an ability to control the 25th district and to bring in support from the 26th, which, with a sufficient city follow-ing, would give them the convention.

It cannot be figured that the municipal

would carry Pierce, but it demonstrates conclusively that Pierce County Republithey have been at any time in ten years. This is the result that is really the menace illustrated by the election.

WHERE THE TRAINBANDITS MET

Seen at a Deserted Cabin at Nigger Hill Mine.

REDDING, Cal., April 7.-The large orce of Wells-Fargo and Southern Pacific detectives working here on the Copley train-robbery case, has found where the three bandits stayed for five days, pre-vious to committing the crime and have practically established the identity of the nighwaymen, but have no idea of their resent whereabouts.

While planning the hold-up the men who killed O'Neil in carrying it out were. it is thought, rendezvoused in a deserted mining cabin at Nigger Hill mine, one mile west of the town of Keswick. This cabin belongs to H. G. Dunn, agent for Wells-Fargo at Redding.

The detectives learned of the render-vous from a lineman who sought admission to the supposedly unoccupied cabin a couple of days previous to the train robbery. He found three men in the shack. One of them opened the door slightly, gave an evasive answer to his question and closed the door.

When this suspicious circumstance was reported, the detectives examined the cabin and found that the bandits must have stayed there for five days before the night they donned the masks and went to Copley, five miles north to hold up the Oregon Express and must have returned to the cabin after compelling Engineer Joesink to haul them to Keswick station from the scent of the hold-up.

At the bottom of a 50-foot shaft the desectives found the clothes the men wore while holding up the train and in the cabin they found a strap from which a piece was cut to form a shoulder strap for the bag in which dynamite was carried. A San Francisco paper of five successive issues previous to the date of the hold-up established in the detectives' minds the ength of time the men were at Nigger

The lineman who put the detectives on the scent gave a good description of the man who opened the cabin door for him and the officers are satisfied that he was a man who formerly lived near Whisky Town and who with two bachelo pors was suspected of having held up the Weaverville stage last June

GOLD FIND IN CROOK COUNTY Cline Butte Contains Mass of Gold-

Bearing Rock. BEND, Or., April 7.—(Special.)—Cline Butte, 15 miles north of Bend, has been found to contain a large mass of gold bearing rock. The whole butte is supposed to be of the same character and there has been quite a rush this week to locate claims there. There is room, however, for less than a dozen mining claims on this butte, but a similar geological formathe westward and prospecting is in prog-

The ease with which this rock can be mined gives duced witnesses showing the relations between Harry Watkins, a furniture dealer, estimated that at least half its value will be profit. The rock is of the same kind that is found in the Ochoco mines, northast of Prineville.

This discovery was made by Otto Retz-laff and C. P. Becker, the latter having spent a year and a half on the Yukon, where he became acquainted with gold mining. Steps are being taken to develop the Cline Butte claims.

TWINS AGITATE INDIANS. Unusual Occurrence Considered Great Disgrace.

HOQUIAM, Wash., April 7 .- (Special.)-Mrs. Ocelia Gracie gave birth to twins Wednesday, two boys. They are the first twins that have ever been born on the Quinnuit reservation within the recoilec-tion of the oldest Indians. All the old Klootches are working their turntums overtime to discover the meaning or sign of so unusual an occurrence.

Among the Indians of the Northwest for many years no greater disgrace could ever happen than for a woman to bear twins. In the savage state these two little lives would have been sacrificed to the Indian superstition. This would have been the case if she and her husband happened belong to the Tomanowis portion of the tribe.

STATE LAND BOARD NAMES PRICE ON IRRIGATED LAND.

Rates Run, According to Amount Tillable in 40-Acre Divisions, From \$2.50 to \$14.75.

SALEM, April 7.-(Special.)-The State Land Board today made the official apportionment of the lien on the 27,004.33 acres of land held by the Three Sisters Irrigation Company. This apportionment fixes the price which settlers must pay in order to secure the land from the state. Under its contract, the reclamation com-

pany has a lien for \$27,700 on the entire tract, or a little more than \$10 per acre. This lien is apportioned to each 40-acre tract according to the relative value of the tract. The value depends chiefly upon the amount of tillable and waste land in each tract. Settlers secure the land from the state by paying off the lien. The apportionment was made upon the

recommendation of State Engineer A. E. Hammond, who has recently visited the tract held by the Three Sisters Company and investigated the conditions that exist. His apportionment was based largely upon the estimates of the company, but he examined numerous tracts in different por-tions of the company's segregation, verify-ing and correcting their estimates and revising his prices until he was satisfied that the valuations submitted are as fair as could be made without incurring a large amount of extra labor and expense.

Mr. Hammond's report places a valuation upon each separate 40-acre tract. It shows the amount of tillable and waste land in each 40 acres, the value per acre and the total value of the whole 40 acres. Out of the whole segregation of 27,004.83 acres, he finds there are 18,754.03 acres tillable and 7850.80 waste. The highest price fixed is \$14.75 per acre, where the whole tract is tiliable, and the lowest is \$2.50 per acre, where it is all waste This is the first apportionment of a lien made under the provisions of the Carey

Portland Women Have a Narrow

Escape From Drowning. SANTA BARBARA, April 7. - Hundreds of people at Plaza del Mar this morning saw three beautiful young so-ciety women, guests at the Arlington Hotel, rescued from drowning in a most heroic way. The young woman cap sized a small rowboat in water beyon their depth, and only the cool heads of two of their number and a timely res-cue by Captain George Gourley, of the local pleasure fleet, prevented a catas-trophe. The ladies were Mrs. J. Rus-sell, of Portland and Ashland, Or., and her beautiful young sister, Miss F. Nu-nan, of Portland, and Miss M. Dougherty, a tall and handsome society girl

of San Jose and San Francisco.

Mrs. Russell joined her aister here yesterday, and today she was shown the pleasures of the beach. The horseback ride preceded an hour in the tepid waters at the bathing plunge, and then came a row. From Plaza del Mar the young women, gowned all in white and wearing brilliant headgear, were greatly admired as they rowed hither and thither. Suddenly a huge wave broke far out beyond the surf line, and after resting upon its crest for a moment the frail rowboat was thrown almost out

of water and capsized in the air. Screams from Miss Nunan and pretty Miss Dougherty rang across the water. but nowhere could Mrs. Russell be seen. She was under water. Captain George Gourley plunged into the water without removing his clothes, swam to the upturned boat and righted it, disclos-ing first a dripping red hat and Mrs. Russell, who was in a half-drowned ondition

"It was really a serious matter," said Mrs. Russell. "I can't swim a stroke, and when I came up choked with sea water directly under the boat I thought my end had come."
